CONTEMPORARY ART by University graduate JD Jackson adds the finishing touch to the remodeled Main Auditorium in University Hall. This 15 x 30-foot mural located at the entrance to the auditorium, was dedicated at a reception for the artist on March 5, the opening night of University Theatre production "Twelfth Night." A 1970 Bowling Green graduate, Mr. Jackson spent approximately six months completing the painting. He is currently teaching a course entitled "The African-American Experience in Contemporary Fine Arts," at Bowling Green.

Board of Trustees News

Rate Hike Approved For Room and Board

At the March 13 meeting of the University's Board of Trustees, a room and board rate increase of 8.5 per cent was approved for the 1975-76 academic year. The Trustees also approved a new degree program offering the Doctor of Musical Arts in Performance, and conferred the title of trustee professor upon William F. Schmelz, former dean of the College of Business Administration.

Action on the increase of room and board rates was taken at the recommendation of the Residence and Dining Hall Budget Committee. Room rates will be increased by $28 - $31 per quarter, depending on the residence hall selected by the student. Board rate will be increased $5 per quarter.

President Moore presented the committee's recommendations to the Board and Michael R. Ferrari, vice president for resource planning, and chairman of the budget committee, explained the increases. He noted that, if the General Assembly mandates additional civil service pay increases without any supplemental state appropriations to cover them, the combined room and board rate would probably have to be increased again before fall quarter, 1975.

The increase was made necessary by the inflationary rate of the past year which has caused increases in utilities, supplies, equipment and civil service pay schedules.

The residence and dining hall budget also provides for an increase in student pay rates to the full minimum wage of $2 per hour, effective July 1, 1975, and $2.20 per hour effective Jan. 1, 1976. Student wage rates are currently the 85 per cent subminimum Federal wage permitted at colleges and universities.

Dr. Ferrari also announced plans to offer students an optional fifth coupon book on a discount basis at the beginning of each quarter. Students currently receive four coupon books for their $170 board rate. With the $5 increase, the books will be valued at $43.75 each. The fifth book will probably be valued at about $25 and will be offered for students who are "heavy eaters" or who plan to eat more than the average number of meals per week in the halls because they spend more time on campus.

(Continued on page 2)
Inghram Milliron, director of auxiliary services, said that every effort will be made to keep line item prices at the dining halls stable, but that some increase could be expected.

President Moore pointed out that, even with the addition of the optional fifth coupon book, Bowling Green's room and board rates are the lowest of all the state-supported colleges in Ohio.

Dr. Ferrari noted that, in preparing the budget, his committee's objectives were to maintain quality services with a variety of options, to write a room and board rate schedule that remains the lowest in Ohio, and to prepare a balanced budget with fees supporting expenses.

Members of the Residence and Dining Hall Budget Committee this year included Robert Ade, Kohl Hall Director; Diane DeVestern, staff associate with the University Division of General Studies; Jon Dorfmeyer, student senator; Catherine Hedding, Alpha Gamma Delta housemother; Lucy Jones, resident advisor at Harmon Hall; Dale Mitchell, resident advisor at Conklin Hall, and Janet Plato, resident advisor at Ashley Hall.

Trustee Charles Shanklin of Columbus questioned various area administrators about the wage rates for employees in the residence halls and dining halls. He commented that he felt the $3.45 average hourly rate was "expensive."

The rate hikes were approved by a six to one vote, with Mr. Shanklin dissenting.

Comparisons of the 1974-75 rates and the rates to be charged for the 1975-76 academic year are as follows:

</table>

The coupon board plan is optional in Conklin and McDonald North Residence Halls. Students living in the small group units, such as sororities and fraternities, pay the board rate prescribed by their specific housing unit.

A year ago, Trustees approved a $15 increase in room rates for all residence halls, and a $5 increase in the board rate for the 1974-75 academic year. The board rate was hiked another $5 beginning winter quarter, to help pay for the State Legislature's mandated increase in all state classified wages.

It was estimated that approximately 80 per cent of the University students living on campus reside in the lower-priced residence halls. They will pay the additional $28 per quarter increase in room rates. Residents in small group living units will pay an additional $30 per quarter while those students living in Offenhauer will pay the highest increase rate of $31 for standard occupancy and $37 for single occupancy.

The Board adopted the following residence hall budget for the 1975-76 academic year:

<table>

</tr>
</tbody>
</table>

It was noted that income from conferences held on the campus during the summer would be down this year due to the general condition of the economy.

Dr. Ferrari said the decision to give students the minimum $2 per hour wage was to correct the "inequities" of the present wage scale. He also reported examples of price increases in supplies during the past year. Paper towels have increased from $7.69 a case to $13.98, or a jump of 82 per cent. Low sulphur coal is up 137 per cent and high sulphur coal has increased 110 per cent. Raw food prices have increased about 10 per cent.

The 1975-76 dining hall budget is based on the assumption that an estimated 6,488 students will purchase food coupons in the fall, 1975, and that 92 per cent of all coupons will continue to be used in the dining halls.

A comparison of this year's dining hall budget and the 1975-76 figures is as follows:

**TRUSTEES APPROVE NEW DOCTORATE**

In other business the Board of Trustees approved a program of studies leading to the degree of Doctor of Musical Arts in Performance.

If the program is subsequently approved by the Ohio Board of Regents, Bowling Green would become one of three institutions in the state to offer the DMA. The program is already offered at the University of Cincinnati and Ohio State University.

J. Paul Kennedy, dean of the College of Musical Arts, said that Bowling Green's program will place more emphasis on the college-level teaching of music and music management. He also told Trustees that, of the 754 institutions of higher education in the United States, only 58 have accredited doctoral programs in music — either the DMA or a Ph.D. in Musicology.

Following the approval of the Board of Trustees, the program will undergo critical analysis by other Ohio
colleges and administrators before it is sent to the Ohio Board of Regents.

If approved, it will be the first professional-type doctoral degree to be offered at Bowling Green. The DMA differs from the Ph.D. in that it emphasizes performance and requires no research dissertation.

A doctoral program in musical arts was projected in the Master Plan for Graduate Education at Bowling Green which was approved by the Board of Trustees and accepted by the Chancellor's office in 1972.

