Bowling Green State University

April 5, 1982

New optimism

Pending legislation holds promise for Bowling Green

Bowling Green continues to ride a budgetary rollercoaster controlled by state legislators who last week took some promising steps to ease both the state's and University's fiscal woes.

Dr. Richard Eakin, executive vice provost for planning and budgeting, will give a detailed report on the University's financial condition at the next meeting of the Faculty Senate (April 20).

At that meeting he will outline the series of state reductions in subsidies during 1981-82, including the status of Senate Bill 530 which calls for increased taxes combined with the possibility of additional subsidy cuts. That bill passed the Senate late last week.

Current budgetary planning and spending restrictions would enable the University to offset additional cuts of up to three percent, Eakin said.

He added that Bowling Green, like the state, would have no opportunity to balance its budget before June 30 unless the state legislature acts quickly on a tax package such as S.B. 530 to ease Ohio's financial crisis. He said he believes state agencies will be exempted by some action of the legislature from their legal responsibility to end this fiscal year in the black if a tax package is not forthcoming.

Although at MONITOR's press time Bowling Green still had not received word of the exact amount of the anticipated next state cut, a \$1 million estimate has been given by the chancellor of the Ohio Board of Regents. Eakin said the University is operating under the assumption that it will receive total cuts of about seven percent (or \$2.4 million) in the \$34.4 million state appropriation provided in Amended Substitute House Bill 694 passed by the legislature last November.

It is anticipated that these subsidy losses will all be made up through the operating budget cuts and spending restrictions ordered by Interim President Ferrari in January,

Olscamp to visit campus this week

Dr. Paul J. Olscamp will this week make his first visit to campus since being named March 15 to be the University's eighth president.

Olscamp, who is planning several visits to campus before leaving the Western Washington University presidency later this summer, will be meeting with various groups as he begins the process of fully acquainting himself with Bowling Green.

He will be on campus Wednesday through Friday.

WBGU-TV (Channel 57) will broadcast a Wednesday "meet the press" session with Olscamp at 11:30 p.m. April 7.

During the program Olscamp will give brief remarks and answer questions from representatives of the area media.

including the initial general hiring freeze and subsequent modifications to permit selective replacements, which are expected to net a \$425,000 savings during this fiscal year.

The replacement policies, which have been enforced since University started to wrestle with financial problems in January, 1981, have resulted in a significant reduction in the work force through normal attrition.

According to statistics from the Office of Personnel Support Services, 1,085 full-time classified staff were on the University payroll on Jan. 1, 1981. As of last Wednesday (March 31), the number of classified staff had dropped by nearly 7 percent to 1,011, with 43 unfilled positions in the operations areas.

The overall size of the faculty and contract staff has been reduced through normal attrition by about three percent since a policy of selective replacement was instituted by Ferrari. The number of full-time faculty as of March, 1982, is down 23 from the 737 employed eighteen months ago. Ten contract positions have gone unfilled since November, 1981, when there were 347 contract staff on the payroll, according to figures from the Office of Planning and Budgeting.

In addition to the \$425,000 saved through the hiring and replacement policies, an additional \$850,000 is expected to be realized from January operating budget cuts of up to 10 percent in the academic areas and 25 percent in the non-instructional areas.

Other savings have been achieved through increased overhead charges to auxiliary operations such as the ice arena, intercollegiate athletics, Student Recreation Center and Health Center; restrictions on travel; and the lapsing of contingency reserves.

Eakin praised the cooperative efforts of faculty, staff and administrative officers in meeting this year's budget goals. "Through the sacrifice and dedicated service of the University community we have come through a difficult period of budget uncertainty with a relatively high degree of stability," he said.

"While budget planning for the remainder of the current year and 1982-83 will continue to demand the best efforts of all, I believe that we will be able to deal successfully with budgetary considerations for the remainder of this biennium."

Good seats remain for 'Stars on Ice'

Good seats are still available for the Friday evening and Saturday afternoon performances of "International Stars on Ice," to be presented in the Ice arena at 8 p.m. April 23 and at 2 and 8 p.m. April 24.

Only a few seats, however, are still available for the Saturday evening show.

