### Lillian Gish to return for collection dedication

First lady of American cinema Lillian Gish will visit the University this weekend to attend the dedication of a collection of photographs commemorating her extraordinary acting career.

President Olscamp will dedicate the collection in honor of Miss Gish and in memory of her mother Mary McConnell Gish and her sister Dorothy Gish during ceremonies Saturday (Oct. 9) evening at the Gish Film Theater in Hanna Hall. Because of limited seating in the theater, only a select number of invitations have been issued for the ceremony.

The photographs will go on permanent display at the theater, which is thought to be the only movie house in the nation dedicated to the Ohio natives.

The first phase of a project to refurbish the Gish Film Theater has just been completed. Renovations include a new marquee entry to the theater, improvements to the movie projection area and creation of an area displaying the photographs which trace the careers of the Gish sisters. A planned second phase of renovations will make further improvements to the theater.

Miss Gish, who will receive a Kennedy Center award for artistic achievement as a performer in December, made her stage debut at the age of 5 in the village of Risingsun, about 20 miles southeast of Bowling Green.

She and her younger sister spent much of their childhoods traveling with their mother in theatrical troupes which toured the East and Midwest. They eventually settled in New York City, where Miss Gish still lives.

With the longest career of any Hollywood performer, male or female, Miss Gish has appeared on the screen in every decade of this century since her first film with D.W. Griffith in 1912 and has starred in more than 100 films — many of them landmarks in the history of motion pictures.

Dorothy Gish, who was described as a "female Chaplin" and who Miss Gish still contends was the more talented of the two sisters, appeared in such films as "Nugget Nell," "Hearts of the World" and "Orphans of the Storm," among many others during the early days of Hollywood.

The photographic display to be dedicated Saturday includes photos shown in 1980 at New York's Metropolitan Museum of Modern Art in conjunction with a retrospective of Lillian Gish's films.

Upon learning of the New York exhibit, the late President Hollis A. Moore became interested in acquiring the photographs for the University, according to James Hodge, director of development.

"It was Dr. Moore's vision to have an area in the theater dedicated to Dorothy and Lillian Gish where the photographs could be displayed permanently," Hodge said.

That vision has been kept alive since Dr. Moore's death in 1981 with the aid of MOMA and the generosity of Howard Beplate, James R. Good and Ronald M. Cohen of New York, all

Lillian Gish, first lady of American cinema, will return to campus this weekend to view the recently renovated Gish Film Theater in Hanna Hall and to attend the dedication of a collection of photographs commemorating her acting career and that of her late sister Dorothy.

University alumni, and Dr. Ralph H. Wolfe, English, Hodge said.

Among the photographs in the display are stills from the films "An Unseen Enemy" (1912), "The Mothering Heart" (1913), "Way Down East" (1920), "Orphans of the Storm" (1921), "The Scarlet Letter" (1926), "Nell Gwyn" (1926), "The Night of the Hunter" (1955) and "A Wedding" (1978).

In addition, there are photographs relating to events in the personal lives of Dorothy and Lillian Gish and to Miss Gish's association with Bowling Green over the last half dozen years.

Miss Gish first visited Bowling Green in 1976 when the Gish Film Theater was dedicated, and she was presented with an honorary doctor of performing arts degree in recognition of her role in the development of the American film industry.

She returned to the campus in the fall of 1978 for the opening of the theater's inaugural season and visited the University again in the fall of 1979 when she was presented the Popular Culture Association Achievement

Award and was the keynote speaker for a year-long American film retrospective at the Gish Film Theater.

Throughout the years since her first visit, she has continued to express interest in the University's film studies program and its students and has endowed a Dorothy and Lillian Gish Scholarship in Film Studies.

### President's address to be rebroadcast

President Olscamp's address to the University community on Friday, Oct. 1, was taped in its entirety by WBGU-TV and will be rebroadcast via closed circuit television Channel 7 at 9:30 a.m. Monday (Oct. 4).

Television monitors carrying the address are located in classrooms and lounges throughout the campus.

### Mindpower campaign salutes education in state and nation

Today begins National Higher Education Week, bringing to a conclusion a year of activities aimed at enhancing the overall image of higher education in the eyes of the general public.