GRANTS AND CONTRACTS ACCEPTED

The Board voted to accept $277,507.33 in grants and contracts awarded during the months of January and February. The Trustees commended Charles A. Leone, vice provost for research and graduate studies, on the consistent increase of grant monies allocated to Bowling Green despite the fact that fewer monies are available in our current economic situation.

Provost Kenneth Rothe remarked that Bowling Green has the smallest staff in the country for a university of this size administering and managing the grant programs. "It is not only the smallest, but the best," Dr. Rothe continued. "Bowling Green's research program has become a model for study by other colleges and universities."

The grants accepted by the Trustees included a $33,979 award from Toledo Edison for a study of the ecological effects of the Davis-Besse plant under the direction of William B. Jackson, director of the environmental studies center. Also included was a $62,998 equipment grant for a human performance laboratory under the direction of Richard W. Bowers, professor of health and physical education.

RESOLUTION FOR RENA FOY

The Board adopted a resolution of appreciation for Rena Lee Foy, who served as associate professor and professor of education at Bowling Green from 1969 until her death on Feb. 7, 1975.

The resolution recognized Dr. Foy's outstanding abilities as a teacher and research scholar. A copy of the resolution was sent to her son, Robert Lee Foy, who survives her.

PERSONNEL CHANGES

The following changes in personnel were approved by the Trustees:

Administrative appointments: Roger Holliday, asst. director of development; Russell M. Jacques, asst. football coach and lecturer in HPE; Dennis Lane, asst. supervisor of fields and facilities; Jerry Updegraff, asst. director of alumni services.

Academic leaves of absence: Robert M. Gibson, asst. professor of HPE, current leave extended through end of spring quarter; Emma J. Hann, instructor in home economics, on leave 1975-76 academic year; Fred D. Miller, asst. professor of philosophy, on leave 1975-76 academic year; Douglas C. Neckers, chairperson and professor of chemistry, on leave March 1, 1975-July 1, 1975; Benjamin J. Rosenberg, professor of psychology, on leave 1975-76 academic year.

Academic retirements: Irvin Brune, professor of educational curriculum and instruction, effective at end of current academic year; Ralph Geer, trustee professor of educational administration and supervision, effective at end of current academic year; William Schmelitz, professor of quantitative analysis and control, effective at end of fall quarter, 1975; Harvey D. Miner, assoc. professor of industrial education and technology, effective at end of current academic year.

Academic resignations: James E. Hastings, asst. professor of psychology, effective at end of current academic year; Boris L. Matthews, asst. professor of German and Russian, effective at end of current academic year.

Changes in assignment, rank and salary: Willard Fox, professor of educational administration and supervision, appointed coordinator of governmental relations; Robert Gill, from lecturer in HPE to asst. professor of HPE; Norman Meyer, professor of chemistry, appointed acting chairperson March 1 through June 15, 1975; Jon R. Piersol, from asst. director to assoc. dean for academic affairs in the College of Musical Arts, effective Jan. 1975; James B. Plaunt, from lecturer in HPE to asst. professor of HPE; David J. Pope, from asst. to the director for public mission to asst. dean for public mission in the College of Musical Arts, effective Jan. 1975.

New part-time faculty appointments: Phyllis A. Berg, instructor in psychology; John R. Foster, asst. instructor in IET; Amanda Foulds, instructor in special education; Paul R. Gilson, instructor in special education; Barbara Hinton, instructor in special education; Janet Lewis, instructor in home economics; Ernest Savage, instructor in IET; Janet D. Sheldon, instructor in special education; Josephine Squier, instructor in special education — all for winter quarter, 1975; and Lloyd D. Williams, instructor in physical education and recreation for spring quarter, 1975.

Part-time faculty reappointments: William P. Day, visiting lecturer in journalism; Patrick Gallagher, instructor in special education; Wayne Graham, instructor in ethnic studies; JD Jackson, instructor in ethnic studies; Helen Krupa, instructor in special education; Norman Lattanza, instructor in special education; Betty McMullin, instructor in special education; Jane Melle, supervisor of student teachers in music education; James W. Middleton, supervisor of student teachers and adm. in music education; Paul A. Oram, clinical supervisor in student teaching; Ruth A. Stacy, instructor in mathematics; Adolph Stadel, instructor in special education; Michael Westby, instructor in special education; Cheryl L. Wiencek, clinical supervisor in special education; Leroy Williams, instructor in ethnic studies; Mary T. Wolfe, instructor in the School of Art — all for winter quarter, 1975; Joan M. Repp, instructor in library, Feb. 1 to June 30, 1975.

Externally-funded programs: Dale Kaukeinen, research associate in environmental studies, Jan. 1-June 30, 1975.

TRUSTEE PROFESSORSHIP CONFERRED

At the recommendation of President Moore, the Board of Trustees appointed William F. Schmelitz a trustee professor of quantitative analysis and control. A certified public accountant, Dr. Schmelitz has been a member of the Bowling Green faculty for the past 28 years. As chairman of the department of accounting, he was instrumental in obtaining Bowling Green's first data processing equipment in 1958. He served as dean of the College of Business Administration from 1960 until 1967 when he resigned to return to full-time teaching and research.

William F. Schmelitz

Dr. Schmelitz is a graduate of the University of Toledo and earned his MBA degree from the Harvard Graduate School of Business Administration. He received his doctorate from Western Reserve University.

Dr. Schmelitz will retire from the University faculty at the end of the fall quarter, 1975.

FACULTY SENATE REPORT

Dr. Ramona Cormier, chairperson of the Faculty Senate, thanked the Trustees for their participation in a forum on (cont. on page 4)
Board of Trustees (cont. from page 3)

“The Future of Education at BGSU” in February and said plans are underway for another Senate-Trustee forum during the fall quarter of the next academic year.

The Senate’s “Invitational Conference on Values and Evaluation” on April 9 was scheduled on the first day of the Board’s April campus meeting to facilitate attendance by the Trustees. (see story on page 6).

Dr. Cormier also remarked that it is expected that the COUGAR document will be voted on in its final form at the May 6 Senate meeting.

STUDENT REPORT

Michael Wilcox, in his last appearance as student representative to the Board of Trustees, reported that the student recreation committee was conducting a survey among students, faculty and staff to determine the degree of interest in the proposed indoor recreational facility.