Tickets, priced at \$6 each, can be purchased at the Memorial Hall ticket office.

An open letter to the faculty and staff

Dear Faculty and Staff:

My wife and I wish to express deep appreciation to faculty, staff, students, alumni and friends of the University for the many letters and phone calls we have received in recent days. We are gratified by the messages of support and affection.

During the next few months, I plan on assisting Dr. Paul Olscamp in bringing about an effective transition. It is my firm belief that the University is in a sound condition, academically and financially, and the period ahead can be one of far greater distinction, even in the face of today's financial constraints and uncertainties. I am confident that you will extend to Dr. Olscamp your views and cooperation in meeting the immediate challenges and long-run opportunities of the University in ways that continue to promote its academic reputation and vitality.

With warm regards,

Michael R. Ferrari

Michael R. Ferrari

An exhibit of sculpture by T.P. Curtis of St. Louis is now on display in the McFall Center Gallery. Concerned with expressing the contrasts between the simpler ways of the past and the technological age in which we live, Curtis creates sculptures which illustrate how utilitarian farm implements from the past have become playthings in the computer age. The McFall exhibit includes sculptures as simple as a sled made of logs and as abstract as objects recognizable only to the sculptor.

Rec Center offers spring programs

Registration for special programs to be offered during spring quarter at the Student Recreation Center will begin Monday, April 5, and continue through April 16 in the Rec Center office.

Among the offerings are learn to swim programs for children and adults, the popular noon exercise program T.O.N.E., Slimnastics, Aerobics, Cycling, Windsurfing and Weight Control.

Following is a schedule of spring quarter programs. A complete listing is available in the Rec Center office.

LEARN TO SWIM PROGRAM

Cost: \$5

Waterbabies (3-12 months)—Saturday, 9:30-10 a.m.
Goldfish (12-24 months)—Saturday, 10:15-11 a.m.
Pre-Beginners (3-5)—Saturday, 11-11:45 a.m.
Beginners—Saturday, 9:30-10:20 a.m.
Advanced Beginners—Saturday, 9:30-10:20 a.m.
Intermediates—Saturday, 9:30-10:20 a.m.
Swimmers—Saturday, 10:30-11:30 a.m.
Diving—Saturday, 10:30-11:20 a.m.
Adults—Thursday, 7-8 p.m.
Swimnastics—Tuesday, Thursday, 8-8:45 p.m.
Skin Diving—Monday, 8-9 p.m.

SPECIAL PROGRAMS

T.O.N.E.—noon to 1 p.m. Tuesday and Thursday or Monday and Wednesday, \$5
Slimnastics—4-4:45 p.m. Monday and Wednesday or 7-7:45 p.m. Tuesday and Thursday, \$5
Aerobics—4-4:45 p.m. Monday and Wednesday or 4-4:45 p.m. Tuesday and Thursday, \$5
Run and Lift (women only)—6:30-8 p.m. Tuesday and Thursday, \$5
Soapercise—3-4 p.m. Wednesday
Kayaking—7:30-9:30 p.m. Wednesday, \$15
Cycling—April 24, 1-4 p.m.; May 8, 1-5 p.m.; May 15, 1-5 p.m., \$5.
Dance—Saturday, 10-11:30 a.m. or noon to 1:30 p.m.
Windsurfing—Monday and Thursday, 3:30-5 p.m. or 1:30-3 p.m., \$30
Weight Control—Monday, 7:30 p.m., \$5.

One-day clinics in tennis, racquetball and weight training for men and women also will be offered throughout the quarter for a \$2 fee.

Most programs begin the third week of April.

Outdoor fit trail to open April 15

An official ribbon-cutting ceremony for the new 1.75 mile Fitness Trail at the eastern edge of campus is scheduled at 4 p.m. Thursday, April 15.

The trail, which follows existing campus streets, features 18 exercise stations with such equipment as vault bars and overhead ladders to develop strength, flexibility and muscle endurance in a program that combines running, jogging and walking.

The self-paced trail, open to students, faculty, staff and the Bowling Green community, has three fitness levels: beginner, intermediate and advanced. Signs at each of the 18 stations give directions for the exercise according to each fitness level.