During the year, the Council for the Advancement and Support of Education has sponsored a "Mindpower" campaign, dedicated to the principle that "America's energy is mindpower" and urging business, industry, government and the public to "make higher education a higher priority because educated people solve problems."

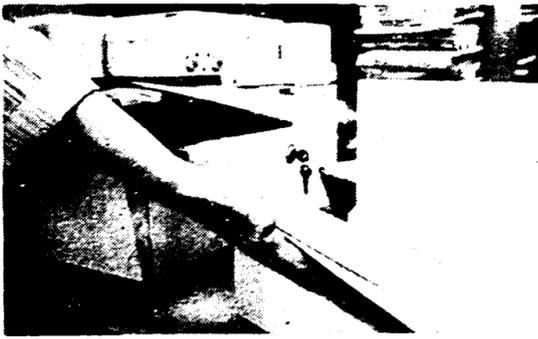

Magazines such as Newsweek, Time, U.S. News & World Report, People, Sports Illustrated and Reader's Digest have supported the campaign with full-page advertisements conveying the Mindpower message, and the ABC, CBS and NBC-TV networks and other broadcast media have contributed more than \$3 million worth of air time to features and public service announcements of the Mindpower message.

National Higher Education Week received a televised kick-off on Saturday, Oct. 2, during the NCAA football games. On Sunday, Mindpower Day was observed at the World's Fair. Professors will have their day on Thursday when the national 1982 Professor of the Year will deliver a public lecture at the Smithsonian Institution in Washington, D.C., and on Saturday a national convocation will take place at the Jefferson Memorial in observance of National Higher Education Week.

In Ohio Gov. James Rhodes has proclaimed this week as Ohio Higher Education Week, citing the opportunities provided by higher education in the state during the past 200 years, the commitment of higher education to the intellectual growth and career development for all its citizens and the important role the state's colleges and universities will play in Ohio's economic revitalization.

The proclamation is designed to focus attention on the contributions in teaching, research and public service made to the state and nation by Ohio's colleges and universities, their faculties and graduates.

**Trustees to meet.** The Board of Trustees will meet at 10 a.m. Friday (Oct. 8) in the McFall Center Assembly Room.

**Mail know-how.** Last year the campus post office handled nearly six million pieces of out-going and incoming mail for the University. That's a lot of letters for the seven full-time employees who staff the facility.

Tips on how to help the post office better serve you are included in the Business Office Procedures Manual which has been mailed to every office and department on campus. Additional copies of that manual, which also includes cost-saving suggestions, are available in the auditor's office, Room 504 of the Administration Building.

## Member of British Parliament to lecture on foreign policy

The Right Honourable Sally Oppenheim, a member of the United Kingdom Parliament and a former member of the executive Cabinet, will discuss "The Foreign Policy of the United Kingdom" at 8 p.m. Tuesday (Oct. 5) in the Grand Ballroom of the University Union.

Oppenheim was appointed minister of state for consumer affairs and tourism at the Department of Trade by Prime Minister Margaret Thatcher in 1979. At the same time, Oppenheim became a member of Her Majesty's Privy Council.

As minister of state for consumer affairs, Oppenheim was responsible for the administration of policy on all trade competition and anti-trust matters.

Oppenheim resigned her Cabinet post earlier this year because of the pressures of family business responsibilities following the death of her husband.

A popular and well-known radio and television personality in Britain, the 52-year-old mother of three entered national politics in 1970 when she was elected to Parliament from the district of Gloucester. Her election marked the first time in 25 years that a member of the Conservative Party had been elected to that seat.

In 1972 she was appointed chairman of the Conservative Parliamentary Committee on Consumer Affairs, and in 1974 she was appointed Front Bench Opposition Spokesman on Prices and Consumer Protection.

Thatcher appointed her to the Shadow Cabinet (Shadow Secretary of State for Prices and Consumer Protection) in 1975, a position she held until 1979 when the Conservative

## Parking lot to close for precipitator repair

Repair of the insulation on the breeching of the electrostatic precipitator at the heating plant will necessitate the closing of Parking Lot E east of the heating plant for a three-day period.

