BOWLING GREEN STATE UNIVERSITY

MARCH 6, 1985

Louisiana chancellor explains reasons for seeking presidency

If he is named the ninth president of the University, Dr. John Darling intends to foster "a coming together again as a campus community rededicated to enhancing the quality of life for all of its students, faculty and staff."

The first of six candidates for the position, Darling presented his ideas and answered questions during a public forum in 113 Olscamp Hall March 2.

"Individuals representing the campus as well as leaders from the community have shared with me that more than anything else they believe Bowling Green State University would benefit from a renewal of trust, commitment and caring," he said.

These are qualities he has tried to encourage in his current position as chancellor at Louisiana State University in Shreveport and in administrative roles he has held at Texas Tech University and Mississippi State University, Darling said, adding that "such is the role to which I will be dedicated should I be selected the next president of the university."

The Presidential Search Committee asked each candidate to address the following in their public presentation — directions the University should be facing for further growth, its strengths and its critical challenges.

In his opening statement, Darling named five areas in which Bowling Green should look for future development — increasing academic and operational excellence, improving resource procurement and use, increasing the institution's role in outreach activities, enhancing applications of technology and strengthening the University's international involvement.

A self-described "risk-taker," he said he would encourage the University to "continue to innovate and take the risks inherent in (developing) new and creative academic programs, course development and delivery."

Darling recognized the strides taken towards greater use of interactive technology at Bowling Green but suggested further steps, which could take the campus away from a traditional classroom with a lecturer and student note-takers.

Darling spent approximately an hour answering questions from the audience, which included representatives from Firelands College via teleconference.

Responding to a question from Dean Darby Williams, of Firelands, about improving relations between the main campus and the Huron campus, he said he would like to see "Bowling Green State University without seam."

To a query from a student, Darling said he felt strongly about the importance of direct involvement with students and noted that if he is Bowling Green's president, "you will find me spending some time in the student union."

One audience member asked Darling to name the characteristics which enticed him to seek the presidency of Bowling Green. "I think Bowling Green State University is a fine institution with a great reputation in higher education. I think it's much better than many of you probably feel it is," he said.

"An opportunity to affiliate with an institution with a reputation as good as Bowling Green was of great interest to me."

Presidential candidate Dr. John Darling talks with Dr. Dorothy Behling, chair of Faculty Senate, during his visit to campus last week.

Candidates given full interview schedules

Each of the six finalists for the University presidency will spend three days in Northwest Ohio where they will be questioned not only by the Presidential Search Committee, but by members of the Bowling Green administration, faculty, staff, students and the public.

All of the candidates will follow essentially the same schedule — an afternoon tour of Firelands College followed by two days filled with back-to-back interviews and meetings.

Dr. John R. Darling, the first candidate to visit the University community, started the series of interviews last Wednesday at Firelands.

On Thursday, his agenda started with 7:30 a.m. breakfast — with Dr. Eloise Clark, vice president for academic affairs, and Dr. Edward Whipple, vice president for student affairs. The rest of the day included separate sessions with Faculty Senate, Administrative Staff Council and Classified Staff Council; lunch with Dr. J. Christopher Dalton, vice president for planning and budgeting, and Robert Martin, vice president for operations; a public presentation and open forum at Olscamp Hall; a campus tour; a reception with community leaders, eminent scholars, distinguished professors and endowed professorship holders; and dinner with the Board of Trustees.

On Friday, Darling was scheduled for breakfast with President Olscamp followed by meetings with deans, chairs and interdisciplinary program directors, members of Undergraduate Student Government and Graduate Student Senate and the president's

office staff; lunch with Dr. Philip Mason, vice-president for university relations, the Alumni Association Board of Trustees and the Board of Directors of the BGSU Foundation; and then a final interview with the Presidential Search Committee.

Meet the Candidates

Public forums will be held
1-2:30 p.m. in
113 Olscamp Hall

To be broadcast live to 324 West Building, Firelands, Wood Cable channel 24 and channel 2 of the campus closed circuit TV service (the March 9 forum will be on closed circuit channel 3). Cable 24 will also re-broadcast the forums at 9 p.m. the same day.

