Moore and McFfillen explain rules and process involved in unionization

All public employees have the right to unionize. John Moore, president of the Ohio State Personnel Board of Trustees, and Dr. Charles L. Brown, chancellor of The Ohio State University, recently addressed the issue.

"The law gives public employees the right to unionize," said Moore. "If a majority of the employees of a particular group vote in favor of unionization, a public employee union can be formed."

Both Moore and Brown emphasized that the management of public agencies is not designed to be adversarial.

"We understand that public employees can have specific concerns about working conditions," said Moore. "We want to work with public employees to resolve those concerns." Brown agreed.

In the event of a public employee union, negotiations will begin. Both Moore and Brown provided examples of issues that might be discussed.

Moore: 
- Salary and benefits
- Work hours and work conditions
- Job security
- Retirement benefits

Brown: 
- Teaching loads
- Class size
- Class composition

Both Moore and Brown emphasized that negotiations are designed to be cooperative and to find solutions that benefit both sides. They noted that the final agreement will be binding.

"If both sides cannot agree on a contract, the state will arbitrate," said Moore. "Arbitration is a neutral third party that will decide on the issues.

"We have a strong record of cooperative negotiations," said Brown. "We believe that public employees and public employers can work together to achieve common goals."
Penny Nemitz named recipient of Ferrari Award

The top academic advisor at the Firelands College is this year's recipient of the Michael F. Ferrari Award. The annual award is presented by the Bowling Green Community Council. Nemitz is an associate professor who has served as the Dean of College of Education and Allied Professions since 1983.

In her current position, Nemitz has been instrumental in the growth and development of the College of Education and Allied Professions. She has helped to shape the curriculum and programs offered by the college, and has played a key role in the expansion of the college's facilities and resources.

Nemitz has also been active in the Bowling Green community, serving on several boards and committees. She is a member of the Bowling Green Community Council, and has been involved in a number of community service projects.

Her dedication to education and her commitment to the community have earned her the respect and admiration of her colleagues and students.

Russell named dean of College of Education and Allied Professions

Dr. Ronald Russell has been named dean of the College of Education and Allied Professions. He served as interim dean of the college since 2010. Russell has been a faculty member at Firelands College since 1984, and has served in various administrative roles, including as the dean of the Division of Continuing Education.

In his new role, Russell will be responsible for overseeing the College of Education and Allied Professions, which includes the departments of Education, Health Services, Human Services, and Social Work.

Russell has a strong commitment to improving the quality of education at the college, and has worked to enhance the college’s programs and services. He is well-respected by his colleagues and students, and has made significant contributions to the college in his years of service.

Boston University announced that it is seeking applications for the position of dean of the College of Education and Allied Professions. The position is currently held by Dr. Ronald Russell, who has served in this role since 2010.

The College of Education and Allied Professions includes the departments of Education, Health Services, Human Services, and Social Work. The dean is responsible for overseeing the college’s programs and services, and for ensuring the quality of education at the college.

The successful candidate will have a strong commitment to improving the quality of education at the college, and will have a proven track record of leadership and success in higher education.

Applicants are encouraged to submit their applications by February 1, 2014. For more information, please visit the Boston University website.

BG LINK to be unveiled at Jerome Sept. 2

Dr. Patrick Lemmon, director of the School of Engineering, announced that the university will be unveiling the BG LINK to the public in September. The BG LINK is a new initiative that will connect the university’s engineering students with the local community.

The BG LINK will provide opportunities for students to work on real-world engineering projects, and will give them the chance to gain valuable experience and enhance their resumes.

The BG LINK is a collaboration between the school of engineering and the local community. It is designed to provide a win-win situation for both the students and the local businesses.

The BG LINK is a significant step forward for the university, as it provides a new avenue for students to gain practical experience and enhance their skills. It is a testament to the university’s commitment to preparing students for success in the workplace.

American in concert

Firelands College will present an evening of music featuring the American in concert. The American is a popular band that has gained nationwide recognition for its energetic performances and soulful sound.

The band’s music is characterized by its driving rhythms, powerful vocals, and infectious melodies. The American’s performances are always a hit with audiences, and are sure to be a highlight of the concert at Firelands College.

Tickets for the concert are $15 in advance and $20 at the door. Advance tickets can be purchased by calling 419-350-0293.

Grant funds available

The Administrative Council of the Firelands College has announced the availability of grant funds for students. The grant funds will be awarded to students who demonstrate financial need and who meet the eligibility requirements.

The grant funds are intended to help students cover the cost of tuition, fees, and other educational expenses. The grant funds will be awarded on a first-come, first-served basis, and students are encouraged to apply as soon as possible.

Students interested in applying for the grant funds should contact the Financial Aid Office for more information.

Trustee Medlen answers CSC's questions about the union and the budget

Trustee James Medlen, a graduate of Kent State University, has been named to the Board of Trustees of the College of Education and Allied Professions. Medlen is a former member of the College of Education and Allied Professions' Board of Trustees, and has been a strong advocate for the college's programs and services.

