CONFERENCES AND CULTURAL ACTIVITIES

THE MEETING OF THE ASSOCIATION

The program consisted of the following:

The Y. W. C. A. had a very successful Day and the admission of a new group was announced. The occasion was the observation of the 100th anniversary of Toledo these entertainments draw a number of people from this university.

The concert which featured the orchestra from Hungary in the proximity of Toledo these entertainments were given to the thirty-five student teachers of Ridge Street School by Miss Hayward, superintendent of the school cafeteria and the cultural interests and requirements of the audiences as well as the excellent entertainers these concerts are attractive and enjoyable. For these reasons and because of the prominence of Toledo these entertainments draw a number of people from this university.

The modern dance has only in the last few years been given recognition and a place along with the other fine arts—music, painting, sculpture, literature. Therefore it is new to many people, and as anything new in development, has brought many adverse criticisms. It is being furthered in two ways (1) by the schools, universities and colleges offering courses in “Dance” for both men and women. Dynamic dance and music, the three having common elements of movement, rhythm, design, form; (2) by concert dancers touring the country and giving lecture-demonstrations whereby people have an opportunity to see how the dance is being developed in an art-form. Our university offers a course in modern dance in Physical Education 73 and 77. Among the well known concert dancers today are: Doris Humphrey, Charles Weidman, Martha Graham, Alexander, Harvard, Kreutzberg, Ted Shawn, and his group of men dancers, Mary Wigman, Tamaris and Group, and many others. We are fortunate to have the last-named.

Gossip

Did you know that there’s a “History of the Pig” It was written by Joseph Harris, on page 2.

Y. M. C. A. Discuss World Peace Topic

On Thursday night, Nov. 21, the Y. M. C. A. had a very successful meeting. The program consisted of a panel discussion led by Lawrence Ringenberg upon the subject of World Peace. Everyone present took part in the discussion.

Dr. Williams Talks To Kiwanis Club

Dr. Williams addressed the Kiwanis club Nov. 21 on the topic “The American Constitution.” The occasion was the observance of Kiwanis’ Education Day and the admission of a large group of new members.

HENDERSON TOURS EUROPE

Much of the time of the scannedianavian country was spent in Copenhagen and in Stockholm, often called the “Venice of the North.” The trip from Stockholm to Gothenburg was made on the Gothen Canal, a distance of 300 miles. This canal, started back in the days of Gustavus Adolphus, connects the various kinds of water ways across the country of Sweden, and proves a unique and an interesting experience for the visitor in that country.

On the month spent in England, two weeks of that time were spent in London, where she joined Charles and Mary dramas of Lorenz, also of this faculty. The remainder of the time in London was spent in the universities of Devonshire and Cornwall. Miss Henderson returned on the S. S. Pennland, arriving in New York on Sept. 9.
Thanksgiving... It seems to be customary at this time of year to list the things that we have for which we should be thankful and elucidate at length upon them. In this case, we might as well be fundamentalists in this more-ground: we are pleased that we are here, able to participate in life with such faculties as we have. The great advantage of this new holiday is that it is not more likely that they all have one general, fundamental meaning than that each has but one specific meaning. If so, what do we have? I have thought about general or social ethics or human relationships, or some even more broad problem. I cannot find this fundamental question—but isn’t it the search for its more inspiring and fruitful than satisfying ourselves with the avoidance of specific aspects of each holiday’s meaning? I do know the latter, it is almost certain that the years roll on, we shall gradually accept each holiday in a passive, mechanical way.

Here, then, is a plea to place Christianity on a higher plane than a set of ritualistic observations; are we ready to support it? —G. S.

Cold Showers... The appearance of the Women’s east locker room lately is much improved. It is expected that a satisfactory ability to be able to dress in a locker room which has light bulbs in all the sockets, a clean floor, clean windows, clean showers and doesn’t smell like a stock-room, much appreciated. It is indeed a satisfaction to be able to dress of hope. Never before have I met. You, dear Hezebel have visualizing that girl I hope to dreaming, planning for, and acquaintance. Many a night I dream of love. At first where she heard voices calling me among the armys of France; then her struggles to set men and money to carry out her project. The last scene was if the trial when she was confirmed to be burned at the stake.

