A WEEKLY PUBLICATION FOR THE BOWLING GREEN STATE UNIVERSITY COMMUNITY

OCTOBER 7, 1996

Olscamp Hall is bringing the region and the world to campus

In a classroom in Olscamp Hall, James Stuart teaches a philosophy class to a group of students seated at long tables. What makes this situation different from an ordinary class is that 60 miles away at the Firelands campus, another group of students is also taking notes and participating in Stuart's lecture.

Through compressed video displayed on a wide screen the Firelands students can see and hear the Olscamp Hall lecture as it takes place. Using the same equipment, Stuart and the Olscamp Hall students can also hear and see the Firelands students.

On another day, students who normally meet in a traditional classroom might gather in Olscamp to hear a talk by a specialist in the area they're studying transmitted from somewhere else in the country. They will be able to communicate directly with him or her as if the lecture were taking place in Bowling Green.

In yet another scenario, University employees from Bowling Green use Olscamp Hall's facilities to confer with their colleagues in Columbus, who have traveled a short distance to a transmission site, saving several hours of driving time.

Since the building was completed in 1994, use of the technology in Olscamp Hall has been increasing steadily. From August 1995 to August 1996, 395 classes, 24 teleconferences and 73 other events (such as meetings, tours and guest lectures) — a total of 492 events — have used the technological capabilities at Olscamp Hall.

So far this fall, 222 events requiring the technology have been scheduled in the building, according to Anthony Short, director of television learning services.

One of the most innovative uses for Olscamp's facilities has come from the College of Education and Allied Profession's Department of Educational Curriculum and Instruction, which since 1994 has used a satellite uplink to allow students to view exemplary teachers at work in the classroom.

After the Bowling Green students observe the teacher at work, the elementary students leave their remote classroom and the teacher is joined by an administrator for an interactive discussion with Bowling Green students.

"It allows them a peek into classrooms that they wouldn't ordinarily see that... diverse. This year we have a... almost Appalachian area

and a multicultural, very diverse school in North Carolina," said Janet Schnupp-Lee, EDCI.

Each session and the preliminary footage shot at the school is videotaped and stored for future reference, creating a video library.

Students are not the only ones who benefit from Olscamp's resources. Professors who wish to critique their own teaching skills and style or try out a new teaching concept can reserve a classroom where they can present a practice lecture. The lecture is filmed and the tape is given to the professor, Short said.

Interactive classes that have taken place in Olscamp include economics, history, medical technology, visual communication technology and foreign language.

Not only can technology help improve teaching style, it can necessitate a change, particularly when faculty make sure they remain in view of the camera recording their movements.

Christina Guenther, assistant professor of German, Russian and East Asian languages, taught one of the first distance language courses offered at Firelands. Now in her second semester of using Olscamp's facilities, she has learned to adapt her distance teaching style.

"At first I taught more from behind the lectern and seemed to be more authoritative, which goes against the trend today to be more student-oriented," she said. "But slowly and surely we're learning that the students on both sides want to see the students on the other side." Now the cameras are focused more on the students, she said, and less on her.

Teaching a distance class also requires the instructor to adapt the material used and to "plot out moment to moment what the students are seeing. While this is a bit less spontaneous, it also allows the visuals to be nicely organized and gives you more control," Guenther said. "Because I'm using Powerpoint (a software program that adapts graphics for display purposes), the visuals are much clearer and easier to see than writing on the blackboard. The more we use this, the more we realize we can explore all the possibilities, which we're not aware of until we begin to work with it."

The crew that deals with the technical aspects of filming and transferring the distance program also are becoming much more adept at making the class

seem as normal as possible. "We're far more flexible in what we're allowing," Short said. "At first we told them to teach from behind the teaching stand. Now we try to adapt to their teaching style."

To do this, Short and his crew typically visit faculty in their regular classrooms the semester before a distance learning class is scheduled in order to get a feel for their style. They look for things such as how interactive the teacher is with the class, how much they move around and what kinds of visual aids they use. They then work with the teacher to help him or her adapt the teaching style to the technology. They also give teachers a thorough orientation to the classrooms and the equipment at Olscamp Hall.

