Dr. H. B. Williams' connection with the institution as President expired on August 31st. He was selected as President in February, 1912, and accepted the position in May, 1912. He therefore, served in this office for over 25 years. However, he did not come to Bowling Green and assume full time duties until February, 1914. He continued as Superintendent of Schools at Sandusky to the end of the school year of 1912-13 and spent most of the following year in graduate work in Columbus University.

It has been his privilege to see this school grow under his supervision, from a Normal School and a small and weak faculty of about 15 members, through a State College, to a State University with buildings, grounds, and equipment valued at two and a half millions of dollars.

On his retirement as President he was given the title of Emeritus and will continue to serve the institution in some duties that are not administrative. For the present he will be responsible for building operations, the administration of NYA student aid, the student Loan Fund and dormitory reservations. He expects to undertake the organization of the alumni.

GREETINGS TO THE STUDENTS OF THE BOWLING GREEN STATE UNIVERSITY

I extend hearty greetings to both old and new students. It is my privilege to welcome you to a well organized and well established university, and it is with great joy I hear the many expressions of pride in the achievements and the hopes expressed for the continued growth and wider usefulness of this university.

Your succeeding in your college adventure will spell success for the university, and your succeeding is my concern and the concern of our splendid faculty. May we all work together to the end that the purposes for which this, our institution, is established, may, in a very large degree at least, be realized.

In this undertaking I want to be your friend and helper.

Sincerely yours,

R. E. Offenhauer
President

NEW REGULATIONS ISSUED BY DEAN

Prof. W. C. Jordon, newly appointed Dean of Men, is issuing a series of "regulations prescribing the home privileges and responsibilities of students living in private residences". The Dean stated recently that, "these regulations are not intended to restrict the student in his University life, but rather are designed to create a better understanding between the student and his household, and likewise between the household and the University administration."

(Continued on page 2, col. 1)
Meet The President Half Way

This fall we greet a new president. While his excellent knowledge and experience in the field of education prevent his founding himself as a Freshman is apt to flounder in his own environment, he is nevertheless in a new group and adapting himself and his hopes for the University to this group will be difficult.

It behooves us, therefore, to extend the hand of fellowship of common objectives to him, to let him know that we are working with him rather than against him. Let us reciprocate the friendly, willing, helpful manner which he has shown us in his blessing on the first page.

It is to be expected that we will try to live up to this admonition. We should remember that we are most likely to fail in it as soon as something about the administration does not suit us. College students are notoriously impatient. They fret and gripe at the smallest inconvenience. At first their little complaints are just something to talk about, but after a time they are apt to become real, monotonous, unreasonable prejudices. The suggested plan is to achieve the smoothest and most progressive functioning of the University. Let us also, then, remember occasionally to think of the new president's difficulties and hindrances and rely upon him to be, ultimately, open-minded and considerate about our viewpoint.

College Is Your Opportunity

It is customary, at this time, for the paper to welcome all new and old students to this nine month's merry-go-round, grind, or whatever you wish to call it, as they may variously regard it. Since people generally take it for granted that they are welcome, how- ever, may we do away with this time-honored non-essential and substitute a hope that you all will find what you want here?

NEW REGULATIONS

(Continued from page 1)

He further stated, "Well ad-

justed student life depends not a little on complanil living con- ditions. The regulations will be revised and refined to meet the local situation demands."

While the rules are in general designed to improve living and study conditions by clarifying the responsibilities of the student and householder, they may variously regard it. Since people generally take it for granted that they are welcome, however, may we do away with this time-honored non-essential and substitute a hope that you all will find what you want here.

This cannot be an El Dorado, Utopia, or Valley of Shangri-La, but everyone should be able to find in it some satisfaction, some hope, some guidance to help him climb another step towards better living. Very largely, success in finding these depends more upon individual effort, willingness, and sociability than upon whatever facilities are here for us to use.

For many of you, this is a new climate with new possibilities and little understood dangers. Most valuable, and most precious, is the opportunity to change and grow—to find a new you. Your best handbook toward success under this lessened restriction normal in college life will be your own clear thinking. Make it clear, keep it clear, and live by it.

CHURCH PROGRAM

The First Presbyterian Church of Bowling Green ex- tends its invitations to all its student friends, both old and new, a friendly welcome and an invitation to join its circle of young people.

The Young People's Class of the Church School will meet at 5:30 Sunday morning with Dr. C. G. Kohl as the teacher.

The worship service will be at 10:45; Dr. Arthur R. Sieben, minister of the church will preach.

