Vol. V, No. 5

Bowling Green State University

October 19, 1981

Approximately 1,500 young men from high schools throughout the state were on the campus in June participating in the American Legion's Buckeye Boys State, which was one of several conferences hosted by the University last summer. The summer was the most successful conference season ever for the University, with more than 7,000 people visiting the campus.

From Boys State to barbershop

Booming conference business draws 7,000 summer visitors

When Jim Sharp, director of conferences and arrangements, talks to anyone about Bowling Green, he emphasizes service.

Sharp, who schedules conference groups into University facilities during the summer months when residence halls are minimally occupied, says his job of "selling" the University is really not too difficult. And the reason, he says, is that everyone involved in hosting the conferences - from telephone operators to food service personnel, housekeepers and maintenance staff - offers "red carpet service" to every group.

The University has just completed its most successful conference season ever, hosting groups which ranged from Buckeye Boys State to a Mennonite General Conference which brought 4,000 people to campus for a week in August. Bowling Green has hosted the American Legion's Boys State the past four years. Each of those years some 1,500 high school juniors have moved into Offenhauer Towers for a week of government-

related activity in June.

More than 7,000 people visited the campus last summer as conference participants, Sharp said, noting that in addition to the Mennonite and Boys State groups they included Owens-Illinois managers, a group of Lebanese students, tennis and soccer players and 300 women barbershop singers.

Those 7,000 people generated about \$450,000 in gross income for the University, Sharp said. But the dollar figure does not tell the entire story for the University.

Conferences also provide jobs for food service and housekeeping staff who might otherwise be laid off for the summer and a limited number of jobs for students who act as guides for the conference groups.

In addition, Sharp said, each of those 7,000 people is a potential recruiter for the University.

Conference participants routinely receive admissions materials in their information packets, and if they "go away feeling good about the

What's for lunch?

Campus dining rooms offer taste of variety

If the question is, "What's for lunch?" the answer is "Just about anything you'd like." And the place to go is right on campus.

A wide variety of good food at reasonable prices is not hard to find in the University dining facilities, which this summer were twice cited for excellence by the National Association of College and University Food Services.

One award, acknowledging excellence in menu concepts and the preparation and distribution of food, placed the dining hall program second in the nation among the association's members. The other recognized a specialty meal, "Dining with Disney," featured last year in Commons Dining Hall.

Although several campus dining spots are already popular with faculty and staff, food operations administrators believe a taste of the full range of facilities would entice more University personnel to spend their food dollars on campus.

In addition to the convenience of eating near the work place, Monna Pugh, director of residence dining services, said faculty and staff who eat on campus keep their dollars within the University, allowing for a level of quality and service in food operations which might not otherwise be possible.

And the cost of eating on campus is no higher than going elsewhere, Pugh said, explaining that although sandwiches may be priced five to 10 cents higher, beverages are usually priced that much lower than those purchased off campus.

But it is the variety of foods available which really tempts the palate. Salads, sandwiches, hot meals and soups are all on the daily menu, as are a few other specialties.

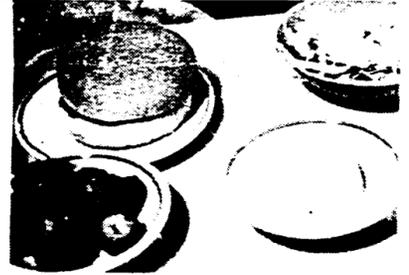

If a sandwich sounds like a good idea, the Union's Cardinal Room serves fast food, soup and salad 9 a.m. to 5 p.m. Monday through Friday.

The Falcon's Nest, also in the Union, offers both sandwiches and hot foods and is open 7 a.m. to 9 p.m. Monday through Friday, 8 a.m. to 8 p.m. Saturday, and 9 a.m. to 8 p.m. Sunday.

Prout Cafeteria also offers a sandwich line, in addition to the usual cafeteria fare, soups and a salad bar.