The acting was well done and Miss Rose kept her audience interested during the entire hour.

45 Come Out For Concert Band

The Concert Band under direction of Prof. Church; started out well with a number of American music. The ending of the piece was not very strong to protect the Wooster Girls. The next number was a bit flat, but the Wooster Girls are doing quite well already.

We will submit from time to time what will be of interest both to the general reader as well as those who read for a year outside of the sphere of this series deals with a subject equally attractive to both. You, dear Hezebel, never think that we have studied the quantities of men and women interested in science we admit an account but different now. Millions of new stars will be brought within the range of men’s vision through a new telescope, four times as powerful as the new telescope now in use in our observatories, but we have not yet built for the California Institute of Technology with funds furnished by the International Scarcity. Board. It will be located on a high California mountain to be selected later.

The present world’s largest telescope is the 160-inch re-locator on Mount Wilson, Calif. The new telescope will have a 300-inch reflector of fused quartz, which will present a more nearly perfect surface for the glass.

When it is considered that the present largest telescopes have not been able to explore the universe to a distance of 100 million light years, the depths to which the new monster reflector may penetrate may be figured but can only be grasped by the hu- man mind.

The most startling subjects to be revealed will doubtless be connected with nearby heavenly bodies such as our moon and the planets of our solar system. The question of whether life exists on Mars or Venus probably be answered.

The scientific world, and lay- men too, will greatly await the new knowledge which is bound to be obtained through its revelation.

BETA Pi THETA HOLDS SOCIAL MEETING

(Continued from page 1, column 1) The most startling objects to be observed are Chrysolanthus and lighted by red tapers on either side of the center bouqet. Lovely foreign flowers used. The following people were served: Faculty members Miss Nielsen and Miss Baird; student guests: Sue Bel- lows; William Frank, Jeanette Pumphrey, Mrs. G. Dec. 2; Max Brill- zaugg, French horn; Max Brilli- teen of next year’s team. The Bee Gee News used to be published every three weeks. Findlay College will appear in the next program. In the basket- ball schedule of the University... The Falcons will play seven home games... The Zoology classes have to learn and be able to recognize 30 species of birds plus snakes and turtles... the best way for that “Freshman” is to have a three o’clock is not to schedule one... B. G. Uni- versity has 1100 students... Thanksgiving vacation begins... tomorrow... there are only 28 days... The answer to any Christ- mas Gift problem is your photograph - the personal gift that only you can give. J. A. WALKER

Book and Motor Society Party at Women’s Club.
Emerson Literary Society, mixed program.
Dec. 3—Box Entertainment Course
Tamiris Interpretative Dance at 8:15 P. M.
Dec. 4—Assembly, Tamiris Lecture on Dancing.
Guill Tile Quartet at 7:30 P. M. in M. A. B. Building.

University Gabble
The ‘kick-off,’ as witnessed by the people who attended the dance Saturday night, was the nearest thing to an Indian mas- sacre anything ever could be.

The Freshman Hop, without doubt the best dance given yet, attracted many “freshmen” (and upper-classmen). During the evening refreshments consisting of cake in form of glazed dough- nuts and cider was served.

Archie King, local speed de- mist, is recovering nicely after his unsuccessful attempt to hit the world’s record of 307 miles per hour next year. Mr. King  

Orchestra Rehearsals Are Open To All
Those interested in hearing rehearsals with orchestra are welcome to attend. The rehearsals are held from seven to nine o’clock every Monday night in Room 309 PA.