Chuck Coddling, director of the physical plant, said no exact dates for the insulation repair are known, but plans are to complete the maintenance on a Friday, Saturday and Sunday to minimize inconvenience to those who normally park in Lot E.

Coddling said parking in the lot will not be prohibited, but that the insulation to be used will damage the paint surface on any car with which it has contact. Parking, therefore, will be at the owner's risk.

Coddling, who said as much advance notice as possible will be given when the repair is to begin, added that it must be done during ideal weather conditions which may mean that the lot will be closed on short notice.

Jean Yarnell, director of parking and traffic, is asking employees who normally park in Lot E to walk to work or carpool if possible when the repair is underway. She suggested alternate parking may be available in Lot J on the west side of McDonald Quadrangle; Lots 3 and 15, commuter lots near WBGU-TV; Lot N near the Library; and Lot 4, on the west side of the heating plant. Parking in Lot 4, however, will also be at the owner's risk, as insulation may also fall in that direction.

Party won a majority of the seats in Parliament and assumed power.

Currently Oppenheim is serving as the national vice president for both the Royal Society for the Prevention of Accidents and the National Union of Townswomen's Guilds.

During her speech she is expected to discuss the recent war in the Falkland Islands and the British decision to ignore U.S. protests and ship equipment to the Soviet Union for use in the Russian gas pipeline.

## Faculty Senate

In the Sept. 27 issue of Monitor it was incorrectly noted within the context of the Faculty Senate news that Dr. Peter Hutchinson, economics, an administrative intern in the president's office this year, will represent President Olscamp at Faculty Senate meetings this year.

In fact, Olscamp will attend meetings himself whenever possible and will continue the tradition of addressing the senate as circumstances warrant. Hutchinson also will attend the meetings in his new administrative capacity.

Olscamp was away from campus on University business for the Sept. 21 senate meeting.

## Faculty, staff invited to Homecoming brunch

All faculty and staff are being issued a special invitation by the Alumni Association to attend the annual Homecoming champagne brunch at 10:30 a.m. Saturday, Oct. 16, in the Grand Ballroom of the University Union.

Cost for the brunch, which will include a brief presentation by President Olscamp, is \$6 per person. Reservations must be made by Oct. 8 by calling the Miletic Alumni Center, 372-2701, or by mailing reservation requests with a check, payable to the BGSU Alumni Association, to the Alumni Center.

## Prout Hall

### Living/learning experiment labeled as 'success'

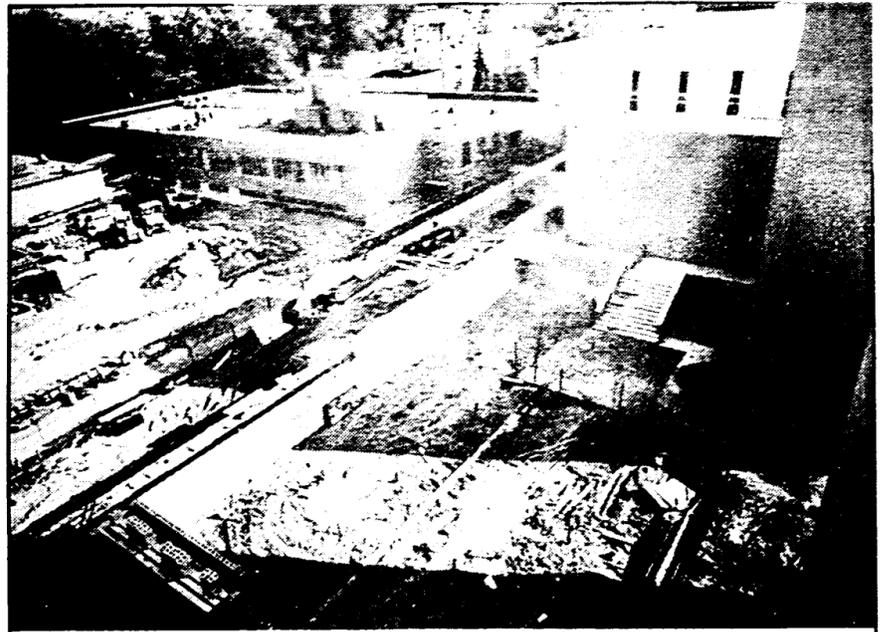

Last year, Prout Hall began as an experiment—this year, it's starting as a success.