Another popular salad bar, where foods are priced by the ounce, is in Founders Dining Hall.

One of the most varied food fares is in McDonald Quadrangle, where there are two specialty restaurants in addition to sandwich and hot food lines. The Towers Inn, a steak house which also offers such favorites as spaghetti and meatballs and a full line of ice creams and other desserts, is open Monday through Friday, 4:15-6 p.m.

The other specialty shop, The Deli, is situated in one corner of McDonald Dining Hall. At the deli, customers build their own sandwiches or instruct an employee to do so. Meats and cheeses are purchased by the ounce.

Most faculty and staff are familiar with the Pheasant Room on the second floor of the Union, which serves lunch from 11 a.m. to 1:30 p.m. Monday through Friday and from noon to 2 p.m. on Sunday. Twelve sandwiches are offered, as well as soups, salads, daily specials and dessert.

Tuesday, Wednesday and Thursday evenings from 4-6 p.m., the Pheasant Room is converted into "Dining for a Small Planet," a restaurant with vegetarian flair. Beverages include buttermilk, herb tea and spring water.

Also open during the evening is the Truck Stop in Commons Dining Hall, a cafeteria where the portions are extra large. Sandwiches such as the "18 wheeler" and the "Kenny Whopper" are typical fare. The Truck Stop is open 4-6 p.m. Monday through Thursday.

Open weekends during the evening is the award-winning Strawberry Patch in Harshman Quadrangle, where pancakes, waffles, French toast, crepes and steak are on the menu. University students are the waiters and waitresses in the Strawberry Patch, which is open 4-6 p.m.

All of the facilities except the Pheasant Room, the Cardinal Room and Falcon's Nest accept either meal coupons or cash. And although food coupons cannot readily be purchased by faculty and staff, Pugh said some faculty and staff do purchase extra coupon books which students frequently sell at the end of a quarter.

University," they become powerful recruiters, Sharp said.

"We have a beautiful campus. People who visit here see that we take pride in everything we do. That speaks well for the entire University," he added.

Sharp said that although the University can not offer all the conveniences of a motel, such as television and a private bath in every room, it is a place that is relatively free from crime and one where people go out of their way to help each other.

"We pride ourselves on service," he said, adding that the University has some things a motel or big city convention center can't offer. Last year, for example, when one conference group requested that a trapeze be constructed in Kobacker Hall for a special presentation, the maintenance staff did just that.

Conference participants also are given full access to all University facilities, including the Student Recreation Center and Moore Musical Arts Center.

Academic Council

Academic Council approved at its meeting Oct. 7 a set of general degree requirements for baccalaureate, associate, specialist and doctoral degrees under the early semester calendar.

Richard Eakin, executive vice provost for planning and budgeting and chair of the Task Force on Implementation of the Early Semester Calendar, presented the proposed requirements, noting that the conversion is progressing well and that "Fact Sheets" of questions and answers about the semester conversion are to be published periodically in the BG News to keep the University community informed.

The revised requirements, he said, are simple mathematical conversions of existing requirements under the quarter system as stated in the undergraduate and graduate catalogs.

General requirement for the baccalaureate degree, which is currently 183 quarter hours, will be 122 semester hours, 30 of which must be completed at Bowling Green immediately before graduation.

Dr. Eakin said the 122-hour requirement is a minimum, and a student taking a normal course load of 16 semester hours would exceed that requirement by several hours. Some degrees may also require more than 122 hours of credit, he said.

The revised baccalaureate degree requirements also include completion of two semester hours of general physical education activities courses (formerly three quarter hours) and completion of the freshman English composition sequence, as well as 40 hours of credit in courses numbered 300 and above.

The minimum general requirement for an associate degree has been changed from 93 quarter hours to 62 semester hours and includes two semester hours of general physical education and the freshman English composition sequence.