David G. Carter	March 6
Betty Turner Asher	March 9
Sharon A. Wallace	March 13
Sidney A. Ribeau	March 15
Lee B. Jones	March 27

Candidates' resumes are available online through the local gopher server or at the following sites: offices of the vice presidents, Jerome Library reserve room, Firelands College library and the offices of Faculty Senate, Undergraduate Student Government and Graduate Student Senate.

Admission guaranteed

Dr. Philip Mason, vice president for university relations, and Dr. Rayma E. Smith, director of degree programs for the Ohio Board of Regents, display the agreement Bowling Green signed last week which guarantees university admission to graduates of six Northwest Ohio community colleges who complete the Associate of Arts and Associate of Science degrees. Other schools participating in the agreement are The University of Toledo, Cuyahoga Community College, Lakeland Community College, Lorain County Community College, Northwest State Community College, Owens Community College and Terra Community College.

Donations provide hands-on training for environmental health students

Environmental health students are now able to gain experience conducting a variety of scientific tests, thanks to a recent influx of technical equipment. The program has also grown this year with the hiring in August of Dr. Charles ("Chris") Keil, who has been working closely with students using the new technology.

A gas chromatograph purchased last summer with funds from the Ohio Board of Regents is already "being used very intensively" by students, said Keil. Using this sophisticated machine, students can analyze samples of air, water, soil and other materials for a variety of organic substances. "We can test for solvents in air or pesticides in water, for instance," said Dr. Gary Silverman, director of the College of Health and Human Services program.

The chromatograph complements another new piece of equipment donated by its manufacturer, the ambient air sampler, which is commonly used by industry to test air quality.

More mobile is the college's new infrared gas analyzer, donated last December by a Maumee environmental consulting firm. This company's recent donations total more than \$75,000. "You take it to an industrial site and take direct readings for instantaneous results. For more sensitive work, we can bring the samples back for analysis in the gas chromatograph." Students can also use a personal air sampler worn on the belt to measure very specifically what is being breathed by individuals. "This is very applied science," Keil said. "We can take students out to industrial settings and give them hands-on experience. In addition to the teaching value of doing this, it allows the integration of ongoing research tracking with industry's interests."

One thing that distinguishes environmental health from other University programs, said Silverman, is that its undergraduates are involved in direct research. Environmental health also differs from other environmental programs in its emphasis on scientific evaluation. "Many environmental scientists are also environmentalists, but as

Environmental health students test particle concentration in the air using an ambient air sampler. Kneeling is Joe Fredrick. Standing, from left, are Angela Windau, Theresa Kallmeyer, Assistant Professor Chris Keil, Steve Farst and Amanda Porter.

scientists we deal with scientific and technical data in a quantitative way," Keil said.

Theresa Kallmeyer, a senior in the environmental health program, had been planning to graduate in May but decided to stay on a bit longer to take advantage of the opportunity to learn how to use the new equipment. "When it was announced we were getting the new lab equipment, it was really exciting. I think as far as getting a job, having experience with this will be very helpful. It's been great — the classes were good before, but now they're excellent."

Kallmeyer also said Keil has brought a current perspective to his classes. "He's recently been working in industry and belongs to many professional organizations, so he's very up to date on what's happening."

The new technology capabilities represent quite an advance for the program, which got its first teaching lab in 1989, said Silverman. He used to have to take students to the old state health department lab to demonstrate testing techniques. "It's greatly increased what we can do."

Bowling Green's program is one of only 22 accredited environmental health programs in the country. Silverman described it as "interdisciplinary but very structured." The approximately 80 students take a rigorous series of required courses, including principals of water quality, hazardous materials management, and epidemiology and biostatistics, along with basic classes such as biology, chemistry, physics and math. They also take economics and political science, among other social

science classes, for a comprehensive understanding of the issues. Proficiency in technical writing is stressed throughout. Silverman noted that even in technical classes, "we're writing papers and doing oral presentations all the time because of the need to convey information to a variety of audiences. Well-developed communication skills are very important in this field."

Kallmeyer said these courses can be difficult, especially when students are first getting started in the program, "but it all comes together in the end. And the teachers do work to make it interesting. They are very dedicated to the program."

Students must also complete an internship. The Ohio Environmental Protection Agency has contracted with the University to accept some Bowling Green students as interns. Other students have recently interned with include Honda, the Davis Besse Nuclear Power Plant and the National Institute of Occupational Safety and Health Research Laboratories in West Virginia. Kallmeyer worked on campus with the environmental health department and at the Andersons of Maumee in the safety department, both of which she said gave excellent preparation for employment.

