Proceedings, Trustees Bowling Green State College  

1949

July 1, 1949

The Board of Trustees met on the above date. Members present were Mr. Rodgers, Mr. Donnell, and Mr. Bachman. The minutes of the previous meeting were read and approved.

The President presented the complete car regulations, a copy of which has been mailed to each enrolled student for the next academic year. The Board voiced complete approval of these regulation documents. The following letters accompanied the regulations:

To the parents of our Bowling Green students:

Through the office of the Dean of Students you are being advised of the car regulations which become effective September 1, 1949. I am asking you to acquaint yourselves with these regulations and to give us your wholehearted support in making them effective. Automobiles in the hands of students are in very general disfavor the country over. We have had twelve serious accidents this year, any one of which, or all, might have been fatal. Mixed groups of students during the evening study hours have parked along the country roadsides and visited nearby taverns. Naturally, scholarship has suffered. Consequently, we have been forced to adopt the enclosed automobile regulations, nearly identical with those in effect at the University of Michigan since 1927. If it should seem to you that these regulations are too severe, we suggest that you study the catalogs of other universities and perhaps choose a college where the car regulations are less stringent. We are sure that the strict enforcement of our automobile rules will result in a much better college atmosphere and career for your son or daughter.

Sincerely yours,

(Signed) P. J. Prout
President

June 9, 1949

To: Students of Bowling Green State University

Enclosed herewith is a copy of the new regulations governing the use of automobiles by students attending Bowling Green State University.

Read them carefully. Notice that they apply to all students, not merely to those who live on campus.

If it is in your desire to have an automobile in Bowling Green while attending the University, and if you can qualify under these new regulations, you should write immediately to the Office of the Dean of Students for application forms.

These regulations are being sent to you at this time so that in case you cannot qualify for a car permit, but feel that a car is necessary while you are attending college, you still have ample time to select another college.

Very truly yours,

(Signed)
ARCH B. CONKLIN
Dean of Students

Mr. Donnell moved that the above summer salaries be accepted. Mr. Bachman seconded. All members voted aye.

Mr. Donnell moved that the above summer salaries be accepted. Mr. Bachman seconded; all voting yes on roll call.

The Board made an inspection of the new Speech Building. Mr. Bachman moved the Building be accepted; Mr. Donnell seconded; all voting yes on roll call.

The President presented the need for a small dormitory to accommodate cerebral palsy patients who are scheduled to receive training in the clinical facilities of this building. The indicated cost is $40,000.00 including equipment. Mr. Donnell moved that the Board give approval to the erection of such a dorm on the northwest corner of the present Speech Building. --- Funds to be secured by a loan under the Adams Act. Mr. Bachman seconded, all voting yes on roll call.

On June 28th bids were taken pursuant to ten day advertising for the remaining items of Williams Hall renovation. The low bid was from the Watts Construction Company in the amount of $12,934.00 for the base bid which exceeded the filed estimate by $25,000; and the low bid for the electrical Contract being of the A. T. Emmet Company in the amount of $1,699.00 which exceeded the filed estimate by $149.00. President Prout reported that we should attempt to secure permission to award the contract from the Board of Control to approve the awarding of the Plumbing and Heating Contract to the Johnson Plumbing and
Heating Company of Toledo in the amount of $5,950.00 and to the General Contract with all alternates and deductions to the Watts Construction Company of Toledo, Ohio, in the amount of $15,470.00, including the floor covering and the electrical contract to the A. T. Emet Company in the amount of $1,099.00. These contracts are to be written against funds to be transferred from the Federal Rotary account.

It was moved by Mr. Bachman and seconded by Mr. Donnell that President Prout ask that these contracts be entered into in the amounts given and an order be written against the Federal Rotary account. All members voting aye.

Board members studied the following report from John Paul Jones, Carey and Millar, addressed to George S. Sowers, Director of Public Works, regarding the relative costs of burning coal and oil in our new heating plant.

Mr. George S. Sowers, Director Department of Public Works Ohio Departments Building Columbus 15, Ohio

Re: Central Heating Plant Bowling Green State University Bowling Green, Ohio

Dear Mr. Sowers:

We have made some calculations concerning the relative cost of burning coal and oil at Bowling Green State University with the addition of six Women's Dormitories, seven Men's Dormitories, the Speech Building, Science Building, and the Art Building, it is expected that the maximum demand may reach 61,500 pounds of steam per hour.

On this basis, and assuming a 70% overall round efficiency, we estimate the annual consumption of coal, containing 12,900 BTU per lb., at 6,000 tons. Under today's market conditions, coal, suitable for the stokers specified, can be purchased for about $7.00 per ton delivered. The expected fuel cost is therefore $42,400.00 per year.