The cost of the trail was approximately \$10,000, raised through private gifts from faculty, staff and local residents. The labor to install the stations was supplied at no cost by the Civilian Conservation Corps based in Green Springs.

Following the April 15 dedication, refreshments will be served in the Hooley Conference Room of the Student Recreation Center.

Nancy Condit, a senior graphic design major, is like most people—she enjoys seeing the results of her work. However, most people don't have billboard-sized copies of their creative efforts. Five billboards, each carrying her design for Crimestoppers, a Wood County law enforcement agency effort to gain public support for solving crimes, mark the main entrances to the city of Bowling Green. Condit developed the design for George Postich, vice president for operations, who is a member of the Crimestoppers board of directors. Thomas Davenport, art, recommended Condit for the task.

Research committee awards 57 grants

Awards totaling \$110,348 have been granted to 57 faculty by the Faculty Research Committee for use during the fiscal year 1982-83.

The FRC awards include five full-time research associateships, 43 part-time associateships and 12 research expense grants.

Another five proposals have been granted alternate standing and will be funded if FRC dollars are returned by faculty whose projects receive external support.

The research associateships are salary awards which allow faculty to devote concentrated efforts to research activities during the summer months.

Full-time awards call for 100 percent effort and the agreement of the recipient not to engage in other employment during the summer term. Part-time associateships call for 50 percent effort of the recipient, who is asked to limit other teaching activities to no more than one four-hour course (or the equivalent) during the summer.

Research grants are intended to provide funds for supplies, minor equipment, temporary employment and travel directly related to and required by a project.

Recipients of awards for the 1982-83 program were selected from among 82 applicants.

The full-time associateships were awarded to Dr. William D. Hann, biological sciences; Dr. Stan Lee Smith, biological sciences; Dr. Tsanyen Yang, biological sciences; Dr. H. Kenneth Hibbeln, political science, and Dr. Patricia Ann deHaas, psychology.

Hann will study cytomegalovirus isolation; Smith will study the physiology and endocrine regulation of ecdysone 20-monooxygenase, and Yang will study bacterial oxidases.

Hibbeln, who also received a \$500 research grant, will use his award to study management and policy responses to resource scarcity, specifically the case of marine fisheries. deHaas will study the attention styles, impulsivity and peer relationships of hyperactive and normal boys and girls.

Receiving part-time associateships were:

Norman N. Eckel, accounting and MIS, for an empirical examination of the impact of earnings variability on the capitalization rates of equity investors;

Dr. Gerald E. Auten, economics, to study the incentive effects of federal individual income taxes, specifically charitable contributions;

Dr. M. Neil Browne, economics, to research the implicit morality of Posner's rationale for fault liability;

Dr. James Bissland, journalism, to study alienation in the newsroom: perceptions of powerlessness among American journalists;

Dr. Donald Campbell, management, to research the interactive effects of goal-setting and task enrichment on task performance;

Dr. Ken I. Kim, management, to formulate a process model for quality

circle implementation.

Also receiving part-time associateships were:

Eloise McKittrick, home economics, to study the impact of inflation and energy costs on the housing consumption behavior of the elderly;

Dr. Martha Gonter, special education, to research the acquisition of sign language and English by deaf and hearing fraternal twins of deaf parents;

Dr. John E. Bentley, music performance studies, to study the eighteenth century oboe concerto as performed at the court of Prince Alexander Ferdinand in Regensburg, Germany (Bentley also received a \$475 research grant);

Vincent J. Corrigan, music composition/history, to research the role of modal transmutation in the system of Medieval rhythm.

