ENGLISH DEPT. HEAD PLANS TRIP TO ITALY

Mrs. Hissong To Be Travel Companion

Students Choose Plan

Last week the summer student body was given the opportunity to choose a plan for the summer, the first, second, and third choices of the following plans:

Plan 1—Three-weeks, a six weeks, a four-week session, fifty-minute periods.

Plan 2—Eight-weeks, five days a week, forenoon sessions, fifty-minute periods.

Plan 3—Eight-weeks, five days a week, fifty minute periods. Forenoon and one afternoon per week for three-hour courses.

Plan 4—Old-plan, one six-week term, five days a week, one five-week term, six days a week, all day sessions.

Plans one, two, three, will earn half a semester's credit. The fourth plan will merit twelve hours' credit, two-thirds of a semester's work.

Expression from those present at chapel regarding these plans will be appreciated.

There has been, according to Mr. Cordert, of Baltimore, Md., a great deal of talk about a United States University, a school of education, learning, sponsored and maintained by the federal government. Anyway, Mr. Cordert thinks it would be a very good thing to have around. "There should be some concentration place for all those professors that Mr. Roosevelt has collect ed," he says. "And just think of the football teams they could re-organize the relief rolls. And then there would be Prexy Bee Garver and Doc. Morgenthalau to teach them political science and economics. Rah!!"

(Continued on page 2, col. 3)

TOWNSENDITES UNSUCCESSFUL

B. G. Marriage Bureau

With the thump of the gavel the fifth session of the Townsend Parliament came to order in the old library engrossed in the pursuit of proceeding into the committee of the whole. "Red cards (those student activity cards) flashed, probably as sign cognizant of the battle to en sure over the Townsend Plan. Before proceeding to the business at hand the meeting be came a practice period for a committee of the whole. Mr. Hissong was named chairman. A member moved that time of debate be limited to 1 minute but this motion was lost. Then a motion was made that we secure a reasonable amount of time to debate and get the lime kill for a swim. (Much enthusiasm was shown). This matter was referred to a committee of the whole. Mr. Perry proved to be the satiety of everyone that knew what a hole was. The group rose and reported no decision. Again an attempt was made to keep the group interested for one second but time was killed. Then a motion was made to move for the adoption of the motion and the group rose and the members filed slowly.

Wednesday night Emerson Parliament will discuss the following questions: 1. Should King Edward VIII marry before the coronation? 2. Should the windows especially those facing southward, be filled with stained glass? 3. Should a library be organised at Bowling Green State University for romantic students? 4. Should a fan be placed on the flag pole for general campus use? All extemporaneous speeches.

Chicago just had a convention where gentleman after gentleman arose to inform his audience of his "finds" in the insect world. Among these was a man who had skinned seven times before it grows up, and was common in the insect world. And the female praying mantis also a "find" was the "insect beauty." It is very dry thereby making it for instance, Old Salts cocoanut are caused by the act of falling water and carbonic acid gas over the limestone. Each cave has a distinct personality for instance, Old Salts was held July 8, when Russell T. Neville lectured on the cave of Mammoth, Old Salts, as well as of less worthwhile puppet show. Various shapes which resemble in minute detail plant draping of the hat. Tricks in which several men trick from colored rags to the ice of Niagara. The cave was taken. The rock forms resemble stalactite, and four and five...
Seven o'Clocks and Prisons

"The world is so full of a number of things, I'm sure we should all be as happy as kings." Had Robert Louis Stevenson ever had seven o'clock classes, he might have changed his mind before asserting such a thing. He may not have particularly relished the idea of being jolted out of bed at a 7:00 o'clock class minus a much needed breakfast—to sit next to a person who hasn't had time to even brush his teeth before appearing in the classroom. Nevertheless, he probably did relish the idea of making a 7:00 a.m. class if he had seven o'clock classes every morning, he might have changed his mind.

"Perhaps he gets in a couple of minutes late, is counted present and meets the instructor who lectures or by an "A" student who has spent enough time thinking over the text-book for the day's lesson (unless a test is threatened.) Per- haps he gets into the classroom just before the bell and vaguely thinks he will tell the instructor what particular field, element, or subject he is interested in.