Mr. Wilcox also introduced the newly-elected student representative, Dennis Bottonari. Mr. Bottonari, a junior in the College of Business Administration, is from Mentor, O. He served as assistant to Mr. Wilcox for the past year. His term as student representative to the Board of Trustees begins with the spring quarter, 1975 and ends at the end of winter quarter, 1976.

ENROLLMENT STATISTICS FOR WINTER

A report of enrollment statistics for winter quarter showed a grand total of 16,603 students enrolled at Bowling Green, up slightly from the winter quarter, 1974, enrollment of 16,327. The figure includes 15,313 main campus full-time students.

In addition, 860 students were enrolled full-time at the Firelands Branch, down slightly from an enrollment of 900 a year ago. The balance of students in the 16,603 figure are part-time or are taking courses through extension centers, academic programs abroad and Terra Technical College.

CONTINUED LEARNING CENTER

Annette Johnson, coordinator of the University's downtown Center for Continued Learning, reported on the first six months of the Center's operation. The center provides information and support for women who want to re-enter employment or education, or make mid-career or mid-life decisions.

Dr. Johnson reported that the greatest percentage of clients (35 per cent) who received counseling at the center were between the ages of 25 and 34 years. She also commented that, of the 37 persons counseled during the last two months, 16 per cent have been men.

The program sponsors two non-credit Life-Work Planning Courses — one at the Bowling Green downtown office and one in Fostoria. Offerings also include a back-to-school course, a career library, weekly radio series and lunchtime conversations about career opportunities.

The next meeting of the University Board of Trustees will be held April 10.

Announcements and Reports

George Postich Appointed New VP For Operations

George Postich, executive officer of the Navy Finance Center in Cleveland, has been named vice president for operations at Bowling Green. President Hollis A. Moore announced the appointment March 17.

The new vice president is a career Naval officer with considerable executive management experience. He will retire from the Navy this spring, with the rank of captain. As ranking officer at the Cleveland Center, he supervises the Navy’s largest financial services installation, distributing more than $3 billion annually to two million dependents, retired and reserve members around the world.

Mr. Postich, 44, is a Phi Beta Kappa graduate of the University of Wisconsin and earned an MBA from Harvard's Graduate School of Business. He served two years on the faculty of the University of New Mexico.

During his 23-year Naval career, he has held various assignments that have given him wide experience in management, planning, inventory control, budgeting and information systems. He was instrumental in developing the Navy's world-wide computerized pay system.

His Navy experience also included developing fleet-wide budget requirements and justifying them through Navy and Defense Department levels. He directed an annual procurement and repair budget for the Navy in excess of $130 million annually.

Dr. Moore said that more than 300 persons applied for the vice president position following the announcement of

George Postich

J. Claude Scheuerman's resignation last September. Mr. Scheuerman, who has been vice president for the past four years, will leave Bowling Green in June.

Several applicants were brought to the campus for interviews, Dr. Moore said, but the fiscal management and organizational skills demonstrated by Mr. Postich were most impressive.

In his new assignment, Mr. Postich will be responsible for the University's business and treasurer's offices, buildings and facilities, auxiliary services, purchasing and procurement, non-academic personnel, the University Union and campus safety.
Mr. Postich and his wife, Marge, are the parents of seven children. The family is expected to move to Bowling Green from their Avon Lake home in June.

Legislative Committee
Hears President Moore

President Hollis A. Moore was one of four state university presidents to address the education subcommittee of the House Finance Appropriations Committee during hearings in Columbus Feb. 24.

Dr. Moore, the current chairman of the Inter-University Council, testified on behalf of the state's residential universities — Bowling Green, Miami, Kent and Ohio — and urged increased funding for higher education in House Bill 155, the proposed appropriation bill for the 1975-77 biennium.

Dr. Moore's recommendations to the subcommittee were as follows:
- Lift the $50 ceiling on general fee to meet inflationary costs of programs and services.
- Make provisions for capital funding for renovation, updating and preventive maintenance.
- Support communities in which residential universities are located by reinstating municipal assistance grants of $500,000 for public services.
- Support coordination activities of the OBOR, avoiding expense and inefficiency of proposals which would centralize operations for the total educational system.
- Continue developmental education grants.
- Provide sufficient funds to cover probable increases in wages and salaries of classified employees.
- Increase instructional models by at least 9.5 per cent in 1975-76 and 9 per cent in 1976-77. (H.B. 155 calls for an 8 per cent increase.)

Dr. Moore told legislators they should avoid the "shroud of a depressed outlook toward the future."

"If vitality is lost, it will be hard to regain," he said. "And those persons whose college years fall in the mid-1970's will have two strikes against them: a depressed quality of education as well as a depressed job market."

Other university presidents who addressed the education subcommittee included Walter B. Waetjen, Cleveland State University; Harold Enarson, Ohio State University; and Lionel H. Newsom, Central State University.

Director of AASCU
Receives Honorary Degree

Allan W. Ostar, a nationally recognized authority on the regional state university concept, was the recipient of an honorary doctor of public service degree at winter commencement ceremonies in the University Union March 22.

Mr. Ostar, executive director of the American Association of State Colleges and Universities (AASCU), Washington D.C., delivered the commencement address to the winter quarter graduating class.

Approximately 425 bachelors degrees were conferred during the ceremonies, along with 80 masters and ten Ph.D. degrees.

The speaker is a graduate of Pennsylvania State University and did graduate work in mass communications at the University of Wisconsin. He has written extensively about higher education and has expressed concern for the rising costs of a college education.

He has been executive director of AASCU since its beginning in 1965 when his prime concern was aiding teacher education institutions with the transition to multi-purpose comprehensive regional schools. AASCU has 314 member colleges, including Bowling Green.

Mr. Ostar received his honorary degree from President Hollis A. Moore.

Insurance Program Includes Oral Surgery Benefits

Russell H. Meister, University insurance administrator, has announced that oral surgical procedures are included among the covered benefits of the John Hancock surgical and major medical programs for civil service and contract employees at Bowling Green.

Mr. Meister obtained a clarification of the program from John Hancock after some claims for oral surgical procedures were denied due to improper interpretation of the contract specifications.

