REGISTRATION
READ WITH CARE

All new students and all transfer students must have proper admission cards before being admitted to assembly room.

Read with care page one and two of the bulletin handed you at the door. It gives full directions to follow in registration.

All elementary sophomore students who filled out statements of their intention to return this year will receive their schedules completed at Miss Hedrick's station in the assembly room.

All elementary sophomore students assigned practice teaching should see Miss Hayward and all degree students assigned practice teaching should see Dr. Williams at table 4 in the registration room.

All ranking senior students should receive from Miss Bower at the entrance of the assembly room a statement of work completed, points earned and deficiencies. These cards should be taken with you to registration room to aid you in making your schedule.

Important: Degree students in education in the sophomore year and especially in the junior and senior years should plan carefully for "teaching" majors or minors in addition to the regular college major and minor. The "teaching" minor in academic subjects is 10 semester hours, if the student has the proper high school prerequisite. In special subjects it varies from 16 to 20 semester hours.

New Introductory Bulletin

For the first time in the history of Bowling Green State College, a bulletin of the introductory exercises for new students has been printed for distribution to faculty and student body. The first page is given over to a schedule of activities for new students during the opening week. On the second page are detailed directions for registration, with the remainder of the booklet taken up with a schedule of classes. It is a very handy pamphlet and the new students especially will no doubt appreciate the service.

F. E. R. A. FOR STUDENTS

The Federal Emergency Relief Administration, commonly referred to as the F. E. R. A., has become well established in the college here this year. A number equivalent to twelve per cent of the regular 1933 student body has been selected for part-time work. This percentage amounts to the choosing of 105 students, divided

(Continued on page 8, col. 1)

FACULTY CHANGES

Very few changes have been made in the personnel of the college for the coming year. With the vacancy brought about by the marriage of Mrs. B. H. Urschel, nee Lilian Tressel, Mr. Verne M. Pettit of Groveport has consented to act as a substitute instructor until a permanent appointment can be made. The president has sought an applicant for this position with a doctorate in French but as yet has not been successful in finding one to fulfill the particular requirements of this position. Mr. Pettit substituted in this department in 1929 and since then has taken his masters degree at Ohio State University and in addition has added a full year to his training toward a doctor's degree. His work was very satisfactory when he substituted here before and undoubtedly his subsequent training will mean even greater efficiency in his work this year. Mr. Pettit is a member of the Phi Beta Kappa Scholastic Fraternity at Ohio State University.

Miss Gladys Burling, assistant librarian, has been granted a leave of absence for the coming year to study at the Toronto University. She plans to take an additional degree in Library Science. Her place will be temporarily filled by Miss Bulah May.

(Continued on page 5, col. 2)

EMERSON PARLIAMENT IS NEWLY ORGANIZED

During the summer session of 1934, avid Emersonians met each Wednesday night for a "course" in parliamentary practice and for a good time. This group which was under the tutelage of Prof. Schwartz and numbered between 50 and 60, later formed a permanent organization which promises to be a popular addition to the summer sessions. The group honored the parent-body by naming itself Emerson Parliament, after the Emerson Literary Society. There is, however, no official connection between the two organizations. We welcome this newest addition to the campus, and wish for it a long and successful career.

Student Opinion

Last spring, a poll of students and faculty showed that the favorite type of article in the Bee Gee News was Student Opinion. During the past year we have had many articles of this type but the field has been in no way saturated. Let's this year fill our paper with our critical and constructive opinions on affairs of school, state, nation, and world.
Wanted

Students to help on the Bee Gee News. Leave your name at the college office or with G. W. Beattie.

Food for Thought

One of the best articles in the current magazine-literature is to be found in Harper's for September, 1934. It is John T. Flynn's "Whose Child Is the NRA?" which should pretty well still the rumors that the Recovery Act was the work of Socialists or "Reds", or conceived in Moscow.

In the same issue are the important "Collectivism and Human Nature" by Carl Dreher, and "A Defense of Democracy" by George Boas. History students will be interested in "The Manchurian Incident of 1931" by Ben Dorfman.

Last spring, this column recommended that the Weekly Today be added to the magazine shelf of the Library. We wish to reaffirm our belief in the worth of this periodical as testified by the many fine articles in the issue of September 8. Here we find "Drought: Nature's Red Light" by Watson Davis, "Facts Behind the General Strike" by Larry O'Connor, and "Plowing Under the Rural Slums" by Ernest K. Lindley. The feature article of this issue is Fred C. Kelly's "Exposing the Myth of England's Recovery."

The outstanding periodical for the social science student is the Survey Graphic. In the September number there are articles on the "Drought" (J. Russell Smith), the "San Francisco General Strike" (Taylor and Gold), and "Emergency Schools" (Beulah Amidon).