Requirements for the specialist in education degree have been revised to 63 semester hours beyond the

bachelor's degree, with a minimum of 24 semester hours in the area of specialization.

The minimum program for the Ph.D. requires completion of 90 or more semester hours of approved graduate credit beyond the bachelor's degree and a minimum of 16 and maximum of 30 hours of registration for research and completion of a dissertation.

Academic Council also approved an adjustment to the 1982-83 calendar which changes the official beginning of spring recess from 7 a.m. Monday, March 28, 1983, to noon on Saturday, March 26.

Acting Provost Eriksen distributed a memorandum from Interim President Ferrari asking academic Council to examine possible curricular duplications as the semester calendar conversion occurs. Dr. Eriksen will appoint a subcommittee of the Council to develop a plan for use in the study of those duplications.

Board of Trustees

Frazier Reams Jr., president of the Board of Trustees and chair of the Presidential Search and Screening Committee, announced at the Board meeting Oct. 9 that the entire search process will remain confidential, despite a request from the Faculty Senate that certain information about the search be released.

Reams, who said the committee had its first meeting and has a "good plan and a time-table that is realistic," announced there will be no breach of confidentiality in the committee's work.

"The members of the Board of Trustees were explicit in their instructions to me and to the other members of the committee in their request for that confidentiality," he said. "Uppermost in all our minds is the consideration that we want the best possible person to lead the University in the 1980s," he continued, adding that the committee wants to take every precaution to ensure that qualified applicants apply without fear of jeopardizing their present positions.

Trustee Charles Shanklin, Milford Center, echoed Reams' reaffirmation of the confidential stance which the committee has taken, noting that the present procedure is the same as that used to select former President Moore and that members of the committee will welcome input from all constituencies of the University regarding the committee's task.

The Board also approved a policy which states the University's official position on sexual harassment. That policy, written by the Office of Equal Opportunity Compliance and amended and subsequently approved by Faculty Senate last spring, is a formal statement that the University does not condone sex harassment.

The policy applies equally to faculty, contract and classified staff, and students and is in keeping with the spirit and intent of other guidelines on discrimination because of sex.

In the policy, sexual harassment is defined as "Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when:

-Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic pursuits;

-Submission to or rejection of such conduct is used as the basis for employment or academic decisions affecting an individual, or when

-Such conduct has the purpose or effect of unreasonably interfering with an individual's employment or academic performance or creating an intimidating, hostile or offensive working or educational environment."

The document states that it is a violation of University policy both for any faculty, staff or student to engage in sexual harassment or to retaliate against anyone bringing

Current members of the Board of Trustees gathered for a formal portrait preceding their meeting on Friday, Oct. 9. They are (from the left): Robert Ludwig, Marion; Albert Dyckes, Columbus; William Spengler, Toledo; Melvin Murray, Fostoria; M. Shad Hanna, Bowling Green; Frazier Reams Jr., president, Toledo; Ann Russell, Milan; J. Warren Hall, Cleveland, and Charles Shanklin, Milford Center.

forth an honestly perceived complaint of sexual harassment.

The Office of Equal Opportunity Compliance will coordinate and implement the policy on a University-wide basis, setting up procedures for the hearing of a complaint according to procedures outlined in the policy.

The Board also approved a revised constitution for the Graduate Student Senate and heard a presentation on the proposed student body constitution which will be approved or disapproved by the students at an election early next month.

The Board is scheduled to act on the proposed document at its meeting Nov. 13.

In other business, the Board accepted grants and contracts for the month of June which brought the total for fiscal year 1980-81 to \$9.9 million. Slightly more than \$4 million in grants and contracts has been received to-date for the fiscal year 1981-82.

Enrollment

In his report to the Board, Interim President Ferrari noted that as of Oct. 8, projected headcount enrollment for the University, including the main campus, Firelands and extensions, will total 19,413.

Of that total, 17,266 students are projected to be enrolled on the main campus, which equates to a main campus FTE enrollment of about 16,400.