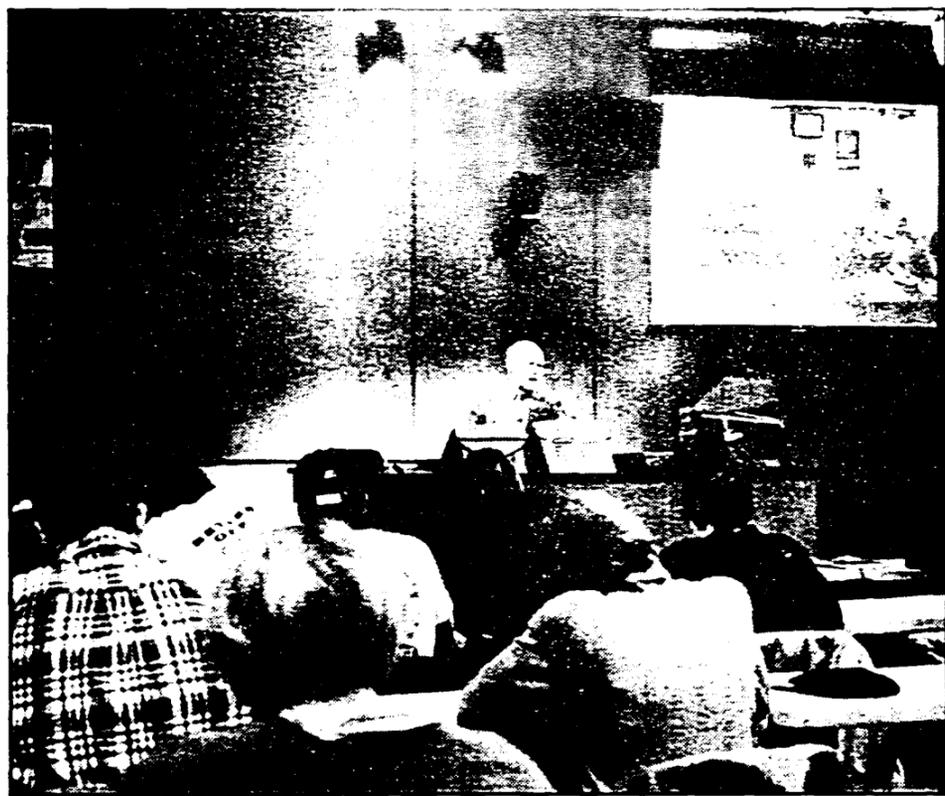

"If a professor has good teaching skills, they'll work well in this environment," Short said. He strongly stresses to everyone teaching a distance-learning class to remember to include the other site as much as the one from which it is being taught.

In addition to the graphics on computer, there is also a copy stand with which to show three-dimensional objects or material not already programmed on the software. The lights can be brightened or dimmed as needed, and the technician in the control booth listens carefully to the lecture for cues on which camera to turn on and where. "Only touch is not represented," Short said.

Another thing the crew has learned is that it is very important that students in the off-site class be allowed to see the casual interaction and repartee between teachers and students before the formal class begins. The psychological effect of getting to know the instructor as a person is important, Short said. He also encourages all faculty to visit the off-site class at least twice a semester to encourage a better bond between teacher and student.

This fall, five distance learning classes are being sent to Firelands and one to Terra Community College, in addition to the eight sessions EDCI has scheduled. Another class is originating from Firelands one day a week and originating on the Bowling Green campus the second session. Lisa Hammond and Earl Lisk oversee Firelands' distance-learning facilities.

The connection with community colleges is increasing. Soon Bowling Green will also send distance classes to

An environmental sciences class taught in Olscamp Hall is transmitted to Firelands. Through the live connection displayed in the screen above, Firelands students can ask questions of the professor and interact with the class members on the main campus.

Recognition

Susan Frost, a secretary in the Center for Archival Collections, was surprised with a gift of balloons and popcorn from Classified Staff Council and a musical fanfare from the Falcon Marching Band during the September Spirit Day event. Frost was recognized as one of the nominees for the Outstanding Classified Staff Person of the Year award for 1996-97. Just being nominated for the honor is high praise, as nominees must meet specific criteria regarding service to the University. CSC chair Pat Kitchen (right) and former chair Nancy Lee (left) presented the award.

Retired faculty members honored as honorary alumni of the University

Two retired faculty members, who collectively devoted more than 56 years to teaching and service to the University, are this year's recipients of the University's Honorary Alumnus Award.