The new equipment gives the college new abilities to take its tests one step further, said Keil, "and actually do a lot with the community public-healthwise." One project the college is involved in now is overseeing the development of the Blue Creek Wetlands in Lucas County between Waterville and Whitehouse. This area is being used to study the relationship between wetlands and farmlands. Researchers are trying to determine

whether the presence of wetlands can ameliorate some of the effects of agricultural pesticides, said Silverman. Eight agencies are participating in the project, including the University of Toledo and Ohio EPA.

The program is also concerned with international environmental concerns and offers a course called "Global Commons" through the University Honors Program. Every other year, the class sponsors a trip abroad to work with environmental scientists in other universities. Later this month, Silverman will be taking a group to Moscow to Mendeleyev University.

Also this spring, students will be setting up a new weather station where they will be looking at relationships between traffic patterns, wind direction and sources of water and soil pollution. "Meteorology is an important factor in air pollution," said Silverman.

Other experiments in fluid dynamics can now be conducted in the wind tunnel lab. This air mover device was also donated in December and is already in use in two classes, said Keil.

Even before the donations of the new equipment, graduates had been very successful in finding jobs. Last year some of the placements included positions as an environmental engineer with the Ford Motor Company, industrial hygienist with Aeroquip and air quality specialist with Vision Environmental, Inc. Kallmeyer said, "The opportunities for work in this field are so vast. You can work for companies, for environmental groups or start your own business as a consultant. As long as there's industry, they're going to need a safety person." — Bonnie Blankinship

MONITOR

Monitor is published weekly by the Office of Public Relations for faculty and staff of Bowling Green State University. The deadline to submit material is 5 p.m. Tuesday, the week before publication.

Conference views organization shifts

The most successful businesses and organizations are those which can effectively handle change.

Representatives from some of those successful companies will explain how they were able to fashion needed changes within their businesses during the Best Practices in Organization Development and Change conference March 9-10.

"This is an opportunity for area businessmen and women to meet some of the best change agents in business and learn how their organizations managed change," said Dr. Glenn Varney, management.

Scheduled speakers include Dr. Donald Warrick of the University of Colorado, Dr. Warner Burke of Columbia University, Dr. Peter Vaill of George Washington University, Dr. Orlando Behling of Bowling Green and Dr. Thomas Cummings of the University of Southern California.

The speakers are some of the country's most recognized authorities in developing high performance organizations and leadership teams.

In addition, individuals and teams responsible for organization changes in such companies as EDS, Whirlpool, Sauder Woodworking, Texas Instruments, General Electric and Saturn Corp. will describe how they were able to create new ways of doing things within their firms.

The conference is being sponsored by the organization development program, which is celebrating its 20th year.

Cost of the conference is \$325 and discounts are available if three or more from the same organization attend. Additional information is available by calling Jan McKnight at 2-8139.

Teleconferences explore the internet

For business people who feel stranded on the information superhighway, WBGU-TV is providing a road map.

The public television station will host a three-part videoconference, "Capitalizing on the Internet," March 16, April 20 and May 4 in Olscamp Hall.

The series is hosted by internet expert Mark Gibbs, co-author of *Navigating the Internet*. Phone, fax and e-mail services will be provided to allow attendees to ask questions of Gibbs and other presenters.

The first part of the series, at 1 p.m. March 16, will explore the history of the internet, rules and regulations which affect it and how the service can be used by businesses.

The second videoconference, at 1 p.m. April 20, will show how businesses can choose appropriate software tools and how to create and maintain business applications.

The third videoconference looks at the ins and outs of "cyber-business." Tips will be offered on building a marketing plan and the hardware, software and telecommunications considerations that each business faces.

The cost for attending the teleconference is \$75 which includes related materials and a CD. There is no price reduction for attending only one of the sessions. To make reservations, call Chris Sexton at 2-2700.

Robert Cunningham, affirmative action/disability resources, accepts an award for his support of federally funded student service programs during the Trio Day ceremonies held last week.

Staff are thanked for support of federal programs

Twelve faculty and staff members were honored for their dedication to Student Support Services during National Trio Day ceremonies held Feb. 22 at the University Union.