Other recipients of part-time associateships were:

Dr. Harvey Harrington, biological sciences, who will use the award and a \$1,775 research grant to study the involvement of calmodulin in Ca^{2+} - stimulated amino acid transport into cultured tobacco cells;

Dr. Stephen Vessey, biological sciences, to continue a long-term population study of the white-footed mouse;

Dr. William Scovell, chemistry, to study the mechanism of action of an anti-tumor drug (he also has a \$500 research grant);
Dr. Vakula Srinivasan, chemistry, to research the electrocatalytic reduction of oxygen using 4-4' diamino 2-2' bipyridine complexes of ruthenium (he also received a \$550 research grant);

Dr. Barbee T. Mynatt, computer science, to compare cognitive complexity with software complexity, a study of computer algorithms;

Dr. William Grant, English and American studies, to study American short story writers prior to World War II;

Dr. Sue Ellen Campbell, English, to complete a paper on the British painter, novelist and critic Wyndham Lewis;

Dr. Bruce Edwards Jr., English, to explore and evaluate new methodologies of discourse analysis;

Dr. Vivian Patraha, English, to study first-person narrative in Myrna Lamb's plays;

Dr. Patricia Remington, ethnic studies, for a project in Sri Lankan ethnography: pluralism and female roles and stratification (she also received a \$350 research grant);

Dr. Klaus Schmidt, German and Russian, to complete a series of computer-generated conceptual glossaries and a conceptual dictionary of Medieval German epics from the high courtly period;

Dr. Kenneth Kiple, history, to compile a history of blacks in Brazil;

Dr. John L. Hayden, mathematics and statistics, to study finite geometries;

Dr. Fred McMorris, mathematics and statistics, to compare classifications by consensus techniques;

Dr. Michael Bradie, philosophy, to study the philosophy and physics of space and time;

Dr. Donald Scherer, philosophy, to characterize the value conflicts to which environmental ethics must respond;

Dr. Lewis Fulcher, physics and astronomy, to study the Bowling Green fault and gravity surveys in Wood and Hancock counties;

Dr. Ronald Stoner, physics and astronomy, to research x-ray diffraction measurements on nitrogen-methane mixtures near the melting point;

Dr. Dennis Anderson, political science, to study Ohio's experience with voter registration and its impact on turnout;

Dr. William C. Spragens, political science, to conduct a content analysis of newspaper coverage of Carter-Reagan ERA summit conferences, including a case study of the 1978 Camp David summit conference;

Marilyn Motz, popular culture, to study the image of the family in Midwestern women's photography albums, 1880-1920;

Dr. Harry Hoemann, psychology, to research the development of communication skills in deaf and hearing children;

Dr. Douglas G. Ullman, psychology, to study hyperactivity and identify subtypes of diagnostic policies and children;

Dr. Boleslav Povsic, romance languages, to study colloquial expressions in Terence's comedies;

Dr. Joseph E. Jacoby, sociology, to study the practices for legislating change in mental health procedures (he also received a \$1,000 research grant);

Dr. Jerry W. Wicks, sociology, to complete a 1980 Ohio crime atlas, a resource for criminologists and criminal justice administrators;

Dr. Gary Edgerton, speech communication, to study the history, development and demise of the United States Film Service, 1938-1940;

Dr. David Ostroff, speech communication, to research the political and ideological context of the Radio Act of 1927.

Research grants were awarded to Dr. Trevor Phillips, educational foundations and inquiry, for a child emigration study;

Dr. Dorothy Behling, home economics, for a study of fashion adoption in a northwoods lumbering town, 1915-1925;

Dr. Richard James, music composition/history, to study experimental music and the avant-garde performing ensemble, ONCE;

Dr. Elliott Blinn, chemistry, to study "metallo-ligand" complexes of metal carbonyls;

Dr. Robert Anderhalt, geology, for a petrography of sand and sandstone;

Dr. Don C. Steinker, geology, for research on foraminiferal faunules from pleistocene reefs in Barbados;

Dr. Edward Chen, history, to research the effects of the Japanese colonial economy on the development of nationalism in Korea and Taiwan;

Dr. David Weinberg, history, to study the acculturation of Eastern European Jewish immigrants in Paris, 1880-1914, and Donald J. Ehrlichman, art, for salt-glazed porcelain testing to minimize pollution accompanying firing.

HPER series initiated in memory of deaf student

Faculty and students at the University have initiated a professional series in physical education in memory of Jane E. Herrmann, the Bowling Green student killed in a car-train accident on Dec. 6, 1981, less than a week before she was to graduate.

At Bowling Green, Herrmann was enrolled in the physical education program and active in a special athletic program for deaf youth. In 1981 she represented the United States in the discus and javelin events at the World Games for the Deaf in West Germany.