The two are Richard H. Lineback, professor emeritus of philosophy, and Robert Romans, an associate professor emeritus of biology. They will be honored by the University's Alumni Association during a dinner to be held Friday, Oct. 11, at the Quality Inn Atrium in Bowling Green, 1630 E. Wooster St.

The Alumni Association is hosting a

cash-bar reception for the two beginning at 6:30 p.m., followed by a dinner at 7:30 p.m. Reservations for the event, at \$17 each, can be made by calling 2-2701.

The Honorary Alumnus Award was created in 1973 to recognize individuals who are not graduates of Bowling Green, but whose efforts have been important to the University and the community. Lineback and Romans will be the 47th and 48th recipients of the award.

In addition to teaching, Lineback served as director of the University's Philosophy Documentation Center and editor of the Center's *Philosopher's Index* since its founding in 1966.

Since 1972, he has served as assistant to the editor for the biennial *Directory of American Philosophers* and as co-editor of the biennial *The International Directory of Philosophy and Philosophers*. He also has served as general editor of the 12-volume series *Bibliographies of Famous Philosophers*.

The recipient of numerous research grants and the editor of three textbooks, Romans is the past-assistant editor of the *Ohio Journal of Science*. He is also a member of the Ohio Academy of Science and is listed in *Who's Who Among American Men and Women in Science*.

Romans has written eight biology principles laboratory manuals. He donated the royalties from the manuals to establish a Romans Biology Endowed Scholarship. Currently, more than \$12,000 is in that fund.

Both Lineback and Romans are recipients of numerous awards presented during their tenures at the University.

Memos

Classified staff meet next week

Classified Staff Council will meet from 9 a.m.-noon Oct. 15 in the Taft Room of the University Union.

The guest speaker will be Nadine Musser, director of the Wood County United Way.

Other topics on the agenda include e-mail access for staff in the University operations area, discussion of CSC representation in light of the campus reorganization and a proposal to move the classified staff awards ceremony to May 1 next year.

CSC awards scholarships

Classified Staff Council has awarded scholarships to two staff members and two children of staff members this year.

The staff recipients are Kelly M. Birr, economics, and Lori Schultz, visual communication technology.

Dependents of classified staff who received scholarships are Courtney Elaine Tracy, daughter of Anne Tracy, library; and Jennifer R. Luce, daughter of Carol Luce, graduate studies in business.

Career Fair begins Tuesday

Career Services will be hosting the annual EXPO career fair Tuesday and Wednesday.

President Sidney Ribeau will kick off the program with a keynote speech at 10 a.m. Tuesday (Oct. 8) in McFall Center.

The Career Fair will begin at 1:15 and run until 5 p.m. in the Lenhart Grand Ballroom.

The fair offers students the opportunity to meet a wide variety of employers and graduate school representatives.

Many of the employers will select candidates for positions on Tuesday and return on Wednesday to conduct interviews.

SPAR hosts orientation

The Office of Sponsored Programs and Research (SPAR) will hold orientation sessions next week to provide information about services it offers.

To accommodate schedules, two sessions will be held — at 3 p.m. Oct. 14 and at 3 p.m. Oct. 15, both in 229 Olscamp Hall.

The program is intended to help new faculty identify internal and external funding sources for scholarly activities. However, non-faculty employees may also derive benefit from attendance at this meeting due to recent changes in the Faculty Research Committee programs.

Topics to be discussed will include an overview of services available through SPAR, compliance requirements, external granting information and World Wide Web access, the Faculty Research Committee, proposal routing and mailing, and intellectual property and conflict of interest.

To sign up for the orientation contact Barbara Peck at 2-7714 or send an e-mail message to bpeck@bgnet.bgsu.edu.

Staff encouraged to clean up campus

Faculty and staff are encouraged to join University students in spending an hour after work on Wednesday (Oct. 9) cleaning up areas of campus to make it attractive for the thousands of alumni,

parents and friends arriving for Homecoming weekend.

Students planning this year's Homecoming activities initiated the project which they are calling "Adopt-a-Block." University organizations, departments and groups of individuals have "adopted" areas of the campus which they will clean on Wednesday. The groups have also pledged to continue to look after and clean up their adopted areas throughout the rest of the year.

This Wednesday's clean-up event will run from 4:45-6 p.m., starting from the field north of Memorial Hall. Those who have not signed up in advance to adopt a block will be assigned a place to clean at the start of the program.

