Friedman, history, is being honored by the College of Arts and Sciences with a luncheon and a presentation as part of the College of Arts and Sciences' Celebration of the Faculty." The luncheon is from 11 to 12:30 a.m. in the Student Union Ballroom. For more information, call 2-2719.

**Trustees raise room and board fees**

The Board of Trustees approved a $14 per year increase in room and board rates beginning with the fall 1997 semester.

The new rates bring the annual cost of some room and board packages to $2,860 and $2,692 for residents and non-residents, respectively.

The yearly standard double room cost will increase by $10 to $916 and the minimum meal rate by $62 to $2,172.

The rates of some meal plans will remain the same, but most students pay the standard double room and minimum meal plan costs.

Even with the increases, University officials said that new room and board charges remain lower than the average rates in the state.

**FNDERS**

**Founders renovations approved**

The Board of Trustees approved Feb. 7 a $1.5 million renovation of the Founders Hall, a residential hall for women. The project is scheduled to be completed in 1997.

The $16 million improvement, which will encompass 41,000 square feet of space, will be completed in 1997, will replace Founders’ existing building, which houses single rooms and apartment-style living in two separate buildings.

The project is expected to be completed by late spring, and the new residence hall will be ready for occupancy by the fall of 1997.

**Streicher named Trustee Professor**

Dr. Jerry Streicher, former dean of the College of Technology, was named a Trustee Professor by the Board of Trustees Feb. 7.

Streicher will receive a $20,000 per-year stipend and will be expected to conduct research and develop a program of teaching in his area of scholarship. Streicher will return to the College of Technology to teach part-time beginning March 9.

Administrative Staff Council hears Mason, approves Section 125 plan

Dr. Phil Monroe, vice president for University relations, addressed the Administrative Staff Council meeting Oct. 28. Monroe also explained the five areas a new contract for food workers in the University would cover. The first area to be worked on in University relations is to know the campus to partner resources to help accomplish University goals. Employees in the area have contact with students, suppliers, and each other and are in a position to assist the University. Monroe listed five areas in the development of the new contract: work-life balance, pay and benefits, federal and state laws, and work environment.

Kaplan said some problems developed with administering the amendments. These were the amendments that had to be made to Administrative Council policies. He said he was not aware of any problems.

Kaplan said he would explain an explanation of the new Section 125 plan. The plan is a wellness plan that gives employees the opportunity to reimburse certain medical expenses incurred while on the job. Employees are able to pay for several positive points, including the large rooms presently attached to contracts. He said it was important to explain the plan that the University has made available to employees. The plan is being offered to employees in an effort to reduce the amount of money that is being spent on medical expenses. Employees are able to choose from several different plans, and the University pays a portion of the cost. Employees are also able to choose from a variety of different medical options, and the University is willing to pay a portion of the cost. Employees are able to choose from several different plans, and the University pays a portion of the cost.

Voivnich names Rodgers to state council

Dr. Michael A.J. Rodgers, Ohio Eminent Scholar in English, has been appointed to the newly created Ohio Science, Technology and Engineering Council. The appointment is for a term of three years.

The following information was presented to the Ohio State Board of Regents:

The University Relations Office, the Ohio Union, the Student Activities Board, the University of Ohio, and the Ohio State University are the only universities in Ohio that have the ability to be a strong leader in the areas of Ohio science and technology. The Council will play a major role in working with the University to advance the University's goals for research and development.

Ohio has a wealth of untapped resources and technical talent that we have to harness for the advancement of the University's competitiveness.

Speaker to give new focus to Vietnam War

Dr. Walter B. Hendrix of the American Studies Department, University of Ohio, will present a lecture on the Vietnam War at 7 p.m. Thursday, March 24, in the Ohio Union. The lecture will be sponsored by the Ohio State University's Office of Student Affairs and the Ohio University's Office of Student Affairs.

The lecture is part of the Ohio University's annual Vietnam War commemoration, which includes a five-day symposium and a two-day exhibition. The symposium will feature speakers from the United States and Vietnam, and the exhibition will feature materials related to the Vietnam War.

Library acquires poetry collection

The new acquisition also contains more than 30,000 books and periodicals, and the University has a strong collection of rare and out-of-print books. The collection contains more than 200,000 works in progress by other poets. The University has also acquired a number of other works, including the 2018 Poetry Book of the Year, In the Wake of Brooding Goose's creative writing program and the poetry collection from the University's library holdings.

Pedro recently retired after teaching for 35 years at the University of California at Berkeley. He is a professor of history, with a particular interest in the expansion of the United States to the west and the growth of the American economy. His research focuses on the history of the American west, with a particular interest in the development of the American west and the role of the American west in the development of the American economy.

