Authorizing the Lease of Land for Development of a Student Health Center

No. 4-2013 Ms. Ryan moved and Ms. Newlove seconded that:

WHEREAS, the University has recognized the need for a substantially improved Student Health Center for more than a decade. Space issues and potential solutions have been analyzed in a variety of ways including architectural studies (including programming and cost studies), opinions of health care professionals, and reviews by accrediting agencies. Specific concerns documented with the existing facility include poor patient flow, the adequacy of HVAC systems, exam room size, and inadequate nursing areas. Additionally, continued growth within the College of Health and Human Services has contributed to the urgency of determining a solution for the Student Health Center as the College and the Health Center are co-located within the same building; and

WHEREAS, in the last three years, various options for an improved Student Health Center have been explored and considered, including: (1) a renovation of the College Park Office Building, (2) a renovation of its existing space in the building currently occupied by the College of Health and Human Services, (3) an expansion of the College building’s footprint to include a new center, and (4) the development of a new facility on or

near main campus. Option (4) has been identified as the most desirable option; and

WHEREAS, student focus groups were conducted in April, 2011 where students were asked to identify criteria they thought were important in locating a student health center and to rank alternative locations (on- and off-campus) against those criteria; and

WHEREAS, in early 2012, the University determined that a cost effective option for replacing the student health center might include forming a partnership with an outside professional health service organization – one that would provide both financial resources and management expertise; and

WHEREAS, a Request for Proposal (RFP) was issued and, following a competitive proposal and review process, the President and the Administration have determined that it is in the University's best interest to pursue arrangements with the Wood County Hospital (WCH) to jointly develop a new student health facility to be constructed on land owned by the University at the southwest corner of Wooster and South College; and

WHEREAS, this property is at the location that the student focus groups identified as the preferred location for a student health facility to be developed and operated in association with a local healthcare provider at an off campus location; and

WHEREAS, the University and the WCH have entered into a letter of intent indicating their intentions to negotiate the terms of the agreements necessary to establish a student health facility; and representatives of the University and WCH are presently in discussions about pertinent operations, human resources and facilities issues that are intended to result in formal agreements; and

WHEREAS, site planning and preparation have been underway since late spring of 2012; two residential structures were demolished late last spring and another in late summer; and preliminary discussions have begun with adjacent property owners regarding the possible acquisition of their properties; and

WHEREAS, the costs of constructing, furnishing, equipping and improving the above-described student health care facilities and improvements ancillary thereto (collectively, the "Project") are expected to be funded by the WCH; and

WHEREAS, the above-described student health facility will be constructed on land owned and provided by the University, a ground lease must be made by the University; and

WHEREAS, this Board has determined that it should authorize the President and the Vice President for Finance and Administration to negotiate, sign and deliver a ground lease between the University, as lessor, and Wood County Hospital, as lessee, for the lease of the land comprising the Student Health Center site on property that is owned or may be acquired by the University at the southwest corner of Wooster and South College (hereinafter, the "Project Site") conforming to applicable laws and the authorizations in this resolution, as determined by the University General Counsel;

NOW, THEREFORE BE IT RESOLVED, by the Bowling Green State University Board of Trustees as follows:

Section 1. Ground Lease Authorized. This Board authorizes the lease of the Project Site to Wood County Hospital for the Lease Term described below under a lease agreement (the "Ground Lease") between the University, as lessor, and WCH, as lessee, for the purpose of the development of the Project on the Project Site and containing terms determined by the President and Vice President for Finance and Administration to be necessary or appropriate to enable WCH to develop and finance the Project sufficient to pay the costs of the Project. The President and the Vice President for Finance and Administration or either one of them is authorized to sign and deliver the Ground Lease on behalf of the University, subject to approval of its form by the General Counsel of the University as being in compliance with applicable laws and consistent with this resolution.

Section 2. Ground Lease Provisions. The terms of the Ground Lease may include, without limitation: the provision by the University or WCH of utilities to the Project Site for gas, water, electrical, storm and sanitary sewer, cable, data transmission and other necessary utilities; provision for temporary easements on adjacent land for access to the Project Site and the staging of construction; cooperation with respect to maintaining the exemption from ad valorem property taxes of the Project Site and the improvements thereon; the University's fee interest in the Project Site will not be subjected to any liens or encumbrances securing the Project financing nor subordinated to any leasehold mortgage in the Project.

Section 3. Lease Term. The duration of the Ground Lease (the “Lease Term”) shall not exceed the depreciation period of the building (asset) being created plus ten years. Renewal options may be included in the Ground Lease for the extension of the Lease Term for subsequent renewal periods not in excess of 30 years.

Section 4. Rent. The consideration for the lease of the Project Site to WCH by the University is the obligation of WCH to develop the Project on the Project Site in accordance with agreements, plans and specifications approved by the University. Accordingly, the rent to be paid by WCH is to be nominal.

Section 5. Related Matters. The President and the Vice President for Finance and Administration, or either one of them, is authorized to sign and deliver on behalf of the University temporary and permanent easements, certifications and other instruments that may be necessary or appropriate to carry out the lease of the Project Site and permit the development by WCH of the Project.