Following the clean-up, a party will be held at 6 p.m. to thank the volunteers. For additional information contact Gregg DeCrane at 2-2843.

Instruction offered on computer info

Libraries and Learning Services will be conducting "Ninety Minute Computer Seminars" for faculty, staff and students Oct. 14-24.

The seminars will provide hands-on experience searching electronic resources available at the libraries.

Most sessions will be held in the Jerome Library conference lab. Those with asterisks will be held at the IBM lab in Hayes Hall. Call 2-2362 for more information.

Arts and Sciences offers e-mail list

An e-mail list service has been established for College of the Arts and Sciences students, faculty and staff.

Called "casinonet," the service will send e-mail messages on a weekly basis regarding important dates and activities.

To sign up send a message with a blank subject line to listproc@listproc.bgsu.edu. The body of the message should read: "subscribe casinonet" (without the quotation marks) followed by your name.

Book info goes online

Beginning Oct. 14, the Jerome Library will no longer send notices that materials requested from OhioLINK are ready for pick-up. Instead, this information will be posted on patrons' accounts on the BGLink server, which can be accessed through the main menu of the BGNET gopher server. Public computer terminals are available in the library.

MONITOR

Monitor is published weekly by the Office of Public Relations for faculty and staff of Bowling Green State University. The deadline to submit material is 5 p.m. Tuesday, the week before publication.

Actress, producer and curator to attend Gish gallery dedication

The Gish Film Theater and gallery, already the paramount facility dedicated to the memory of actresses Lillian and Dorothy Gish, has grown even larger.

The gallery has expanded into additional space in Hanna Hall and boasts many new mementos of the silent film stars. In honor of the new wing and the recent acquisitions, a special dedication ceremony will be held at 3 p.m. Sunday (Oct. 13).

Among those taking part will be Mary Lea Bandy, chief curator of the film and video department at The Museum of Modern Art in New York, who will show clips from a recently restored copy of *Orphans of the Storm*; Academy Award-winning actress and University alumna Eva Marie Saint, who will talk about her long friendship with Lillian Gish; and

James Frasher, who for 20 years served as Lillian Gish's manager. Other special guests include stage, television and film director Jeffrey Hayden and University President Sidney Ribeau.

Portraits of the sisters and other members of their family, monogrammed luggage they once owned, clothing and other belongings are among the new acquisitions on display in the expanded gallery. In addition, the gallery now displays two life-size figures of the sisters as they appeared in the historic silent film *Orphans of the Storm* and a life-size figure of Lillian Gish as she looked during a 1982 visit to BGSU.

The figures were created by LifeFormations, a Bowling Green-based manufacturer of animated and static characters which is co-owned by technology faculty member Gene Poor.

Faculty Senate connects Firelands through first interactive meeting

Technology helped connect faculty from the University's two campuses last week.

For the past five years Faculty Senate has held one meeting a year on the Firelands campus to maintain close ties between the branches. However many faculty were often unable to get away from their class schedules long enough to make the hour drive, resulting in poorly attended meetings. Last year not even a quorum was present at the Firelands session and many agenda items had to be tabled.

The Oct. 1 meeting at Firelands was transmitted live by satellite to Olscamp Hall and the result was a significant improvement in attendance. Twenty senators were situated at Firelands and 32 were at Olscamp Hall.

The two groups communicated through microphones and images displayed on wide screens. While there were a few problems regulating the sound, the teleconference was overall successful. "This is a first (for Faculty Senate) in terms of technology and I hope it will not be the last," said Harold Lunde, senate chair.

With three abstentions, senate unanimously approved a resolution recommending increases in salary increments for faculty promotions, which has remained unchanged since 1988-89.

The resolution calls for a \$1,000 increase for faculty who are promoted to the rank of assistant professor, a \$1,500 increase for faculty promoted to the rank of associate professor and a \$2,000 increase for faculty promoted to the rank of professor. Bowling Green faculty currently receive increases of \$800 when promoted to assistant professor, \$1,200 for associate professor and \$1,600 for professor.

The University of Toledo, Kent State, Miami, Ohio State, Cincinnati and Miami universities all provide more — starting at the minimum of \$1,000 for an assistant professor.

The recommendation will be forwarded to the University budget committee, the central administration and the Board of Trustees.

