MEL BYER'S PAPERS

BY

DR. PAUL YON, DIRECTOR  
CENTER FOR ARCHIVAL COLLECTIONS  
FIFTH FLOOR  
JEROME LIBRARY  
BOWLING GREEN STATE UNIVERSITY  
BOWLING GREEN, OHIO 43403

In the Spring of 1984 a most unique collection of personal papers, reports, files, publications and oral interviews were donated to the Center for Archival Collections at Bowling Green State University. The collection? The Mel Byers Papers. Mel, a leader in developing Employee Services programs throughout the country was convinced by Dr. David L. Groves, professor of Health, Physical Education and Recreation, to deposit his papers and serve as a foundation for the development of the Archives of Recreation and Leisure. The purpose of this new collection would be to afford scholars primary resources in addressing contemporary problems in areas of employee services management and personal services.

The Center for Archival Collections, an entity of the College of Learning Resources is a primary resource institution established to support undergraduate and graduate education at Bowling Green State University. Its role and mission for over fifteen years is to actively collect, preserve, and make available (to the research community) regional as well as national collections. From 1968 to 1983, the Center focused primarily on Northwest Ohio's historically important collections. It is recognized for its collections of public records, newspapers, manuscripts, rare books, and special collections. In 1983, its charge expanded to include national collections closely associated with established educational programs. Through an aggressive acquisitions program its numerous collections support programs in Agricultural, Labor, Local, and Women's History, American Culture, Public History, College Student Personnel, and Recreation and Leisure.

For those individuals or institutions who believe they may possess material directly or tangentially associated with the development of Recreation and Leisure, the Center would be most interested in discussing with you the possibility of donation. Records which are most valuable and generally solicited for research are the minutes or proceedings of organizations, subject files, presidential/secretary correspondence, membership lists, annual fiscal reports, publications, photographs and video/oral tapes.

If the Center can be of assistance please contact Dr. Paul Yon, Director, fifth floor, Jerome Library, or Dr. David L. Groves, Professor, Department of Health, Physical Education and Recreation, Bowling Green State University.
