Instructor Promises Program At High School

Dr. Bourne Gives Peace Lectures March 7 - 11

ALPHA GAMMA, the Methodist Girls' Club, presents a series of lectures on peace to be given on the campus each Monday night at eight o'clock beginning March 7 and continuing through April 11. These lectures, given in Room 168 of the Administration building, by Dr. Bourne, are based upon a series of speeches presented to the Civic Group of the Bowling Green Woman's Club during the past year.

The announced topics of these lectures are:

1. Are arms preserve peace?
2. Are neutral rights right?
3. Could colonies worth the cost?
4. Should the democracies destroy Fascism?
5. Is patriotism enough?

Upon Monday, April 11 a large meeting will be held upon the subject: "How Can We Preserve Peace?" This contest will be open to all undergraduates and will be judged upon effectiveness of delivery, originality and quality of presentation. The essay must contain a series of lectures on peace to be given on the campus each Monday night at eight o'clock beginning March 7 and continuing through April 11. World Affairs in Editorials

Herefore, the editorial columns of the NEWS have refrain-

ed from comment on international questions of the day, but with rising interest of American students on affairs of the world the NEWS will in the future not neglect editorial com-

ments on those subjects.

One of the first things that comes into the student's mind when

he thinks of international affairs is Hitler and Germany. No doubt, male students have already fixed opinions on that

foreign nation and its leader, and, for the most part, have shown

their antagonism to Nazism and Hitlerism. They see in it a
direct antithesis of their ideals of democracy. They see in it all-

en a dangerous" idea. However, as long as Hitler and Fascism are staying in Eur-

ope, one might ask, why should we worry? The answer is that Fas-

cism is dangerous then fascism is to be abhored.

Two more leaders would have enabled them to give more students

predictions of Hitler's downfall. It is hoped that many stu-
dents will continue to hold water in a political or economic sense. He asks for

words increasing population.

Kerrill Long is the second in a series of great columns writing for Bob Barom.

If the success of the college basketball team is measured by the number of people who pass through the ticket gate, then we have been successful this year. With fans jamming every available corner of the gym when the Bowling Green Falcons take the floor, we say hat off to the fighting five. Each marked increase in the popularity of the Bee Gee team implies that there has been a real something on the ball. This fact becomes all the more obvious when we look at their record of 16 victories in 20 attempts—this a record of the type that their opponents have brought forward, and any team that makes the showing they have against the cream of the Ohio Conference teams is bound to catch the fancy of the fans and be considered a "wonder team."

For several reasons they are Donovan's well-molded team. They are a team made up largely of men in their first year. With few exceptions, they have adopted their own type of play that their opponents have brought forward, and then they have proceeded to beat them at their own game. Consequently, the type of play that has given the Falcons the victory every time they see them play. No one could tell just what the Falcons were going to use until they actually entered the game. So just as deception in performance has characterized ball players, deception in performance has brought them increased fame for their team.

Not only have the crowds that have attended the Falcons games become basketball fans; they have become Bowling Green fans. They are proud of their team. Coach Landis is also high in praise for his boys and is very optimistic of their success. He says, "It is very unusual for a college team, composed mostly of sophomores, to make such a good showing against the rest of the conference teams we have been up against this year, I am more than pleased with the boys." For ourselves we have the utmost respect for the Falcons, and this scrappy quintet is really going places in the future.

Fives Stop Delhis

The Five Bros. Fraternity rumbled to a 29-8 victory over the Delhi Fraternity and annexed the Intramural Basketball championship last Monday afternoon at 3:00 p.m.

Cowards die many times before their death; the valiant never taste of death but once. —Shakespeare.
SOCIETY

FIVE SENIORS PLAN TO THEATRE賽

Five Senior girls now are planning very definitely to make their debut in the local theatre this spring by appearing in the new Production of "Broadway's Gone Home." Though they may not be able to begin their work on the set until the latter part of March, they are making extensive plans now so that they will be ready to go when the time comes.

Betty Lou Platt has charge of the atmosphere, pop, ice cream bars and rushes. Virginia Fels and Lenora Dills have charge of the refreshments. The Newcomers, Ida Marguerite and Ruth McWilliams, will be in charge of the hostesses.

The last two Homecoming meetings will be held in the auditorium for the benefit of the girls who have not seen it—more details next week.

QUILL TYPE DANCE

The thirty couples of Quill Tapers and their friends who gathered in the new Receiving Room on Friday evening, Feb. 25 and danced from nine till twelve to Wayno Wyringa and his orchestra, enjoyed one of the most outstanding of the private dances of the season. The orchestra, set with a huge black crepe and a huge eop, symbolized the pant and typicality of these latest wave- dents. The punch table also car- ried out the quill motif. Guests included President and Mrs. E. E. Offenhaur, Dr. and Mrs. E. G. Knepper, Miss Nellie Urschel, and Mr. and Mrs. C. J. Biery.

Bridegrooms' Rush

SKOLS RUSHING Room to the living room testing the quill motif. Guests included President and Mrs. E. E. Offenhau, Dr. and Mrs. E. G. Knepper, Miss Nellie Urschel, and Mr. and Mrs. C. J. Biery.

MRS. B. G. Reilly, President of the Practical Arts building to put into practice the theory which they have been studying.
