STUDENTS PASS RESOLUTIONS

Mr. E. E. Leidy, of the Senior class, presented the following resolutions before the student body at the chapel exercises on July 18, 1922. They were passed by the unanimous vote of the students.

“We, the students of the second summer term of 1922 at the Bowling Green State Normal College, believing that those in charge of this institution are endeavoring in every possible way to make it serve our interests and the interests of the people of northwestern Ohio, do hereby express our appreciation and commendation of the policies of the institution.”

“1st—That we commend those in charge of the institution for their efforts to provide a wholesome social life and high class entertainment.

2nd—That we commend the policy of the College which gives such particular care and attention to the registration of students, proper direction in the selection of courses, and the classification of students into homogeneous groups.”

THE TEACHER’S GREAT PRESENT DUTY

Every thoughtful citizen knows that this country is facing problems the seriousness of which has never been paralleled in our history except in two periods; namely, 1783-1789 and 1861-1865. In both of these earlier periods, the life of the nation was at stake; in the present period, the life of the nation may ultimately be at stake also. The specific problems do not warrant so great alarm, though the labor question offers some striking parallels to the great slavery issue of earlier days; it is rather the intangible problem of the spirit of the whole people that offers the alarming difficulty. A whole people, self-controlled, open-minded, mutually advising and serving, can solve any social problem. But this we do not have. As a whole, our people are strikingly indifferent to national, community and group welfare. This is not saying that the people are bad; they are individualistic and unconsciously selfish toward their social order. We are such, too, at the very moment when problems are facing us which can be solved only by co-operation and thought from the social standpoint.

It is the teacher’s great present duty to train the rising generation to think, feel, and act with the good of the nation and the community ever as the goal. In a word, it is the Christian character and red-blooded citizenship that must be the great aim of education. There is not a foundational principle of our government that needs changing in order to solve our problems. What is needed is a sympathetic understanding of these principles learned in action as well as in study. The great problems of today are not going to be settled by the men and women who now have charge of them; they will be settled by the twenty-five million children and young people now in our schools and colleges. How well they settle them will depend largely upon the teachers of today. If they solve these questions in accordance with American ideals, it will be because these ideals are dear to their hearts. The ignorance of these ideals on the part of teachers, except as book formulae, is stupendous. From the standpoint of health, capacity and character, the teachers of America need not be ashamed to compare them- selves with any other group in the land. Their one great weakness is that they consider their profession as a sort of cult; they mumble symbols and rituals too much. They do not seem to realize that they are State officials charged with the noblest task that a noble and liberal State ever intrusted to so large a group of officers. America placed the destiny of its people into their own hands; the people, in turn, erected schools to guard and form this destiny. If America does not settle her questions aright, the teachers are to blame. Can teachers see over their books, over their lesson-plans, over their professional routine, and vision the great duty their State expects them to fulfill?

CLAYTON C. KOHL
The desire to win the victory, regardless of the means, is losing in the eyes of the public.

Everyone admires a square fighter and holds utter contempt for the fellow who attempts to trip or slug his opponent.

The crooked athlete is dangerous, because, it is his kind who shoot, or run a dagger in the backs of his rivals, who cheat in examinations, open text books in the back seats during class recitations; who are "so glad to see you" to your face and then spread scandal at your back.

The crook and cheater cannot be trusted. "Fair Play" is demanded in play and work. In a college such as B. G. S. N. C., one training teachers for high service to their country. Nor need they serve knowledge and training with others and to render interested in and know about the way the world does its work, and who have a desire to share their knowledge and training with others and to render high service to their country. Nor need they serve at a sacrifice because the initial salaries in this field are as high if not higher than in any other branch of teaching service.

The demand for work in Industrial Arts in elementary and junior high schools is steadily increasing. To meet this demand many more trained teachers are needed. Here is an opportunity for young men who like to work with tools, who are interested in and know about the way the world does its work, and who have a desire to share their knowledge and training with others and to render high service to their country.

The general architectural plans harmonize with the present buildings in construction and material, yet have distinctive features. Some of the interior attractions are the recreation and dining rooms, co'd storage, soft water cisterns, parlors, private dressing rooms, single and double rooms, shower baths, and kitchenettes for Spreads. It will be quite home-like for a dormitory, the only trouble being that it is not ready for use.

Students and Faculty members of the college mourn with the parents the loss of Miss Doris Powell, who passed away July 10th, 1922.