Charges for cutting procedures involving the teeth, as well as the structures supporting the teeth, will now be recognized as payable based upon the reasonable and customary payment limitations.

Services for examinations, X-rays, pre- and post-operative care, simple extractions or other dental procedures are not covered expenses under Bowling Green's surgical plan. X-ray due to injury of sound natural teeth is covered under the diagnostic services. Repair of damage caused by injury to sound natural teeth is covered under the major medical policy.

If University employees have had oral surgical expenses since Jan. 1, 1972, (the effective date of the University's coverage) that the insurance company did not honor and wish to resubmit those charges, please phone 372-2203 for further information. Claim forms are available in the insurance office, Room 322, Adm. Bldg., for future claims of this nature.
Academic Council

Academic Council Approves New Specialization Program

Academic Council has approved a program for specialization in public and institutional administration for students pursuing the bachelor of science in business administration degree.

The program, presented to Council by Karl E. Vogt, dean of the College of Business Administration, is designed for careers in organizational development, both public and private, and reflects the continuing commitment of the College to the development of programs in administrative areas.

The specialization curriculum will include courses already in existence within the College of Business Administration and other divisions of the University. According to Dean Vogt, the program design is consistent with National Association of Schools of Public Affairs and administration standards.

The undergraduate program was approved at the Council's March 5 meeting.

In other business, Council heard a report on the University's various programs in international education. James West, asst. professor of marketing, reported for the Program Development and Evaluation Committee (PDEC) on International Education, which advocates a centralized office to provide coordination and cooperation between departments and colleges which sponsor programs abroad and international-related courses, as well as the international student program.

The report, made at the March 5 meeting, will undergo continuing study and discussion at subsequent meetings of the Council.

Faculty Senate Highlights

Values Conference Speaker Is Hugh Calkins, Attorney

Hugh Calkins, a Cleveland attorney with a diverse background in the field of education, will be the keynote speaker for the all-day conference on values, sponsored by the Faculty Senate Executive Committee on April 9.

Mr. Calkins' address will open the conference at 8:30 a.m. in the main auditorium of University Hall. Some 500 invited faculty member, students and administrators will be present for Mr. Calkins' presentation and the workshops to follow.

Mr. Calkins is associated with the law firm of Jones, Day, Reavis and Pogue. A graduate of Harvard University, he earned his LLD in 1949. He is a member of the President and Fellows of Harvard College — a seven-member board equivalent to Bowling Green's Board of Trustees in function, except that its members serve life terms.

The speaker is very active in civic affairs, both in the business and education areas. He is director of several industrial corporations, including Brown and Sharpe Manufacturing Co., Cliffs-St. Clair Corp., and Premier Industrial Corp.

He is chairman of the Businessmen's Inter-Racial Commission, a member of the Board of Directors of the Cleveland Small Business Opportunities and Development Corporation, vice chairman of the special committee on value-added tax, and serves on the committee on general income tax problems of the section on taxation of the American Bar Association. He has contributed to numerous legal periodicals on topics in general income taxation and corporate acquisitions.

Hugh Calkins

In the field of education, Mr. Calkins has served on the Cleveland Board of Education and is president of the Cleveland Commission on Higher Education. He is also a member of the National Advisory Council on Vocational Education and was vice chairman of the Citizens' Task Force on Higher Education in Ohio.

Mr. Calkins' address will be followed by a short question and answer session and coffee hour before the first round of workshops begins at 10 a.m.

According to Karl Rahdert, professor of management and chairman of the conference, 20 workshop sessions will be held in various classrooms and meeting rooms on the campus between 10 a.m. and 11:45 a.m.

Following a break for lunch, a second round of workshops will be held from 1:15 - 3 p.m. Again, 20 sessions are scheduled, with faculty members, students, administrators, and townspersons serving as moderators.

The Senate Executive Committee has formulated a list of 37 workshop topics for discussion. A list of these topics was sent to the 500 people invited to the conference, with a request that they select five topics that interest them most.

Conference participants will be assigned to the workshops on the basis of their preferences. Topics that create the most interest will be repeated during the second round of workshops, Dr. Rahdert said.

In addition to the moderators, each workshop will be assigned one or two resource persons to assist in the discussion, and a secretary to take brief minutes.

"We believe that the ideas, suggestions and directions discussed in each workshop will be of interest to the entire University community," Dr. Rahdert said. "The secretary will not attempt to identify a consensus of the group, but rather will keep a record of ideas for future study and future action."

Dr. Rahdert pointed out that the conference is not meant to identify actions to be taken, but can act as a catalyst for future University programs and policies. The minutes of the 40 workshops will be published for distribution to anyone interested in having them.
Workshop participants will reconvene in the main auditorium for an open discussion period at 3 p.m. The discussion will begin with a take-off on television's "Point-Counterpoint" show. Faculty and students will argue "What's Right with the University?" and "What's Wrong with the University?"

Topics to be discussed in the workshop sessions will include:
- Grade Inflation
- Interdisciplinary Studies
- Purpose of Education — Professional or General?
- Effect of Grades on Performance of Students in the Classroom
- Effect of Professor Evaluation by Students on the Learning Environment
- Is this a Publish or Perish Climate?
- Effect of Faculty-Reward System on the Learning Environment
- Effect of Professional Legalism on the Learning Environment
- Effect of Tenure on the Quality of Teaching
- The University as a Source for Social Change
- Effects of the Money Squeeze on the University and the Ohio Board of Regents
- Effects of Legislative Decisions on our University
- University Academic Advising — Myths and Realities
- Role of Student Government in the Learning Environment
- Should There be an Honors Program?
- The Accelerated Bachelor's Degree
- The Freshman Experience
- Who Benefits and Who Should Pay for Education?
- The Power of Grants in Directing Education

- The Senate Executive Committee has asked Academic Council to reserve a mid-week day during spring quarter, 1976, for a similar conference, to be held on a campus-wide basis. Academic Council has delayed a decision on the request, pending a study of the April 9 conference.

BG Graduate Students Meet With Chancellor

Members of the Bowling Green State University Graduate Student Senate traveled to Columbus March 10 to meet with Board of Regents Chancellor James A. Norton to talk about establishing a Graduate Student Advisory Council for the OBOR.

