WELCOME

We extend to faculty, former students and new students a cordial welcome to the College for the year 1933-34. References to the financial crisis through which we are passing having become trite. We are not so certain now about the validity of some of our economic standards as we once were. We are a great nation with enormous wealth. We are an intelligent and progressive people. We meet challenges with faith and courage. Some of our problems are perplexing and their solution has not been reached, but we have confidence in the ability of our people and faith in the outcome.

In times like these, we are re-examining our standards and our social machinery. In the confusion in which the clearest thinkers find themselves, no cry has been raised against higher education from responsible sources. Such questions as have arisen have grown out of the cost rather than the efficacy of training.

This attitude is in itself a high tribute to the value of an education. If an industrial plant the size of this College plant were in the act of opening or of resuming work, the newspapers would print columns about it, yet the value to society that will result from our labors this year will exceed that of any factory. This is not professional exaggeration. It is an accepted fact.

The large possibilities ahead of us this year should challenge the best that is in every one of us. Whether we rise to the importance of our task will depend largely upon such common place things as budgeting our time, effective methods of study, hygienic habits of body and mind, and hard work—all things all can do.

W. A. A.

Get acquainted right away with the meaning of those three letters. They stand for Women’s Athletic Association and it’s a pretty good thing to tie up to—that is if you enjoy sociability, fun and recreation.

Every year a few girls come to B. G. College who have never had the chance to play some of the games or take part in the sports that we have here, and so they don’t pay much attention to what is going on in our play fields at 4 o’clock day.

Now here’s a word of warning. Every year about March or April we hear girls saying “I wish I’d joined W. A. A. last fall, and learned to play hockey and tennis. I would have earned my emblem or

PHYSICAL EDUCATION

COURSE FOR MEN

It is customary for all men at Bowling Green to engage in some form of physical activity whether it be recreative or athletic. The Department of Physical Education for Men endeavors to maintain a "club" atmosphere in and about the gymnasium. Every man is a member of the "club" once he enrolls in the College and is eligible to make use of its many facilities during his class and leisure hours. The department exists primarily to serve the physical education needs of the individual students, and it is earnestly desired that each one will avail himself of the opportunity to discuss health and physical education problems with members of the teaching staff. The door of the Physical Education office is always open, and students will find members of the staff genuinely interested, and eager to assist in bringing adjustments to individual problems.

Physical Education Facilities

The department of physical education provides the following facilities which are available for use during the leisure and class hours of the student: nine wire enclosed tennis courts, four wall handball courts with two of them marked for squash tennis, a cinder track with a 220 yard straightaway, a football field, fields for playing indoor baseball, soccer, speedball, and other outdoor games, four horseshoe courts, one of the finest gymnasiums in the entire state with facilities for basketball, boxing, wrestling, tumbling, volleyball, handball, apparatus, striking bag platform, rowing machine and other equipment. These facilities are at your disposal at all times except on Holidays. All facilities are closed at the Assembly hour on Tuesdays of each week.

Physical Ed. Requirements

All students are required to take physical education throughout the first two years of residence, unless the equivalent is otherwise provided.

A physical education requirement is of advantage to the student because it provides him with the opportunity:

1. To assist in maintaining physical efficiency by means of pleasurable exercise.
2. To play with other students, thus bringing about friendships and social contacts which will be a source of pleasure during

“Three hours,” answered Charles, “counting the time they would waste in arguing.

Mary: “Why is Mabel so angry? The papers gave a full account of her wedding.”
Ruth: “Yes, but they put in that Miss Blackfield was married to the well-known collector of antiques.”

INTRAMURAL ATHLETICS

An extensive intramural program is conducted by the department of physical education for men in co-operation with the department of athletics. This program is designed exclusively for the rank and file students who desire to participate in competitive athletics, but who are unable to “make” a varsity team or squad. Each year competition is held between living organizations, and individuals; in basketball, track and field athletics, volleyball, handball, tennis, horseshoe pitching, and indoor-baseball. Rules for participation and dates will be posted from time to time on the bulletin boards in the Men’s Gymnasium. If enough men are interested in a soccer or speedball league will be formed this fall. Any men who are interested in trying out for intramural manager see Coach Landis as soon as possible. Watch the Bee Gee News for further notices on Intramurals for men.