In his role as trustee, Medlen will be responsible for overseeing the college's budget and financial operations. He will also be responsible for representing the interests of the college's students and faculty.

Medlen has a strong commitment to the success of the college, and has been actively involved in the college's programs and activities. He is well-respected by his colleagues and students, and has made significant contributions to the college in his years of service.

Medlen's appointment to the Board of Trustees is a significant step forward for the college, as it provides a new avenue for the college to gain support and resources. It is a testament to the college's commitment to providing a quality education for its students.
Penny Nemitz honored as recipient of Ferrari Award

The top-graded student in the Finlayson College is this year's recipient of the Michael R. Ferrari Award. The award was presented at a formal dinner in the University Center Wednesday (Aug. 31) by the Ferrari Foundation.

The student who received the award, was named Penny Nemitz, is a senior at Bowling Green State University majoring in Political Science. Nemitz, who was named the student of the year by the National Political Science Association, will receive $3,000 from the award fund.

Trustee Medlin answers C&S's questions about the union and the budget

"The most important thing is the integration of computer facilities," said Dr. Joseph J. Medlin, chairman of the Bowling Green State University Board of Trustees, "We have to make sure that our computer facilities are compatible with each other, and that we have a central computer facility that can handle all of our needs."

The C&S asked Medlin about the budget and the labor disputes at the university. "We are in talks with the union about the budget," he said, "We are trying to find a way to cut costs and still provide a good education for our students."

The C&S also asked Medlin about the recent layoffs of classified employees. "We had to make those cuts," he said, "We had to reduce our budget and still provide a good education for our students."

Ferrari shown as "opposite"

The Ferrari Foundation is a non-profit organization that awards grants to students who are majoring in Political Science. The award is named after Michael R. Ferrari, who was a well-known political scientist. The award is given to the top-graded student in the Political Science Department each year.

Students, faculty, staff and members of the community are invited to attend a workshop on "searching the environment" to be held on Tuesday, Sept. 7, in the Student Union, Lower Ballroom, from 12:30 to 1:30 p.m. The workshop will be conducted by Dr. Jodi Laubis, associate professor of library science.

Dr. Laubis will discuss the "environment" as a research tool, focusing on the importance of searching interdisciplinary and academic databases. She will also demonstrate how to use the "environment" to locate relevant information and resources.

This workshop is sponsored by the Undergraduate Library and is part of the "dealing with databases" series. For more information, call 372-7724.

Registration and records office no longer to provide staff in off-campus mailroom

Due to recent budget cuts, the Office of Registration and Records is no longer able to provide staff to deliver mail to the university's off-campus mailroom. This change is effective immediately.

The office will continue to deliver mail to the off-campus mailroom for students who are unable to pick up their mail personally. The office will also continue to provide mail service to the off-campus mailroom for students who are unable to pick up their mail personally.

New locations for the off-campus mailroom will be announced at a later date.

Employees can still participate in non-paid leave program

Employees wishing to take additional time off from work should contact their supervisor or dean to discuss their options. The program allows employees to take up to eight days of non-paid leave per year.

Employees who are interested in participating in the non-paid leave program should contact their supervisor or dean for more information.

Computers for rent

Computers for rent are available in the Computer Science Building, Room 302. The computers are available for $10 per day, with a maximum of two computers per user. The computers come with disk drives and a CRUSAID reader.

Positions are filled

Several positions have been added to the university's administrative staff. The positions include director of the Office of Student Life, assistant to the Dean of Students, and director of the Office of Institutional Research.

More workshops set

The university continues to offer a variety of workshops for students, faculty, and staff. The workshops cover topics such as searching the environment, effective communication, and time management.

Finding materials at the campus library is going to take on a whole new meaning thanks to a sophisticated electronic information system that was unveiled to the public Sept. 2. President Meric S. Gertler, chair of the university's computer science department, said the new system will make it easier for students and faculty to locate materials on campus.

The system, known as the "environment," is a comprehensive database of information on the university's electronic resources. The database is accessible through an internet terminal located in the Student Union.

According to Christine Stock, chair of the Classified Staff Council, the time of the announcement was moved to the afternoon in order to accommodate staff and ensure that employees were aware of the changes in time.

Three staff positions will be replaced by a new staff position.

The university's Library Committee is pleased to announce the appointment of Brenda McCallum as the new director of the Library of Ohio. McCallum, who has been with the university since 1985, will begin her new position on Sept. 1.

McCallum, who has a bachelor's degree in library science from Bowling Green State University, will be responsible for overseeing the university's library system, including the library's collection, staffing, and budget.

Bowling Green libraries database.

The new library system will be available in three days at Bowling Green. Currently, the library system is available on a whole day basis.

Bowling Green library is expanding. The library system will be expanded to the OhioLINK network within the next nearest location which has not been determined.

The volume may be available in delivery by the 1st of September.
