H. A. Williams
President of the College

Moved by Collins and seconded by Ganz that Dr. Williams communicate with the proper state officials and request an immediate inspection of the Training School building. All members voting aye. Motion carried.

President Williams reported that, pursuant to action of the Board taken at the meeting held on July 27, President Shatzel of the Board and himself spent Friday, July 29, in Columbus in an effort to ascertain the authority of the Board under the Reorganization Bill in respect to the new dormitory and landscape improvements. He stated that they called at the Attorney General's Department and were advised that the Department of Highways and Public Works would have charge of the preparation of plans and the supervision of construction of all new work.

A visit to the Department of Highways and Public Works was made, and an interview was had with Mr. Harsh, the State Architect, who also stated that it was his understanding that the Highway Department would furnish architectural service for all new public buildings. The imperative need of getting the new dormitory under way at the earliest date possible was strongly urged by us, and we were promised assistance as soon as the Department was prepared to act. President Shatzel left a letter for Mr. Herrick, the Director, requesting further information. We regret to state that we do not consider the outlook for quick results encouraging, and we fear that prolonged delays may result.

We later called upon the Auditor and Budget Commissioner and outlined our plans for handling the landscape work. These officials expressed satisfaction with our plans and encouraged us to proceed with them.

Mr. T. Howard Winters, Inspector of Teacher-Training, of the State Department of Education was present and stated that he had just completed an inspection of the work of the Summer Session. He expressed himself as highly pleased with the standards and quality of work and complimented the Board and other officials of the institution on the splendid service which the Normal College is rendering to the cause of public education in Ohio.

Moved by Ganz and seconded by Collins that Pres. Williams on behalf of the Board notify L. C. Volts & Sons to take up the tile floor on the second deck of the main entrance of the Training School building and relay same in a workmanlike manner acceptable to the Board. All members voting aye. Motion carried.

On motion the Board adjourned to meet at the call of the President.
