Lillian Gish to return for collection dedication

First lady of American cinema Lillian Gish will visit the University this weekend to attend the dedication of a collection of photographs commemorating her extraordinary acting career.

President Olscamp will dedicate the collection in honor of Miss Gish and in memory of her sister Dorothy Gish and her daughter Dorothy Gish during ceremonies Saturday, Oct. 2, during the Gish Film Theater in Hanna Hall. Because of limited seating in the theater, only a select number of invitations have been issued for the ceremony.

The photographs will go on permanent display at the theater, which is thought to be the only movie house in the nation dedicated to the Ohio native.

The first phase of a project to refurbish the Gish Film Theater has just been completed. Renovations include a new marquee entry to the theater, improvements to the movie projection area and creation of an area displaying the photographs which trace the careers of the Gish sisters. A planned second phase of renovations will make further improvements to the theater.

Miss Gish, who will receive a Kennedy Center award for artistic achievement as a performer in December, made her stage debut at the age of 5 in the village of Risingsun, about 20 miles southeast of Bowling Green.

She and her younger sister spent much of their childhoods traveling with their mother in theatrical troupes which toured the East and Midwest. They eventually settled in New York City, where Miss Gish still lives.

With the longest career of any Hollywood performer, male or female, Miss Gish has appeared on the screen in every decade of this century since her first film with D.W. Griffith in 1912 and her roles have numbered more than 100 films — many of them landmarks in the history of motion pictures.

Dorothy Gish, who was described as a “female Chaplin” and who Miss Gish said was the more talented of the two sisters, appeared in films as “Hagar Neff,” “Hearts of the World” and “Orphans of the Storm,” among many others during their salad days in New York and Hollywood.

The photographic display to be dedicated Saturday includes photos shown in 1980 at New York’s Metropolitan Museum of Modern Art in conjunction with a retrospective of Lillian Gish’s films.

Upon learning of the New York exhibit, the late President Hollis A. Moore became interested in acquiring the photographs for the University, according to James Hodge, director of development.

“Dr. Moore’s vision of having an area in the theater dedicated to Dorothy and Lillian Gish and the photographs could be displayed permanently,” Hodge said.

Miss Gish sent a tape of the display to the University in 1981 with the aid of MOMA and the generosity of Howard Beilplate, James R. Good and Ronald M. Cohen of New York, all University alumni, and Dr. Ralph H. Wolfe, English, Hodge said.

In addition, there are photographs relating to events in the personal lives of Dorothy and Lillian Gish and to Miss Gish’s association with Bowling Green over the last half dozen years.

Miss Gish first visited Bowling Green in 1976 when the Gish Film Theater was dedicated, and she was presented with an honorary doctor of performing arts degree in recognition of her role in the development of the American film industry.

She returned to the campus in the fall of 1976 for the opening of the theater’s inaugural season and visited the University again in the fall of 1978 when she was presented the Popular Culture Association Achievement Award and was the keynote speaker for a year-long American film retrospective at the Gish Film Theater.

Throughout the years since her first visit, she has continued to express interest in the University’s film studies program and its students and has endowed a Dorothy and Lillian Gish Scholarship in Film Studies.

Mindpower campaign salutes education in state and nation

Today begins National Higher Education Week, bringing to a conclusion a year of activities aimed at enhancing the overall image of higher education in the eyes of the general public.

During the year, the Council for the Advancement and Support of Education has sponsored a “Mindpower” campaign, dedicated to the principle that “America’s energy is mindpower” and urging business, industry, government and the public to “make higher education a higher priority because educated people solve problems.”

Magazines such as Newsweek, Time, U.S. News & World Report, People, Sports Illustrated and Reader’s Digest have supported the campaign with full-page advertisements conveying the Mindpower message, and the ABC, CBS and NBC TV networks and other broadcast media have contributed more than $3 million worth of air time to features and public service announcements of the Mindpower message.

National Higher Education Week received a televised kick-off on Saturday, Oct. 2, during the NCAA football games. On Sunday, Mindpower Day was observed at the World’s Fair. Professors will have their day on Thursday when the national 1982 Professor of the Year will deliver a public lecture at the Smithsonian Institution in Washington, D.C., and on Saturday a national convention will take place at the Jefferson Memorial in observance of National Higher Education Week.

In Ohio Gov. James Rhodes has proclaimed this week as Ohio Higher Education Week, citing the opportunities provided by higher education in the state during the past 200 years, the commitment of higher education to the intellectual growth and career development for all its citizens and the important role the state’s colleges and universities will play in Ohio’s economic revitalization.

