320 years of service

15 faculty and staff to end University careers

Five faculty who have taught at Bowling Green a total of 161 years are among 15 who will conclude their University careers at the end of this academic year.

William Alexander, a professor of music education, and David Krabill, a professor of mathematics and statistics and computer science, will each leave the University after 34 years of teaching.

Robert Innis, a professor of speech communication, will retire after 32 years and Joseph K. Balogh, dean of the College of Health and Community Services, will conclude his administrative career after 31 years.

Raymond Yeager, a professor of speech communication, will retire after 30 years of service.

Others retiring include John Paul Scott, research professor of psychology who joined the faculty in 1946; Olin Anders, a research professor of psychology who has been at Bowling Green since 1957; Fred Eckman, a professor of English who joined the faculty in 1961; and Martha Eckman, an associate professor of English who has been at Bowling Green since 1963.

- Others retiring include John Paul Scott, research consultant to the University administration on program development and/or student recruitment. Although major change is expected in higher education in the coming years, Dr. Balogh said, “We have good programs with less curriculum?” he asked.

- Faculty retention is another problem with which Bowling Green will have to deal in the next decade. Dr. Balogh said. We may have to reckon with collective bargaining; tenure may come under scrutiny. We are going to have to find a way in higher education to do a better job of increasing faculty salaries.

- But Dr. Balogh sees perhaps the most dramatic turn of events in higher education in the coming years as a change in the student population. “We must begin now to make our programs compatible with the needs of younger students.” he said. “The salvation of higher education may very well rest on what we do for them.”

- Dr. Balogh added that Bowling Green’s problem in the area of “non-traditional students” is unique because of its rural setting. “Our challenge here is what to do with the older rural person.” he said. “But Dr. Balogh sees perhaps the most dramatic turn of events in higher education in the coming years as a change in the student population. We must begin now to make our programs compatible with the needs of younger students.”

Alumni Association to host retiring faculty

Continued from page 1

Hanna Anders first joined the faculty in 1942 as an instructor in chemistry, and transferred to the campus in 1957 as an instructor and in 1958 he served as director of the Foundation Fellowship program and public policy and professor of University Professors. His 20 years in this capacity have been marked by dedication to his duties, including as assistant professor in the departments of English, history, and philosophy. Among his many contributions to the university, he has mentored numerous students and has served on numerous committees, including the University Senate, the Faculty Assembly, and the Faculty Council. He has also served on the Executive Committee, the Faculty Senate, and the Faculty Executive Committee. In recognition of his service to the university, he was elected president of the Ohio Faculty Senate in 1984.

Mary B. Lee, a former director of the English Program, has served as a member of the English Department since 1970. She was a member of the English Department and served as its chair from 1973 to 1976. She has also served as director of the English Program and has been a member of the English Department since 1970. She has been a member of the English Department since 1970 and has served as its chair from 1973 to 1976. She has also served as director of the English Program and has been a member of the English Department since 1970.

Robert J. Anderson, a former instructor in chemistry, has served as a member of the Department of Chemistry and has been a member of the Chemistry Department since 1970. He has been a member of the Chemistry Department since 1970 and has served as its chair since 1973.

Dr. Mandell updates advertising expertise

Maurice Mandell, marketing, has conducted a 10-month seminar on advertising, which he left to New York, blanketing responsibilities of the European.

While in New York, Dr. Mandell continued his university during the fall semester, conducting a seminar for General Telephone, Indianapolis, and chaired a session on the conference of the Central Region of the American Association of Advertising Agencies in Detroit. Dr. Mandell is the current education chairman of that group.

On Feb. 1, he presented a paper to the Irish Marketing Society in Dublin, Ireland, at the annual meeting of the American Academy of Advertising at Columbia, Mo.

WICI to recognize communication efforts

The University chapter of Women in Communication has submitted no later than Friday, May 23, to Tammy Kinzer, 413 South Hall.

Harry W. Hoemann, psychology, $63,636 from the Dep. of Health, Education, and Welfare, as in the Ohio State Public Service to continue his study of the development of communication skills by children, and complete their performance with hearing children using spoken English.

William B. Jackson, environmental studies, $15,400 from the Office of International Cooperation and Development, U.S. Dep. of Agriculture, to fund three years of training for international student Danilo Sanchez in vertebrate pest management.

