New book reveals SICSIC's history and some of members' close encounters

In a new book that has stunned the campus community, the University's student group SICSIC has been exposed. Titled "The Making of a Student Group: An Oral History of SICSIC," the book is the result of interviews conducted with a group of former members and alumni who were part of the group from the 1960s to the 1980s. The book, published by the University Press, includes interviews with former members as well as faculty and staff who were involved with the group.

"The book is a fascinating look at the history of SICSIC, and it's amazing how much has changed over the years," said Professor John Doe, a member of the history department who has conducted research on the group. "It's a must-read for anyone interested in the history of the University or student activism in general."
The professor is recognized as most outstanding statistician of Bangladesh

Professor A.K. Saha, an expert in the field of statistical sciences due to his extensive research, work, and contributions to the field, received the recognition as the most outstanding statistician of Bangladesh for the year 2000. The organization selected Saha based on his contributions to the field and his leadership in statistical research.

NCA Team to be on campus next week, open meeting is planned

A discussion about the upcoming NCA Team meeting was held, including plans for the meeting and its objectives. It was noted that the team will have to be prepared to discuss a wide range of topics, and that they will need to be careful not to get too focused on any one issue. The meeting was scheduled to take place next week.

Senators chair is guest speaker at ASC meeting, promotes common goals

Senator White introduced a new member to the ASC, Professor A.K. Saha, who spoke about his research and his contributions to the field of statistical sciences. He emphasized the importance of collaboration and the need for a common goal to achieve success.

NCA Team is exempt from new sales tax

When the NCA Team is on campus next week, it will not be subject to the new sales tax. This is because the NCA Team is not a taxable entity under the terms of the sales tax law. It was noted that this is a significant benefit for the team, as it will save them money on their expenses.

AIDS CLASS

- From the front: 
  - AIDS can be spread by sexual contact, blood products, and through infected mother to baby. 
  - The major problem is the spread of AIDS and other sexually transmitted diseases. 
  - The main risk of AIDS is the life-threatening illness. 

GRANTS AND CONTRACTS
