ASHLAND GAME

The college met her only defeat of the season at Ashland College October 21 by the score of 27 to 0. The first half ended 7 to 0, but the locals had no chances against the weight and unfairness of the home team.

The Normals were badly bruised as a result of the fray but none of the team was out of the Toledo “U” contest as a result. Every man on the “Orange and Brown” team fought gallantly against the Ashland eleven. The locals held Ashland on straight downs at one time on the one-yard line but at other times they could not hold the drive to the touchdown.

Ashland got the first touchdown on an incomplete forward pass when one of Ashland’s men picked the ball off the ground and ran it in. The other came late in the quarter when Captain Skibbie ran 15 yards to a touchdown after catching a perfect pass from Wittmer.

The ball was in the Toledo territory most of the time. Wittmer and McMan were the aerial game. Wittmer and McMan were the main receivers of this style of play. March played a splendid game at half until he was forced out of the play in the first half of the final game. McMan, who had his head up all of the time and proved to be a valuable man throughout the game. The line fooled T. U. lots of times by turning back the line on a new move of foot.

The line was composed of Wittmer, Listline Leiter, Younkin, Fox, Osborne, and Bachman. The first touchdown came early in the game when McMan caught a pass over the goal line. Bachman kicked the goal. The second one came late in the quarter when Skibbie ran 15 yards to a touchdown after a pass to Wittmer netted 50 yards.

Several changes have been made in the recreation rooms of some of the other professors. Prof. Rees’s classes will now recite in room 200 in the administration building.

The commercial classes will from now on occupy rooms in the science building. The new building is well equipped and is a fine place for the training school. All six grades of the training school will hereafter occupy rooms in the new training school building.

BAIN REPORTS ON CITY WATER

In the chemical laboratory of the college Thos. D. Bain, one of Prof. Moseley’s Chemistry students, recently found 964 parts in a million of the city water of Bowling Green to be solid matter, or exactly the same amount as shown by an analysis made by the Travelers’ Indemnity Company in 1913. The large amount of mineral matter in this water makes it objectionable for washing but it has never been found to contain disease germs.

DR. KOHL’S LECTURES

Dr. C. C. Kohl, head of the History department, is giving a series of lectures on Americanism to the people of Bowling Green. These lectures are very scholarly and interesting and should be attended by every student in college. Watch the Sentinel-Tribune for time and place.

"V A R S I T Y N"

What formerly was called the Monogram society but shall be known from now on as the "Varsity N" met at the home of Prof. G. Beyerman on Wednesday evening, November 9, for the purpose of completing the work of organization.

A constitution was presented by Ivan Lake, chairman of a committee for that purpose, and accepted. The lateGeo. McMan was then elected president; Albert McMan, vice president, and Morris Bistine secretary-treasurer. Ivan Lake was elected Student Manager for basketball.

Present members of the Varsity N are Moore, McMan, Bistine, Fox, Raberding, March, Skibble, Wittmer, Skilliter, Ohnsen, Leiter, Lake, Vail, Smith, and Hoskisson. All these men have earned letters in college athletics. Any other letter man of the college is always welcome to the meetings and have the same privileges as the members in college.

Some of the important projects of the Varsity N are, making drives for more men, a drive in the future for a stadium and athletic field, taking charge of rallies and election of cheerleaders, election of student managers, etc.

The Varsity N also regulates the presentation of letters to college athletes. It prohibits the wearing of any high school letters and high school jewelry. These were all done to better the spirit of B. G. N.

DISEASES OF THE DIZZY

Perhaps the worst disease of all is that which comes upon attaining the age of 21 and continues until the twenty-second birthday is reached. The symptoms of this disease are swelled-head, high chin and expanded chest. The step is surer and the main activity seems to be the frequency in which the patient passes the voting booths although the election is many months off. Things to be avoided are addressing the patient as "boy" and treating him in any way except as your superior.

Next in power and force is the giggles. This disease comes about the sixth grade and continues through high school and college. Some never recover. It is most prevalent among girls although many of their admirers catch the disease from them. The only known cure is extinction without a trace being left.

Another terrible disease attacks the human male at any and all stages of life. This disease is lonesome often, especially if she turns him down. Many are cured of it only to be attacked again by a new bacteria. The symptoms are slight as a drunken gorilla and a look like a dying calf. The only way to cure him is to marry the poor fish and then relieve him of his top-most hair.

Our last disease is almost universal and amounts to a national plague. Our students sitting around in the halls and blushing in classes. These should be removed from the hall and disposed of quietly if possible, but disposed of just the same.

Thanksgiving Party

One of the most enjoyable parties of the year was the Thanksgiving party which was given on Friday evening, November 18. The gym was beautifully decorated with brown oak leaves and the effect was carried out with colored crepe paper. Refreshments were served. The attendance at the party was very large.

The people who will represent the Normal College in debate this year are Messrs. H. Ham, K. Moore, R. Langstaffe, C. Richardson, C. D. Fox, and J. McDowell. A triangular debate between Toledo U., Ypsilanti Normal and B. G. N. C. is being anticipated, however, definite arrangements are not completed.

Drama Class sees "Truth"

The members of the Drama class went to Toledo on October 23 to see "The Truth," a play by Fitch. Discussions in class on the acting in this play proved very helpful to the college players.

The reason people place very little value on advice is because they don't have to slip out after night and break a law to get it.

The Pullman porter who threw a bandit off his train in Kansas City evidently is opposed to competition.

Germany used to want to write her name on the world. Now the best she can do is to make her mark.

Prof. McEwen—What mistake did Mr. S. make?
MRS. S., hastily—He held "T" too long.

The writer who escapes criticism is not a writer. He is just a scribbler.

The Win One Club has made a survey of all freshmen to ascertain the reasons for their coming to the college and in a general way to find out the opinion of the college held by the various communities. The above survey is to be used for various purposes and should prove illuminating.