Dr. J. D. Maloney, received an individual grant to fund training for Rome C. Dixon, who will study vertebrate pest management.

He also received $16,000 from the Ohio Department of Agriculture to fund the University's master's program in entomology.

Publications

Herbert Greenberg, speech communication, "The Importance of Vowel Stabilization in Speech-Impaired Individuals," in the "American Journal of Speech-Language Therapy," the article was co-authored by Dan Chadwell.

Dr. Greenberg also participated in a special meeting of the American Speech-Language Hearing Association, "Response Recording," at Ohio State University, Apr. 17-18.

The text will be used at Bowling Green and as well as at other universities throughout the country.

Jantis L. Pallister, romance languages, "Leopold-Sedar Senghor, a Catholic Senegalese" an article in the April, issue of "French Review." Senghor is a well-known African poet and the president of Senegal.

Presentations

Deanna Radeloff, home economics, spoke on "What's Going On In Campus Child Care Centers - An Overview" at the Apr. 11 meeting of the National Council on Campus Child Care at Ohio State University.

Karl Schurr, biological sciences, spoke on "Effect of Asbestos Fibers on Fibrocystic Breasts" at the Ethel Ralston meeting of the Ohio Academy of Science April 16-20 at the University of Toledo and Medical College of Ohio.

Dr. Schurr's paper was presented as part of the zoology section of the meeting.

Isaac Sequeira, ACLS Fellow in the popular culture department and a associate member of the Department of Women's and Gender Studies, was invited to participate in a panel discussion on "Science and Society: Women in Science and Technology," the national convention of the Popular Culture Association April 16-19 in Detroit.

Moham N. Shrestha, geography, presented a paper on "Rural to Rural Migration in Nepal" at a meeting April 25 of the Natural Resources Development Society at Bauer Manor in Michigan.

Dr. Shrestha recently returned to Bowling Green after a six-month research leave in Nepal which was funded by a Ford-Forty-Beach Foundation grant.

William C. Spragens, political science, participated in a panel discussion on U.S. foreign policy and presidential image making, at the annual Student Symposium of the Center for the Presidency in Washington, D.C. April 1 and 2.

Don Stewart, geology, spoke on "The Role of Amphibia in Controlling the Distribution of Evaporated Lakes" as a guest lecturer at the University of Toledo geology department April 16.

Duane E. Whitemire, registration and records, spoke on "Admissions - The Change in Changing Profession in Change for the 1980's" at the annual meeting of the American Association of Collegiate Registrars and Admissions Officers April 21-24 in New Orleans.

Session leader during the two-day annual conference of the Ohio Association of Schools for the Education of Young Children April 25-26, included Delta Williams, home economics, "Teaching Infants and Toddlers," Alex Johnson, special education, "Meeting the Needs of Young Handicapped Children Through Developmental Instruction," Elizabeth Yel, home economics, "Preparing Inservice Training of the Child Development Center Staff," and Deanna Radeloff, home economics, "Early Childhood Teacher Certification," "Charlene Beach, home economics, "Testing: What Next?"

Speaking also at the conference were Mary Adams, library and education administration, "The Story of the Delta Kappa Gamma, home economics, "The Effects of Infant Toddlers," Donald Scherer, physics, "The Development of the Fetal Radio," and Elizabeth Stimson, education curriculum coordinator, "The placement of the professional in the field of education."

Ernest A. Champion, ethnic studies, and Frances Poreico, library, served as consultants to the Ethnic Heritage Office of the Office of Education April 20-25 in Washington, D.C.

They were members of a panel which reviewed applications for grants totaling $16,500.

Robert W. Innis, School of Technology, has been named a laureate member of the Bowling Green chapter of the Tau Tau international honorary for education in technology.

Benjamin Mueno, political science, has been invited to participate in a seminar on the Peace Corps in the Field by the Congressional Research Service of the Library of Congress.

The purpose of the seminar is to provide a forum through which members of Congress and the congressional staff can obtain first-hand perspectives on internal trends in the Philippines.

A book by David C. Roll, and Robert W. Freemeth, geography, "The Mexij Southern History," has been named the winner of the Museum of Mexican-American culture of the Federacy's "Founders Award" for the best published work in the field of Mexican-American history. The work will be published at the Mexican-American annual reception June 3, in Richmond, Va.