Gary Wolford, president of Bowling Green's GSS, said the chancellor was pessimistic about the advisory council's chances for success, due to his experiences with the under-graduate advisory council, but was willing to support their attempts to organize.

Bowling Green graduate students are sending invitations to the other state-supported schools in Ohio, for another meeting with the Ohio Board of Regents in April. Each of the 12 schools will be asked to send two representatives from their graduate student organization.

Mr. Wolford also announced tentative plans for a May 16 forum for graduate student senators at Bowling Green and the Ohio Board of Regents, to be held on the Bowling Green campus.

EXERCISES FOR BLIND CHILDREN are taught at an innovative clinic on campus that serves blind youngsters in northwest Ohio. The Adaptive Physical Education Clinic for Visually Impaired Children is a cooperative effort with the Ohio Bureau of Services for the Blind. It attempts to meet the need for blind children to develop physical skills at an early age. The children learn such basic movements as running and jumping, and eventually overcome difficulties with balance and walking that are common with blind teenagers and young adults. Eight youngsters from area communities attend two-hour sessions at the clinic each month. The sessions are conducted by Laura Kratz, professor of physical education, and students in Dr. Kratz's class on physical education for exceptional children. In the above photo, Dr. Kratz works with Troy Barger, a youngster who attends the workshop from the Sunshine Children's Center, Maumee.
Chemistry Option Offers Four-Year Masters Program

Chemistry students enrolling at Bowling Green next fall will have the opportunity of participating in an accelerated degree program which will enable them to earn a bachelor of arts degree in three years and a master of science degree in just four years.

The program, designed for the highly-motivated student, was first proposed over a year ago at chemistry faculty meetings.

According to Douglas C. Neckers, chairman of the department, the program is the only one of its kind at an Ohio college or university. It was patterned after a program description in "Less Time, More Options," a report published by the Carnegie Commission five years ago.

The program enables chemistry students to complete their baccalaureate education early by attending summer session and following a carefully planned program of classes. Students enrolled in the accelerated program are also given first chance at class enrollments, thereby preventing them from being closed out of a required course.

The most obvious advantage of the program is the economical one. A student who can earn his degree in just three years doesn't have to spend as much for his education as one who pursues the regular four-year program.

In addition, the four-year masters program will give students a decided advantage over their counterparts with four-year bachelors degrees.

Students enrolled in pre-med programs will also have added insurance should they be rejected by medical schools.

"If they aren't accepted, they are equipped with a masters degree which increases their chances of finding a good job in industry or teaching — or enables them to begin a Ph.D. program immediately," Dr. Neckers explained.

The department faculty expects the new program to be an attractive option for the more capable high school student who is considering enrollment at Bowling Green.

Once enrolled, students wishing to pursue the accelerated program will be advised most carefully by Dr. Neckers, Peggy Hurst, and Norman Meyer, all professors of chemistry in charge of the present advisement procedures of the department.

Students who have completed the three-year bachelor of arts program will have the opportunity to enroll for their fourth year as a graduate assistant, which would make them eligible for a stipend as well as tuition waivers, giving the program further economical advantages.

The four-year masters also offers students the option of studying off campus for a quarter in a governmental or industrial laboratory, probably during the summer between the third and fourth years.

For the past ten years, Bowling Green's chemistry department has been among the top three non-Ph.D.-granting institutions to graduate masters degree recipients.

Since 1965, 135 students have received masters degrees in chemistry from the University. Most of them worked on original research projects during their collegiate career.

The department's accelerated program was designed by the departmental curriculum committee under the leadership of David Newman, assoc. professor of chemistry, who is currently on leave while studying and teaching in Ireland under a Fulbright Fellowship.

Dr. Newman was also a member of the advisory board for the University's Modular Achievement Program for accelerated baccalaureate programs.

WBGU-TV Celebrates 11th Anniversary

WBGU-TV celebrated its 11th birthday last month.

The station first went on the air February 10, 1964, serving primarily Bowling Green State University and the community of Bowling Green and Wood County.

In 1973, an increase in power expanded WBGU-TV's coverage to include 19 counties in northwest Ohio. Since January the WBGU-TV signal has been rebroadcast to the Fort Wayne, Ind., area as well.

The public broadcasting station recently completed installation of equipment making WBGU-TV a full color facility.

The station broadcasts in-school programs throughout the school day. The Northwest Ohio Educational Foundation, WBGU-TV's in-school programming service, provides educational programs for more then 85,000 elementary and secondary students in the northwest Ohio area.

The station also broadcasts a number of continuing education and closed circuit instructional programs, including "Your Future Is Now," the series which can lead to a high school equivalency diploma.

A listing of these WBGU-TV offerings, as well as the station's local news and feature programs and PBS network offerings, is available in the station's monthly program guide, "Perspective."

Viewers who wish to receive the listing may request it by sending their name, address and zip code to: Editor, "Perspective," WBGU-TV, Bowling Green, Ohio 43403.

The non-commercial station relies on the communities it serves, as well as the University, for financial support. More than 500 persons are currently members of WBGU-TV.

Members are those who contribute $15, $25, $50, or $100 in tax-deductible gifts to the station.

Anyone wishing to become a member of WBGU-TV may phone the station with their pledge. The phone number is 372-0121.
**Grants and Scholarships Received**

**HEW Grant Aids Blood Bank Programs**

A $29,510 grant renewal from the Department of Health, Education and Welfare and the Public Health Service will help Bowling Green provide highly-trained personnel to administer blood banks.

The grant, which is to be awarded over a two-year period, assists students involved in post-masters study in the field of immunohematology, or the study of the action of antibodies against foreign blood cells.

Completion of the program will result in the conferring of a specialist degree in applied biology. According to William D. Hann, program director and professor of biology, the specialist degree offered here at Bowling Green is the only approved medical technology program in the country which goes beyond the masters degree level.

The degree program, which is in its third year at Bowling Green, is conducted in cooperation with the U.S. Army Medical Research Laboratory and Blood Bank Center at Fort Knox, Ky.

Students pursuing the degree spend one year on the University campus taking courses. The second year they are based at Fort Knox but travel all over the country studying techniques at various laboratories and blood banks.

The program's objective is to produce better-educated blood bank personnel, who will be equipped to become administrators of a blood bank with an understanding of both administrative and scientific operations.