Trio Day is set aside each year to call attention to the federal programs which offer students such services as remedial courses, academic advice, assistance with financial aid, tutoring, career counseling and graduate school assistance.

The programs, sponsored by Title IV of the Higher Education Act of 1965, are

referred to collectively as Trio programs, because they started with three services. They now include Talent Search, Upward Bound, Student Support Services, Educational Opportunity Centers and the Ronald E. McNair Program.

Low income, first generation and disabled students are eligible for participation in the programs. More than 800,000 eligible students are served by Trio through 1,700 colleges, universities, community colleges and agencies.

The faculty and staff recognized at Bowling Green are Celia Aring, student

support services; Robert Cunningham, affirmative action/disability resources; Amy O'Donnell, orientation; Dr. Eric Dubow, psychology; Dr. Laura Juarez de Ku, biological sciences; Nancy McDonald, academic enhancement; Lynn Perry, English; Dr. Stan Smith, biological sciences; RuthAnn Von Seggern, education curriculum and instruction; Reva Walker, financial aid and student employment; Dr. Waldemar Weber, mathematics and statistics and Laura Waggoner, registration and records.

Phi Beta Kappa presents program

A program that is part lecture, part piano performance and part slide show will be held at 4 p.m. March 13 in the Moore Musical Arts Center.

Phi Beta Kappa scholar and Skidmore College President David H. Porter will present "Well-Tempered Clavier: Musical Sports and Diversions" in Bryan Recital Hall.

The free program is sponsored jointly by Phi Beta Kappa, the classical studies program and the College of Musical Arts.

Porter, president of Skidmore College in Saratoga Springs, N.Y., is one of 13 scholars participating in the 1994-95 Phi Beta Kappa Visiting Scholar Program. The program makes available 12 or more distinguished scholars who visit approximately 100 colleges and universities.

Porter's two-day stay at Bowling Green on March 13-14 will include informal sessions with University faculty and students, according to Dr. Vincent Corrigan, a professor of music and member of Phi Beta Kappa who is handling arrangements for the scholar's visit.

University features to be aired on TV

The University will be featured on WTOL-TV at 8:54 a.m. each Monday this month.

Short promotional videos will be shown during the broadcast of the "This Morning" program on channel 11, each focusing on a various aspect of the University.

The programs will look at facilities and resources, academic programs, faculty research and student ambassadors.

Gish Film Theatre hosts birthday fete

The Gish Film Theater will remember the late Dorothy Gish on the 96th anniversary of her birth, Saturday, March 11.

The theater will offer a free screening of three films featuring the movie legend — "The Musketeers of Pig Alley," "The New York Hat," and "The Lady and the Mouse."

Local pianist Michael Peslikis will accompany the screening, which begins at 8 p.m.

Evaluation forms distributed early

Annual performance evaluation forms for classified staff are being disseminated to supervisors earlier this year in order to provide more time for completion.

Supervisors should be receiving packets today and will have until May 5 to complete evaluations. Training sessions on conducting evaluations will be held this semester, on dates to be announced.

Supervisors are reminded that an updated job description must accompany the completed performance evaluation when it is returned to Personnel Services. For additional information call Personnel Services at 2-8422.

Personnel services offers interview aid

Pat Patton, personnel services, will present a free training session for employees on interviewing skills.

The session will be held from 8:30-11:30 a.m. March 14 in the Personnel Training/Conference Center.

The date is changed from the listing in the Training Development Program Booklet.

DATEBOOK

Monday Mar. 6

Library Computer Seminar, Business Databases, 10 a.m., Jerome Library Conference Room. To register, call 2-2362. Walk-ins welcome.

International Film Series, "Malina," 1991 Austrian-German film directed by Werner Schroeter, 8 p.m., Gish Film Theater. Free.

Tuesday, Mar. 7

Dissertation defense, "The Effects of Teacher Strikes on the Values, Goals and Attitudes of Elementary School Principals," presented by James Lahoski, EDAS, 9 a.m., 444 Education Building.

Library Computer Seminar, Exploring the Internet via the OhioLINK Gopher, 10 a.m., Jerome Library Conference Room. To register, call 2-2362. Walk-ins welcome.

