Authors of new book provide own model of adult intellectual development

Dr. Patricia King, acting chair of higher education and student affairs at the University of Denver, has spent more than 30 years in adult education. She and her colleague, Dr. John Martin, have produced their own model of adult intellectual development.

They have written a book called "The Judgment," which focuses on the critical thinking skills adults need to make reasoned judgments in their lives.

"Critical thinking is a comprehensive intellectual task," King said. "The Judgment" provides a model for understanding and improving critical thinking skills.

The book is targeted to adults in education, business, and government.

"We hope to help people understand the importance of critical thinking and how to develop and improve their skills," King said.

The book includes case studies and practical exercises to help readers apply the concepts.

Each chapter of "The Judgment" focuses on a different aspect of critical thinking, such as identifying biases, gathering information, and analyzing arguments.

"We want to give people a framework for evaluating their own thinking and the thinking of others," Martin said.

The authors also discuss the role of emotions in critical thinking and the importance of diverse perspectives.

"We believe that critical thinking is a lifelong process that requires ongoing practice and reflection," King said.

The book is available at most bookstores and online retailers.

Environmentalivist to deliver this year's lamp's peace lecture April 5

Sustainable development is the theme of the annual Peace Lecture at Ohio State University this year, and the speaker will be Dr. David挽, professor of economics and environmental policy at the University of Cambridge.

Dr. David's research focuses on the economic incentives for sustainable development, and he is a strong advocate for a new approach to environmental policy.

"Sustainable development is a crucial issue for our planet's future," Dr. David said. "We need to find ways to balance economic growth with environmental protection, and I believe that my research can help.

The lecture will be held in the Ohio Union at 7 p.m. on April 5.

Leaders in academic affairs topic of tour in leadership tours

Dr. Susan K. Warner of the University of Maryland College Park, will deliver the 1993-1994 Distinguished Horner Guest Lecture Series on "Leadership and Student Affairs." The lecture is sponsored by the Office of the President and is free and open to all students, faculty, and staff.

Dr. Warner is the director of the Horner Lecture Program and an expert on leadership in higher education.

"Leadership is a critical issue in higher education," Dr. Warner said. "We need to develop leaders who can think critically, communicate effectively, and work collaboratively.

The lecture will begin at 3 p.m. in the Auditorium of the Ohio Union.

Candidates seeking elections to terms on SCS

Twenty-three people are running for seats on the Student Convocation of Students' Council and the Student Senate.

The voting process will begin April 1 and conclude April 12.

"The elections are an opportunity for students to participate in the governance of their university," a campus spokesperson said.

The candidates will be interviewed by the Academic Senate and the Student Senate will select the winners.

"The elections are an important part of the democratic process," the spokesperson said.

Bilingual Education: Promoting cultural awareness and needed more language skills

Each year, thousands of people from other countries move to the United States to live, work or study. And for many of them, English is a second language. Newcomers to American schools have recently returned from an international conference on bilingual education and universal language skills.

Recent development has brought increasing interest in the area of bilingual education, particularly in the context of increasing numbers of students with limited English proficiency. The conference was designed to help educators, policymakers and others to better understand the benefits of bilingual education and to promote effective strategies for teaching language skills.

The conference featured a variety of presentations and workshops, including discussions on the latest research in bilingual education, successful bilingual programs and strategies for supporting English language learners. Participants were able to network with educators from around the world and share ideas and best practices.

One of the key takeaways from the conference was the importance of providing support and resources for English language learners. Participants emphasized the need to create inclusive and culturally responsive learning environments that recognize and value the linguistic and cultural diversity of students.

Overall, the conference provided valuable insights into the importance of bilingual education and the need for continued investment in programs that support language development and cultural awareness.
DATEBOOK

Monday, April 4
8:00-11:00 a.m. Main Campus Computer Services, 8th Floor, Suite 8657, Ohio University, Athens. Open to faculty and staff.
