Greetings
Bowling Green State College extends a hearty welcome to the visiting delegates to the convention of Pi Kappa Delta, Province of the Lakes.

We wish you to enjoy your stay with us, and to this end, we have so tried to organize our efforts that your comfort and convenience may be met.

You are welcome to visit our Library and the various buildings on the campus. If any of us may serve you in any more particular way, feel free to call upon us.

J. W. CARMICHAEL, Chairman Convention Committee

Forensic Activities

On April 15, Bowling Green will engage in a debate on unemployment insurance. The affirmative side of the debate will be upheld by Colby Lung and Wilson Egbert. The negative side will be upheld by Archie Lung.

Here's to the forensics—although you may talk our heads off.

Here's to the boys in the convention (and the women too), may they bring home the pretzels and—bacon.

We hear that the varsity crew debated at Bro. Lung's church in Bradner. Did they give 'em a good sermon Lung?

In looking across the files we noticed a copy of Oct. 22, 1925, in which is recorded this house pities its grandchildren.

BOYWING GREEN IS IN RADIO TOURNAMENT

From the WEAO radio program we glean the following interesting quotation: "Seven Ohio colleges will participate in the first annual radio play tournament to be broadcast over WEAO on April 17 and 24. This tournament, the first of its kind ever held, is sponsored by the dramatic department of Ohio State University and by WEAO players." Each contestant will be allowed a half hour on the air in which to present a radio play with a cast composed of students from the competing college. The plays will be judged on effectiveness of broadcast, selection of material, and presentation.

Herman A. Miller, supervisor of dramatics at Ohio State, will act as chairman of the board of judges, which includes dramatic coaches, radio editors of Columbus, newspapers, and dramatic critics. Prof. J. V. Wilber, an Englishman of the English department of Ohio State University, will preside at the tournament.

The entries, and the names of their productions include:

April 17, 7:00 to 9:00 p. m.
Bowling Green State College (Play Production Class), "A Thwarted Elopement", by Florence S. Chubbuck.
Mt. Union College (College Players) "The Valiant" by Hull and Middlemass.
Baldwin-Wallace, "The Valiant" by Hull and Middlemass.
Defiance College (The Purple Masque), "Rhyme Vot Reasons", by Ethelyn Sexton.
April 24, 7:00-8:30 p. m.
Marietta College (Marietta College Players), "The Valiant", by Hull and Middlemass.
Wilberforce University (Wilberforce Players), "The Valiant", by Hull and Middlemass.

The cast for the play "A Thwarted Elopement" which Bowling Green will present has been picked with the exception of one reporter who will possibly be picked outside the class.

Elise Fenton, sister of Connie—Grace Lathrop.
Connie Fenton, the eloping daughter—Helen Walrath.
Mrs. Fenton, the mother—Olivia Gander.
Dave Spaulding, the lover—Harry Traub.
Harrison, the chauffeur—Allen Scott.
Porter—Byron Kennedy.
1st Reporter—Shearns.
2nd Reporter—Callin.
3rd Reporter—Kendall.
4th Reporter—
Four others may be taken along to aid in the mob scene during the accident.

The story of the play runs thus:
As Elise and Connie Fenton are preparing to leave, ostensibly for college, Connie confides in her sister the fact that she has no intention of going to college but is preparing to elope with Dave Spaulding. These two take a train for Cincinnati where they are to be married by Dave's frat brother. Upon arrival the elopers meet Mrs. Fenton. This situation is all the more complicated when their taxi becomes involved in a wreck. A group of inquiring reporters flees from the mother the information that her daughter is to be married, and the couple returns to the Fenton home.

DR. OVERMAN PUBLISHES BOOK

Dr. Overman, our versatile Dean of the Arts College, and Dean of Men, has recently completed and published a new book. This adds to the list of the doctor's publications and places him well in the ranks of American writers. His other books are: "Principles and Methods of Teaching Arithmetic", 1920 (revised 1926), "A Course in Arithmetic for Teachers and Teacher Training Classes", 1923. Doctor Overman has also contributed to such magazines as "Mathematics Teacher" and "School Science and Mathematics."

His latest work, "An Experimental Study of Certain Factors Affecting Transfer of Training in Arithmetic", has just been published by Warwick and York Co., of Baltimore, as the twenty-ninth book in the series of Educational Psychology Monographs. The work is a treatment, as the title indicates, of the pedagogy of mathematics teaching. Dr. Overman deserves to be complimented on this, his latest achievement.

BOOK & MOTOR ELECTS MEMBERS

At a recent meeting of the Book and Motor, the following were elected:
Vera Randal, Elizabeth Bensley, Leoli McKitchie, Margaret Freeman, Rozelle Kelley, Elsie Metzger, Maxine Wright.
A committee is working on arrangements for the banquet to be held in May.