COUNCIL DIRECTS

(Continued from page 1, col. 4)

It is the Council's hope that these three days will give Fresh- men a chance to become ac- quainted to some extent with the University and its personnel and to become well oriented before beginning classroom work.
I am instructed by the Director of Education, Mr. E. N. Dietrich, to serve formal notice are of interest to applicants for teaching certificates. The present two-year curriculum will be abandoned for one of four years leading to bachelor's degree. Four-year curriculum will be abandoned for one of four years leading to bachelor's degree. The group entering in September 1937—Graduates June, 1939 will be graduated, probably be completed by June, 1945. Some such expedient as the following will be necessary to avoid drying up the supply of elementary teachers during the transition. The Physical Education Department announces a new elect. open to men and women, Tap Dancing. It meets Monday, Wednesday, and Friday at 8 m. in the Training School gym. (One hour credit is given but the course cannot be substituted for any of the required courses in Physical Education."

Quill Type Officers

All Quill Type officers are requested to meet Thursday afternoon at 3 o'clock in Dr. Knepper's office, or to see Dr. Knepper immediately if they cannot be there. The Upperclassmen will be glad to be of service.

Dr. Williams will continue to have the services of his former secretary.

BOARD APPROVES FUND (Continued from page 1) September 1, 1934 the fund stood at $11,100, and now, three years later, it stands at $11,789. This means that more was paid in by students during the last three has been used, since the fund is largely in certificates of deposit, which are interest-bearing. The interest on these certificates would amount to much more than the increase in the fund occurring in these last three years.

It is President Offenbauer's intention to scale this fund down to $10,000 and maintain it approximately at that figure. The interest on these last three has been used, since the fund occurring in these last three years. The pool is conveniently located behind the Science building. Better people that Freshmen have been immersed in it. We use business."

WILLIAMS (Continued from page 1) There are nearly 5,000 graduates of the University scattered all over the world and it will be his problem to locate as many of these persons as possible and get information about their record since graduation. This will be an enormous undertaking, but the institution owes its alumni its continued interest and support. Likewise it will be an element of strength to the institution to have the close cooperation of its alumni. This will give the public an idea of the duties that are entrusted to Dr. Williams for the present, and by action of the Board of Trustees further allocation of duties or changes in present duties are left to President Offenbauer and Dr. Williams.

Dr. Williams will have an office just south of the Trustees room, entrance to which will be through the old public telephone booth.

If, by reason of his wide experience, there is any way in which he can assist the alumni or others without treading on the provinces of other administrative officers Dr. Williams will continue to have the services of his former secretary.

WARNING

Freshmen are hereby warned not to take basking lightly at this University. Upperclassmen are sensitive about being properly addressed, and about Freshmen's being properly dressed in the prescribed coiffure covers. Freshmen rules and regulations will be enforced, if necessary, by resorting to the method of punishment illustrated as of this University in the August, 1937, College Humor. The pool is conveniently located behind the Science building. Better people that Freshmen have been immersed in it. We use business."

ORGANIZATIONS

A brief outline of the purpose and type of each.

Foreign Language Club

The Foreign Language Club, which has been organized for the purpose of supplementing the work done in classes, endeavors to bring the students into closer contact with the languages they are studying, and to make more real the people and the lands in which they are interested. It hopes to broaden the student's social attitudes and carry his sympathies and understandings beyond the educational boundaries. All students who are studying a foreign language are eligible for membership. The meetings, which are held once a month, are both interesting and educational. The group is not only active on the campus, but it has done much toward establishing a friendly relationship between student and instructor.

Mathematics Club

Last year Bowling Green State University's Mathematics Club was granted a charter from Kappa Mu Epsilon. This is the first chapter of Kappa Mu Epsilon in Ohio. The club was organized in the fall of 1932 to give students who were interested in mathematics an opportunity to investigate unusual mathematical problems and to discuss them. The Inter-organization of all mathematics groups on the campus is an integral part of this. The purposes of such organizations are to develop interest in mathematics and improve the standards of work in the subject, to bring students into closer contact with each other, and to make more real the problems and theories of this subject.

Intermediate Club

The Intermediate Club is one of the organizations of this campus, and its purpose is to give students an opportunity to participate in the professional and social interests of elementary students. Throughout the school year, students are interested in the activities of the club and carry their sympathies towards establishing a friendly relationship between student and instructor.

Mathematics Club

The purposes of Pi Kappa Delta, the largest honorary forensic fraternity in the world, are to develop in students the ability to express their ideas clearly and effectively, to stimulate thinking on vital questions, and to promote intercollegiate fellowship and good will. Students interested in forensics should enroll in English 76 for the theory and practice of speech. Intercollegiate debates must enroll in English 88 this year.

ORGANIZATIONS

(Continued from page 4)

The Student Council is the organizing and governing body of students on campus. It was origin-
gized in the spring of 1936 and already has done much to create harmonious student rela-
tionships. It seeks to improve campus activity and recommends reforms after studying and dis-
cussing the problems at hand. The organization is the official student voice in affairs affect-
ing the students. It sponsors several social activities, the Y. W. C. A. joins with the Y. M. C. A.
respecting race or creed. The organization is the official service organization on the cam-
pus. The Student Council should increase its power and prestige rapidly as our institution grows and develops. Freshmen will be ex-
pected to elect three members to represent them on the Council, so be looking for your best representative material.