The proclamation is designed to focus attention on the contributions in teaching, research and public service made to the state and nation by Ohio’s colleges and universities, their faculties and graduates.
Member of British Parliament to lecture on foreign policy

The Right Honourable Sally Oppenheim, a member of the United Kingdom Parliament and a former member of the Shadow Cabinet, will discuss "The Foreign Policy of the United Kingdom" at 8 p.m. Tuesday (Oct. 5) in the Grand Ballroom of the University Union. Oppenheim resigned her Cabinet post earlier this year because of the pressures of her business responsibilities following the death of her husband.

A popular and well-known radio and television personality in Britain, the 52-year-old mother of three entered national politics in 1970 when she was elected to Parliament from the East of the heating plant for a three-day period. In 1979. At the same time, Oppenheim was appointed minister of state for consumer affairs, and in 1974 she was appointed Front Bench Opposition Spokesman on Prices and Consumer Protection.

As minister of state for consumer affairs, Oppenheim was responsible for the administration of policy on all aspects of consumer affairs, and in 1974 she became chairman of the Conservative Party for the Prevention of Townswomen's Guilds.

During her speech she is expected to discuss the recent war in the Falkland Islands and the British decision to ignore U.S. protests and ship equipment to the Soviet Union for use in the Russian gas pipeline.

Faculty Senate

In the Sept. 27 issue of Monitor it was incorrectly noted within the context of the Faculty Senate news that Dr. Peter Hutchinson, economics, an administrative intern in the president's office this year, will represent President Olsccamp at Faculty Senate meeting on Oct. 7.

In fact, Olsccamp will attend meetings himself whenever possible and will continue the tradition of addressing the senate as circumstances warrant. Hutchinson also will attend the meetings in his new administrative capacity.

Construction began in July on the Biological Sciences Laboratory Annex which will provide some 7,252 square feet of space to house the University's animal laboratories. The facility is being built with a $1.2 million state appropriation from last year's capital spending bill and a $137,000 federal grant which will be used to purchase equipment for the building. Target date for completion of the annex is Jan. 1984.

Regents seek $929 million for 1984 operating budget

The Ohio Board of Regents has set four priority areas in making recommendations to the General Assembly for the 1983-84 higher education operating budget:

- Full funding for actual enrollments;
- Offsetting anticipated cost increases;
- Halting rapid increases in student fees;
- Increasing financial aid to needy students.

The total budget recommended for sustaining operations at the state's 65 college and university campuses in fiscal 1984 is $929 million, an eight percent increase over last year's appropriation level and an 18 percent increase over funding received last year as a result of state budget reductions. For fiscal 1985 the Regents have recommended another seven percent increase for a total appropriation of $1.025 billion.

The Regents' recommendation calls for providing full funding of actual enrollments, assuming modest enrollment increases of about one percent during the biennium. It also seeks to offset cost increases of seven percent anticipated each year for faculty and professional staff, library acquisitions, utilities and supplies.

The board has proposed reducing the students' share of costs from the current 44 percent to 40 percent in fiscal 1984 and 38 percent in fiscal 1985. Recommendations also call for a five percent increase each year in the Ohio Instructional Grant program for students with financial need and for a 15 percent cut in the general support fund for the University. That's a lot of new mail for the University. That's a lot of letters for the seven full-time employees who staff the facility. Plan is how to help the post office better serve you if you're in the Business Office Procedures Manual which has been mailed to every office and department on campus. Additional copies of the manual, which also includes cost-saving suggestions, are available in the auditor's office, Room 504 of the Administration Building.
Grants

Dr. Elliott Bilton, chemistry, $13,000 from the American Petroleum Society - Petroleum Research Fund to prepare and analyze heteromeric complexes.

Dr. Dwight Burlingham, library, $840 from the U.S. Dept. of Education to purchase resources for the library.

An identical grant was received by Charles Stocker, Firelands, for the Firelands Library.

Dr. C. Menne Polydoro, biological sciences, $38,229 from the Public Health Service, Dept. of Health and Human Services, to cover salary, fringe benefits and indirect research costs for a year while he conducts research on the metabolism of helminthic parasites. This renewal grant allows advanced pre- internship trainees to gain a wide range of training experiences, both within and outside the University's Psychological Services Center.

Dr. Donald Kaucsh, psychology, $9,000 from the Ohio Dept. of Mental Health to provide stipends to trainees who serve in mental health institutions or agencies.

Dr. Sooja Kim, home economics, $1,300 from the University's biomedical research support program for research on "Alteration of Extracellular Fluid Volume in Two Major Compartmental Situations in Traumatized Aged Rats."

Dr. Ann-Marie Lancaster, computer sciences, $25,000 in computer equipment from the Dean's Committee Special Equipment Grant Program. The University also loaned computer graphic equipment for instructional use in computer graphics courses.

Dr. Donald Scherer, philosophy, $583 from the Ohio Humanities Council to conduct public meetings during September in Fremont, Upper Sandusky, Bedford and Cambridge to present the question, "What should be the goal of U.S. political policy?" The meetings will include presentation of the discussion videotape, "War Without Winners."