Since the beginning of the program, four specialist degrees have been awarded in applied biology. Seven servicemen and three civilians are presently enrolled in the program. Graduates and students of the program include Army, Navy, Air Force, and civilian personnel.

According to Dr. Hann, the specialist degree offered by Bowling Green can be considered a terminal degree in the allied health field.

“Our philosophy is that we are not creating researchers, but rather educating people in the advanced skills they need. They are extremely well-trained in a specialty area, but do not intend to do research,” he explained. “We've gotten some of the best theses in the department of biology from the students in this program.”

He also noted that one graduate of the specialist program is now pursuing a Ph.D.

**Regents' Grant Supports Professional Development**

The Ohio Board of Regents has awarded the University a $28,000 supplementary grant for the Professional Development Program.

The program, begun in 1973, is also partially supported by a three-year $114,000 grant from the U.S. Department of Health, Education and Welfare. It is designed to give teacher training to graduate assistants and teaching fellows at the University who are already teaching at the college level.

According to Waldemar Weber, director of the program, approximately $18,000 of the Regents' grant will be used to establish a regional resource center of books, pamphlets, journal articles and video cassettes in special self-teaching "modules" for use by professors and graduate assistants who wish to improve teaching techniques.

Plans for the resource center were discussed at a regional conference on Post-Secondary Instructional Development, held at the University Feb. 21-22.

According to Dr. Weber, many institutions could benefit from such a center, but no one college could afford to support the center on its own. With the cooperation of other colleges and universities, he feels the center could become self-supporting.

The remaining $10,000 of the Regents' grant will be used to conduct a comparison study of the University's Professional Development Program and a similar teacher training program at Ball State University.

Although Ball State is similar to Bowling Green in size, its training program is administered by individual departments and graduate assistants are required to have prior teaching experience. Bowling Green does not require prior teaching experience for graduate assistants and the workshop training sessions are administered to all new assistants from all departments at once, although individual departmental programs are also used.

Other grants and scholarships awarded to the University, as reported to the Monitor, are as follows:

- National Science Foundation, $17,197 for “Computer Science Institute” under the direction of Leland Miller, asst. professor of computer science.
- Toledeno Edson, $5,750 for “The Accountant’s Role in Productivity Measurement” under the direction of William F. Schmeltz, professor of quantitative analysis and control.
- Wood County Board of Mental Retardation, $5,000 for “Woodland Language Classrooms” under the direction of William C. Hinkle, asst. professor of speech.
- Napoleon City Schools, $2,856 for speech and hearing services for Napoleon parochial schools under the direction of Dr. Hinkle.
- Department of Health, Education and Welfare and the National Institute for Mental Health, $7,649 for the study of attitudes of unmarried university students toward contraceptive use, under the direction of Greer Litton Fox, asst. professor of sociology.

(continues on page 10)
Grants and Scholarships (cont. from page 9)

Marathon Oil Co., $1,500 equipment grant for mini-computer laboratory, under the direction of David Fulton, professor and chairman of computer science.

Anderson Center, $600 for religious arts composition contest, under the direction of Wallace DePue, assoc. professor of music.

American Theatre Association, $6,000 for “Director of American College Theatres,” under the direction of Allen White, speech.

Ohio Department of Education, $300 for curriculum — business education workshop under the direction of Don Bright, business education.

C.L.E.A.R. — Ohio State University, $300 for sediment analysis under the direction of Lester J. Walters, geology.

Toledo Edison Co., $33,979 for Davis-Besse terrestrial monitoring under the direction of William B. Jackson, environmental studies.

World Health Organization, $1,100 for resistance to rodenticides study under the direction of Dr. Jackson, environmental studies.

Ohio ETV Network Commission, $2,212.33 for “Ohio This Week #6” program under the direction of Duane Tucker, WBGU-TV.

Newsmakers

More than 1,200 high school students from a six-county area gathered on the Bowling Green campus for the annual Ohio Music Education Association (OMEA) solo and ensemble contests on March 1. The contests have been held on the campus for more than 15 years. David C. Rogers, assoc. professor of performance studies, was chairman of this year’s all-day event.

Don Bright, professor of business education, was chairman of the annual spring meeting of the Ohio Vocational Association, held on the Bowling Green campus March 13. Approximately 300 high school and university vocational education teachers, guidance counselors and administrators from 16 northwest Ohio counties attended the event.

V. K. Rohatgi, professor of mathematics, has been elected to the International Statistical Institute, a prestigious and highly-select group of world statisticians. Admission into the institute requires nomination by five members and election by the entire membership. Dr. Rohatgi is the third Bowling Green faculty member to attain membership in the International Statistical Institute. Eugene Lukacs and Radha Laha, both professors of mathematics, are also members. There are only two universities in the United States with more than three faculty members in the Institute.

David Weinberg, asst. professor of history, has published a book concerning the Jewish community in pre-World War II Paris. The book, “Les Juifs À Paris de 1933 à 1939” was published in France and is part of the “Calmann-Levy Diaspora” series and examines both the native Jewish population and the eastern Jewish immigrants living in the French capital during the growing Nazi threat.

Robert L. Perry, director of ethnic studies, will appear at the Rocky Mountain Social Science Association meeting in May to read his paper, “The Black Matriarchy and Black Male Delinquency.” The meeting will be held in Denver, Colo., May 1-3. Mr. Perry is also an instructor in the department of sociology.

Dorothy Brickman, acting director of international student programs, has been listed in the 1975 edition of “Who's Who in the United States.” Her biography also appears in 12 national and international reference volumes, including the Library of Human Resources of the American Bicentennial Research Institute.

Wallace DePue, assoc. professor of music composition and history, has been commissioned to compose a work for the Huntington High School Choir, New York City. Andrew Householder, director of the choir, commissioned the work for the choir’s European concert tour in 1976.

Gary E. Nystrom, master sergeant of the Army ROTC detachment, received a letter of commendation for scoring the highest of any soldier in the country on the 1974 Military Occupational Specialty Evaluation Test.

Mearl Guthrie, chairman of business education, has been elected president of the National Association for Business Teacher Education. The association, which was organized in 1927, has 315 member colleges and universities. Dr. Guthrie has previously served on the organization’s program committee, executive board and as vice president. He will serve a two-year term as president. Dr. Guthrie is also a past president of the Ohio Business Teachers Association and was named Business Educator of the Year by OBTAA in 1973.