Although there were enough senators at the meeting to vote on certain resolutions, attendance was still low enough to hinder passage of issues requiring affirmative votes from two-thirds of all 72 senators, such as changes in the academic charter. One of those items, to create lecturer positions for interdisciplinary programs, failed for this reason. Forty-three senators voted in the affirmative.

The resolution was initiated by Roger Thibault, director of the Center for Environmental Programs, who is seeking a way to retain a qualified faculty member currently teaching in the program, but under the title of instructor. There is no mechanism for continuing the contract of an instructor or for hiring faculty into a tenure-track position solely for an interdisciplinary program, Thibault said.

Senate discussed bringing the agenda item up for reconsideration at a future meeting. In light of attendance, three other agenda items were subsequently tabled until the next meeting.

Part of the meeting also included discussion on a decision made by Faculty Senate on Sept. 10.

Senate failed to pass a resolution allowing non-faculty representation on faculty search committees, to which representatives of Undergraduate Student Government and Graduate Student Senate both voiced their objections. Lester Barber, executive assistant to the president, also expressed dismay with the vote. It "disturbed me a lot," he said, particularly at an institution with a "long honorable history of student involvement."

Senator David Newman responded that non-faculty might have difficulty identifying the specific skills required for teaching in a particular field. "You're much better off having only experts select fellow experts," he said.

Team building

No, these staff members aren't doing a dance that will take the popular place of the macarena — it's an activity to promote team building. A contest using this apparatus will be among the events taking place during Spirit Wellness Day, 11 a.m.-3 p.m. Oct. 25 in the Lenhart Grand Ballroom, University Union. Members of departments or organizations are encouraged to register onsite to take part in the event. Other offerings at the event will include exhibits, health appraisals, flu shots, low-cost lunch, karaoke and even macarena dancing. Pictured are members of the committee preparing the Spirit Wellness Day program (from left) Mathwon Howard, Beth Hofer, Stephen Horowitz, Susan Wisecup and Pat Patton.

Olscamp technology use increasing

Continued from page 1

Northwest and Terra community colleges, not only for students but for faculty.

When Ohio recently changed its vocational schools into community colleges, it became necessary for instructors to upgrade their degrees, and many are choosing to do this by distance learning, Short said. "I'm very pleased with that because that's really the direction we need to move with this technology, from just taking classes that are unavailable in one place to using it to move toward a degree."

In addition to telecourses, more teleconferences are being held at Olscamp Hall. It is much more economical for

Bowling Green employees to participate in a conference from Olscamp than to travel elsewhere for it.

Last week Faculty Senate held its first interactive meeting with faculty on the Firelands and main campuses.

The University is also sending out its own teleconferences, which others pay to receive. Don Gehring, higher education and student affairs and director of higher education programming, has for three years been doing a teleconference on college student personnel for students and faculty that has been quite successful. —Bonnie Blankinship

Mileti Alumni Center and founder celebrate anniversaries this weekend

Among the anniversaries being celebrated during Homecoming weekend, two ceremonies will mark special anniversaries for the University's Alumni Association.

On Saturday (Oct. 12), James E. Hof, former vice president for development and alumni affairs, will become the 35th person to receive the Alumni Service Award during a pre-game ceremony at the Homecoming football game.

Hof instituted the award in 1964 to honor alumni who had given a great deal of time and effort to promote the University and Bowling Green's young Alumni Association. His leadership was paramount in the capital campaign that raised more than \$1.1 million for the

University's Mileti Alumni Center, which opened in 1976.

Mileti's 20th anniversary will also be celebrated on Saturday with an all-alumni open house and reception, 9 a.m.-5:30 p.m. at the center.

In addition to his fundraising on the center, Hof also founded the Undergraduate Alumni Association and originated many other alumni programs.

A 1950 graduate, Hof started his association with the University as an instructor in the speech department. In 1957, he became the admissions director and then in 1960 was named to head Bowling Green's alumni program.

He retired in 1981 and now resides in Coral Gables, Fla.

Calendar

Monday, Oct. 7

Homecoming barbecue, 11:30 a.m.-1:30 p.m., field between Student Services parking lot and Olscamp Hall. Fee of \$2 per person provides a lunch of chips, hot dogs, hamburgers and pop. There will also be a Twister game and an ROTC rappelling show.

Ice cream social, 5:30-7:30 p.m., Education Steps. Free.