The headcount enrollment is less than that of fall 1980 by about 350 students, which puts the University on target in its three-year planned enrollment reduction, devised to keep enrollments within the 15,000 FTE ceiling set by the state.

Dr. Ferrari also said applications for next fall's freshman class of 3,150 students are coming in at a brisk pace.

He noted that residence halls are full this fall, with 8,064 students living in University housing and none of them in lounges or triple rooms.

High School Requirements

He also reported on recommendations of the Commission on Articulation between Secondary Education and Ohio Colleges which detail proposed requirements for high school college preparatory curricula.

Among those recommendations, now under consideration by the Ohio Board of Regents, are:

-College preparatory curricula in secondary schools should include four units in English, a minimum of three units of mathematics (one of which should be taken in the senior year), three units of social studies, three units of science and three units of foreign language;

-College preparatory curricula in mathematics and English should be agreed to by all post-secondary institutions in Ohio;

-Private and state-assisted four-year colleges and universities should require that students who wish to be admitted to their institutions on an unconditional basis must have successfully completed all the requirements of a college preparatory curriculum;

-Teacher certification requirements should reflect a greater emphasis on major subject matter content areas;

-Teacher education activities and communication should emphasize the need for high school students to write more in all subjects, especially in English classes, and teachers should enforce more rigorous work requirements in order to reduce grade inflation;

-College academic requirements should be clearly communicated to all educators at all levels, especially to those involved in grades seven through 12;

-College preparatory curricula should be clearly explained by teachers, counselors and administrators to the parents of secondary students, to students and to the general public, including the consequences of not taking the college preparatory program; and

-Schools should establish a written policy regarding procedures for obtaining information, establishing conference dates, and attending meetings relating to college entrance, and the policy should be disseminated to students in grades seven through 12 and their parents.

The Regents will be preparing a progress report on the implementation strategies for each of these recommendations and Acting Provost Eriksen will be submitting the Articulation Commission's report to the Academic Council this quarter for its review, Dr. Ferrari said. Dr. Eriksen will make a report to the Board of Trustees following Academic Council assessment.

Trustee honored

Dr. Ferrari also congratulated Trustee William Spengler, Toledo, who recently was named "Industry Accountant of the Year" by Beta Alpha Psi, a national accounting honor society.

Direct deposit saves time, money

If waiting in line to pick up your paycheck is a source of irritation, a tip from the treasurer's office might well be heeded.

MONITOR will be periodically reporting some suggestions on how faculty and staff can help the University economize, and direct deposit is one thing which can save both employees' time and the University's money.

If every University employee accepted direct deposit of his or her payroll check, the University would realize an annual savings of \$28,000 and employees would avoid the inconvenience of those long lines at the bursar's window on payday, according to the treasurer's office.

In addition, direct deposit saves the employee from driving to a bank or financial institution and waiting in line again to cash or deposit the check.

And with new interest-bearing checking accounts, direct deposit enables the employee to accrue interest on the payroll check effective immediately each payday.

Employees also avoid the risk of losing or misplacing a check and the possibility of theft or forgery.

The savings to the University through direct deposit is realized through reduced check printing costs, distribution costs, bank charges and bank reconciliation costs.

The University already is making direct deposits to six local financial institutions and two out-of-town banks, but only about 10 percent of the 106,322 payroll checks issued last year were direct deposited.

If you're interested in saving yourself some time and the University some money, call the payroll office, 372-2201, and ask about direct deposit for your checks.

Monitor

Monitor is published every Monday for faculty, contract and classified staff of Bowling Green State University. Deadline for submission of material for the next issue, Oct. 28, is 5 p.m. Tuesday, Oct. 20.

Faculty & Staff

Grants

Jeannette Danielson, Firelands, \$5,000 from the Ohio Program in the Humanities, Ohio Arts Council, for a project to demonstrate Firelands area folklife and customs.