Miss Powell, the daughter of Dr. H. J. Powell of the college faculty, was a student last year. An excellent student, leader in social activities, violinist in the college orchestra, a fine Christian and highly respected by all.
LECTURE BY SUPT. MEEK

During the Chapel hour on June 19, Supt. Meek of Toledo gave an interesting lecture. Some of the headliners were:

A schoolma'am is recognizable anywhere. She has all the earmarks.

Don't carry your profession on your sleeve.

When someone asks, "How is school'? he is thinking, "Not that I care but it's a good way to start the conversation".

The teacher is schooled to death. Demand the right to be natural, normal human beings outside the school room.

ELEMENTARY SCHOOL

The Elementary School building, one of the best equipped buildings of its kind in the state, with its corps of experts, offers unusual facilities for the boys and girls, the student teachers, and for those in observation courses.

Each grade has a suite of three rooms: an assembly room, a recitation room, a reception room and an office. Then there is the gymnasium, library, playroom, group of rooms for Home Economics, a suite for Industrial Arts.

Equipped throughout for the purpose intended, the training school is doing superior work.

HOME-COMING DAY, NOV. 4.

The first annual home-coming event for the State Normal College has been set for November 4, this fall, when Toledo University comes to Bowling Green to meet the local gridders in the last Conference game of the season. That date comes on Saturday and will be the most convenient date on the calendar.

According to the present plans the big day will be celebrated with a huge parade before the contest and a program and reception at night. The Win-One Club is taking the work in hand and promises one of the biggest days in the history of the college.

Last year the Toledo U.--Bowling Green game proved to be the championship contest and it is quite possible that it will turn out to be that again this year.

PUT-IN-BAY TRIP

One hundred and fifty students and citizens of Bowling Green went to Put-in-Bay on Saturday, July 22, on the annual excursion conducted by Prof. W. P. Holt. The day was spent in visiting the Caves and other interesting things on the Island.

ABOUT THE TRIP TO NIAGARA FALLS ON JUNE 7th, 8th and 9th.

A party of one hundred seventy left Bowling Green on Friday, at 5:45 A. M., for Niagara Falls, arriving at Toledo about 7:00 A. M., then going abroad "The State of Ohio". The happy party bounded upon the billows and watched the fishes. All recovered after a while, every one enjoying the stops at Put-in-Bay, Buffalo and the visit to the many attractions of Niagara Falls. The voyagers arrived home on schedule time a weary crowd of satisfied travelers, all singing the praises of the educational value of these trips so ably conducted by Prof. Holt.

THE RECEPTION

Thursday afternoon, June 22, the faculty entertained the students at a reception given on the lawn at the home of President and Mrs. Williams. On this occasion the students had an opportunity to get acquainted with the faculty and each other. Various games and devices for getting acquainted were enjoyed. Music by an orchestra added to the good time.

THE COLLEGE DANCE

Friday evening, July 21, the College Dance was held in the gymnasium. Good music, artistic decorations and delicious refreshments together with the friendly spirit characteristic of the College made the evening a success.

Wrong Words

Little Mary happened to be on the Put-in-Bay boat with the B. G. N. C. Niagara group. Later, in talking to a neighbor, she said, "But, Oh! so many of the people get homesick (seasick) on the boat. And when we were coming home we met a boat that was taking a great many people out on a honeymoon (moonlight)".

ATHLETICS

Although the college loses several of their best athletes this coming Fall the prospects for a great year exceed those of any year that the college has ever seen.

Rabarher, Younkin, Leiter, Fox, Osborne, Etoll, Lowrie, Premo, Place, Roe, Smith, Bachman and perhaps several other letter men will be back in school and will form a fine nucleus for the 1922-23 athletic teams.

Premo, of Potsdam, N. Y., is bringing three men from the Empire State—Beech, Dorothy; Garman; Elsie; Gillett, Irene; Hayman, Dorothy; Keller, Clara Mae; Kuenze, Esther; McBride, Violet; Miller, Iva; Noel, Doris Frances; Sharp, Galt; Stutter, Ruth N.; Walton, Charlotte; Wentling, Wealtha.

Washington—Griggs, Hobart M.

Butler County, Pa.—Barnes, Ruila; Barnes, Winifred.

Hillsdale County, Michigan—Phillips, Dorothy.

La Porte County, Ind.—Beckel, Wanda.
