Playing before a homecoming crowd of 2,600, the Bowling Green University Falcons battled for better than half and the half yard line before Northern team and fans in a 7-7 tie Saturday afternoon.

Outplaying Northern all afternoon, although the first downs gave Northern 10 and the Falcons 5, the locals were unable to make them count on several opportunities when one yard meant a touchdown.

After Inman kicked off to Northern the first quarter resulted in a punting duel with Capt. Inman keeping the Polar Bears back deep in their own territory.

Shortly after the second quarter got under way the Falcons received their first opportunity to score. Taking a short Northern punt just past the midfield, they drove down the field on passes and line bucks but the visitors line stiffened and took the ball over on their one yard line after a BG four down failed to get a touchdown.

After an exchange of punts the Falcons took over at midfield and again drove down the field only to be stopped on the one yard line as a fourth down failed to carry the ball over the goal line.

Near the end of the quarter a third drive by BG was started down the field. A gain from punt returner Cheetwood into the half yard line was allowed completed due to interference and the Falcons were given the ball on the one yard line as a first down. Stewart, the hard driving fullback, smashed the line for a yard line as a first down and Ponton to Cheetwood in the end.

Mr. Cheetwood, for the visitors from Ohio Northern team to a 7-7 tie Saturday afternoon.

To Lecture Here
Stuart Chase, famous economist, author of many books, will give a talk in the Auditorium Wednesday evening at eight o'clock.

Stuart Chase began his professional career as an accountant and was so efficient in this line of work that he passed the Certified Public Accountant examination of the State of Massachusetts in 1916. He did not particularly care for this type of work however, and at the present time he is working only with one company and holding that position only because of the splendid salary involved.

Stuart Chase wrote his first important book in 1926, "The Tragedy of Waste", a general survey of competitive waste in America which inspired the Saturday Review of Literature to say: "Congress should pass a law compelling every American citizen to read this book at least once."

His most popular book has been "Your Money's Worth," an expose of the tricks behind the trade marks."

"A New Deal," the title of Chase's program for revising the economic structure without breaking entirely with the past, furnished the Democratic Party and Franklin D. Roosevelt with their triumphant political slogan in 1932-33.

Mr. Chase gets himself into a "writing mood" by swimming, walking, or playing tennis with tremendous energy.

Architects Prepare Plans
It will be gratifying to the readers of the Bee Gee News to know that the necessary steps on the part of the Board of Trustees to avail the institutions of the benefits of the Federal Grants, which constitute the stadium and the addition to the auditorium, have been taken through the submission of the necessary final application forms and the designation of architects for the projects.

Mr. John P. Schooley, state architect and engineer, will furnish the necessary architectural and engineering services for the stadium. The firm of Thomas D. McLaughlin and associates of Lima, will service the architects for the addition to the auditorium.

Under the terms of the grants, the construction contracts must be let and the work started on or before Jan. 11th. The architects have obligat ed themselves to proceed in accordance with these requirements. The stadium will be located on the north side of the football field, where the present wooden stadium is located. The structure will be 300 feet long and 17 tiers high, and will extend from goal to goal. It will have press-box 36 feet long with the necessary wiring for telephone and telegraph connections. Underneath will be auxiliary accommodations, storage rooms, and a refreshment stand. The construction will be of steel and concrete.

Cheer Leaders ..

"Last Saturday, I heard this among the students: Bee Gee never has considered doing anything. Did you ever stop to think that it might be you? Do you help support a cheer leader by contributing your voice during a yell? Whether your voice is weak or strong, every one working and cooperating together will help immensely. A cheerleader can't yell alone, he needs all the students to back him up. What do you say, student body, are we going to put more effort forth and yell or leave it up to the cheer leader to do a solo? I think it might be a good idea to print some yells we don't know so well in the Bee Gee News so everyone could learn them."

F. T. L. wishes to make the presence known and announce that the state president of the league, Rev. Falconberg, will be the speaker at the meeting on Monday evening, November 24 at 8:15 in the Auditorium, and that all college students are invited to attend our meeting.

Westminster

"Can We Still Believe in a Christian God?" will be the topic at the Wednesday meeting next Sunday evening. This is Number 4 in the series of discussions met by Dr. Siebens on "Student Problems in Ethics and Religion." While these meetings were closed to the public, the acounts of the discussion were made available to the public. The meeting has been dismissed for further questions and discussion.

EMERSON

At the Nov. 9th meeting of the Emerson Literary Society the usual order of business conformed with the peculiar situation of the organization being reversed by having parliamentary drill before its regular program. Miss Ruth Holman, the temporary chairman conducted a meeting worthy of comment. The pleasures of the temporary chair, which were many and varied, were properly brought up, debated, and disposed with. The last half hour was given to a lively discussion on world peace with Miss Ruth Flamer presiding. Miss Iva Mae Bushey and Wayne Miller supplied the food for thought which was eventually hashed over with a few conflicting opinions. Edgar Emerson thinks the next world war will wipe out civilization while Harold From maintains war is a state of mind brought on by propaganda. A discussion ensued, the result of which is that the entire hour will be devoted to the conveting or the convicting of the Society's most prominent members. Emerson Literary Society is going to change its order in order that the suspect might have a fair trial and a chance to retain his liberty. The dignity of the court will be upheld by the judicial, orderly, and proper procedures. For the "after-meeting" last meeting had been dismissed the court proceedings will rest in the hands of able attorneys and the future of the accused will rest in the hands of twelve intelligent jurymen.

