**Hispania**

A multi-paneled mural permanently installed in the first floor lobby of Shatell Hall was dedicated in a ceremony hosted by ethnic studies October 7. The mural, by artist and faculty member Adrian Tio, provides a historic and philosophical look at the development of today's Hispanic culture. Tio said. The main part of the piece, titled 'Hispania,' includes three large panels which each depict an aspect of the combining of three cultures — European, African and native peoples (Aztecs, Incas, Mayans). The center panel, called "Conquest," reflects the aggression of conquistadors who first brought the old worlds and new worlds together. The right panel, "Martyrs," shows faces of the three races and represents a struggle for cultural identity. The left panel, "Life," uses the symbols of life — a stalk of corn, a sun, outstretched hands — to describe the concept that life is a cycle which continues even after death. The piece is done in acrylic on a textured surface.