William C. Spragens, assoc. professor of political science, is listed in the forthcoming edition of “Dictionary of International Biography.” He was also recently chosen for listing in the “International Who’s Who of Authors.”

Bernard Sternsher, professor of history, is the author of a new book entitled “Consensus, Conflict and American Historians” published by Indiana University Press. The book, Dr. Sternsher’s fifth, analyzes the consensus approach to American history versus those who see it as a neglected story of conflict.

The premiere performance of “Fantasy for Flute, Strings and Harp” by Richard Cioffari, asst. director of orchestral activities, was presented on campus March 16 by the University Chamber Orchestra.

Bowling Green’s Angel Flight won four of the eight awards presented at the annual Area E Conclave held in Detroit last month, including the Purdue Cup for the outstanding Angel Flight organization in the area.

The area conclave includes Angel Flights from 17 colleges and universities in Ohio, Michigan, Indiana and Illinois. Bowling Green was also awarded the Paul E. Nelson Memorial Award for support of the ideals and missions of its sponsoring Arnold Air Society.

In addition, Sue Thomas, commander of the Bowling Green flight, won the Silver Wings award for the outstanding Angel Flight member, and Captain Johnny Blackman, won the outstanding advisor award.

The Bowling Green Angel Flight will advance to national competition this month in Louisville, Ky.
Ten undergraduates in the School of Art were invited to exhibit their works in oils, acrylics, watercolors, prints, drawings, lithographs, and woodcuts at the Medical College of Ohio during the month of March. The student artists were Terri Adams, Carleen Cincala, Sally Weintraub, David M. Steen, Karen Savakis, Catherine Bell, Gwen Harris, C. Kovacs, Karen LaBuda and Sue Johnson.

Chuck Gargotto, a senior graphic design major, was one of 13 national winners in Hammermill Paper Company’s national Revolutionary Letterhead Design Competition. The contest was open to both professionals and amateurs from across the country and attracted more than 5,000 entries. Three other students in the school of art received honorable mention awards in the contest. They were Patricia Davis, Christine Narum and Rick Pollock.

Three Bowling Green students became state forensic champions at the State Individual Events Tournament at Heidelberg College last month. Denise Burn, sophomore, won first place in oratory and will represent Ohio at the National Oratory Contest in Chicago in May. Janet Comwell, senior, and Laurie Steele, junior, teamed up to win the state championship in dramatic duo. Two hundred contestants from 18 Ohio colleges and universities participated in the tournament.

A senior high school student from Rocky River has been awarded a $500 scholarship to Bowling Green for winning the University’s organ competition. Deborah Louth, a senior at Lutheran West High School, was awarded the scholarship by Walter Baker, Wallace DePue and Vernon Wolcott, all faculty members in the College of Musical Arts, who were judges for the competition.

Employment Opportunities

For job descriptions for faculty and staff positions, contact the Coordinator of Human Resources, 233 Adm. Bldg. Check the posting of bulletins from Personnel Services for classified positions.

Intern instructor in educational administration and supervision. Experienced school administrator with interest in obtaining Ph.D. sought for one-year appointment to teach undergraduate courses in teacher education and to promote better understanding of schools and school systems in the contemporary social, economic and political context. Person filling this position will take advanced graduate study of not less than two courses for at least 8 hours per quarter. Applicants must hold masters degree, be eligible for Ph.D. admission, and have five or more years of teaching and administrative experience. Salary range of $11,000 - $12,000 plus annual instructional fee waivers. Appointment begins Sept., 1975. Renewal option possible for an additional year. Address inquiries to Neil A. Pohlman, EDAS department chairperson.

Asst./Assoc. professor of mathematics. To teach mathematics and probability and statistics at both the undergraduate and graduate levels. Applicants must hold a Ph.D. in probability theory and mathematical statistics. Salary range of $11,000 - $14,000 dependent on experience and qualifications. Teaching load is two courses (8-10 hours) per quarter. Appointment to begin Sept., 1975. Inquiries should be sent to W. L. Tewilliger, chairperson, department of mathematics, before March 28.

Asst. professor of mathematics — Firelands. Two positions available to teach analytic geometry, calculus, finite mathematics, algebra-trigonometry, remedial algebra, and mathematics for elementary education majors. Class size varies from 10 - 30. Teaching load is 9 - 13 hours per quarter. Applicants must hold Ph.D. in mathematics and have proven ability or strong potential in areas of teaching and research. Salary range is $11,000 - $14,000 with appointment to begin Sept. 1. Address inquiries to W. L. Tewilliger, chairperson, department of mathematics, before March 28.

Teaching education specialist in health and physical education. Ph.D. with teaching experience in public schools and at college/university level to initiate and coordinate field-based programs in total professional programs in HPE, with athletic coaching-athletic training professional concentrations, plus instructional assignments in areas of competence and interest. Salary and rank commensurate with experience and preparation. Academic year contract beginning Sept. 15. Possible summer teaching appointment. Application deadline — April 1. Direct inquiries to Robert Keefe, search chairperson, HPE department.

Health education specialist in health and physical education. Ph.D. with college level teaching experience to teach in professional preparation program and provide innovative leadership in expansion and further development of the total health education program. Expertise in methods/ materials, organization and philosophy of school health programs, controversial issues and field-based professional experiences desirable. Salary and rank commensurate with experience and preparation. Academic year contract beginning Sept., 1975, with possibility of summer teaching appointment. Address applications to Tom Wright, search chairperson, HPE department, before April 1, 1975.

Assoc./full professor in graduate reading, Ph.D. in reading with depth in developmental reading desired to teach and provide leadership in graduate reading program, serve as a consultant to public schools in the university service area, help initiate and organize a Ph.D. program in education with specialization in reading, and to conduct and report research in areas of interest in the field of reading. Experience in teaching graduate reading courses desirable with minor in anthropology or cognitive psychology preferred. Evidence of extensive research and publications helpful. Salary range from $17,500 up for academic year. Address applications to Verlin W. Lee, chairperson, department of educational curriculum and instruction.

