My Dear Sir:-

At the last meeting of the Board of Trustees, I was directed to notify you of the termination of our present business relations, including use of property. The Board contemplates entering into new arrangements with the person or firm who will furnish the most acceptable scheme for landscape work on the Normal College grounds and will be glad to have you submit plans if you wish. STIPULATION OF AGREEMENT

I, the undersigned P. M. Davidson, of Bowling Green, Ohio, do hereby stipulate and agree, for myself, my heirs, executors, and administrators, that I will furnish unto the Board of Trustees of The Bowling Green State Normal College, approximately two thousand (2000) tons of coal, the same to be Hocking Valley six inch mine run, as per my bid of June 10, 1916, at Two and 65/100 Dollars ($2.65) per ton, delivered in bins at the Power House of the said Bowling Green State Normal College.

I especially agree to furnish first class coal of the kind above designated, as clean and free from slate as possible, and to unload same from cars with 3/4 in. forks if requested, and give credit to the said Board of Trustees for the slack. Rail Road weights to govern and bill of lading to be attached to the bills rendered by me to said Board of Trustees.

In case said coal is unsatisfactory to the said Board of Trustees I agree to furnish first class Hocking Valley, mine run coal, at the same price.

I agree to deliver said coal as it is needed and personally guarantee that I will always keep the bins well filled and a sufficient supply of coal in said Power Plant constantly to keep it going and meet all demands in the operation thereof.

I also agree that in case a switch is built to said Power Plant so that the coal may be unloaded from the cars directly into the bins, a deduction will be made on the above price equal to the difference between the cost of hauling, as is now done, and the cost of unloading from the cars directly into the bins, including switching charges and expense.

I stipulate and agree to begin furnishing the above coal upon demand and continue furnishing same so long as requested in the spring of 1917 and will furnish more or less than the two thousand (2000) tons above specified, as the needs of said Board of Trustees require, at the above price and upon the same terms and conditions.

I pledge for myself, my heirs, executors, and administrators to faithfully meet and carry out the stipulations and agreements herein above set forth and contained.

Witness my hand this 10th day of July, 1916.

Signed in presence of

J. E. Shatzel