Richard Frye and Charles Means, educational development, \$135,167 from the U.S. Dept. of Education to continue the Upward Bound program, now in its fifteenth year.

William Jackson, environmental research and services, \$13,245 from the UN Food and Agriculture Organization as funds for the education of an Ethiopian student in vertebrate pest management.

Walter F. McKeever, psychology, \$30,502 from the National Institute of Neurological and Communicative Disorders and Stroke to continue his study of lateral dominance and word recognition.

Charles Stocker, Firelands, \$1,200 from the U.S. Dept. of Education to purchase materials for the Firelands Library.

Richard J. Wright and Ted J. Ligibel, Center for Archival Collections, \$5,000

Computer services sets four seminars

Computer Services will offer four seminars designed specifically for faculty during the fall quarter. Each will be structured to acquaint participants with a different aspect of computer equipment or programming.

The first seminar, an introduction to the Apple II microcomputer, will be held from 3:30-5 p.m. Friday, Oct. 23, in Room 102, West Hall.

Subsequent seminars are scheduled at the same time on Fridays, Oct. 30, Nov. 6 and Nov. 13. Those three will be held in Room 224, Math-Science Building.

The session on Oct. 30 will be an introduction to the Dec System 2050. On Nov. 6 the topic will be SAS (Statistical Analysis System). The Nov. 13 seminar will deal with Runoff (text-formatting program).

Anyone interested in attending one or more of these seminars should register as soon as possible by calling 372-2102.

Psychologists' book brings together 400 years of scientific thinking

Three psychology faculty explore the nature of scientific thought and argue that science is a cognitive phenomenon in the new book "On Scientific Thinking" to be released Oct. 25 in hardcover and paperback editions by Columbia University Press.

Ryan D. Tweney, **Michael E. Doherty** and **Clifford R. Mynatt**, editors of the 459-page volume, seek to establish a psychological basis for the empirical investigation of science itself through a collection of articles written over the past four centuries and ranging from theoretical papers on the nature of scientific thinking to recent research reports on scientific creativity.

The book includes writings by more than two dozen scientists, philosophers and psychologists, including Francis Bacon, Jean Piaget, Thomas Kuhn, Isaac Newton, John Locke, Rene Descartes and Albert Einstein.

About one-third of the book has been written by the editors who report on their own investigations of scientific thinking since 1973. Their research has been concerned with how scientists use hypotheses and confirm or disprove hypotheses, and with the source of creativity scientists bring to the task of searching for answers.

The editors have found that scientists have widely varying strategies for approaching problems. Some rely on imagery, as Einstein describes in "On Scientific Thinking."

from the Ohio Sea Grant Program of the Ohio State University Research Foundation to produce a high quality booklet detailing the history and historic architecture of the Bass Islands.

Presentations

Pamela J. Benoit, speech communication, presented a paper on "Children's Arguments: The Emergent Production of Rules for Winning and Losing Arguments" at the 1981 Speech Communication Association-American Forensics Association Summer Argumentation Conference in Alta, Utah.

She also presented a paper, "Formal Coherence Production in Pre-School Children's Discourse," at the University of Nebraska Discourse Analysis Conference in Lincoln, Neb.

William L. Benoit, speech communication, presented two papers, "An Empirical Investigation of Argumentative Strategies Employed in Supreme Court Opinions," and "The Role of Argumentative Analysis in Individual Events," at the 1981 Speech Communication Association-American Forensics Association Summer Argumentation Conference in Alta, Utah.

Lawrence J. Daly, history, presented a paper entitled "Themistius' Refusal of a Magistracy" at the 16th International Byzantine Studies Conference Oct. 4-10 at Vienna, Austria.

Dr. Daly was invited to present the paper, which is part of his continued research on the interaction between Christians and pagans after Constantine's famous conversion of 312 A.D.