Boasting a nearly 57 percent student-return rate, Prout Hall, which began last year as an experiment in living and learning for the "serious" student, is entering into its second year with overwhelming student enthusiasm, according to hall director Toni Goodman.

More than 100 of the 266 resident students attended the first meeting of the formerly 50-member Hall Council, a student planning group that meets weekly to discuss the hall's future programs.

"We definitely have the interest from the students," Goodman said. "Prout has attracted the type of students who enjoy getting involved in planning and programming."

The Prout Hall program began in the fall of 1981 with students who had been accepted the previous spring by application to participate in the trial "living/learning" experience.

Construction began in July on the Biological Sciences Laboratory Annex which will provide some 7,625 square feet of space to house the University's animal laboratories. The facility is being built with a \$1.2 million state appropriation from last year's capital spending bill and a \$137,000 federal grant which will be used to purchase equipment for the building. Target date for completion of the annex is January 1984.

## Regents seek \$929 million for 1984 operating budget

The Ohio Board of Regents has set four major priorities in making recommendations to the General Assembly for the 1983-85 higher education operating budget:

- Full funding for actual enrollments;
- Offsetting anticipated cost increases;
- Halting rapid increases in student fees;
- Increasing financial aid to needy students.

The total budget recommended for sustaining operations at the state's 65 college and university campuses in fiscal 1984 is \$929 million, an eight percent increase over this year's appropriation level and an 18 percent increase over funds actually received after state budget reductions.

For fiscal 1985 the regents have recommended another seven percent

increase for a total appropriation of \$1.025 billion.

The regents' recommendation calls for providing full funding of actual enrollments, assuming modest enrollment increases of about one

percent during the biennium. It also seeks to offset cost increases of seven percent anticipated each year for faculty and professional staff, library acquisitions, utilities and supplies.

The board has proposed reducing the students' share of costs from the current 44 percent to 40 percent in fiscal 1984 and 38 percent in fiscal 1985. Recommendations also call for a five percent increase each year in the Ohio Instructional Grant program for students with financial need and an increase in the income eligibility ceilings from \$20,000 to \$25,000.

The application, which requires a student's signature after the statement "...willing to support the basic purpose of the program," states, in part:

"A major goal of this living unit is to create an environment that encourages scholarship and provides programming that maximizes personal growth and develops skill of leadership and group participation."

Prout Hall is coeducational by alternate floors and has set, enforced quiet hours. The hall also has a 24-hour visitation policy.

One problem Goodman has encountered is that many students envision Prout only as a "study-dorm," and not as an opportunity to get involved in fun, extracurricular activities.

"We'd like to get the idea across that this is not a study-dorm," Goodman explained. "We do, I think, have more serious students than the

other residence halls, but we look for people who like to do a lot of different things. Grade point average is not the only criteria."

One of the major emphases of the program has been to bring faculty and students together on an informal basis. A "Dean's List Reception" for the residents' favorite teachers was among last year's activities.

But just as successful, Goodman said, was a recreational activity called "Let's Get Physical," including planned games and activities for the Prout residents.

This year, Goodman is striving for more faculty/student activities and mini-concerts within the hall to promote cultural involvement.

"I was a little apprehensive about (the new program) at first...the program was a little ambiguous," Goodman said. "But I've enjoyed being a part of something like this, and I hope to see it expanding. The interest is certainly there."

# FACULTY DEVELOPMENT CENTER

**Open for business.** The Faculty Development Center re-opened Oct. 1 in Rooms 402-404 of the University Union.

Dr. Bernard Rabin, emeritus, education, is directing the center on a part-time basis as part of the post retirement option of the Supplemental Retirement Program.

Rabin is in the process of hiring a secretary and determining hours for the center. The hours and additional information about services available will be announced in MONITOR next week.

**Time for improvement?** The deadline to apply for faculty improvement leaves for the 1983-84 year is Dec. 1, 1982.

Tenured faculty who have taught at least seven years at the University may be eligible for the leave program, which is described in the 1982-83 Faculty Handbook on pages 13-17. A format for application also is included in the handbook.