Women's League

The Women's League is a self-governing organization of college women. Each woman register-
ing automatically becomes a member of the organi-

The executive power is vested in the Executive Board which consists of the officers, house chairs, and organizing representatives. In addition to its power in disciplinary mat-
ters, it sponsors several social activities throughout the year. Among these are the "Get Wise Party" for Freshmen at the opening of the school year, an all-campus dance, the "Club Contract," and other social events.

Y. W. C. A.

The purpose of the Young Women's Christian Association is to create friendship and to estab-
lishe a normal social life for girls that is a model on the campus. The Y. W. C. A. is sponsored. In late

Y. M. C. A.

The Young Men's Christian Association is the only Christian service organization on the cam-
pus open to any man regardless of race or creed. Its chief pur-
pose is to give balance to the life of the University man. In order to give balance it is neces-
sary to develop the mind through thoughtful discussion groups and by bringing lecturers to our campus, and the body by healthful activities. Its chief objective is to train for Christian leadership.

W. A. A.

The Women's Athletic Association is open to all those women who are interested in phys-
ical education. Points are given to the individual members for their participation in athletics, tryouts, and more points are given to the minimum number for a member. The W. A. A. fosters good health, character, and educat-

The Aims of the club are to broaden vision and prono-
mote sociability in the group and to provide opportunity for training in worthwhile projects of the college and community.

Falcons Face Difficult Schedule; Play 8 Games

Hiram To Be First Opponent

The 1937 edition of Coach Harry Ockerman's fighting Falcons will face a very difficult schedule. They play four home games and four away. With a five-game winning streak under their belt, the new stadium, interest in football is expected to be the greatest in the history of the institution.

The schedule contains one less game than last year; eight games will be played instead of nine. We will face seven of the same opponents we battled last year. Ashland does not appear on our program and we play Baldwin-Wallace instead of renewing last year's battle against Western Reserve. This sounds as if we were to encounter nothing different than that faced last year, but this may not be true. The preceding season's record is not enough to assume that this year teams remembered that we were only from Hiram before the year before and expected a soft touch. This year we will be spoken of as a very much more difficult opponent as we have nearly all of last year's fine team returning. Things undoubtedly will be tougher. Incidentally Bowling Green will not be the only team which will be improved.

On Oct. 2 we play the first game of the 1937 season against Hiram. Many consider this a "brushfire" but they must consider that Hiram plays Freshmen and with a new coach whose job undoubtedly is to produce better teams, we may expect some tough boys in that lineup. Over confidence may bother us. As this is to be High School Day, we may expect our new stadium filled.

On the next week-end, Bowling Green faces her most difficult task. Our team travels to Berea to battle Baldwin-Wallace. Bowling Green is scheduled as a "warm up" game for those boys. We can really spring as an upset by jumping onto them. Even though they defeated Syracuse last year, Coach Ray Watts lost his All-State backs, Noble and Shoen who can't be replaced very easily. If our team can win this one, we will hear cries of "undefeated season ahead" ringing in our ears.

Then we travel to Ypsilanti, Ockerman's Alma Mater. Smarting from their last year's defeat, these boys will be out for revenge. This is another tough battle ahead.

Dedication Day is the important event of the next week-end. We battle Capital and our new stadium will be dedicated. A real day! Incidentally Coach Ockerman will be especially eager to win this game as he has never defeated Capital. His first defeat in his first year here came from those boys and last year, with nearly all of last year's sight, our pass defense crumbled and allowed a long, big pass to be caught for a touchdown and a tie score. Victory would be especially sweet.

Neighboring Ohio Northern will come from Ada trying to add a victory to their record. Coach Lamb always produces a fine team and they will try to gain a victory after the dead-lock of last year.

GRID PRACTICE
(Continued from page 5, col. 4)

Then the Falcons travel to Kent, our sister-school. We received our lona confidence defeat when the Kent team drove down the field early in the game to score the only touchdown of the encounter.

Homecoming is always the big day. Wittenberg will be our guest and we hope to give them another drubbing. Last year Wittenburg was traveling along at a great pace when we gave them a sound defeat there. A great victory before a Homecoming crowd is every team's ambition.

To wind up the season, the Falcons will travel to Tiffin to play Heidelberg. Another of last year's ties, Heidelberg will be a special target and Captain John Chesterwood and the other seniors will exert extra effort to end their college gridiron days with a fine victory.

No matter how the games come out, the Bowling Green fans may expect a real season of football, well played by boys who love the game. It is the duty of the students and the fans to "do their part" to make this the greatest year in Bowling Green's football history.