Assoc./full professor in mathematics. To teach and conduct research in elementary and secondary math education methods courses at the undergraduate and graduate levels. Includes advising responsibilities and supervision of field instruction in local schools, conducting workshops and seminars in public schools served by the University. Ph.D. in math education required, with public school and college teaching experience. Salary range from $17,500 up for academic year. Address inquiries or applications and credentials to Verlin W. Lee, chairperson, department of educational curriculum and instruction.

Asst. professor of special education. To instruct students in methods of teaching children who are called “learning and/or behavioral disordered,” and to supervise coordinated field experiences. Responsibilities in methods and field experience competency-based programs at the undergraduate level, coordinate level curriculum design and implementation, and program advisement for both undergraduate and graduate students, research, workshops and in-service programs involving multi-agency cooperative efforts. Ph.D. required with record of successful, effective teaching of exceptional children at the college level desirable. Salary range of $11,000 - $12,500 depending on qualifications. Send application to Dwight R. Miller, department of special education.

Asst./Assoc. professor of special education. To teach education courses in the educable mentally retarded area and coordinate field-based methods programs. Applicants must hold the Ph.D. and have three years of effective teaching experience, including successful experience instructing special education at the college level. Salary range of $13,000 - $16,000 on probationary contract from Sept. 15, 1975. Address inquiries to Dwight R. Miller, chairperson, department of special education.

Asst. professor of special education. New position, made necessary by increased demand for special education programs. To instruct students in methods of teaching children who are called educable mentally retarded; supervise coordinated field experiences; instruct graduate level curriculum design and implementation programs, and provide program advisement for both graduate and undergraduate students. Applicants must have earned Ph.D. and have a record of effective teaching of exceptional children as well as college-level teaching experience. Salary range of $11,000 - $12,500 for term contract. Address inquiries and/or applications and credentials to Dwight R. Miller, chairperson, department of special education.

Asst./Assoc. professor of education. To teach and research in the areas of anthropological or political foundations of education. Person filling this position will provide leadership in a four-person area in teacher preparation in the educational foundations area through teaching and related in-service work and serve as an advisor to undergraduate and graduate students. (cont. on page 12)
Employment Opportunities (cont. from page 11)

Applicants should hold Ph.D. or Ed.D. and have concentrated professional preparation in the foundations of education, with supportive work in either anthropological or political foundations. Minimum of three years of satisfactory experience in the public schools or other comparable experience preferred. Salary range of $12,500 - $16,000 for academic year. Summer teaching appointments available. Send applications and credentials to Dr. Robert Reed, chairperson, department of educational foundations and inquiry.

Visiting appointment in economics. One- or two-year appointment, with rank dependent on credentials, to teach graduate courses and perform normal research and service. Doctorate preferred, ABD with full-time teaching experience acceptable. Background required in economic theory and ability to teach managerial economics as well as primary fields of specialization consistent with departmental offerings. Position available Sept., 1975. Salary open. Address inquiries, applications and/or credentials to Leo J. Navin, chairperson, department of economics, before April 7.

Asst. dean of health services. To be asst. dean in the College of Health and Community Services, responsible for initiating and developing both baccalaureate and graduate programs in the allied health professions and other health-related areas. Applicants should have an earned doctorate, administrative experience and demonstrated leadership ability. Expertise in program writing for funding purposes is highly desirable. Salary range of $18,000 - $22,000. Send resume, references and other supporting documents to Joseph K. Balogh, dean, College of Health and Community Services, by April 15.

Intern instructor in English. To teach 36 quarter hours within the General Studies writing program. One year appointment beginning Sept., 1975, with possibility of renewal. Masters in English required (doctoral candidates ineligible) with experience teaching composition at college level. Additional experience desirable in teaching writing in tutorials, or in a writing laboratory, especially to minority students. Salary $8,400. Address inquiries to Edgar F. Daniels, chairperson, department of English. Deadline for credentials May 7.

Complex coordinator. To supervise three full-time hall directors, staff and program for the complex of four units. Responsibility for the organization, operation, programming and staff selection and training for one unit of the complex. Masters degree in College Student Personnel or related field, and staff experience in organization and operation of a residence unit required. Salary $7,500 to $8,500 plus meal coupons and apartment on a 12-month contract beginning Sept. 1, 1975 (10-month option). Send applications and credentials to Fayetta M. Paulsen, coordinator of residence programs, 425 Student Services Building by June 30.

Hall director. To be responsible for organization, operation, programming and staff selection and training for a residence hall housing 325 students. Masters degree in College Student Personnel or a related field and staff experience in the organization and operation of a residence unit. Salary $7,000 to $8,000 plus meal coupons and apartment on a 12-month contract beginning Sept. 1, 1975 (10-month option). Send applications and credentials to Fayetta M. Paulsen, coordinator of residence programs, 425 Student Services Building, by June 30.

Chairperson in biological sciences. To supervise a department of approximately 30 faculty and 80 Ph.D. and masters graduate students. Must have had an active research career as evidenced by publications, experience working with graduate students and success in obtaining grants. Strong preference will be given to an individual with previous administrative experience as departmental chairperson. Rank and salary open. Send vita and three letters of recommendation to Dr. Richard Crang, chairperson, search committee, department of biological sciences.

Instructor in School of Art. To teach glassblowing and art fundamentals to both graduate and undergraduate students. Applicants should hold terminal degree (M.F.A.) and have teaching experience and significant expertise in glassblowing. Will work with well-established programs in the School of Art (in College of Arts and Sciences) beginning Sept., 1975 and ending June, 1976. Salary $9,000. Address inquiries to David Cayton, chairperson, search committee, School of Art.

Instructor in School of Art. To teach drawing and art fundamentals to freshman art students. Average load of three courses per quarter for three quarters, starting Sept., 1975, and ending June, 1976. Term contract with $9,000 salary for nine months. M.F.A. required. Send inquiries to Majorie Wright, search committee, School of Art.

Bowling Green State University is an Equal Opportunity Employer. All inquiries should be sent to the person designated for the listed openings at Bowling Green State University, Bowling Green, Ohio 43403.

*Monitor is published monthly for the faculty and staff at Bowling Green State University by the News Service, 804 Adm. Bldg. Copy deadline is the 15th of every month, with publications scheduled on or before the 30th of the month.
