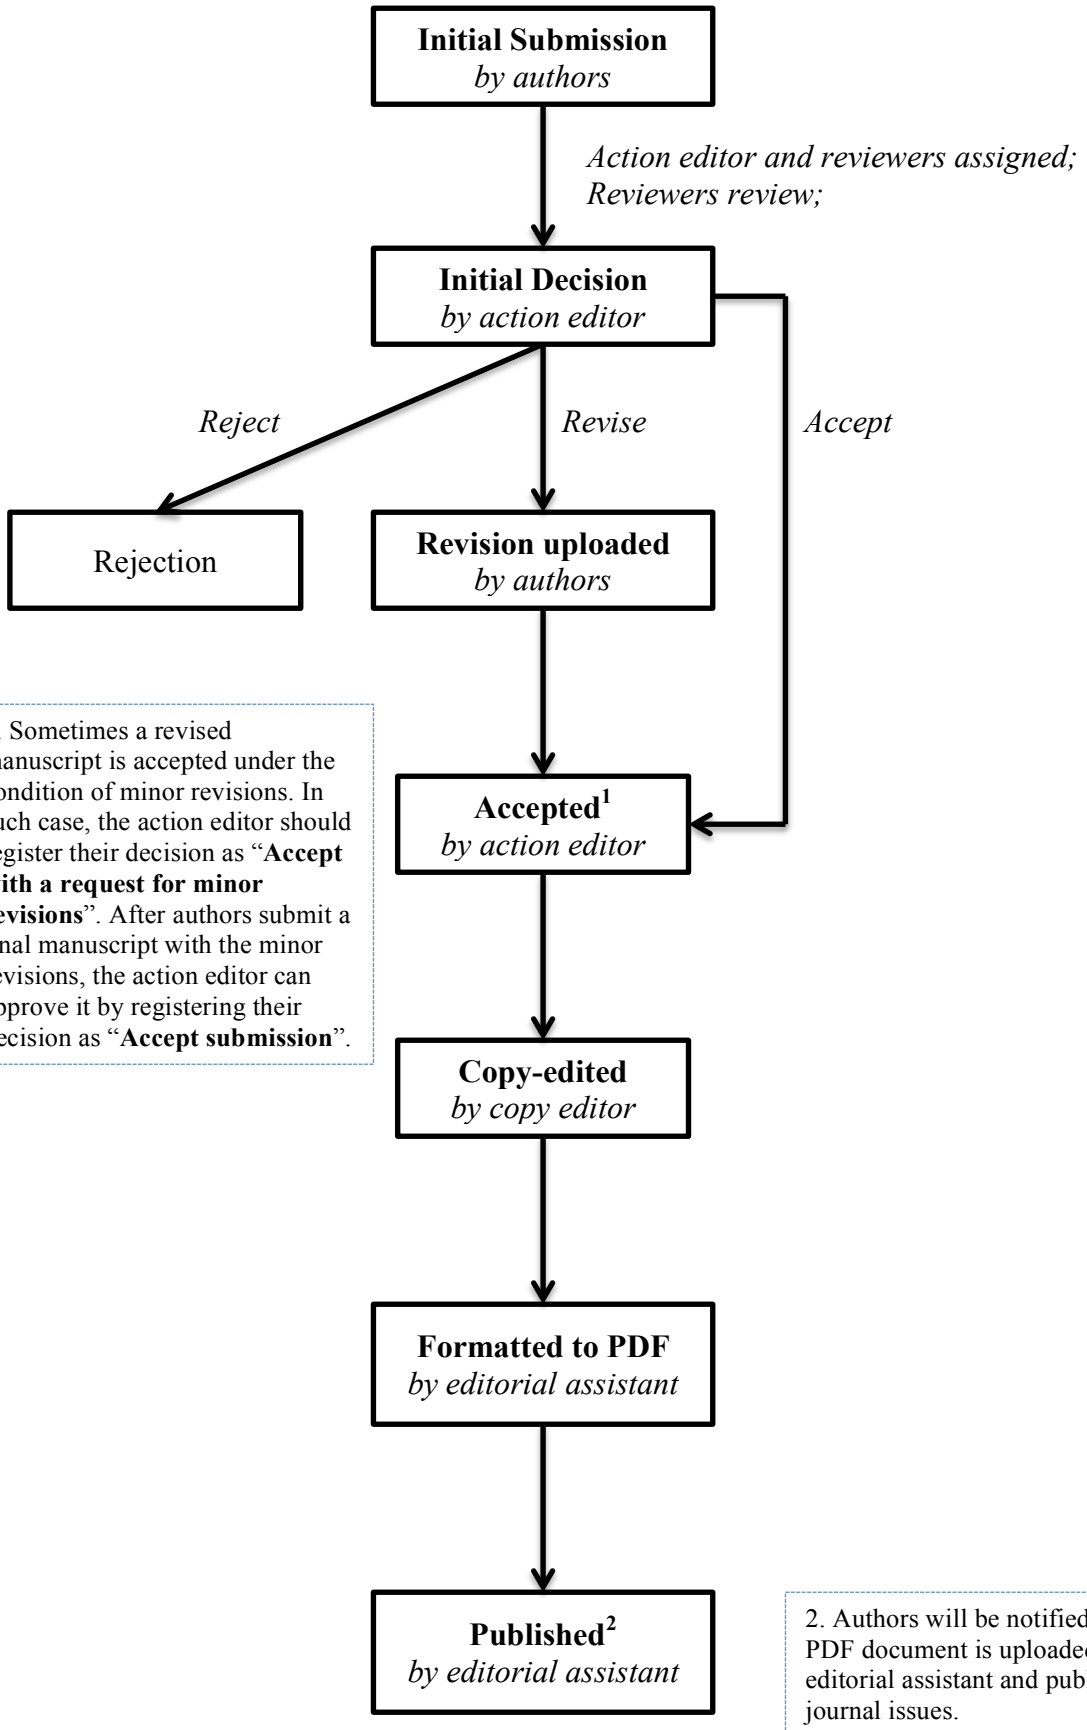
PUBLICATION PROCESS



1. Sometimes a revised manuscript is accepted under the condition of minor revisions. In such case, the action editor should register their decision as "**Accept with a request for minor revisions**". After authors submit a final manuscript with the minor revisions, the action editor can approve it by registering their decision as "**Accept submission**".

2. Authors will be notified when the PDF document is uploaded by the editorial assistant and published in journal issues.

If you have any questions about the publication process, please contact the editorial assistant, Yuyan Zhang via yuyanz@bgsu.edu