Graduate programs earn national 'seal of approval'

Quality faculty, curriculum and clinical experiences were cited by the Education and Training Board of the American Board of Examiners in Speech Pathology and Audiology when it issued accreditation to the University's master's programs in speech pathologists and audiology.

Wolfgang Green is now one of only seven schools in Ohio with both speech and audiology programs approved by the national accrediting body. The accreditation review team visited the campus in November to talk with faculty, students and program, college and University administrators. Although Bowling Green offers both graduate and undergraduate programs in speech pathology and audiology, the accreditation board approves only master's programs. The University currently has 44 master's candidates enrolled in the two programs, 10 doctoral students and 10 full-time and one part-time faculty in the speech and audiology programs.

Dr. Hyman said accreditation will lead to increased visibility and credibility for Bowling Green's programs. Accredited schools are listed in an appendix to the continuing excellence which are circulated to thousands of people, including prospective students, he said.

Dr. Hyman added that job opportunities are increased for students with graduate-level training in either speech pathologists or audiology. Bowling Green's graduates find positions in schools, hospitals, community clinics, nursing homes, universities, and in physicians' offices.

Graduates with a bachelor's degree are restricted to employment in the public schools, he said, but in Ohio there are more than 1,200 positions for speech and hearing persons.

The growth of the profession can be attributed largely to its emphasis upon academic training, according to Dr. Hyman, who said that people who work with speech and hearing problems now know otherwise and seek training.

Accreditation of Bowling Green's programs will take effect March 1, 1980, to continue through March 1, 1985. In the case of Bowling Green said he must submit final reports to the examining board at the end of the five-year period of the programs and improvement of "minor faults."
News Review

Publications board begins search for new director
James R. Gordon, journalism, has been elected chair of the University Publications Board, a new committee appointed by the Board of Trustees.

The board's first priority will be to hire a director of student publications, a position which was recommended by the Student Publications Committee, which has been targeted Aug. 15 as the date for selection of a director.

Maggie Miller, chair of the arts and sciences, will be appointed to a four-year term as chair of the computer science department, effective fall 1980. Appointment of the appointment was made by John G. Eriksen, dean of the College of Arts and Sciences.

Donahue, Bartlett to be honored at commencement
Emmy Award-winning talk show host Phil Donahue will receive an honorary doctor of humanities degree and deliver commencement remarks for an estimated 2,000 graduates at spring commencement ceremonies.

At the same time, the man responsible for selecting a top-rated television program will receive the Distinguished Alumni Award.

Waite Bartlett, a 1949 Bowling Green graduate, will be presented the Alumni Association's highest award.

A native of Marion, Bartlett is president of Multimedia Broadcasting Co., Multimedia Radio and Multimedia Program Productions, Inc. He also is vice president-broadcasting of the parent company, Multimedia, Inc.

Donahue has won Emmy Awards in three consecutive years for being the "Outstanding Host of a Television Talk Service or Variety Series." He is credited by developers of hard-driving programs that inform as well as entertain for having earned him a reputation as one of television's top interviewers.

His presence will preside over the commencement ceremonies, which will begin at 10 a.m. at Doy. L. Perry Field, weather permitting.

In the event of inclement weather, two commencement ceremonies will be held in Memorial Hall.

Five juniors named Reams Fellows for 1980-81
Five Bowling Green juniors have received Frazier Reams Public Affairs Fellowships for their senior year.

Presented annually, the $1,000 fellowships are awarded to rising seniors who are majoring in the public service area of journalism, broadcasting, political science and health and community service.

This year's fellows are Paula M. Winstrow, a journalism major from North Olmsted; Carl H. Unterweiser, a political science major from King and Queen Counties; and Jane A. Moorehead, a political science major from Kingsport, Tenn.

When and Where

Lectures
Allison Dunn, a member of the Bowling Green Church of Jesus Christ of Latter-Day Saints, will respond to the talk given May 17 by Sina Johnson, an excommunicated church member and feminist, at 7:30 p.m. Thursday, May 22, 200 Math-Sciences Buildings.

John LeBoutillier, political commentator and author, "Thomas Paine: A Lecture Examining This Year's Crop of Presidents," will give his talk at 7:30 p.m. Tuesday, May 20, Grand Ballroom, Union.

Billie S. Miller, organizer of the Movement for Free Philippines and an ex-convict co-founder of "Abolitionists," will be here at the same time.