Computer services offers software seminars

The second computer seminar will be held by computer services. Call 2-2103 to register.

Getting Started on the MAC — 2:30-4:30 p.m., Feb. 24, 246 Technology Lab. This seminar will cover the basics of using Macintosh operating systems.

Does Windows Mix with MAC? — 1-3 p.m., Feb. 3, 315 College Park Office Building. This seminar will cover the basics of using Windows software in a Mac environment.

Using Excel, Word, and PowerPoint — 10 a.m., March 10, 246 Technology Lab. This seminar will cover the basics of using Microsoft Office software.

The seminars are free and open to the public. Registration is required for each seminar.

Research grants available to faculty: students

The Faculty Research Council recently announced the small research grants program for students. The program is designed to support small-scale, exploratory research projects.

The awards are intended to encourage undergraduate and graduate students to advance their careers and interests in a field of study. The awards are intended to provide seed money for future research and creative writing endeavors at both the intramural and extramural level. Projects funded by the awards will be evaluated by the faculty and department guidelines and applications are available for both programs.

Foundation continues to support students

The Ohio State Foundation continues to support students, with a focus on financial aid and support. The Foundation has increased its funding for student aid, with a goal of helping to ensure that every student has the opportunity to pursue their education.

According to the Foundation, it has contributed more than $70 million to the University since its establishment in 1982. The majority of the funds has been used to support students, with a focus on financial aid and support. The Foundation has increased its funding for student aid, with a goal of helping to ensure that every student has the opportunity to pursue their education.
Administrative Staff Council hears Mason, approves Section 125 plan

Dr. Philip Mason, vice-president for University advancement and development, announced the approval of Section 125 plan during the Administrative Staff Council meeting March 20. The plan allows employees at the University to use pretax dollars for certain goods and services, thus enabling them to save money on qualifying purchases. The Section 125 plan will save employees at the University from paying state income taxes on the benefits they receive from participating in the plan. For example, if an employee is eligible for the plan, he or she will save about $700 in state income taxes on the plan. The plan will begin in April and will be available to all employees at the University. The plan is administered by the University's Personnel Department.

Voinovich names Rodgers to state council

Dr. Michael A.J. Rodgers, Ohio Epsilon Kappa, a member of the College of Arts and Sciences, has been appointed to the newly created Ohio State University Council of Eminent Scholars. Professor Rodgers is currently serving on the Board of Trustees of the College of Arts and Sciences.

Voinovich称赞

Ohio Epsilon Kappa is an academic honor society that recognizes outstanding students in the College of Arts and Sciences. The society's purpose is to promote scholarship, leadership, and service among its members. The society holds regular meetings and sponsors various events throughout the year.

Ladysmith, Underground Railroad celebrate African-American history

Two events are scheduled this week as part of the University's celebration of African-American History Month. Ladysmith Black, a well-known black blues singer, is the most popular singer on the continent of Africa, and the Underground Railroad is a network of secret tunnels leading into the United States. The events are related to the African-American history theme.

The events are Tuesday, March 20, and Thursday, March 22. On Tuesday, March 20, at 7:30 p.m., Ladysmith Black will perform at the University. On Thursday, March 22, at 7:30 p.m., an underground railroad exhibit will be held in the Union. The exhibit will feature a map of the Underground Railroad and other displays. The event is open to the public.

Research grants available to faculty, students

The Faculty Research Committee recently announced the availability of research grants to faculty and students. The grants are available to support original research and creative writing activities of faculty and students. The application process is open to faculty and students, and the deadline for applications is April 15. The grants can be used to support research or creative writing activities of faculty and students. The Faculty Research Committee will review all applications and make awards based on the quality of the proposals. For more information, contact the Faculty Research Committee at 330-941-2110.

Library acquires poetry collection

The acquisition also contains more than 3000 titles of poetry, including numerous titles of literary poetry and other materials on contemporary poetry. Faculty members and students will have access to the poetry collection at the University's library.

Policies recently revised after teaching...
The Role and Mission of Bowling Green State University

Introduction
Bowling Green, a mid-sized, public, doctorate-granting university, is among the academically distinguished universities of this country. We believe it is important to maintain high standards as we face the challenge of the Turbulent Times Ahead. Bowen reads degrees in the undergraduate and graduate levels. It is one of the four institutions in the State of Ohio that has been classified as a Doctoral University with high research activity. As such, Bowling Green University is committed to providing an environment in which we can achieve our purposes as a public university.

