Home Coming Day

Probably the biggest day of the past year was Home Coming Day. It was estimated that some 2,000 students were back “home” on that day. The success of last year has advanced the keenest anticipation and interest for this year’s Home Coming which is to be held on November 10th.

A big day is being planned. A student reunion in the morning; a parade; a foot ball game, Ashland College vs. Bee Gee; a snake-dance, after the game; a Bee Gee banquet and finally a big party in the gym in the evening. These are some of the events planned to make November 10th a Red Letter Day in the history of Bee Gee. Already various societies and classes are planning meetings for that day. The class of ’23 has planned a breakfast, The Five Brothers a 12 o’clock dinner and several other classes and organizations have set a time for their reunion.

There is no time so good as the present to begin planning for next year. Every teacher should have a college home, a home to go to for information, consolatlon and friendship. Teachers who have received all or a part of their training at Bee Gee are urged to think of Bee Gee as such a place. She is yours, your joy is her joy; your sorrow, hers. Come “home” and talk it over with your old Prof., tell it to the gang—come back this year, next year may see many of your old friends gone, plan now to come back on Home Coming Day and to “come back” when that day rolls around will help you.

College Prospects

It may be of interest both to present and prospective students to know something of the plans of the Normal College for the future. The outlook was never more encouraging. The institution now has under construction a new dormitory for women. In this Hall provision has been made for the accommodation of 120 students. Provision has also been made for an infirmary. This is a feature which the college has badly needed. It will make it possible to give proper care to cases that require more attention than can be given students in their own rooms. It will make it pos-

keep the spirit alive; it will help you keep sweet in the school room and alive professionally.

In Ohio there are approximately 20,000 teachers who have been trained here at Bee Gee. Half of them will be back. You too, should come back and be with the “gang” once more.

We, here in school feel that you alumni and former students are our “big brothers and sisters”. All that a Home Coming Day should be to a brother out in the world we want to make November 10th be to you.

---

**A Week-End in Detroit**

On the morning of June 30th, Prof. Moseley with a party of more than seventy-five students got on board The City of Toledo and sailed out through Moomie Bay, Lake Erie and up the Detroit River to Detroit, Michigan. The water was still; the air fresh and cool and so clear that many interesting sights along the way were called to the attention of the students and explained by Mr. Moseley.

Upon arriving in Detroit, the party was met by two large sight-seeing motor cars. By the time these cars had covered more than forty miles, going to points of most interest, one girl whispered to another “This is surely some village” the answer, was a decided affirmative nod of the head. The party took supper at the Y. W. C. A. where reservations had been made. After supper several groups were formed and most of the party attended a theater.

As strange as it may seem, the party was on deck for Belle Isle Sunday morning at 8:30 in order to avoid the throng of people who visit the zoo and the conservatory. Soon the crowds were arriving and the picnic dinners were being spread. The ladies are to be congratulated on their endurance and being able to keep up with the delegation.

After dinner it was decided to make a trip on the ferry to Canada. As it was July 1st there were quite a number of immigrants seeking admission to the States. It was new for some of the party to see how the prohibition officers seek for liquor in the automobiles that come over on the ferry from Canada. Some of the girls wished to tell their
friends at home that they were in Canada so they began writing post cards. And as they wrote the friends at home that they were in Canada but the good captain held THE CITY OF TOLEDO until they came.

The trip homeward was a pleasant one with enough wind to rock the boat and prevent a monotony of boat riding. The party was met in Bowling Green about ten o’clock in the evening. Every member of the party may have felt tired but he also felt that he had had an enjoyable and very profitable trip. Prof. Moseley deserves much credit for the splendid, detailed arrangements he made and for the efforts he made in conducting the trip that the most and the best things were seen in so short a time.

July 10th, 1923

On this date the chapel period was devoted to Prof. Dondy of Ohio State University who is in charge of Boys’ and Girls’ Club Work in Ohio.

He delivered a very interesting lecture on the value of clubs, supporting his talk by pictures projected on the screen.

In the afternoon Prof. Dondy met several classes and held conferences with those interested in club work. We believe the interest aroused by Prof. Dondy in Boys’ and Girls’ Club Work will prove his visit of great value.

Lake, Ivan E.

Football Schedule

For the convenience of those who will not be in Bee Gee this fall we are publishing a football schedule. We suggest you cut it out and save it in order that you may know where your alma mater will be playing during the season.