Changes Made About Campus

Some rather important changes have been made about the college this summer. The chemistry laboratory has been enlarged and reequipped to accommodate a larger number of students interested in this branch of study. With the shifting of equipment and rooms, the accommodations have been greatly increased. In the northeast room of the basement floor of the Science Hall, an animal room has been installed. Quarters are provided here for white rats, guinna pigs and such animals needed for experimental purposes.

The athletic field has been improved also. The bleachers have been repaired, the running track graded and a cement curb placed at the edge of the track to hold it in perfect line. The buildings in general have received an unusual renovation and are in excellent condition for the opening of school. Forty new mattresses have been purchased for Shatzel Hall. Provision has been made for the other departments of the college as needs have arisen.

Chem. Laboratories Remodeled

During the summer, a number of changes were made in the Chemistry laboratories. The freshman laboratory has been enlarged by removing the east wall to take in the new room. When the three new tables are installed, the laboratory will have lockers for more than a hundred students. Two new hoods and additional ventilation have been provided.

The Quantitative laboratory is being equipped with a second set of fume hoods, and extensive improvements in the ventilation have been made. A ventilator has been installed under the north windows to supply fresh air, while a large duct and exhaust fan on the east wall should permit the rapid removal of heavy gases.

The shelf space in the stock-room has been increased, making possible a more convenient arrangement of supplies, which in turn means more rapid service.

The south office on the top floor has been converted into a balance room. This is an important improvement, since the new room is not only better lighted and ventilated, but is located at a distance from the laboratories so as to escape fumes which injure the sensitive balances.

Another important feature of the remodeling is the addition of a Preparations Laboratory for the preparation of solutions, reagents, analytical samples, and for standardizations. The new laboratory also makes it possible for the department to render further service to the community.

In addition to the above items, plans are being made for an outside storage room to be built east of the Science Building, for the housing of corrosive or dangerous chemicals used by the Biology, Chemistry, and Engineering departments.

Used Books for Sale

The college will handle a few second hand books this year along with the new books which have been sold in the book room on the second floor of the Administration Building. This accommodation to students is in line with the policy of helping students in every way possible to obtain a year's college training at reasonable expense. The stock of these books is not large since the decision to handle them was made too late in the summer to secure a large supply. Information concerning assortment and prices may be obtained at the book room.

Introductory Exercises

For New Students

September 17, Monday.

8 A. M.—Registration of freshmen and new students. Auditorium, Administration Building. See directions below.

1 P. M.—Registration continued.

8 P. M.—President and Faculty Reception to all new students. Physical Education Building. Present Coupon A.

September 18, Tuesday.

8-10 A. M.—Registration continued.

10:30 A. M.—Meeting of all new students. Auditorium, Administration Building. Present Coupon B.

2 P. M.—Psychological Examination.

All new students who do not have on file in the Registrar's Office an official statement showing that they have taken the Ohio State University Psychological Test are required to take this test at this time. It is strongly recommended that all new students take the test even if they have passed it previously, in order to obtain an up-to-date rating. Auditorium, Administration Building.

September 19, Wednesday

8-12 A. M.—Inspection of campus and college buildings. Meet in front of Science Building at the time specified on your Ap- pointments card. Present Coupon C.

1-5 P. M.—Instruction on use of Library. Main Reading Room, Library, at the time specified on your Appointments card. Present Coupon D.

September 20, Thursday

8 A. M.—Recitations begin.

4 P. M.—Meeting of all women. Auditorium, Administration Building. Present Coupon F.

4 P. M.—Meeting of all men. Room 400, Science Building. Present Coupon E.

5:15 P. M.—Picnic for freshman women. Sponsored by W. A. A. Meet on steps of Administration Building.

Every new student is given a physical examination. Report promptly at the Physical Education Building at the time specified on your Appointments card. Present Coupon F.

All new students are required to attend all of the Introductory Exercises. No one will be excused except on account of illness.
GREETINGS
(Continued from page 1, col. 1)
ing character. These important consider-
ations have received due attention. Noth-
ing of importance associated with college
life has been neglected. All the usual ac-
tivities which tend to promote efficiency in
life are stressed. It is also the constant pur-
pose to stimulate initiative and clear think-
ing on the part of students. To this end the
college aims to provide social opportunities,
athletic programs, dramatic exercises, de-
bating, religious organizations, and clubs
designed to arouse interest in departmental
subjects. The intellectual and moral as-
pects of college life do not constitute the
whole college program. Proper recognition
must be given to health and physical wel-
fare and ample provision has been made to
serve this purpose.