Library Computer Seminar, General Interest Databases, 2 p.m., Jerome Library Conference Room. To register, call 2-2362. Walk-ins welcome.

Faculty Senate Meeting, 2:30 p.m., Assembly Room, McFall Center.

Concert, BGSU Jazz Combos, 6 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

Women's History Month Presentation, "Women and Comedy in the Early Cinema," a selection of short silent films will accompany a lecture by Dr. Ben Urish, Temple University, 7 p.m., Gish Film Theater.

Music from Bowling Green at the Manor House, BGSU Trombone Ensemble directed by Paul Hunt, 7:30 p.m., Manor House of Wildwood MetroPark in Toledo. Free.

BGSU Planetarium Show, "To Shine Almost Forever: the Incredible Lives of Stars," 8 p.m., BGSU Planetarium, 112 Physical Sciences Bldg. A \$1 donation is suggested.

Wednesday, Mar. 8

Library Computer Seminar, Advanced Features of the Online Catalog, 10 a.m., Jerome Library Conference Room. To register call 2-2362. Walk-ins welcome.

Library Computer Seminar, Social Sciences Databases, 2 p.m., Jerome Library Conference Room. To register call 2-2362. Walk-ins welcome.

Dissertation Defense, "Bad Tidings of Great Joy: Christian Existentialism in Robert Penn Warren's Poetics," presented by Graciela Keiser, English, 3-5 p.m., English Dept. Library Lounge, 204 University Hall.

Women's History Month Presentation, Dr. Ben Urish, Temple University, will introduce films from the 20's, 30's and 50's and lead a discussion afterwards, 7 p.m., Gish Film Theater.

Asian Studies Presentation, "Silk and Bamboo: An Introduction to Chinese Music" by Edward Wallace, 7:30 p.m., Hiroko Nakamoto Gallery, Fine Arts Center.

Faculty Artist Series, violist Hong-Mei Xiao, 8 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

Theatre Performance, "Dancing at Lughnasa," 8 p.m., Joe E. Brown Theatre. Tickets \$3. For information, call 2-2719.

Thursday, Mar. 9

Library Computer Seminar, General Interest Databases, 10 a.m., Jerome Library Conference Room. To register, call 2-2362. Walk-ins welcome.

Administrative Staff Council Meeting, 1:30 p.m., Campus Room, Community Suite.

Library Computer Seminar, Science and Technology Databases, 2 p.m., Jerome Library Conference Room. To register, call 2-2362. Walk-ins welcome.

Women's History Month Presentation, "Humor and Feminism in Contemporary Europe" a panel presentation hosted by Dr. Elizabeth Heineman, history, 4-5:30 p.m., Faculty Lounge, Union.

Theatre Performance, "Dancing at

Lughnasa," 8 p.m., Joe E. Brown Theatre. Tickets \$3. For information, call 2-2719.

Lenhart Classic Film Series, "Little Women," starring Katherine Hepburn, 9 p.m., Gish Film Theater. Free.

Friday, Mar. 10

Gymnastics vs. Kent, 6 p.m., Eppler Center.

Hockey, CCHA playoffs, first round, 7 p.m., Ice Arena.

Hollywood Comedies of the 1930s Film Series, "Stage Door" (1937), directed by Gregory La Cava, 7:30 p.m., Gish Film Theater. Free.

Theatre Performance, "Dancing at Lughnasa," 8 p.m., Joe E. Brown Theatre. Tickets \$3. For information, call 2-2719.

Opera Theater Performance, Mozart's "Cosi Fan Tutte or The School for Lovers," BGSU Opera Theater, 8 p.m., Kobacker Hall, Moore Musical Arts Center. Reserved tickets are \$6, \$8 and \$10. For information, call 2-8171 or 1-800-589-2224.

BGSU Planetarium Show, "To Shine Almost Forever: the Incredible Lives of Stars," 8 p.m., BGSU Planetarium, 112 Physical Sciences Bldg. A \$1 donation is suggested.

Saturday, Mar. 11

Hockey, CCHA playoffs, first round, 7 p.m., Ice Arena.

BGSU Planetarium Show, "To Shine Almost Forever: the Incredible Lives of Stars," 7:30 p.m., BGSU Planetarium, 112 Physical Sciences Bldg. A \$1 donation is suggested.