- September 29th—Ohio Northern; home.
- October 6th—Heidelberg; abroad.
- October 13th—Open; (To be filled later.)
- October 20th—Findlay; home.
- October 27th—Toledo; abroad.
- November 3rd—Defiance; abroad.
- November 10th—Ashland; here.

(Home Coming Day)

November 17th—Open date.

November 24th—Baldwin-Wallace; abroad.

This is undoubtedly Bowling Green’s hardest schedule. She will need the support of everyone of her friends.

Come back to see your old school battle on the gridiron.
Athletics
(By Ivan Lake—Athletic Editor)

Athletic prospects are better for the coming year at Bowling Green college than they have ever been in the history of the college. Each year the increase in men has sufficiently increased the personnel of the teams until the coming seasons will see large squads of seasoned material as well as green material to choose from.

The football season will be a great one. Bee Gee will play three Ohio Conference schools in her schedule. They are Ohio Northern, Heidelberg and Baldwin-Wallace. Toledo U., Defiance, Findlay, Adrian and Ashland are the other teams which will make Bee Gee hustle to defeat.

Almost the entire team or squad will be back. Every man on the varsity line and three in the backfield will be out for their old positions against new men who will threaten to beat them out.

In basketball the entire squad will be back and with the wealth of new men who will enter school in the fall there should be a wonderful team on the court.

Baseball will again boom here when practically the same outfit will be back in school. This last season the team played a great game and proved their worth by running second in the conference race after losing the star pitcher of the team.

Track was started this year and next season will find a seasoned team on the cinder track. Many new men are expected to enter Bee Gee that will make the team a whirlwind.

Girls’ and Boys’ tennis teams also competed against foreign invaders and will take on bigger opponents next season.

A new athletic field will be in use next year and should prove to be a big attraction to new men. Prospects for a huge increase in men students are good.

Five years ago there were but five men in college. The increases made were something as follows: 1919, 25 men; 1920, 46 men; 1921, 98 men; 1922, 150 men; 1923, how many? From all indications there will be a record increase. If there is—watch out! Bee Gee is bound to be heard from in the near future. A big increase as is expected will give the college a big argument for a new and magnificent gymnasium building.

Chapel Exercises
July 3rd, 1923

Judge Baldwin of Bowling Green delivered an excellent address to the student body.

He pointed out that today the world was in a state of turmoil; undergoing great social changes. In our own country these changes are taking place so rapidly as people cannot conform to them. It behooves the teacher in our public school today to see to it that he is right on most great questions of the day, for he is the one who can do most setting the storm and strife.

Judge Baldwin believes that the world is alright, that it is not going to the dogs as some would have us believe. There is in America, “he says”, that fundamental sense of good citizenship and it will make itself felt.

This was one of the most pleasing chapel periods of the term as well as highly instructive.

June 26th, 1923

Prof. Carmichael led the devotional, reading from St. Johns and pointing out as the lesson lines selected from the Rubiyat by Omar Khayyam.

Yesterday this days madness did prepare;

Tomorrow: silence, triumph or despair

A highly pleasing program was rendered by Miss Tyner of Findlay, Ohio, a little girl of 10. She very ably read several well chosen selections, the most pleasing being, “I've got the mumps” and “You tell her I stutter too much”. This little girl is indeed exceptionally talented, possessing a pleasing personality unhampered by any childish self-consciousness and touches by a sparkling bit of originality in her readings. She completely won her audience and may always feel sure of a welcome at Bee Gee.

July 17th

One of the most pleasing chapel exercises of the summer was given July 17th by Miss Kathryn Fast, a graduate of the music department here.

The first number, “Villanelle” by Dill’Acqua and the second, “Si Mes Vers Avaient” a french song by Hahn were particularly well received. Other numbers were:

“In The Dawn of An Indian Sky”—Ward Stephens

“Ould Dr. Ma' Ginn” Löhr

“My Menagerie” Fay Faster

Sweet Little Woman O’Mine Bartlett

Mrs. Overman accompanied her on the piano. All who have heard Miss Fast predict a brilliant future for her in the music world.

Mr. Ross Herr, an alumnus of Bee Gee honored his Alma Mater and the student body with a visit and short talk in chapel on the seventeenth.

Mr. Herr since his graduation here has been awarded a Master of Arts degree at Chicago University and is now working upon a course in law.