Upon her death a memorial fund was established at the University by the School of Health, Physical Education and Recreation and the College of Education.

More than \$6,000 has been contributed in the student's memory and in tribute to her father who died unexpectedly of a heart attack in January.

The funds have been invested and interest earned from the investments will be used to finance the Jane E. Herrmann Professional Series in Physical Education.

The memorial fund committee of faculty and students plans to hold an annual educational event which

reflects Herrmann's lifestyle and interests, and each program also will point out the needs and concerns of the handicapped.

Events may include clinics for physical educators working with the deaf; appearances by athletes or dancers; presentations by those associated with exceptional programs for the handicapped; or workshops on other topics.

The first event in the series will be held during the 1982-83 academic year.

Office hours change for student services

A change in hours for the housing office, financial aid and student employment, and the student health service has been announced, effective with the start of spring quarter.

The housing and financial aid and student employment offices will be open Monday through Friday, 10 a.m. to noon and 1-4 p.m.

The health center will be open Monday through Thursday, 8 a.m. to 8 p.m.; Friday, 8 a.m. to 5 p.m., and Saturday, 10 a.m. to 2 p.m. The center will be closed on Sunday.

Art historian details drawing of the West

Paintings of the American West by 19th century artists are the subject of a new book by a University art historian.

"How the West was Drawn: American Art and the Settling of the Frontier" by Dr. Dawn Glanz, art, has been published by UMI Research Press. The 205-page illustrated volume is the sixth in the Ann Arbor, Mich., publisher's series of iconology studies in the fine arts.

Iconology is the study of the content of paintings, rather than artistic style or form, and how the content relates to the society in which it was created, Glanz

explained.

In "How the West was Drawn," Glanz details ways in which paintings of the Old West express major issues of the 1800s, including the conflict between civilization and wilderness, the relationship between white man and the Indians, the American sense of national mission, and the nature of American progress.

The book, her first, is based on research Glanz conducted for her doctoral dissertation and deals with four prevalent themes found in paintings from the mid-19th century: fur trappers, wild animals, pioneers and Daniel Boone.

History professor to write book on Menninger Clinic

Dr. Lawrence J. Friedman, history, has received two grants to conduct research for a book on the history of the Menninger Clinic, the nation's foremost psychiatric research center.

Friedman, who spent four months studying psychiatry and psychotherapy last fall in Topeka, Kan., as a fellow in the Menninger Foundation Interdisciplinary Studies Program, is the first historian to be granted unrestricted access to the Menninger Foundation archives.

With a \$3,000 grant from the University and a \$1,000 grant from the

Friends of the University Library and Center for Archival Collections, Friedman will begin work on the book this summer in Topeka, copying approximately 72,000 pages of personal correspondence and patient case files.

Although other books have been written on the history of psychiatry in the United States, Friedman said most have been written from the viewpoint of psychiatric staff members. He said his research will focus on patients as people. Among issues Friedman will examine is the endless debate whether Freud was a humanist or a scientist, and whether the Menninger staff has treated psychiatry and psychoanalysis as a humanity or as a "hard" science.

Other aspects of his research will focus on the Menninger family and how its members built, managed and expanded the facility. Friedman said he also will take a look at the city of Topeka, where citizens are "phenomenally tolerant of the mentally ill" and where Menninger patients are "integrated in the community."

A faculty member at Bowling Green since 1971, Friedman's previous books include "The White Savage: Racial Fantasies in the Postbellum South," published by Prentice Hall in 1970, and "Inventors of the Promised Land," published by Knopf in 1975.

He also is the author of a soon-to-be published book on abolitionists in the pre-Civil War period, for which he received a \$20,000 National Endowment for the Humanities Fellowship to aid his research.

Gargiulo appointed education intern

Dr. Richard M. Gargiulo, special education, has been selected to participate in the College of Education's administrative internship program for spring quarter.

Initiated by Dr. Sandra Packard, dean, in January, the program provides College of Education faculty with the opportunity to observe and participate in the administrative activities of the college.

Interns spend six to eight hours each week working with the dean or members of her staff in addition to their normal teaching responsibilities. There is no extra compensation or release time granted for the internship.