Kenneth F. Kiple, history, presented a paper, "The Epidemiological Dimension to Black Slavery in the Caribbean, Florida and Louisiana," at the El Instituto de Cooperacion Ibero Americano Conference Sept. 9-12 in La Rabida, Spain.

Rex L. Lowe, biological sciences, co-presented a paper with graduate student **Barry H. Rosen** entitled "Consideration of the taxonomic position of the diatom *Entomoneis ornata*" at the eighth annual symposium of the Electron Microscopy Society of Northwestern Ohio Oct. 9 at the Medical College of Ohio.

Lee A. Meserve, biological sciences, prepared an exhibit with graduate student **Jonelle K. Skibski** entitled "The effects of streptozotocin-induced diabetes upon the ultrastructure of follicular epithelium in thyroids of thiouracil-fed mice" at the

eighth annual symposium of the Electron Microscopy Society of Northwestern Ohio Oct. 9 at the Medical College of Ohio.

Dr. Meserve also chaired the morning session of the symposium.

David G. Pechak, biological sciences, presented a lecture on "Stereologic analysis of the ultrastructure of zoospores of *Chytrium hyalinus*" at the eighth annual symposium of the Electron Microscopy Society of Northwestern Ohio held Oct. 9 at the Medical College of Ohio.

His presentation was followed by "A technique for the comparison of light and electron micrographs of intact pollen mother cells" given by **John H. Blackson**, biological sciences.

Steven C. Russell, special education, presented a paper, "Research on Learning Disabilities: A View From the Bridge," at the Midwest Regional Conference on Qualitative Research in Education Oct. 17 at Kent State University. **Jeannie K. Johns** of the University of Michigan collaborated on the paper.

Jong S. Yoon, biological sciences, co-presented a paper with graduate student **Jay T. Hairston** entitled "The chorion ultrastructure for species identification in Hawaiian *Drosophila*" at the eighth annual symposium of the Electron Microscopy Society of Northwestern Ohio Oct. 9 at the Medical College of Ohio.

Publications

Charles L. Crow, English, is the author of a biography of **Janet Lewis**, poet and novelist known for writing about American history. The biography is included in one of five additions to the Boise State University Western Writers Series published in September. The new pamphlets are part of a 45-volume collection.

Margaret Ishler, educational curriculum and instruction, "Analyzing Teacher Behavior: Suggested Instruments for Preservice and Inservice Instruction," a chapter in "Action in Teacher Education: A Responsible Program for the '80s," publication of the Ohio Association of Teacher Educators and the Ohio Association of Colleges for Teacher Education in conjunction with the Ohio Department of Education.

Laurence J. Jankowski, journalism, "Fossil Life in Ohio," an article in the Summer, 1981 issue of "Ohio Woodlands." Photos in the article are also by Dr. Jankowski.

Sally Kilmer, home economics, is the editor of a three-book series of research annuals entitled "Advances in Early Education and Day Care." Dr. Kilmer authored an introduction to the series and volume 1 which was recently published. The second book will be available in November, and volume 3 will be published by November, 1982.

Dr. Kilmer also recently served as a book reviewer for the "International Journal of Early Childhood" and "Contemporary Psychology."

Terry Parsons, health, physical education and recreation, "What Research Tells the Coach About Coaching," an article in "Future Focus," the Ohio journal of health, physical education, recreation & dance.

The article was written in conjunction with a workshop Dr. Parsons directed on "Coping with Coaching 1980." Graduate students enrolled in the workshop contributed to the manuscript.

Dr. Parsons also authored "Sport-Building Character-or Characters" in the September issue of "The Athlete."

Ronald Partin, educational foundations and inquiry, authored a manual and user's checklist for use in the "Decision Room" of the Toledo Public Schools.

The Decision Room was established to make available a collection of extensive, reliable and accessible information for decision-makers within the school district and community.

Boleslav S. Povsic, romance languages, the last of a series of articles on **Cicero's "Epistles ad Familiares,"** dealing with daily speech in Rome in the first century B.C., in "Vita Latina," June, 1981.