We are indeed glad to be remembered by the Alumni and want them to feel at home when they come back to Bee Gee.

Former Students

We are pleased to announce the marriage of Charles Richardson, which was an event of July 17. Miss Edith Edwards, who recently underwent an operation in the Lima Hospital, is reported to be getting along nicely.

So numerous have been the marriages this summer that we feel we must give some good advice to our young men, which will help them stay single: step on her feet when you dance.
The Big Summer Bee Gee Travel Trips

The Yellowstone travel group for 1923 promises to be a large and very enthusiastic one. Only a few reservations are left and these must be taken quickly or there will be some disappointed ones this year who will not get to go—as happened last year due to too late decisions in asking for reservations.

This will be the last Yellowstone trip to be offered for some time, and any one desiring to visit the great western wonderlands included in this exceptional middle west trip can never go more cheaply or with a finer travel group.

The St. Lawrence group also promises to be a large one. This famous water trip of over 2,500 miles is considered by travelers as the finest inland water trip in the world and this trip of 10 days beginning on August 17th will be, in the line of water travel, what the Yellowstone is in land travel.

This trip is of special interest and value to teachers of history as well as of geography.

Prof. W. C. Faust Gave Demonstration

Last Tuesday, Prof. W. C. Faust of Canton, Ohio gave a very interesting demonstration to B. G. N. C. students in room 201. With an improved form of pantagraph he quickly transfered to the blackboard in an enlarged form the outlines of birds and animals which he afterwards filled in in a very artistic manner.

A number of students expressed a desire to purchase the instrument. Prof. Faust did not have the instrument for sale but informed those desiring one that it could be procured from the Drawing Masters' Club of America, of Cleveland, Ohio, which he represents.

The Niagara Trip of 1923

A large and very enthusiastic group of students and their friends returned from the third annual Niagara trip feeling that they had had “the time of their lives”, and that everything had gone “just right”.

Although not the largest group that has gone on a Niagara trip it was a “travel family” of exceptional quality and the finest spirit obtained throughout.

No finer travel groups can be found anywhere than those who take these Bee Gee trips.

That this trip is of exceptional value to all teachers no one can doubt who has ever taken it.

The great surprise of such a trip is that so much can be taken in and enjoyed in so short a time, and that all can be included at so low a cost.

Industrial Arts Department

Plans are now under way for the re-arrangement of the Industrial Arts Department, especially the shop room.

A Tool-House is to be built in, a recitation space, and bench room partitioned from the shop. Sheet metal equipment is to be added thereby enabling all Art students who desire to do so to get a course in Metal Work.

During the past few years there has been a rapid increase in the number of students enrolling in this department. It is the plan of the administration to keep abreast of the demands of students in this field. In anticipation of these demands there has been added to the curriculum of this department three new courses, Shop Sketching, Forging, and Sheet Metal Work.

These improvements place the Arts Department on a par with the best colleges of our size in the country and undoubtedly a great number of new students will avail themselves of the splendid opportunity.

“All the world's a stage”; only the privileged few are allowed behind the scenes.

Country Life Program July 15th, 1923

1. Singing by the Club.
2. Vocal Solo.......Miss Dorothy Beckman
3. Reading................Miss Hilgeneck
4. Vocal Solo...............Miss Iona Price
5. Reading................Miss Myrtle Insley
6. Vocal Solo...............Mabel Williams
7. Reading................Miss Hilgeneck
8. Booster Speech........Mrs. Ivan E Lake

Games and dancing were the features.

Social Science Department

The numerous requests of students and teachers for books that will serve given specific needs in social science work in the elementary grades and in the junior high school have led the department to take up the project of building a model library in this field.

It is the plan of the department to purchase the books and correlated materials, and from a first-hand study of this construct a fully annotated bibliography. These annotations are to be checked with the reference lists of certain large libraries having children's departments and also with those of several large school systems. The primary object in the library will be to serve teachers and school officials in the smaller cities and villages.

A secondary object of the library is to facilitate the construction of new courses in social science for elementary teachers. The administration of the College is looking ahead to a time when teachers in the social science will get at the College a goodly body of information that will function directly in the grades they are to teach.

The task is a difficult one, and the College Library and Training School, together with the public
school system of Bowling Green, will cooperate in the work. The department is enthusiastic over the project, and feels that an excellent beginning ought to be made by the close of the year. About thirty books have already been ordered.