Beryl Smith, financial aid and student employment, $185,382 from the U.S. Dept. of Education for the Summer Opportunity Grant program for students with exceptional financial need.

The University also has received $253,979 from the Dept. of Education as its 1982-83 work study program allotment. This student aid program provides a maximum of ten percent of the wages for eligible student employees.

In addition, Bowling Green received $1,115,540 from the U.S. Dept. of Education for the Pell Grant program (718/82-63065).

Dr. Larry Smith, humanities, Firelands, $583 from the Ohio Arts Council to publish a book of works by north-central Ohio poets. Smith is director of the Firelands Writing Center.

Jack Taylor, developmental education, $156,237 from the U.S. Dept. of Education to provide individualized academic and credit-bearing services for disadvantaged students.

Dr. R. Coon Woodruff, biological sciences, $3,000 from his department at the National Institute of Environmental Health Sciences to pursue his research on mutator genes.

The award is made through the Research Career Development Program. Funding covers salary, fringe benefits and related costs of up to three years to allow the awardee more time to his genetic research with mice.

He also received $7,571 from the American Cystic Ductal Foundation to determine if one water soluble chemical supplied by American Cystic is mutagenic in fruit flies.

Dr. Orlando Nehring, management, received the Organizational Behavior Division’s "Outstanding Competitive Paper Award" at the Academy of Management’s annual meeting in Atlanta.

This is the third year that she has been elected to the academic affairs office, 372-2915.

For further information, contact Norma Sticker in the academic affairs office. 372-2915.

Faculty & Staff

Grants

Dr. Lewis Fulcher, physics and astronomy, $7,219 from the Quaker State Oil Foundation to explore the feasibility of using gravity data to define more clearly the extent of the Berea sand channels in Ashland County.

Dr. Robert Goulon, psychology, $8,300 from the American Psychological Association, Inc., as continued support for the "Journal of Applied Psychology," which he edits.

Dr. Donald Kaucsh, psychology, $9,000 from the Ohio Dept. of Mental Health to provide stipends to trainees who serve in mental health institutions or agencies.

Dr. Soonja Kim, home economics, $1,300 from the University's biomedical research support program for research on "Alteration of Extracellular Fluid Volume in Two Major Compartmental Situations in Traumatized Aged Rats."

Dr. Ann-Marie Lancaster, computer sciences, $25,000 in computer equipment from the Dean's Committee Special Equipment Grant Program. The University also loaned computer graphic equipment for instructional use in computer graphics courses.

Dr. Donald Scherer, philosophy, $838 from the Ohio Humanities Council to conduct public meetings during September in Fremont, Upper Sandusky, Bedford and Cambridge to present the question, "What should be the goal of U.S. political policy?" The meetings will include presentation of the discussion videotape, "War Without Winners."

Beryl Smith, financial aid and student employment, $185,382 from the U.S. Dept. of Education for the Summer Opportunity Grant program for students with exceptional financial need.

MONTOR is now accepting "opinions to the editor" from faculty, classified and administrative staff.

Publication of commentaries will be reserved for the last Monday of each month. Items for each month's issue must be submitted to MONTOR no later than the 15th of that month to ensure consideration for publication.

Questions about the procedures for submitting commentaries should be addressed to Linda Swaingood, editor, MONTOR, in the Office of Public Relations, 372-2066.

Put it in writing. MONITOR is now accepting "opinions to the editor" from faculty, classified and administrative staff.

Morning recreation. The Student Recreation Center is now open, effective Oct. 1, 7 a.m. to midnight. Early morning swimming is also being offered on a trial basis on Mondays, Wednesdays and Fridays, when the Coop Pool will be open for lap swimming from 7 a.m. to 2 p.m. LiFT members are reminded that their tickets are also valid now both in the early morning and at noon.

The University Theatre presents, in its 1982-83 main season with a production of "The Elephant Man." Oct. 7 and Oct. 13-16 in the Main Auditorium of University Hall. The award-winning drama retells the life of John Merrick, who despite his hideously deformed body was a remarkably intelligent, sensitive man. Curtain time is 8 p.m. nightly, and a 3 p.m. matinee will be presented Oct. 16. Ticket information is available by calling 372-2719 or 372-2222.

The Right Honourable "John Gluckstadt," German film with English subtitles, 7:30 p.m., Gish Film Theater, Hanno Hall, Fee.

The Right Honourable Sally Oppenheim, member of the United Kingdom Parliament and a former member of the executive cabinet, will speak on "The Foreign Policy of the United Kingdom," 8 p.m., Grand Ballroom, University Union.

Auditions for the Tree House Troupe, the University's traveling children's theater company, 7 p.m., Room 400, University Hall. Course credit is available for participation.