For further information, contact Norma Stickler in the academic affairs office, 372-2915.

## Faculty & Staff

### Grants

**Dr. Elliot Blinn**, chemistry, \$13,000 from the American Chemical Society — Petroleum Research Fund to prepare and analyze heterometallic complexes.

**Dr. Dwight Burlingame**, library, \$840 from the U.S. Dept. of Education to purchase resources for the library.

An identical grant was received by **Charles Stocker**, Firelands, for the Firelands College Library.

**Dr. Carmen F. Fioravanti**, biological sciences, \$38,229 from the Public Health Service, Dept. of Health and Human Services, to cover salary, fringe benefits and indirect research costs for a year while he conducts research on the metabolism of helminthic parasites.

This is the third year Fioravanti has received the award, which allows him to more than double his research time and provides opportunities to visit other laboratories.

**Richard Frye**, Upward Bound, \$6,497 from the Ohio Dept. of Education as partial reimbursement for the Upward Bound program's food and administrative costs.

### Nov. 5 is nomination deadline for Mellon humanities fellowships

Nov. 5 is the deadline for the nomination of seniors or recent graduates for Mellon Fellowships in the Humanities.

The objective of the fellowship program is to attract exceptionally promising students into preparation for careers of humanistic teaching and scholarship by providing top-level, competitive, portable awards to support graduate study for as long as three years.

The stipend for the first group of Mellon Fellows, entering graduate school in the fall of 1983, will be \$7,000, plus payment of tuition and standard fees to their graduate schools.

Fields of study eligible for support are the traditional humanities disciplines, including history but excluding the creative and performing arts. Area studies and interdisciplinary programs are also eligible if the emphasis in subject and method is substantially humanistic.

According to Dr. Allen N. Kepke,

**Dr. Lewis Fulcher**, physics and astronomy, \$7,219 from the Quaker State Oil Refining Corporation to explore the feasibility of using gravity data to define more clearly the extent of the Berea sand channels in Ashland County.

**Dr. Robert Gulon**, psychology, \$8,300 from the American Psychological Association, Inc., as continued support for the "Journal of Applied Psychology," which he edits.

**Dr. Donald Kausch**, psychology, \$9,000 from the Ohio Dept. of Mental Health to provide stipends for trainees who serve in mental health institutions or agencies.

**Dr. Sooja Kim**, home economics, \$1,300 from the University's biomedical research support program for research on "Alteration of Extracellular Fluid Volume and Plasma Solute Concentrations in Traumatized Aged Rats."

**Dr. Ann-Marie Lancaster**, computer sciences, \$25,000 in computer equipment from the Digital Equipment Corporation's Special Equipment Grant Program. The University has received computer graphics equipment for instructional use in computer graphics courses.

associate dean of the College of Arts and Sciences and campus representative for the Mellon Fellowship Program, the awards are intended to be highly competitive, but any student whose promise for teaching and scholarship is judged as outstanding by a faculty sponsor should be considered for nomination. Nominees also must be a citizen of either the United States or Canada. Among those the Mellon Fellowship program hopes to attract are minority and women candidates of notable ability.

Faculty who wish to nominate a candidate should send the name, college and address of the candidate to John H. D'Arms, Department of Classical Studies, 2014 Angell Hall, University of Michigan, Ann Arbor, Mich. 48109.

Additional information regarding the fellowships is available from Kepke in the College of Arts and Sciences office, 205 Administration Building, 372-2015.

### NSF funds graduate fellowships in science, engineering fields

Nov. 24 is the deadline for submission of applications for both Graduate Fellowships and Minority Graduate Fellowships funded by the National Science Foundation for 1983-84.

Eligibility for the NSF Graduate Fellowship Program is limited to those individuals who, at the time of application, have completed no more than 20 semester hours (30 quarter hours) or the equivalent of study in select science and engineering fields following completion of a baccalaureate degree in science or engineering. The Minority Graduate Fellowship Program is open only to persons who are citizens or nationals of the United States at the time of application and who are members of an ethnic minority group

underrepresented in the advanced levels of the nation's science talent pool. Eligibility requirements are the same as those listed above for the Graduate Fellowship Program.