Gargiulo, a member of the faculty since 1974, is assistant chair and director of graduate studies in the special education department.

During winter quarter, the internship was held by Dr. Edward Fiscus, special education.

Faculty & Staff

Grants

Dr. Kenneth Alvares, psychology, and doctoral student Julio Sasaki, \$10,586 from the Social Science Research Council to fund Sasaki's dissertation study of performance evaluation in industrial psychology.

Drs. Sandra Packard and Patricia Reed, education, \$234,597 from the Ohio Dept. of Education to develop plans and curriculum in compliance with "Standards for Colleges or Universities Preparing Teachers."

Beryl Smith, financial aid, \$275,461 from the Ohio Dept. of Education to fund the Ohio Instructional Grant Program for winter 1981-82.

Publications

Francis Povsic, library, "Life of Russians as Portrayed in Young Adult Fiction," an article in the February issue of the "Journal of Reading," and "The Ukraine—Children's Stories in English," an article in the March issue of "The Reading Teacher."

Dr. Edgar Singleton, physics and astronomy, "Infrared Thermography: A Graphic Interpretation of Exitance as a Function of Surface Temperature, Emittance, and Background," an article in the March 1 issue of "Applied Optics," the journal of the Optical Society of America.

Recognitions

Dr. David G. Elsass, educational administration and supervision, has been elected chair of the Teacher Education and Certification Advisory Commission of the Ohio Dept. of Education.

A silver brooch and a pendant created by Harold Hasselschwert, art, have been selected for inclusion in the Pacific Enameling Symposium exhibit "Enamel Today" which will be on display April 1-30 in Seattle. The exhibition is sponsored by the non-profit Friends of Crafts, Inc., and by a group of Northwest enamelists.

Mark S. Kelly, music education, was elected to serve on the board of directors of the American Band Masters Association at its recent conference in Columbus.

Judy C. Price, health and community services, was elected vice-president of the Ohio Society of Allied Health Professions at the annual meeting March 6-7 in Columbus.

Also at that meeting Dr. Edward E. Morgan Jr., health and community services, was re-elected treasurer of the society.

Dr. Raymond K. Tucker, speech communication, has been chosen a visiting lecturer on research methods at Arizona State University for April 26-27. His appointment is under the auspices of the faculty development program.

Mary Wolfe, McFall Center Gallery, has been named an honorary co-chair, with artist Ernest Spring and Toledo Mayor Doug DeGood, of the Crosby Gardens Festival to be held June 26-27 in Toledo.

Presentations

Dr. Norman S. Chambers, special education, gave a presentation, "Consultative Techniques with Teachers of Handicapped Children," at the annual Intern Seminar in School Psychology Feb. 4-5 in Columbus.

The seminar was sponsored by the Ohio Dept. of Education's Division of Special Education in conjunction with the Ohio Inter-University Council of Trainers in School Psychology of which Chambers is president.

Chambers has also initiated a program to establish a communications network among the 12 Ohio colleges which offer programs in school psychology. The proposed program will be presented for peer review at the council's spring meeting.

Dr. Wallace DePue, music theory, and his sons Wallace Jr. and Alexander, both violinists, recently accompanied the Men's Chorus on a five-day tour.

Dr. Sara Derrick, home economics, gave a workshop on toy selection for the Erie

County Cooperative Extension Service on Feb. 2.

Dr. Jane Forsyth, geology, lectured on the glacial history of northern Ohio at a meeting of the Kirtandia Society of the Cleveland Museum of Natural History March 13 in Cleveland.

Dr. Warren C. Hauck, management, was a member of a panel discussing "Effective Policies for Productivity Management" at the Academy of Management meeting March 18 in Dallas.

Hauck presented a paper, "An Evaluation of Alternative Productivity Gainssharing Formulas of Use in Service Sector Industries," at the Southwest American Institute of Decision Scientists March 20 in Dallas.

Margit Heskett, emeritus, health, physical education and recreation, conducted an evening of Czechoslovakian folk dances at the International Institute of St. Petersburg on Feb. 15.