A series of articles on daily expressions in "Epistles ad Atticum" will follow.

Frances Povsic, library, "Teaching Media Skills," an article in the September, 1981 issue of "Educational Resources

Information Center."

Daniel Tutolo, educational curriculum and instruction, "Il Dirigente Scolastico Negli Stati Uniti" (The Principal in the United States), an article in *Direzione e Scuola* (Direction of Schools), a journal for school administrators in Italy.

Doris Williams, home economics, collaborated with **Kathy Crofts**, a University alumna, in writing and publishing a series of eight booklets entitled "Shaping Your Self Esteem."

Each booklet deals with a different age level and outlines a developmental state in building self esteem.

Recognitions

Kirk Smith and Pietro Badia, psychology, were elected fellows in Division III (experimental psychology) of the American Psychological Association at a meeting of the APA in Los Angeles in September.

The fellow designation recognizes outstanding and unusual contributions to the science and profession of psychology and is granted by those who have already been admitted to the division.

Library friends set book sale Oct. 24

Friends of the Library and Center for Archival Collections will host a book and record sale from 10 a.m. to 6 p.m. on Saturday, Oct. 24, in Room 122 of the Library.

Used hardback books, paperbacks, magazines and records will be offered for sale.

Jan. 15 is deadline for leave application

Tenured faculty who have at least seven years of service at Bowling Green may be eligible for a faculty improvement leave.

The application deadline for leaves to be taken during 1982-83 is Jan. 15, 1982. Complete guidelines and a format for application are included in the 1981-82 Faculty Handbook on pages 13-16.

Action on the compensation level for a one-semester leave is expected at the November meeting of the Board of Trustees.

For further information about faculty improvement leaves, contact **Norma Stickler** in the provost's office, 372-2915.

Grant, fellowship deadlines announced

Following is a list of upcoming grant and fellowship deadlines, as announced by the Research Services Office. Further information is available in that office, McFall Center, 372-2481.

- 11/10/81 - (REVISED) **Mina Shaughnessy Scholars Program (FIPSE)**
- 11/30/81 - **BGSU Faculty Research Committee**
- 11/30/81 - **German Marshall Fund Fellowships**
- 12/1/81 - **White House Fellowships**
- 12/1/81 - **NEH Consultant Grants**
- 12/1/81 - **FIPSE Comprehensive Program**
- 12/2/81 - **Andrus Foundation Gerontology Grants**
- 12/1/81 - **Alcohol, Drug Abuse, Mental Health Administration Small Grants**
- 12/7/81 - **Field Initiated Research on Education of Handicapped**
- 12/15/81 - **Congressional Fellowships for Psychologists**
- 1/1/82 - **Wenner-Gren Anthropology Research**
- 1/1/82 - **Business and Professional Women's Foundation Fellowships**
- 2/1/82 - **Fellows for Advanced study in Latin America (Doherty Foundation)**

Tunes and tradition

Homecoming events will set feet tapping

Music and tradition will be the bill of fare as the University celebrates its 60th Homecoming this week.

While an almost countless number of events are planned for the weekend, events of special interest to faculty and staff include a music revue, a jazz concert, an alumni get-together, two evening dinners, and, of course, a football game.

Homecoming activities will begin Wednesday when AFRI Productions, a theater troupe from New York, will present "Harlem Heyday," a revue of some of the finest music ever written and performed by blacks in this country.

Set to begin at 8 p.m. in the Moore Musical Arts Center's Bryan Recital Hall, the performance is free and open to the public.

On Friday, faculty and staff will have the opportunity to get together with former colleagues at the Retired Faculty and Contract Staff Group Dinner and Theater Party.

Set to begin at 7 p.m. in the Campus Room of the Union, the party will move to University Hall, where the performance of "The Imaginary Invalid" will begin at 8 p.m. Tickets for the dinner and theater performance are \$12 and may be purchased at the Mileti Alumni Center.