The Mission of the University and its Goals
Bowling Green is a community of students, faculty, and staff who share a common purpose: to provide an environment that promotes the learning and professional growth of all students, faculty, and staff through the provision of quality educational programs and services. The University's mission is to provide a learning environment that is conducive to the development of the whole person. The University is committed to providing a learning environment that promotes the development of critical thinking, problem-solving, and effective communication skills. The University is committed to providing a learning environment that promotes the development of values and principles that are essential for a just, democratic, and equitable society. The University is committed to providing a learning environment that promotes the development of skills and knowledge that are essential for a successful career and for life as an educated citizen.
The Role and Mission of Bowling Green State University

Editor's Note

Editor's note: The material that follows is the content of the brochure "The Role and Mission of Bowling Green (Ohio) State University." The brochure has been developed in conjunction with the University's decade-long campaign to raise awareness of the university's mission, its goals, and the role it plays in society.

Role and Accreditation

Bowling Green State University places a high priority on developing and maintaining a strong, coherent mission statement. This statement provides a framework for the university's operations and is a key component of its efforts to enhance the quality of education and research. The mission statement is developed through a participatory process involving faculty, students, staff, and the community. The university's mission and goals are reviewed and updated periodically to ensure their relevance and effectiveness.

Academic Programs

Bowling Green State University offers a wide range of academic programs in various fields, including arts and sciences, business, education, engineering, health sciences, humanities, social sciences, and technology. The university's academic programs are designed to provide a comprehensive and rigorous education that prepares students for successful careers and further study.

Reaccreditation

Bowling Green State University is committed to maintaining and enhancing the quality of its academic programs and educational services. The university is currently in the process of reaccreditation, a rigorous assessment process conducted by the North Central Association of Colleges and Schools. The reaccreditation process is designed to ensure that the university's programs and services meet the highest standards of excellence and are aligned with the needs of society.

Mission of the University

Bowling Green State University has a strong commitment to the development of its students and the advancement of knowledge. The university is dedicated to providing an excellent educational experience that prepares students for success in their chosen fields and in life. The university is also committed to contributing to the cultural, economic, and social well-being of the local community and the state of Ohio.

The Role and Mission of Bowling Green State University

Bowling Green State University (BGSU) is a public, land-grant university located in Bowling Green, Ohio. The university offers a wide range of academic programs in various fields, including arts and sciences, business, education, engineering, health sciences, humanities, social sciences, and technology. The university's academic programs are designed to provide a comprehensive and rigorous education that prepares students for successful careers and further study. The university is committed to maintaining and enhancing the quality of its academic programs and educational services. The university is currently in the process of reaccreditation, a rigorous assessment process conducted by the North Central Association of Colleges and Schools. OBITUARIES

Dorothy L. Perry

Dorothy L. Perry, 82, the University's winningest football coach, died Feb. 10. Perry, a 1952 University graduate, began an coaching at Bowling Green in 1955 after four years of coaching at Ohio State University under Woody Hayes.

Perry, a 1952 University graduate, began an coaching at Bowling Green in 1955 after four years of coaching at Ohio State University under Woody Hayes. She held the record of 77-11-5. Bowling Green also won the MAC title in 1957. In 1955, she led the Falcons to a victory over Notre Dame's football Hall of Fame in 1988 and was a charter member of the National Association of College Football Coaches. Perry was named Ohio Coach of the Year in 1960.

Perry held a 335 winning percentage, the best in the nation. She was inducted into the National Football Foundation Hall of Fame in 1988 and was a charter member of the Hall of Fame. Perry's football philosophy was based on his guiding principles: good coaching, good players, and a strong desire to win.

He was inducted into the National Football Foundation Hall of Fame in 1988 and was a charter member of the Hall of Fame. Perry's football philosophy was based on his guiding principles: good coaching, good players, and a strong desire to win.

Mary "Kay" Evans

Mary Katherine "Kay" Evans, 71, North Reading, died Feb. 5. She began working at the University in 1956. She was hired as an office assistant and became a head librarian.

Walk down Shatell Hall's memory lane

Did you know in Shatell Hall or do you know any interesting stories about the building?

If you would like to know the stories, we will like to hear from you. Stories can be shared by email at k.webb@bgsu.edu or call 2-2923. We are preparing a book of the building's history and stories that can be compiled in the book. The first site will be available at the building. The building is being donated to the University of California, Berkeley. The building will be used as a center for the Department of Romance Languages.

The building now house faculty offices as well as offices for the Department of Romance Languages; the Department of Russian, East Asian Languages; the Department of the History of Art; the Department of German Studies; and the women's studies program.

The structure was converted into a dormitory for men.