She also recently attended a motivational workshop given by Charles Digert, Ohio State University, at Springfield.

Virginia Marks, music performance studies, performed an all-Chopin recital in a "Benefit Concert for Poland" Feb. 28 in Washington, D.C.

She also video-taped a program entitled "Debut '82" for public broadcasting Feb. 25 and 26 in Columbia, S.C.

Dr. Sandra Packard, dean, education, gave two presentations at the annual meeting of the American Association of Colleges for Teacher Education Feb. 17-20 in Houston.

She was a member of the AACTE Task Force reporting on "The Status of Teacher Education in the United States" and also spoke during a session of the New Deans Institute.

Dr. Adella M. Peters, educational foundations and inquiry and director of the Center for Environmental Programs, presented a series of workshops and lectures on individualizing instruction and environmental programs during a three-week visit to Brazil.

She presented a workshop series at Our Lady of Mercy School, Rio de Janeiro, and gave presentations to faculty and graduate students at Ribeira Preto.

In Sao Paulo she met with preschool faculty and gave lectures on environmental programs.

She also visited the University of Campinas where several Bowling Green graduates are members of the educational administration faculty.

Dr. Eleanor Roemer, educational foundations and inquiry, presented a paper, "Good' Spankings: An Ethical Issue for Colleges of Education," at the Ohio Valley Philosophy of Education Society meeting Dec. 4-5 in Bloomington, Ind.

Roemer is president-elect of this society.

Dr. Gerald Saddlemyre, college student personnel, spoke on "The Changing Role of Student Personnel Officers" at the annual conference of the Ohio College Personnel Association March 5 in Findlay.

Jeanne Smith, creative arts, will perform a piano recital May 21 in the Great Gallery of the Toledo Museum of Art.

Dr. Martha Tack, educational administration and supervision; Dr. Audrey Rentz, college student personnel; and Dr. Ronald Russell, associate dean, education, collaborated in preparing a paper on "Strategic Planning: A Strategy for Institutional Survival," which has been selected for presentation at the Symposium on Academic and Management Issues for the 1980s at Kent State University on April 23.

Monitor

Monitor is published every week for faculty, contract and classified staff of Bowling Green State University. Deadline for submission of materials for the next issue, April 12, is 5 p.m. Tuesday, April 6. Editor: Linda Swaisgood. Editorial Assistants: Karen Elder, Sarah Bissland. Change of address and other notices should be sent to: Monitor, 806 Administration Building, Bowling Green State University, Bowling Green, Ohio 43403.

News in Review

Blood pressure screening set

Blue Cross of Northwest Ohio will conduct a blood pressure screening program for all University employees April 21-22. The program is being sponsored by the Personnel Steering Committee and Personnel Support Services.

The screening will consist of distribution of informational literature, measurement of blood pressure and consultation with a registered nurse. The procedure is estimated to take five to six minutes.

Personal information will be kept confidential. Only statistics on total participation and overall results will be released.

Nurses will also distribute test kit packets to identify heme-occult (hidden blood), the only early warning sign of colon-rectal cancer. The free do-it-yourself test is simple and can be conducted at home.

Location and times for the blood screening both days are as follows: Browsing Room, Union: 9 a.m.-4:30 p.m.

Physical Plant, Conference Room: 9 a.m.-noon
Harshman Dining Hall, Strawberry Patch: 9 a.m.-4:30 p.m.
Student Court, Student Services Bldg.: 1-4:30 p.m.

Last year 526 employees participated in the blood screening program. Results showed 92 percent of those tested had normal range blood pressure readings and eight percent were outside normal range. Follow-up was conducted to refer the latter group to their physicians for proper treatment.

Alumnus to give business lectures

Kempton Jenkins, a 1948 Bowling Green graduate who received the Distinguished Alumnus Award in 1972, will return to the campus Tuesday (April 6) to speak to students, faculty and staff.

A retired career diplomat with 31 years of service both in the United States and abroad, Jenkins currently

is vice president for government affairs for Armco and a professorial lecturer at Georgetown University.

He has served in such positions as president of the U.S.-U.S.S.R. Trade and Economic Council and deputy assistant secretary of commerce for east-west trade.