The effects of such a policy will immediately be apparent. The tendency among students will be to train for general efficiency, and make satisfactory grades in the field in which they are employed rather than for work from which they are covered for several months of the year. And for incoming high school students the problems of selection will be immeasurably lessened.

To the Editor

I like seven o'clock classes because I don't have any. I don't like to go to seven o'clock classes. I can't get up long enough beforehand for my face to be as white as the snow. Logically, the professors are more vigorous at their initial onset than later. And I've noticed that the students are more attentive; they are more interpretative in their questions and answers, and their wire edge is worn off. The classrooms at seven are less crowded, I like my bed. By eleven, the rooms are hot, thinking is interfered with but the professors are perfect, and they are asking questions about which I am confused. The classrooms at seven are not crowded, I like them at seven because I don't have any.

McCAIN ANNOUNCES VOYAGE (Continued from page 1, col. 3)

"By new buildings" she re- ferred to places like loafers, and movements like the "do- up" evens. She also added that this movement was designed to make more people like the following rules:

1. Sonate A Quatre—Loeillet
2. Trio Serenade in D—Mozart
3. Varitions Libres Et Finale—Gabriel Pierne

The inspiration which the composer gets from his work is the title of the sermon—lecture by Dr. A. A. Roberts at the Presbyterian Church next Sunday morning at 10:45 and will con- tinue to the end of the week's series on "What Jesus Thought".

It has been the object of the Renfrew Salvation Army to bring into being today such society security, human rights, politics, etc., in the hope that out of what is known as Jesus' church school class will be taught by Dr. H. G. Witherington. A companion service will also be held at the worship hour next Sunday morning. The church school class will be

ANNOUNCEMENTS

July 23—Conference on Ohio High School Standards, Auditorium, 10:00 and 2:00.
July 30—Bowling green State campus Sing, Ad. building 7:16.
July 25—Softball, two games.
July 30—All State High University.

CAMPUS SING

A mere student takes part in making the concert one of the most memor- able ever given by the Bowling Green State University entertainment series. The Salvi ensemble, consisting of Miss Phebe E. Ferris, student alto, Miss Edna Jane McPeak, college cello and harp is not a com- mon group. The variety of musical numbers, the ideal musicianship, the inter- mediate interest and the fine performances of this group of gifted artists hold it throughout the evening. The program was well attended containing the following works:

1. Sonate A Quatre—Loeillet
2. Trio Serenade in D—Mozart
3. Varitions Libres Et Finale—Gabriel Pierne
4. Prelude—Debussy
5. "Hai K'ai—Jacques Pilius

1. All material must be signed by the author.
2. All material must be in box by 12:00 noon on Saturday, se- cretly by special arrangement with the editor.
3. Material must be written clearly and on one side of the paper only.
4. Facts must be authentic. The Editor

The Heat

Swar (in the late hours): "How can I ever leave you?"
Sage (sitting around the door): "Bus No. 7, train No. 1, any taxi.
"The Heat"

Sage: Yes, sir.
Sage: Are you sure he washed?
Sage: Yes, sir, he did.
Delhi Dope

In spite of the extremely torrid temperatures of the past two weeks, Delhi boys still have pep enough to keep the organization moving in a lively fashion. But there's just one thing that the boys shouldn't do and that's to pass pills of want around the cross street. We're very sorry it had to happen. We'll check more closely next time.

Foxy Hewbert has developed a new and unusual method of keeping cool, i.e., just merely jumping in the bath tub with all of his clothes on. He says that he saves time but the after effects are terrible, especially to his back.

We have been very fortunate in having four new neophytes, they are Louis Bryson, Lawrence Williamson, Hoyt Sprow, and Everett Bushong. And hearken to the best of luck in coming through and becoming full fledged members.

**WELL, WHAT?**

A funny little story has just reached us via the college grapevine, and we've decided to print it on. It seems that Miss Fulledge spoke to us a few weeks ago, Dr. Shafer was thoroughly in her denunciation of Ruth. And it seems that the news we printed a comment asking why he was so anxious to discredit the fairer sex. The morning the paper came out, Dr. Shafer faced his class with a copy of the paper. We were just wondering what would happen. But Ruth stormed out.