Enthusiasm for Saturday's game will begin to build Friday night, as the University community "joins hands" in the traditional snake dance. Beginning at the Union Oval at 7 p.m., the snake will wind its way through campus to the stadium where a pep rally, complete with bonfire, will be held.

Saturday's activities will begin at 9

a.m. at the Mileti Alumni Center, where the traditional Homecoming reception will begin. Coffee and cookies will be served, and the reception offers faculty and staff the perfect opportunity to meet with former students.

Following the reception, a luncheon will be held in the main dining hall of Harshman Quadrangle. Then attention will turn to Doyt L. Perry Field, where the Falcons will meet their highway rivals, the University of Toledo Rockets.

Following the game, the traditional Champagne Candlelight Dinner and Dance will be held in the Grand Ballroom of the Union. The champagne reception will begin at 7 p.m. Tickets are \$10 for the reception and dinner, and \$3.50 for the dance. They may be purchased at the Mileti Alumni Center.

The last event of the weekend will be a performance by jazz artist Stanley Cowell at 9 p.m. in the Amani. Tickets are priced at \$1 and will be sold at the door.

Former President Moore will be 'Honorary Alumnus'

The Honorary Alumnus Award will be presented to Marian Moore on behalf of the late President Hollis A. Moore at the traditional Homecoming Champagne Candlelight Dinner and Dance Saturday, Oct. 24.

The event is scheduled to begin at 7 p.m. in the Grand Ballroom of the Union and tickets can be purchased at the Mileti Alumni Center.

During his years as president, Dr. Moore frequently lamented the fact that he was not an alumnus of Bowling Green. The decision to present him with the award was made by the Alumni Association Board of Trustees prior to his death but was announced by Lamont Green, past president of the Alumni Association, at the April 22 memorial service for Dr. Moore.

The Honorary Alumnus Award

was initiated in 1973 to recognize significant contributions to the University by persons who are not Bowling Green graduates.

Dr. Moore was a graduate of Baylor University and the University of Texas.

Also scheduled during Homecoming festivities is the presentation of the 1981 Alumni Service Award, to be given to Wallace R. Jones of Waite Hill Village in Cleveland.

That award recognizes outstanding service, loyalty and dedication to the University and its Alumni Association.

Jones, who is president of Excello Specialty Co. in Cleveland, will receive the award during Homecoming activities at the football game when Bowling Green will meet the University of Toledo Rockets.

Rec Center to focus on family fun

The Student Recreation Center has planned five special Saturdays for children of members this quarter.

On Oct. 24 and Nov. 7 children between the ages of five and eight will be invited to the center for a two-hour session of fun and games, beginning at 11 a.m. Children ages nine-12 will be entertained on Oct. 31 and Nov. 21.

At all sessions, activities will include a variety of non-competitive "new games," such as cooperative musical hugs, human knots, non-elimination "Simon Says" and human pinball. All participants are requested to bring sack lunches.

Nov. 14 will be devoted to the entire family. A Family Fun Day program is scheduled to begin at 1 p.m. with "new games" for everyone in the family.

New games for children will be introduced from 2-3 p.m. At the same time, classes in aerobics will be offered for mothers and weight training and basketball for fathers. A family swim is scheduled at 3 p.m.

Pre-registration for the Saturday programs will begin Oct. 19 in the Student Rec Center office. The office is open weekdays from 8 a.m. to 5 p.m.

Robert K. Clark, radio-TV-film, was among some 80 faculty and administrators who participated in an open house hosted Oct. 7 by the students in Prout Hall. Prout residents are participating this year in a new concept in residence life, designed to challenge and encourage the student who is serious about his or her studies. Some 266 young men and women, most of them upperclassmen, have opted to reside in Prout to participate in the experimental program which will integrate academic and extracurricular pursuits. Faculty involvement will be a key in all planning for the residence hall.

Datebook