In spite of the interest shown in this most daring campus crime the court proceedings will not be broadcast.

Westminster: Noted Author

(Continued from page 1, col. 2)

"I do my work in the country and go to New York about once a week to get hot and bothered and as a sort of penance for being so entitled. New rest o' tine. Thus I maintain the Puritan tradition of work and go to New York about once a week to get hot and bothered and as a sort of penance for being so entitled."

"I am chiefly interested in trying to understand the means and ends that all may eat with some degree of security and understanding."

"Fan for me is economic research and writing about it."

Thus Stuart Chase speaks regarding his work, his principal ideas and motives, and his pleasure of doing his present occupation.

He lives a clean life and as a result today looks ten years younger than his age, his body is spare and lithe, his skin is as brown as that of the Mexicans he writes about. He is friendly, intelligent, alert, unpretentious and eager.

His publication record is as follows: "Men and Machines; The Nemesis of American Business; The Tragedy of Waste; Mexico, A Study of Two Americas; Your Deal, The Economy of Abundance; Government in Business and Haleadle (published in 1935).

The P. T. L. wishes to make the announcement known, and announce that the state president of the league, Rev. Falconberg, will be the speaker at the meeting on Monday evening, November 24 at 8:15 in the Auditorium.

Noted Author

P. T. L. (Puritan Testament League) is not altogether a new organization; on the campus several years ago. The purpose of the league is to encourage Bible reading. All college students are invited to attend our meetings.

Music

The music faculty of the University is presenting Mr. Paul Kennedy in a recital and reception Friday evening, November 28 at 8:15 in the recital hall. Approximately 250 guests have been invited with Mr. Floyd Gehres.

ANNOUNCEMENTS

Wednesday, November 18—

Friday, November 20—
2:15—Football. They play Kenyon at 3:00 in the Stadium.
8:30—Freshman Dance
Monday, November 24—
7:00—Sororities and Fraternities meet

QUILL TYPE

The present members of Quill-Type entertained the alumni members at a luncheon Saturday, November 14, at 12:15 noon, in the Methodist church. Covers were later forty-five, one at tables beautifully decorated with the season's flowers. Attractive place cards in the form of red quills with the names written in black carried out the club's colors.

A short program followed the luncheon, in which a history of the club was read and all of the members introduced. Dr. E. G. Knepper gave a short address welcoming the alumni and expressing his appreciation in seeing so many back this year. Miss Nellie Ogles, the other faculty sponsor, was also present. The remainder of the time was spent in visiting until the guests departed to attend the football game.

A list of those sending in regrets was read, and we hope that next year they can come also.

In attendance also were L. O. Willhite, of the local high school faculty, who spoke on the first president of the club; Ralph Asmus, teaching at Oakwood, who is the immediate past president, five other ex-presidents and several charter members.
SKOL SCROLLS

Homecoming has come and gone for another year except for memories. Our alumni appeared in grand style, and hand-clasped we were to see them all.

The alumni had a chapter meeting at noon on the lawn, and then at 9 o'clock, the homecoming game was played, and the alumni game was in the gymnasium at 9 o'clock. Following the homecoming game, the alumni game followed and was well attended. The homecoming game was won by the students, the alumni game was won by the alumni.

The alumni had a huge alarm clock—clever? It was a great advertisement for the clock company, and it was a huge hit with the alumni.

Some of whom were: Mary Shawaker, Thelma Luke, Maxine Wray, Margaret Doty, Frieda Preston, and Dorothy Alspach, Mary Copus, Ruth Grassman, Mary Ellen Wittenberg, Virginia Hackett, and Marjory Shelleys.

Among breakfasts, luncheons, dinners, party teas and dances, we all managed to acquire our well filled cups of fun. And now, after all, our rooms look as though they could take it pretty well when one could be so imposed upon by such a long line of females as took possession of them this week-end.

And we enjoyed it that planes have been started and some are already being booked for our next Homecoming!

If some of us were as rich as we really are, we'd be setting up fancy drinks from the bar, cutting the birthday cake, and having a hundred people in the room to the song of popular numbers.

The latest sheet music from the Conductor's Club and the Conductor's Club Press was on hand for the alumni to enjoy.

TARZAN "ESCAPES"

Yes, we are back to the old routine again after having spent a magnificent week-end with old friends.

From about 4:00 o'clock Friday on we threw open the doors of our Sunset home, opened for eyes and hooked and everyone could anyone and anything. Soon it was just like life in a big city with a steady banging of rumour roaring in our ears as everyone tried to speak and listen at the same time.

We enjoyed a very nice lunch on Saturday noon in the parlor of the Church of Christ.

The decorations were of true Bohemian style. Modernistic pictures covered the walls and Pre-historic animals seemed to be in vogue. They were of all sizes, kinds and descriptions. Prizes were awarded to Betty Lou Platt for her clay animal, and to Barbara Shawaker for her clay-modeling, making crepe paper hat. The X's some voters put before the names on the ballot are still there—ex-judges, and ex-politicians, for instance.

If some of us were as rich as we really are, we'd be setting up fancy drinks from the bar, cutting the birthday cake, and having a hundred people in the room to the song of popular numbers.