ALWAYS Glad to see you
Ye Olde Five Brothers

A fraternity is only as good as its poorest member; no organization is only as intact as its weakest member. That was the policy used by Ye Olde Five Brothers, a large fraternity that has been in operation for many years, in order to promote "sorority pride" among its members. This policy is a way to ensure that each member feels responsible for the group's welfare and that the fraternity as a whole is successful, even if one member may seem to be less than ideal. It's a way to make sure that the group is not only "good for the top," but also for the bottom. This is why the fraternity is only as good as its poorest member and not necessarily its most careless brother. This principle is also applied to organizations in general. A large fraternity cannot have a high point average if any of its members do not. The fraternity must have "sorority pride" but let be be not rationalize but let be be not. This is why Ye Olde Five Brothers is now studying Wagner's "Music Appreciation," a topic under discussion at the meeting held last Tuesday evening. The meeting was held at the formal pledge service and the new pledges were served. After the business discussion, the following girls were honored: Annabel Loe, Eileen Hollman, Mary Alice Hoover, Betty Huss, Evelyn Mack, Mary Varnum, Virginia Shilling, Evelyn Calwell, Virginia Raye, Mary Lota, Florence Gerwin, Phyllis Good, Virginia Shilling, Evelyn Colpitts, Evelyn N. Bowdle, Mildred Willard. They have cooperated willingly in banding out the daily peanuts to the members, and we hope they like peanuts! We hope of rooms giving extra cleanings now and those who have been employed before are running over prayers. The weather is all in a lifetime. We must compliment the Freshmen on their dance they sponsored Friday evening, and the Ohio Home Economics Association, William Johnson and Mary Mcilder. We are very happy to have these girls and our own minutes, and we hope that they shall be equally happy at the termination of their second year.
Honor and Letter Men Chosen

At a recent meeting of the football squad "Jim" Greetham a senior was elected honorary captain of the year. "Jim" Inman, a Junior, was elected captain for next season. Following are the fellows who won letters:

MODERN DANCE ANALYZED
(Com. from page 1, col. 4)
and her group on our campus on Dec. 2. In order to understand and appreciate the technique and substance of modern dance, it is necessary that we know something about it. In the broadest sense, modern dance is free from any set traditions, becomes self-sufficient. It works for an understanding of use of the body and for a development along new lines of expression and personality development. The modern dance is the synthesis of body and mind.

The intramural basketball league started its season Monday night. A league composed of eleven teams started play for the college intramural basketball championship. Among the eleven entries several teams, can be rated as strong even at this point of the season. The Delhi team, the champions of the past few years, is again a strong organization. The Five Brother team which has proved to be so in and out team the last few years, has plenty of power on paper but the team play is very poor. The Commoners fraternity team can always be found near the top has another good organisation. The Y. M. C. A., a dominent of the past few years, is out for a winner this year with a strong balanced team. It looks like better days for the Y boys.

Of the other seven teams, only one has ever been heard of before. The Jones boys are again in the league. They have several new men and the strength of the team is unknown. The other teams are all new teams and can be rated as yet but judging from the first week the purity and Straight Shooters are going to be hard to beat. Some of the other teams are also strong but did not appear as classy as well organized.

Girls
Do you feel old and stagnant?
Do your bowls creest
do you buy difficulty in climbing out of bed?

The remedy for all of these ailments has arrived! Basketball season is just around the week-end. Practices start next Monday. If you aren't on a team, or haven't signed up, do it immediately! There are 16 on the Women's Physical Education Bulletin Board for this purpose. All further information is posted there also.

A Jolly Season Is Ahead! More fun! More baskets! So what! more games played! and me without my Psych.

FLEET FEET WIN FOR WARNER

At the Kickoff Party held last Saturday evening, Eugene Warner got down under punts by scuttling up the gym floor well ahead of the ball punt, punt, punt, and up under the line of scrimmage. The ball hit a rauble and bounced back to the south end, with the pack silent after it (the audience made all the noise). Warner beat everybody to the ball so decisively that nobody could find excuse to try to take it away from him. The ball that Inman punts was the one used the last game of the season; and of course all the seniors wanted it as a momento of their football days.

Last year "Rich" Reed emerged from a mad scramble with the ball in his arms and a little of the grimy green from floor distributed all over him. This year the men didn't wear their breeches, all the noise). Warner beat everybody to the ball so decisively that nobody could find excuse to try to take it away from him. The ball that Inman punts was the one used the last game of the season; and of course all the seniors wanted it as a momento of their football days.

PURITY AND STRAIGHT SHOOTERS

ELEVEN TEAMS started play for the intramural basketball league. Twelve teams are going to be hard to beat. Some of the other teams are also strong but did not appear as classy as well organized.