Burning No. 6 fuel oil, and assuming an overall efficiency of 75%, we would expect a consumption of 1,030,000 gallons per year. No. 6 oil was quoted today, delivered at Bowling Green, at $0.959 per gallon. This brings the total annual fuel to $61,285.00.

While the fuel cost appears to be in favor of coal by a very considerable amount, there are a number of advantages incidental to burning oil that cannot be readily evaluated.

Oil burning eliminates entirely the problem of ash disposal and minimizes the problem of air pollution with smoke or fly ash.

The overall maintenance cost in an oil burning plant is considerably less than in a coal burning plant.

While we do not expect that the first cost of the initial plant, as now contracted for, will be materially reduced by reverting to oil, it is expected that the cost of the ultimate plant will be considerably reduced, because neither coal nor ash handling equipment will be required.

At the present time there is an abundant supply of fuel oil, particularly in the Toledo district, and the refineries are faced with a very serious storage problem. The price is therefore down and in all probability will go lower. On the other hand, so long as John L. Leidie controls the coal output, its availability may be considered questionable.

Very truly yours,

JOHN PAUL JONES, CAREY AND MILLAR
(Signed)

John Paul Jones

Following a study of the report, Mr. Bachman moved that the decision as to which fuel shall be used be left to the judgment of the Director of Public Works. Mr. Donnell seconded, and all voted yes on roll call.

The following list of new employees, resignations, leaves of absence, and changes of names were presented. Mr. Donnell moved they be accepted. Mr. Bachman seconded. All voted yes on roll call.

There being no further business, the Board adjourned.

Attest:
E. T. Anderson
President

July 11, 1949

Members present at the meeting were: all but Mr. Kershner. Minutes of the last meeting were read and approved.

President Prout reported that on July 5th bids were taken in the office of State Architect and Engineer for the revision of the heating system in Dorms W. The bids as received were as follows: Johnson Plumbing & Heating, Toledo, Ohio, $4,777.00; Gillespie Plumbing and Heating, Bowling Green, $6,857.00; Fred J. Hildebrand, Toledo, Ohio, $6,446.00. The filed estimate for this project was $5,816.00. President Prout recommended that the contract be awarded to Johnson Plumbing & Heating Company of Toledo, Ohio, in the amount of $4,777.00 and that this amount shall be written against local dormitory funds under Dorms W. It was moved by Mr. Bachman, seconded by Mr. Donnell that this contract be awarded to Johnson Plumbing & Heating Company in the amount of $4,777.00 to be paid from Dorms W funds. All members voted aye. Motion carried.

A copy of the letter from the Director of Public Works recommending the awarding of the low bid is as follows:

July 8, 1949

Board of Trustees
Bowling Green State University
Bowling Green, Ohio

Attn: Dr. F. J. Prout, President
E. J. Kreischer, Business Manager

Re: Alterations to Heating Systems
Dorms "W"
Bowling Green State University
Bowling Green, Ohio

Gentlemen:

Bids were received in the office of the Division of State Architect and Engineer on July 5, 1949, for the above project.

After a careful examination of the bids received on the above, I wish to make the following recommendation:

ITEM I. COMPLETE INSTALLATION

<table>
<thead>
<tr>
<th>Contractor</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Johnson Plumbing &amp; Heating Co.</td>
<td>$4,777.00</td>
</tr>
<tr>
<td>Gillespie Plumbing and Heating</td>
<td>$6,857.00</td>
</tr>
<tr>
<td>Fred J. Hildebrand</td>
<td>$6,446.00</td>
</tr>
</tbody>
</table>

I recommend the above as being the lowest and best bid received.

Upon receipt of approval of the above recommendation, I will prepare Contract with the above Contractor in the stated amount.

Kindly issue encumbrance estimate to cover the above and send to the office of Division of State Architect and Engineer as soon as possible.

Yours very truly,
DEPARTMENT OF PUBLIC WORKS
(Signed by H. G. Allen for G. B. Sowers)

GBS:r

President Prout reported that the floor in the tin huts was in very bad condition. In some cases the floors are worn through to the last ply, making them very hazardous. He reported that a R. Haines, a local contractor, would install floors in two of the huts for $990.65. This would be oak flooring and would lengthen the life of the building several year, also make the buildings much warmer and more liveable. It was moved by Mr. Donnell, seconded by Mr. Bachman that all of the tin hut dormitories should be re-floored at the cost reported by President Prout, namely, $990.65 for two buildings, and that the cost of the flooring be paid for from the temporary dormitory account. All members voted aye. Motion carried.