Dorothy Gish Birthday Tribute, screening of three films featuring the movie legend — "The Musketeers of Pig Alley," "The New York Hat," and "The Lady and the Mouse," 8 p.m., Gish Film Theater.

Opera Theater Performance, Mozart's "Cosi Fan Tutte or The School for Lovers" will be staged by the BGSU Opera Theater, 8 p.m., Kobacker Hall, Moore Musical Arts Center. Reserved tickets are \$6, \$8 and \$10. For information, call 2-8171 or 1-800-589-2224.

Theatre Performance, "Dancing at Lughnasa," 8 p.m., Joe E. Brown Theatre. Tickets \$3. For information, call 2-2719.

Sunday, Mar. 12

Theatre Performance, "Dancing at Lughnasa," 2 p.m., Joe E. Brown Theatre. Tickets \$3. For information, call 2-2719.

BGSU Planetarium Show, "To Shine Almost Forever: the Incredible Lives of Stars," 2 p.m., BGSU Planetarium, 112 Physical Sciences Bldg. A \$1 donation is suggested.

Faculty Artist Series, The Kantorski-Pope Piano Duo will perform, 4 p.m., Kobacker Hall, Moore Musical Arts Center. Free.

Hockey, CCHA playoffs (if necessary), first round, 7 p.m., Ice Arena.

Monday, Mar. 13

Men's Tennis vs. Western Illinois, 3 p.m., Keefe Courts.

Guest Speaker, "Well-Tempered Clavier: Musical Sports and Diversions" presented by Dr. David H. Porter, president and professor of classics at Skidmore College, 4 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

Guest Recital, Soprano Kathryn Brown, 8 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

International Film Series, "Okoge," 1933 Japanese film directed by Takahiro Nakajima, 8 p.m., Gish Film Theater. Free.

Continuing Events

Exhibition, Undergraduate Art and Design Exhibitions, through March 30, 9 a.m.-4:30 p.m. weekdays and 2-5 p.m. Sunday, Dorothy Uber Bryan and Willard Wankelman galleries in the Fine Arts Center. Free.

Ladies of leisure

Sisters Fiordiligi (Shannon Brock, left) and Dorabella (Denise Smith) relax on the French Riviera while being served by their maid Despina (Betsy Sutton) in a scene from Mozart's *Cosi Fan Tutte*. The College of Musical Arts Opera Theater presentation is at 8 p.m. March 10 and 11 in Kobacker Hall. For ticket information call 2-8171.

CLASSIFIED EMPLOYMENT OPPORTUNITIES

Posting expiration date for employees to apply: Noon, Friday, March 10

3-10-1	Clerical specialist pay grade 5 Registration and Records
3-10-2	Clerical specialist pay grade 5 Student Health Service academic year, full-time
3-10-3	Clerical specialist pay grade 5 Instructional Services (Firelands) academic year, part-time

OBITUARY

Ardis Shirkey

Ardis E. Shirkey, 56, of Bowling Green, died Feb. 23 at M.D. Anderson Medical Center in Houston, after a long illness.

She was employed by the Northwest Ohio Educational Technology Foundation at WBGU-TV.

Memorials may be made to the Wood County Unit of the American Cancer Society.

FOR SALE

The philosophy department has for sale an Apple Macintosh Powerbook 520, bought in the fall and used one week. Available immediately. Contact Pat Bressler at 2-2110.

Registration and Records has for sale two AT&T answering machines priced at \$35 each. Call Peg at 2-7962.

EDCI has a Hewlett Packard Laserjet Series II printer for sale. \$350. Call Nancy Brownell at 2-7359.

FACULTY/STAFF POSITIONS

Administrative staff positions:

Academic enhancement: Counselor/coordinator of tutoring. Contact Personnel Services (2-8426). Deadline: March 17.

Department of English: Assistant director of general studies writing. Contact Personnel Services (2-8426). Deadline: April 10.

Intercollegiate athletics: Assistant men's soccer coach. Contact Personnel Services (2-2227). Deadline: March 17.

Registration and records: Registrar. Contact Office of Planning and Budgeting (2-8262). Deadline: March 10.

Residential services: residence hall director 1; residence hall director 2; complex coordinator (anticipated vacancies for ten-month live-in positions). Contact Rich Hughes (2-2456). Deadline: March 6 or until filled.