The student population of Bowling Green
for the new year will consist of several hun-
dred new students. The readjustment
necessary in the first few weeks in order
to bring about a unified group is our great
task at the outset. To this significant pur-
pose we solicit the cooperation and con-
tributions of faculty and students. We
cordially welcome everyone and sincerely
trust that the year just beginning may be
a happy and fruitful one to all in any
way connected with the college.

Intramural Tennis Tournament
The annual fall intramural tennis tournament will be held very soon. See bulletin board for particulars.

Horseshoe Tournament
Are you an artist at this barnyard sport? If so, see bulletin board in men's gymnasium for particulars.

Intramural Speedball or Soccer
Here is an ideal sport for all men in the institution. It affords ample fun and recreation besides plenty of action. The intramural department is sponsoring it for the first time. If interested sign up on bulletin board in men's gymnasium.

W. A. A. Sponsors Hike
Members of the Women's Athletic Association are planning a supper hike for the pleasure of all girls on the campus. It will be held at Brigham's woods, Thursday, Sept. 20, at 3:00 o'clock.

All girls are asked to meet on the administration building steps. Each one is asked to bring her own lunch and the W. A. A. will furnish the treat.

The main feature of the evening will be the introduction of the Women's Athletic Association to the new girls. The method of earning the W. A. A. emblem, chevrons, and the coveted B. G. sweater will be explained. Also games and songs will be held.

All girls are sincerely invited. This will be a good chance to get acquainted with others—don't miss it!

Nature-Lore
Under this head we plan to print notes of interest to nature and Biology students. Contributions are earnestly solicited.

Below are given a few notes on the fall bird migration:
Sept. 9—Olive-backed thrush; Blackburnian, Black-throated Green, Black and White Warblers; and Redstart (Huron Co.

DEPARTMENT OF PHYSICAL EDUCATION FOR MEN

It is customary for all men at Bowling Green State College to engage in some form of physical activity whether it be recreative or athletic. The Department of Physical Education for Men endeavors to maintain a "club" atmosphere in and about the gymnasium. Every man is a member of the "club" once he enrolls in the College and is eligible to make use of its many facilities during his class and leisure hours.

The department exists primarily to serve the physical education needs of the individual students, and it is earnestly desired that each one will avail himself of the opportunity to discuss health and physical education problems with members of the teaching staff. The door of the Physical education is always open, and students will find members of the staff genuinely interested, and eager to assist in bringing adjustments to individual problems.

Physical Education Facilities
The department of physical education provides the following facilities which are available for use during the leisure and class hours of the student: nine wire enclosed tennis courts, four wall handball courts with two of these marked for squash tennis, a cinder track with a 220 yard straightaway, a football field, fields for playing indoor baseball, soccer, speedball, and other outdoor games, four horseshoe courts, one of the finest gymnasiums in the entire state with facilities for basketball, boxing, wrestling, tumbling, volleyball, handball, apparatus, striking bag platform, rowing machine and other equipment.

These facilities are at your disposal at all times except on Holidays. All facilities are closed at the Assembly hour on Tuesdays and Wednesdays.

(Continued from page 4, col. 2)

Physical Education Requirement
All students are required to take physical education throughout the first two years of residence, unless the equivalent is had elsewhere.

A physical education requirement is of advantage to the student because it provides him with the opportunity:
1. To assist in maintaining physical efficiency by means of pleasurable exercise.
2. To play with other students, thus bringing about friendships and social contacts which will be a source of pleasure during college life and in after years as well.
3. To receive a physical as well as a mental education, learning games and other activities which will be useful as a means of obtaining exercise after school days are over.
4. If physically fit, to learn how to play, under expert supervision, the various athletic games, and to play on a Bowling Green team or squad.
5. If physically unfit, to learn a recreative game or activity, and to practice under supervision remedial exercises, in keeping with the particular defect.

Freshmen must attend the regular class periods as specified in the college catalog. In his freshman year he is taught a wide variety of activities including speedball, soccer, touch football, volleyball, basketball, tumbling, apparatus work, track and field athletics, handball, and many others.

In his sophomore year he is permitted to elect one of the following activities for which he is physically fit, to learn how to play, under expert supervision, the various athletic games, and to play on a Bowling Green team or squad.

Freshmen must attend the regular class periods as specified in the college catalog. In his freshman year he is taught a wide variety of activities including speedball, soccer, touch football, volleyball, basketball, tumbling, apparatus work, track and field athletics, handball, and many others.

In his sophomore year he is permitted to elect one of the following activities for which he is physically fit, to learn how to play, under expert supervision, the various athletic games, and to play on a Bowling Green team or squad.

Intramural Athletics
An extensive intramural program is conducted by the department of physical education for men in cooperation with the department of athletics. This program is designed exclusively for the rank and file students who desire to participate in competitive athletics, but who are unable to "make" a varsity team or squad.

