This profile compares the demographic characteristics of women 18 and older experiencing a first marriage versus a remarriage in the U.S. in 2017. The overall first marriage rate among women in 2017 was 46 women per 1,000 never married women, while the remarriage rate was 21 per 1,000 previously married. Learn more about recent patterns in first marriage rates (FP-18-14) and remarriage rates (FP-18-16).

Remarriage in the U.S., 2017

- Among all women who married in 2017, 27% were entering a remarriage.

Source: U.S. Census Bureau, American Community Survey, 1-yr. est., 2017

Educational Attainment of First Married and Remarried Adults, 2017

- 60% of women entering a first marriage in 2017 were White compared with over two-thirds (70%) of women who remarried.
- Of women who entered a first marriage in 2017, the second largest share following Whites was native-born Hispanics/Latinas with 13%.
- Foreign-born Hispanics/Latinas comprised 8% of women entering a first marriage and a remarriage in 2017.
- Black women accounted for 10% of those entering a first marriage and remarriage.

Race and Ethnicity of First Married and Remarried Adults, 2017

- Most first marriages occur to individuals under the age of 35 (81%). Over half (54%) of first marriages were to individuals aged 25-34, aligning with the median age at first marriage in 2017, which was 28 for women and 30 for men (FP-19-06).
- Individuals who marry tend to be slightly older than those who marry for the first time. In 2017, 39% of remarriages occurred among 45 to 64-year-olds, making this the largest share of remarriages. The second largest group among remarriages was 35 to 44-year-olds (21%).
- Those 65 and older only comprised 1% of first marriages in 2017, but they represented 7% of remarriages.