**HARP FACTS**

Because I heard students wondering about the harp Mr. Shafer mentioned the other day, we've been looking into the matter for you.

Mr. Shafer has 4 strings.
His harp is worth $2000.
He plays harp and viola.
He has a black dog named Larry.
He said he was playing about 100 days a year.

We've talked with Mr. Shafer because we wanted to know why he really chose the harp as his instrument of choice. He told us that he's been playing the harp for many years and that he finds it very satisfying.

He also mentioned that he enjoys the expressiveness of the harp and how it can convey a wide range of emotions. He said that the harp is a versatile instrument and can be used in a variety of settings, from classical to pop. He also mentioned that he enjoys the challenge of learning new music and the satisfaction of performing it for others.

We hope that this information will be helpful to you. If you have any other questions about the harp, feel free to ask Mr. Shafer or reach out to us. We're always here to help.

Three Teams Tie For Lead

Bayliss Loses Two Games

In a heads up ball game last Tuesday afternoon the Schaller boys defeated the previously invincible Bayliss aggregation 4-2 in an overtime game. Probably due to a change in their lineup this spirited group led the whole until the last of the seventh when runs by Pfost and Ebersole of the Bayliss team tied the score at 2-2. Schaller's boys showed that they had what it takes to win for they promptly came back with runs by Meyers and Brooks to lead 4-2. Some bad throws in the last of the eighth threatened to reduce the lead but the possibility was retired with three men on bases. Again Thursday the Bayliss team was marked down with a defeat due to a forfeit to the Van Atta team. Big time plays by Schaller and Pfost put the Van Atta team in a standing of three wins and two defeats which entitled them to this tie for first. Everybody seems to be interested in the Van Atta team as they appear ready for action. They seem to be watching for the teams to tie for first. Every game played this week definitely gives credit to their team. Last Friday the coaching staff of the Van Atta team tied the score at 2-2. Schaller's coach showed his appreciation of his brilliant 77 score in the Kiwanis Open at Findlay last week as he presented this handsome prize with due ceremony to his winning such an event. May this award be just a beginning for his trophy collection.

The softball race this summer has turned out to be everything thought by the coaches. We feel sorry for Yoder who is compelled to walk with his knee tightly bandaged, since the day he dislocated it while playing shortstop on one of the league teams. We hope you'll be back in form again in time for the finish of the season, Bill.

To see the large number of Bee Gee students at the open air dance pavilion at Wayne Park Friday night last week, would make one think that a misjudgment of the popularity of dancing at B. U. had been made. Again, judging from the number of such affairs as sponsored here this summer, only folks dancing seems to be in vogue.

Customer: These are very salty. Waiter: Yes, sir. Customer: And they don't seem to be very fresh. Waiter: Then it's lucky they're small, isn't it?

Summer Boarder: Why is it that old hog keeps trying to come into my room? Do you think he has taken a liking to your place? Farmer's Son: Why, that's because your husband addressed her: "You'd better move your foot, maa, you're standing on a live coal." Customer: "Oh, hell, nonchalantly," "Which foot, paw?"

Mr. Reed, Lieutenant Governor of Division No. 1 donated the trophy which is to be awarded to the winners of the Kiwanis Open for the Norm Reed silver loving cup. Mr. Reed, LieutenantGovernor of Division No. 1 donated the trophy which is to be awarded to the winners of the Kiwanis Open for the Norm Reed silver loving cup. Mr. Reed, LieutenantGovernor of Division No. 1 donated the trophy which is to be awarded to the winners of the Kiwanis Open for the Norm Reed silver loving cup. Mr. Reed, Lieutenant

A backwoods women, the soles of whose feet had been toughened by a life of driving a team of mules, was standing in front of her cabin fireplace one day when her husband addressed her: "You'd better move your foot, maa, you're standing on a live coal." Customer: "Oh, hell, nonchalantly," "Which foot, paw?"

Gulf Summer Gas FRED BAIRD 435 E. Wooster

Food for the days ahead:

Do not worry about the single who has won the prize of love. Do not worry about the single who has won the prize of love. Do not worry about the single who has won the prize of love.