Donahue's Auditorium, University Hall.

Exhibits
"SCAPES," an exhibit which surveys various approaches to the landscape among Ohio artists, 8 a.m. to 5 p.m. weekdays and 2-5 p.m. Saturday and Sunday, through July 3. McFarland Center Gallery.

Undergraduate Student Art Exhibition, 8:30 a.m. to 5 p.m. weekdays and 2-5 p.m. Saturday and Sunday, through May 28. Fine Arts Gallery, School of Art.

"Copper Etchings," an exhibit by University graduate and artist Kathy Rice. 8 a.m. to 5 p.m. weekdays through May 30. McFarland Alumni Center Gallery.

Music
"New Music Ensemble," 8 p.m. Tuesday, May 20, Bryan Recital Hall, Musical Arts Center.

Small Jazz Ensembles, 8 p.m. Wednesday, May 21, Performing Arts Center.

Percussion Ensemble, 8 p.m. Wednesday, May 28, Bryan Recital Hall, Musical Arts Center.

A Cappella Choir, 8 p.m. Sunday, June 1, Arrowhead Park, at Arrowhead Fine Arts Center.

Student Composition/Electronic Music, 8 p.m. Monday, June 2, Bryan Recital Hall, Musical Arts Center.

"Gianni Schicchi," and "Rita," two one-act comic operas presented by the University Opera Workshop, 8 p.m. Wednesday and Thursday, May 28, 29. Kocabek Recital Hall, Musical Arts Center.

A double-bill of one-act operas is $10 for adults and $1 for students and children.

and environmental studies major from Chagrin Falls; Karl Whit tenberger, a liberal studies student in the College of Arts and Sciences from Uniontown; Jane DeChant, a communications major from Lorain, and Diane Stieneman, a health care administration major from Kent.

The scholarships were established in 1973 in memory of the late Frazier Reams Sr., a Toledo attorney and six-time mayor, who served on the Board of Trustees from 1943 to 1959. Reams was an honorary doctor of law degree from the University in 1959.

The awards were selected by a committee of Bow ing Green students, faculty and administrators, and were presented to students who have had at least eight foreign-language courses.

The Associated Students of Bowling Green have also established a "10-10" fund for the fourth-consecutive-year scholarship.

Two Bowling Green students made their way to the semi-final round, and three others were quarter-finalists.

Reams Scholarship, speech communication, is director of the forensics and debate programs.

High school juniors win scholarship awards
Margaret Miller, a Bowling Green High School junior, was awarded a four-year, full-fees scholarship to the University by President Moore at the Outstanding High School Junior Awards program May 5. She was selected for the top honor from a group of outstanding high school juniors representing 114 northwest Ohio high schools.

Brian LaBlite, a junior at St. John's High School in Toledo, was awarded a four-year, half-fees scholarship.

The program to honor outstanding high school juniors was begun at Bowling Green six years ago and is sponsored by the Undergraduate Alumni Association.

Librarian has big interest in collecting small books
Evron Collins, head of the circulation department at the University library, always judges a book by its cover. In fact, she collects miniature books, the smaller the cover, the more attractive and valuable the book.

Collins has been collecting miniature books of all kinds for more than 20 years. Her present collection of 938 miniatures features Bibs, dic tionaries, juvenile and poetry books and several presidential inaugural ad dresses, as well as books written in at least eight foreign languages, in cluding Hungarian and Japanese. The collection is now on display in the Library's Rare Books Room.

Collins said she purchases the books, many of which are now valued at almost $100, from book dealers and at flea markets and garage sales. The smallest item in her collection, measuring only one quarter-square inch, is a book which contains the words "book" in 10 different languages.

"I've always been interested in books and also in small collectible items," she said. "I was fascinated by the miniature books which have pro vided me with an interesting hobby." By displaying her collection in small curio cases and spice racks in her home.

One of the oldest books in the collection is an original 1868 New Testa ment Bible. She also has two books which are actual reproductions of a Sears and Roebuck Co. catalog and a telephone book with yellow pages, both especially designed for use in miniature doll houses.

In addition, the collection includes such unusual miniatures as a book bound in a genuine dollar bill, one that teaches "pig latin" grammar and one that consists entirely of European toilet paper samples.

The tiny books will be on display until the end of the quarter in the Library's Rare Books Room. Hours are 1-5 p.m. Monday through Thursday.