Subject to the availability of funds, new fellowships awarded in spring 1983 under both programs will be for periods of three years, the second and third years on certification to the NSF by the fellowship institution of the student's satisfactory progress toward a degree. The annual stipend will be \$6,900 for a 12-month tenure with no dependency allowances.

Faculty and staff are encouraged by the Office of Research Services to recommend students for either of the fellowship programs. Further information is available in that office in the McFall Center (372-2481).

She and **Leland Miller**, computer science, also received \$3,000 from the Owens-Corning Fiberglas Corporation to purchase computer science equipment.

**Dr. Donald Leventhal**, psychology, \$7,632 from the National Institute of Mental Health to continue a training program for psychology students. This renewal grant allows advanced pre-internship trainees to gain a wide range of training experiences, both within and outside the University's Psychological Services Center.

Leventhal also received \$7,932 from the Children's Resource Center to support two psychology graduate assistants as interns at the center this academic year.

**Dr. Fred D. Miller Jr.**, Social Philosophy and Policy Center, \$19,000 from the Rockefeller Foundation to fund a Human Rights Conference which will include the presentation of papers by nationally known scholars.

**Dr. Michael Moore**, academic affairs, \$14,120 from the National Endowment for the Arts to support the University's Arts Unlimited program, a performance-based approach to aesthetic education which involves the University and some 45 teachers from surrounding schools.

**Drs. Sandra Packard and Donald Chase**, education, \$30,952 from the Ohio Dept. of Education to continue activities designed to effect compliance with state standards for colleges and universities preparing teachers.

**Dr. Donald Scherer**, philosophy, \$983 from the Ohio Humanities Council to conduct public meetings during September in Fremont, Upper Sandusky, Bedford and Cambridge on the question, "What should be the goal of U.S. nuclear policy?" The meetings will include presentation of the documentary videotape, "War Without Winners."

**Beryl Smith**, financial aid and student employment, \$198,302 from the U.S. Dept. of Education as the University's funding for the Supplemental Education Opportunity Grant program for students with exceptional financial need.

The University also has received \$263,179 from the Dept. of Education as its 1982-83 work study program allotment. This student aid program pays 80 percent of the wages for eligible student employees.

In addition, Bowling Green received \$1,111,540 from the U.S. Dept. of Education for the Pell Grant program (7/1/82 - 6/30/83).

**Dr. Larry Smith**, humanities, Firelands, \$853 from the Ohio Arts Council to publish a book of works by north-central Ohio poets. Smith is director of the Firelands Writing Center.

**Jack Taylor**, developmental education, \$156,237 from the U.S. Dept. of Education to provide individualized academic and counseling services for disadvantaged students.

**Dr. Ron C. Woodruff**, biological sciences, \$38,556, a renewal award from the National Institute of Environmental Health Sciences to pursue his research on mutator genes.

The award is made through the Research Career Development Program. Funding covers salary, fringe benefits and related costs to allow Woodruff to devote more time to his genetic research with fruit flies.

He also received \$7,571 from the American Cyanimid Co. to determine if one water soluble chemical supplied by American Cyanimid is mutagenic in fruit flies.

### Recognitions

**Dr. Orlando Behling**, management, received the Organizational Behavior

Division's "Outstanding Competitive Paper Award" at the Academy of Management's annual meeting in New York. The award was given for a paper, jointly authored with Dr. James McFillen of Ohio State University, titled "The Measurement of Stress-Inducing Life Events and Life Styles: Questions of Conceptual Independence and Discriminant Validity."

**Cheryl Didham**, former logistical services coordinator in the College of Education, has been promoted to coordinator of field experiences in the college and is responsible for all student teaching assignments.

**Dr. JoAnne Martin-Reynolds**, educational curriculum and instruction, has been appointed chair of the National Resolutions Committee of the Association for Supervision and Curriculum Development. ASCD is a national organization for administrators and teachers involved in curriculum and supervision in the schools.

**Dr. Reginald Noble**, biological sciences, has been elected chair-elect of the Midwest Section of the American Society of Plant Physiologists.

Among his responsibilities as chair-elect will be the organization of a symposium to be held at the University of Michigan in June 1983. At that time he will assume the duties of chair of the society for the 1983-84 academic year.