Film, *Que Viva Mexico*, 8 p.m., Gish Film Theater. Free.

Tuesday, Oct. 8

Career Expo event, keynote address, President Sidney Ribeau, 10 a.m., McFall Center. (See story in "Memos" on page 2).

Career Expo event, information fair for students, 1:15-5 p.m., Lenhart Grand Ballroom, University Union.

Film, *Les 400 Coups* (in French with English subtitles), 7 p.m., French House. Free.

Films, *A Very Curious Girl*, 7:30 p.m. and *Seven Beauties*, 8:45 p.m., Gish Film Theater. Free.

Planetarium presentation, "They Found a World of Ice and Beauty," 8 p.m., planetarium. \$1 donation suggested.

Concert, guest pianist Robert Thomas of Miami University, 8 p.m., Bryan Recital Hall, Moore Musical Arts Center. Free.

Wednesday, Oct. 9

Computer seminar, "Intro to BGNNet," 1:15-3:15 p.m., 128 Hayes Hall. Attendees must have received a BGNNet account 48 hours prior to seminar.

Cafe Conversation, participate in conversation in French and enjoy free coffee and cookies, 2:30-4:30 p.m., La Maison Française, along sorority row on Ridge St.

Soccer hosts Michigan State, 3:30 p.m., Cochrane Field.

Campus clean up, 5-6 p.m., campus-wide. A volunteer party will follow at 6 p.m. Call 2-7164.

Understanding aging program, explanation of community resources available for seniors, presented by Gay Malon, social services supervisor, Wood County Department of Human Services and Howard Thomas, Office on Aging of Northwest Ohio, 7-8:30 p.m., St. Thomas More parish, 425 Thurston. Free.

Theatre production, *Born Yesterday*, 8 p.m., Eva Marie Saint Theatre. Call 2-2719 for tickets.

Thursday, Oct. 10

Homecoming pep rally, 8 p.m., field between Olscamp Hall and Student Services parking lot. Sponsored by University Activities Organization.

Theatre production, *Born Yesterday*, 8 p.m., Eva Marie Saint Theatre.

WBGU-TV program, "President Ribeau and Company," 8 p.m., WBGU-TV.

Film, *The Love Bug*, 9 p.m., Gish Film Theater. Free.

Friday, Oct. 11

Board of Trustees meeting, 1 p.m., Assembly Room, McFall Center.

Men's swimming, Jean Campbell Pentathlon, 3 p.m., Cooper Pool. Inaugural event named in honor of Bowling Green's women's swim coach (1963-77).

Women's swimming, Jean Campbell Pentathlon, 3 p.m., Cooper Pool.

Honorary Alumnus dinner, 6:30 p.m., Quality Inn/Holley Lodge Atrium, 1630 E. Wooster St.

Hockey hosts Toronto, 7 p.m., ice arena. **Volleyball** hosts Western Michigan, 7 p.m., Anderson Arena.

Film, *Duel in the Sun*, 7:30 p.m., Gish Film Theater. Free.

Homecoming event, Black Alumni Social, 8 p.m., Mileti Alumni Center.

Film, *The Godfather II*, 8 and 11 p.m., 111

Olscamp Hall. Admission \$2.

Planetarium presentation, "They Found a World of Ice and Beauty," 8 p.m., planetarium.

Theatre production, *Born Yesterday*, 8 p.m., Eva Marie Saint Theatre. Call 2-2719 for tickets.

Saturday, Oct. 12

Homecoming event, All-alumni open house and reception, 9 a.m.-5:30 p.m., Mileti Alumni Center. (See story on page 3).

Homecoming event, Class of 1971 25th reunion brunch, 9 a.m.-12:30 p.m., Down Under/Amani, Commons.

Homecoming event, BGSU Pioneers and Decade of the 1940s luncheon, 9:30 a.m.-12:30 p.m., 101A Olscamp Hall.

Homecoming event, Black Alumni/Student Brunch, 9:30 a.m.-noon, 101B Olscamp Hall.

Homecoming event, Decade of the 1960s luncheon, 9:30 a.m.-12:30 p.m., Elks Lodge, 200 Campbell Hill Rd.

Homecoming event, Decade of the 1950s luncheon, 10 a.m.-12:30 p.m., Quality Inn/Holley Lodge Atrium, 1630 E. Wooster St.

