Leadership

- In terms of their hiring process Facebook has a certain Culture that they want to keep and that’s hiring those who not only think outside the box but like to take risks.

- Once they are in, they take part in intensive training that teaches them the "hacker way" of fast, creative coding that Zuckerberg prizes.

- He also allows his employees to work on projects that they are interested in and develop their projects and take risks instead of just assigning them jobs they won’t like.

- Mark Zuckerberg incorporates the Y leadership style in how he wants his employees to have self-control and self-direction to get the job at task done.