**Dr. F. Scott Regan**, speech communication, has been invited to serve on the Theatre Advisory Panel of the Ohio Arts Council.

**Dr. Dzidra Shllaku**, German and Russian, spent a part of the summer in the Soviet Union researching Soviet education.

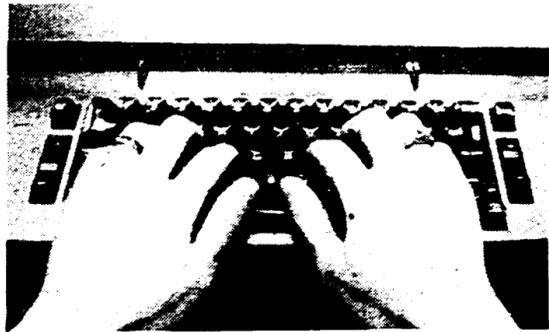

Compositions by **Marilyn Shrude**, music composition/theory, were performed in July at the Seventh World Saxophone Congress in Nurnberg, Germany. Shrude also performed her own work for piano at the Town Hall of Brussels in July. Another of her compositions, "Enuma Elish" for organ, was performed at the International Keyboard Institute at the University of Michigan during July.

**Dr. Dion C. Stewart**, geology, was one of six U.S. geologists invited to meet with a delegation of geologists from the mainland People's Republic of China at the annual meeting of the International Geological Correlation Program in Washington, D.C., Sept. 7-10.

### Upcoming grant deadlines

The following research grant and fellowship deadlines have been announced by the Office of Research Services. Further information about these and other opportunities for external funding are available in that office in the McFall Center, 372-2481.

- 10/31/82—Canadian Embassy Faculty Enrichment Program
- 10/31/82—Center for Advanced Study in Visual Arts Fellowships
- 11/ 1/82—American Cancer Society Research Grants
- 11/ 1/82—American Lung Association Research Grants
- 11/ 1/82—Distilled Spirits Council Grants-In-Aid
- 11/ 8/82—FIPSE Mina Shaughnessy Scholars Program
- 11/15/82—Department of Justice Visiting Research Fellowships
- 11/15/82—Rome Prize Fellowships
- 11/15/82—ACLS Study Fellowships
- 11/30/82—Department of Defense Research Instrumentation Program

**Put it in writing.** MONITOR is now accepting "opinions to the editor" from faculty, classified and administrative staff.

Publication of commentaries will be reserved for the last Monday of each month. Items for each month's issue must be submitted to MONITOR no later than the 15th of that month to ensure consideration for publication.

Questions about the procedures for submitting commentaries should be addressed to Linda Swaisgood, editor, MONITOR, in the Office of Public Relations, 372-2616.

**Morning recreation.** The Student Recreation Center is now open, effective Oct. 1, 7 a.m. to midnight. Early morning swimming is also being offered on a trial basis on Mondays, Wednesdays and Fridays, when the Cooper Pool will be open for lap swimming from 7 a.m. to 2 p.m.

LiFT members are reminded that their tickets are also valid now both in the early morning and at noon.

## Datebook

### Exhibits

**Ethnic Cultural Arts Exhibition,** 8 a.m. to 5 p.m. weekdays and 2-5 p.m. Saturdays and Sundays, Oct. 3-31, McFall Center Gallery. Free.

The exhibition is devoted to the work of Columbus artist J.D. Jackson, University alumnus.

### Monday, Oct. 4

"John Gluckstadt," German film with English subtitles, 7:30 p.m., Gish Film Theater, Hanna Hall. Free.

### Tuesday, Oct. 5

**Faculty Senate,** 2:30 p.m., McFall Center Assembly Room.

**Training session for United Way solicitors,** 4-5:30 p.m., Alumni Room, University Union.

**The Right Honourable Sally Oppenheim,** a member of the United Kingdom Parliament and a former member of the executive Cabinet, will speak on "The Foreign Policy of the United Kingdom," 8 p.m., Grand Ballroom, University Union.