Each year competition is held between living organizations, and individuals, in various sports and activities such as basketball, handball, tennis, volleyball, track and field athletics, and various other sports. See general rules for intramural sports elsewhere in this issue.

of Oberlin. Miss May's training includes an A. B. degree from Oberlin College and a B. S. in Library Science degree from Western Reserve.

The position in the Music department made vacant by the resignation of Mrs. Warren Steller has not been filled for the present. The duties formerly assigned to Mrs. Steller will be assumed this year by other members of the department. This adjustment has been made very largely in accordance with the economy policy prevalent throughout college activity.

One change has been made in the Campus Training School. With the withdrawal of Miss Winkler who has been teaching the sixth grade for several years, Miss Mills has been transferred from the Education department of the college to this sixth grade position. The only systematic followup work ever carried on by the college was that which Miss Mills did several years ago. Later she taught some extension

balls, volleyballs, boxing gloves, basketballs, striking bags, and other articles may be secured from the student in charge of the equipment room which is located in the basement of the gymnasium. Articles borrowed from the department must be returned in person by the borrower, otherwise he will be charged for them in the Administrative Office of the College.

Volunteer Physical Education for Upperclassmen, Faculty and Administration

The use of the gymnasium, handball courts, tennis courts, and other facilities of the Department of Education are open for use by upperclassmen, faculty and administrative officers of the College. They may attend any of the organized physical education classes, or receive individual instruction in the various activities upon application to the director in the physical education office.

GENERAL RULES FOR INTRAMURAL SPORTS

Foreward

It is the objective of the department of Physical Education to have all men in the institution participate more or less regularly in some form of physical activity. The equipment and facilities are furnished and all the individuals needs to furnish is the desire and willingness to take part in some type of physical recreation. Every effort is being made to realize the highest possible development of the intramural program. Intramurals offer to every student an opportunity for recreation in a wide range of sports, many of which can be played in later life, an opportunity for healthful exercise with the fun and zest of friendly competition, and wide social contacts with other students.

The department thinks it advisable to have available and readily accessible information concerning the more important items and activities of the department. This not only facilitates the administration of the work, but what is more important enables the student to realize greater pleasure and values from his physical activity program. Such are the purposes and aims of these few pages.

Entries

The final entry date for each sport is announced in the Bee Gee News, local newspapers, and on the bulletin board in the men's gymnasium. All entries must be filed before 5:00 P.M. of the specified date.

Eligibility List

A list of all players eligible for competition must be filed for each sport at the time the entry blanks are handed in. New names may be added but the Intramural Department must have 24 hours notice previous to the time of the scheduled contest in which the new member is to compete.

Eligibility Rules

1. All students of the college are eligible to enter any activity promoted by the department of Physical Education.

(Continued on page 7, col. 1)
DEPT. OF PHYSICAL FOR MEN
(Continued from page 6, col. 2)

partment except as provided in special rules.
2. No man out for varsity sport may compete in intramural athletics without the consent of the varsity coach.
3. A player may not play on more than one team in any given sport, except as provided.
4. Any student who has received the varsity award either at Bowling Green or any other college, shall not be eligible to compete in that particular sport.

Class Eligibility
5. Members of their respective class teams must be bonafide members of their class. A student may represent only the class in which he is officially registered. If he changes his status at the end of the first semester, he must continue a member of his team until the end of that sport season. (Note: Classified according to College catalogue for transfer students: other students are classified according to number of years of attendance in school.)

F. E. R. A. FOR STUDENTS
(Continued from page 1, col. 2)

among 35 men and 70 women. This distribution is based on the ratio of men to women students in the regular enrollment. The regulations require that fifty per cent of these students be members of the Freshman Class.

The college assumes full responsibility of providing work for these students. It also supervises all operations and has power of dismissal for inefficient service or improper conduct or application to the work. Last year the students were assigned to jobs of various kinds on the college campus only but this year the government has extended this field to the community at large. The high school, the health office and other similar organizations are cooperating in providing places for students to work. The work must be known to be socially desirable and of such a nature that no financial load will be lifted from the organization furnishing the work. Care is taken to draw no work away from some other individual in an organization who otherwise would have the benefit of employment in the organization. All positions must be entirely new with no interference with former activities.

The hourly wage has been set by the government at thirty cents. This wage exceeds the general hourly rate of twenty cents which is standard for student help at the college here at the present time. However, since the expenses at small colleges, especially state institutions, are often less than in the larger colleges and universities, the government rate of thirty cents would probably not be greater proportionately than the lower rate in a college such as this. With such help given to a great number of students throughout the United States, the employment situation will be relieved and at the same time a large number of students will be given the opportunity of attending college who otherwise would have to remain idle.