He received master's degrees from both George Washington and Harvard universities.

At 12:30 p.m. Tuesday he will speak on "Business in the Liberal Arts in the 1980s" in the Town Room of the University Union. At 3 p.m. he will address an MBA Forum, also in the Town Room. Both presentations are open to the public.

Religious holiday procedure defined

The Office of Personnel Support Services has issued a reminder that religious holidays (other than Christmas) are not included in the 10 holidays provided for state agencies in the Ohio Revised Code.

In an effort to make reasonable accommodations to employees' religious observances and practices, however, an employee may request time off for brief periods to attend recognized religious events that occur during normal work hours.

Leave time of up to two hours will be granted with pay. If additional time is required, an employee may elect to use vacation time or request leave without pay.

Classified staff wishing time off with pay to attend a religious service should complete the form "Leave Request-Religious Purposes" which is available in the personnel office. The form must be completed by the employee, signed and approved by the supervisor and sent to personnel for record keeping.

Arrangements for attending special services should be made at least two days in advance.

Supervisors are encouraged by the personnel office to make reasonable efforts to accommodate employees' wishes to attend special religious services. For further information, review Personnel Procedure Memorandum No. 11, Section VI.

Seminar planned on tax shelters

A forum on the benefits of tax-sheltered annuities and Individual Retirement Accounts has been scheduled by the Faculty Welfare Committee, Faculty Development Center and University Insurance Committee from 9-11:30 a.m.

Faculty/Staff Positions, 1982-83

The following faculty positions have been authorized:

Two positions

Saturday, April 17, in the Community Suite of the University Union.

Open to faculty, contract and classified staff, the seminar will include presentations by Dr. Paul Mueller, finance and insurance, and Paul Nusser, treasurer. Three representatives of firms and agencies dealing in annuities and IRAs also will participate in a panel discussion of the various tax-deferred options, and individual questions will be answered.

Bloodmobile visit set April 12-16

The Red Cross Bloodmobile will be on campus April 12-16 in the Grand Ballroom of the University Union.

Hours for each day of the visit will be 10 a.m. to 3:45 p.m.

Triathlon open to faculty, staff

The Student Recreation Center will sponsor its third annual mini-Triathlon for students, faculty and staff on May 15 as part of UAO's Goodtimes Weekend.

Offices and departments are being urged to form a three-person team of swimmers, cyclers and runners to compete in the event which will include a one-mile swim, a nine-mile run and a 25-mile cycling event.

Karen Fletcher, assistant director of the Rec Center, says you need not be a "super athlete" to compete. In addition to prizes for first, second and third-place men's and women's teams, and male and female individuals, prizes will be awarded to teams which enter in a "predicted time" category.

A mandatory meeting for everyone interested in participating in the event will be held at 8 p.m. Wednesday (April 7) in the Student Rec Center Conference Room. Richard Bowers, exercise physiologist, will discuss "How to . . . and How Not to Train."

Preliminary registration for the triathlon will be April 5-7 in the Rec Center office, where more information is also available.

Board of Trustees to meet Friday

The Board of Trustees will meet Friday (April 9) at 9:30 a.m. in the McFall Center Assembly Room.

The confirmation of Dr. Paul J. Olscamp as the University's eighth president is the only scheduled item on the agenda for the meeting, which has been moved from its originally scheduled 10 a.m. starting time.

Datebook

Exhibits

All-faculty meeting to be held Tuesday

In response to the request of a delegation of the faculty, the regular Faculty Senate meeting of Tuesday (April 6) has been canceled, and, in accordance with the Academic Charter, a general meeting of the faculty has been called at 2:30 p.m. in the Main Auditorium of University Hall.

The agenda will include a presentation and discussion of the procedures used by the Presidential Search and Screening Committee and of the events that followed the work of that committee, as well as a discussion of what many faculty perceive as a serious erosion in the mutual respect between faculty and the Board of Trustees.

All faculty, contract and classified staff are urged to attend the meeting and participate in the discussion. However, only faculty may vote on any resolution under consideration.

To ensure an orderly meeting, individuals who plan to address the meeting or offer resolutions should contact the Faculty Senate office as soon as possible.