### Wednesday, Oct. 6

**Classified Staff Advisory Committee Brown Bag Lunch,** noon-1 p.m., Northeast Commons. Richard J. Rehmer, director of

### Employment

### Opportunities

#### CLASSIFIED EMPLOYMENT OPPORTUNITIES

**NEW VACANCIES**  
Posting Expiration Date: Monday, Oct. 11, 1982

- 10-11-1 **Clerical Specialist**  
Pay Range 25  
Firelands Campus  
Huron, Ohio
- 10-11-2 **Data Entry Operator 1**  
Pay Range 3  
Philosophy Documentation  
Center  
Permanent part-time
- 10-11-3 **Secretary 1**  
Pay Range 26  
College of Arts &  
Sciences/Dean's Office

**CONTINUED VACANCIES**  
Posting Expiration Date: Monday, Oct. 4, 1982

- 10-4-1 **Printing Technician 1**  
Pay Range 6  
School of Technology  
Nine-month part-time
- 10-4-2 **Storekeeper 1**  
Pay Range 25  
School of Technology  
Nine-month part-time
- 10-4-3 **Typist 1**  
Pay Range 3  
School of Technology  
Nine-month part-time
- 10-4-4 **Typist 2**  
Pay Range 4  
Psychology Department

### Faculty/Staff Positions

The following faculty positions have been authorized:  
**English:** Assistant professor. Contact Lester Barber (2-2576). Deadline: Nov. 22, 1982  
**Speech Communication:** Assistant professor. Contact Herbert Greenberg (2-2515). Deadline: Jan. 15, 1983

The following contract positions have been approved:  
**Biological Sciences:** Research assistant. Contact Carol Heckman, director, electron microscopy facility (2-2332). Deadline: Oct. 11, 1982  
**Chemistry:** Electronics technician. Contact Douglas Neckers (2-2031). Deadline: Oct. 15, 1982  
**Financial Aid and Student Employment:** Associate director. Contact Robert Arrowsmith (2-2147). Deadline: Nov. 1, 1982

personnel support services, and Ray Malone, employee relations adviser, will attend for an open question/answer period.

**Academic Council,** 1:30-3 p.m., Room 351, Education Bldg.

**Faculty Jazz Ensemble,** 8 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

### Thursday, Oct. 7

"Human Rights" seminar, sponsored by the Social Philosophy and Policy Center: Dr. Hugo A. Bedau of Tufts University will speak on "Why We Have the Rights We Do," 4 p.m., Mileti Alumni Center. Dr. Douglas Den Uyl of Bellarmine College will comment on that presentation.

Dr. Martin P. Golding of Duke University will speak on "The Priority of Welfare Rights," 8 p.m., Mileti Alumni Center. Dr. Thomas Attig, philosophy, will comment.

William Virgil Davis, author of "One Way to Reconstruct the Scene," which won the Yale Series of Younger Poets prize in 1979, will read from his work, 8 p.m., Room 210 University Hall. Free. Davis is the first visiting writer to appear in the creative writing program's 1982-83 Visiting Writer Series.

"The Elephant Man," University Theatre production, 8 p.m., Main Auditorium, University Hall. For ticket information call 372-2222.

"Dodge City," UAO film series, 8:30 p.m., 210 Math-Science Bldg. Free.

### Friday, Oct. 8

"Human Rights" seminar, sponsored by the Social Philosophy and Policy Center: Dr. Allan Gibbard of the University of Michigan will lecture on "Utilitarianism and Rights," with Dr. James Fishkin of Yale University responding, 9 a.m., Mileti Alumni Center.

Dr. John N. Gray, Jesus College, Oxford, will speak on "Libertarian Rights: An Indirect Utilitarian Approach," 10:30 a.m., Mileti Alumni Center. Dr. Robert Kocis, political science, will comment.

### Monitor

Monitor is published weekly for faculty and staff of Bowling Green State University. The deadline for submission of materials for the next issue, Oct. 11, is 5 p.m. Tuesday, Oct. 5.

The University Theatre opens its 1982-83 main season with a production of "The Elephant Man" Oct. 7-9 and Oct. 13-16 in the Main Auditorium of University Hall. The award-winning drama retells the life of John Merrick, who despite his hideously deformed body was a remarkably intelligent, sensitive man. Curtain time is 8 p.m. nightly, and a 3 p.m. matinee will be presented Oct. 16. Ticket information is available by calling 372-2719 or 372-2222.