Did You Know That--
The American College Fraternity had its beginning about 175 years ago.
The first fraternity was the "Flat Hat Club" of William and Mary, organized in 1758?
More than 750,000 young students have been initiated?
Of this number 600,000 are living?
There are 76 national fraternities?
There are 30 national sororities?
They consist of 3,500 chapters?
They occupy 2,600 houses?
They own 1,200 houses which cost $21,000,000?
You can find this information in the World Almanac, 1931?

BEE GEE HISTORY

Students of the college today might be going to classes on campus sites located in some other section of the city if the 1910 Normal School Commission had decided upon any one of the other three sites which were viewed on Sept. 23rd and 24th in 1910.

Briefly stated, the sites recommended as possible by the commission were as follows:

The high rolling grounds just west of Bowling Green known as the Water Works Grove.

The large groves and land to the south on the south side of Gypsy Lane (the first road south of the pavement.) There is a large gas station and barbeque stand located in the northeast, corner of the possible school site.

The lands at the north edge of Bowling Green bounded by the Poe road at the south and the Dixie highway on the west. A gas station is now located in the southwest corner of that possible site.

The lands and groves of city park and adjacent.

The commission were taken to Fremont on the next day, and a few weeks later they had completed their tour of the various places.

Rumors were numerous during the next month and many unconfirmed reports were heard that various places had won the school. During those days the Bowling Green leaders worked hard and got options for the present site and for over 300 acres in other sections of the city.

On November 22 the Toledo Blade indicated that Bowling Green and Kent would be the victorious cities in the races.

SHATZEL SNITCHES

Watchman, what of the night?

Item 1—Derivation of words: At last foreign language has found its place in life. We now know that our Dormitory was appropriately named for the word 'Shatzel' comes from the German word 'shatz' meaning sweet heart, and the word Shatzel itself is the diminutive of the word.

Item 2—One of our fair co-eds has the box complex. It's the old, old story of boxes, boxes everywhere and not a thing is found. As a result of some well-aimed teasing she decided to mobilize a "Boxer Rebellion."

Item 3—Perhaps you'd be interested to know that last Wednesday there was a tea in Shatzel Hall in honor of the new officers for the present site and for over 300 acres in other sections of the city.

A number of the faculty attended meetings of the professional associations during the spring vacation.

Dr. Kohl had quite a lecture season last week. He gave three last week and returns to Toledo for another tonight.

A FEW GOOD BOOKS

For That Spare Moment

978 A2140—Adams, James Truslow—"Our Business Civilization." A well written book that at times indicts our civilization on severe charges.

Renn, Dudwig: "War"—Although this book falls in the fiction class, we do not hesitate to recommend it as a book which vividly depicts life on the Front. Not as powerful as "All Quiet" but nevertheless a good book.

Dr. Williams attended the meeting of the House Finance committee at Columbus on Tuesday.

Reverend Siebens, of the Presbyterian church, addressed the assembly on the subject "Culture."

Education that neglects sociology leaves out an essential aid for better human relationships.

The public is learning to get as much kick out of scientific and social news as from the crime wave. When we learn to get the same kick out of telling or hearing constructive reports of our fellows as reports that destroy, there is hope of great happiness.

It may or may not interest you to know that Dr. Starch has made a careful study of family incomes reporting of the 30,000,-000 families. Nearly one-third of the families have an annual income of $3,000 or more. A little over one-third of the families have an annual income between $2,000 and $3,000. One-third of the families have an annual income of under $2,000.

INSANE AND INSENSIBLE
By E. A. S.

Well here we are again. After conglom-erating on the wise old adverbs that a stitch in time saves two in the bush, and that as ye sew so shall ye reap. I find myself reaching for my pen instead of a text book, and now set forth to write something that will not be such a destructive criticism of the "News". The following consists of gleanings from all over our Alma Mater. No special detective will ever be hired, or anyone outside of the students or faculty will ever be asked for contributions to this outstanding accumulation of nothing. * * * * The debater arose. It was evident that he had much to say if he could get started, but never before had such a situation prevailed. Instead of having as usual a gentleman for a chairman a lady occupied that honored position. How should he address her? What should he say? At last a smile came over that intelligent face, a sign of relief, an da verbal recognition of the Chairman. "Madam Queen", he said, and proceeded with the debate. * * * * "Individual study in the library please," is the old refrain on the second floor of the Library Building, and immediately faces are hid behind books while minds form thoughts that if formed into words would not pass the Boston censors. While conference is desirable for some studies, we find little re- response to the late suggestion in the "News" that we have a Conference Room. The students want, but don't know what they want, or when they want it. Let's have a Gab Room. * * * * It won't be long now before we shall re- ceive formal instructions from the chapel platform to keep off the grass. How nice it would be if the college would order a shipment of restful park benches upon which we could recline on these warm days while we study? It is evident that the grass we now having covering the campus is of a rather delicate variety and would not stand such rough treatment, therefore, what we need is a tougher variety of grass or better still more careful students.