Homecoming event, SICSIC's 50th anniversary brunch, 10 a.m., Community Suite, University Union.

Homecoming event, admissions program and campus tour for alumni sons and daughters, 10:15 a.m., Assembly Room, McFall Center.

Homecoming event, College of Education and Allied Professions Tailgate Party for faculty, alumni and students, 11 a.m.-12:30 p.m., intramural field east of Doyt L. Perry Stadium.

Football hosts Kent, 1 p.m., Doyt Perry Stadium.

Planetarium presentation, "They Found a World of Ice and Beauty," 2 p.m., planetarium. \$1 donation suggested.

Volleyball hosts Ball State, 4 p.m., Anderson Arena.

Homecoming event, Black Alumni dinner dance, 6 p.m., 101A & B Olscamp Hall.

Homecoming event, Latino Alumni Society dinner dance, 6 p.m., Quality Inn/Holley Lodge Atrium, 1630 E. Wooster St.

Homecoming event, Alumni Board reunion dinner and program, 6:30 p.m., Lenhart Grand Ballroom, University Union.

Hockey hosts Ohio State, 7 p.m., ice arena. **Film**, *Children in America's Schools*, 7:30 p.m., Gish Film Theater. Free.

Film, *The Godfather II*, 8 and 11 p.m., 111 Olscamp Hall. Admission \$2.

Theatre production, *Born Yesterday*, 8 p.m., Eva Marie Saint Theatre. Call 2-2719 for tickets.

Sunday, Oct. 13

Theatre production, *Born Yesterday*, 2 p.m., Eva Marie Saint Theatre. Call 2-2719 for tickets.

Faculty Artist Series concert, commemorating the 50th anniversary of the death of Spanish composer Manuel de Falla, 3 p.m., Bryan Recital Hall, Moore Musical Arts Center.

Gallery Dedication, 3 p.m., Gish Film Theater. (See story on page 3).

Planetarium presentation, "They Found a World of Ice and Beauty," 7:30 p.m., planetarium. \$1 donation suggested.

Continuing events

Art exhibitions, "Louis Krueger, Photography," featuring work by the director of the School of Art, Kennedy Green Room, Moore Musical Arts Center, through Nov. 8; "This is a Set-Up: Fab Photo/Fictions," through Nov. 8, Dorothy Uber Bryan Gallery, Fine Arts Center; "Pin-Ups: The People's Photography Show" through Nov. 8, Willard Wankelman Gallery, Fine Arts Center. Fine Arts Center gallery hours are 10 a.m.-4 p.m. Tuesday through Saturday and 2-5 p.m. Sundays. Green room hours are 8 a.m.-5 p.m., Monday through Friday.

Brunch and drama

The University theatre department will present *Born Yesterday*, the Garson Kanin comedy, Oct. 9-13 in Eva Marie Saint Theatre. Attendees of the Oct. 13 performance will also have an opportunity to meet the director and others involved in the production at a special brunch just prior to the 2 p.m. curtain. The brunch will be held from noon-1:45 p.m. at Cafe Shadeau, 902 E. Wooster St. The cost for the meal and a theatre ticket is \$12. For those who already have a theatre pass, cost for the brunch is \$9. To make reservations call the theatre department at 2-0527. Theatre season pass holders who bring a guest to the brunch will receive a complimentary ticket to *Born Yesterday*.

Guest artist presents piano recital

On Tuesday (Oct. 8) pianist Robert Thomas will present a guest artist recital at 8 p.m. in Bryan Recital Hall of the College of Musical Arts.

Thomas, associate professor of piano at Miami University, received his doctorate in piano performance and literature from Indiana University.

He has performed extensively throughout the United States and Europe, giving solo recitals in London, Salzburg, Baden-Baden, Stuttgart and Luxembourg, as well as Weill Recital Hall at Carnegie Hall. He has been heard in two nationally broadcast recitals and on the Xavier University Classical Piano Series in Cincinnati, plus performances on National Public Radio and the Voice of America.

His evening performance in Bowling Green is free and open to the public.

Employment

Please contact the Office of Human Resources (2-8421) for information regarding the following listings:

CLASSIFIED STAFF:

Clerical specialist (10-11-1) - student financial aid. Pay grade 5. Part-time position. Posting expiration date for employees to apply: noon, Friday, Oct. 11.
