St. Patrick

Tomorrow is St. Patrick's Day. Tomorrow millions of Irishmen will rejoice that they are Irish, and that their heritage is Ireland's. For St. Patrick's Day has outgrown its origin in a statement to the men who, according to legend, began the conversion of Irish in the fifth century. And, to the Irish in America, that day is a reminder of their former homeland. The shamrock brings such memories, and they will never see again, or which they have only seen through the eyes of foreigners.

Toledo Organist Gives Recital At Assembly

Tunncliffe Directs University Choir

Mr. John Seely, organist and choir master of the Trinity Episcopal Church of Toledo, who tested the new organ before it was accepted, gave an organ recital at chapel this morning. In a recent letter to Dr. H. B. Williams, he stated: "The University now has an organ of distinction." This was the first time the organ has been played before an audience.

The University chorus under the direction of Prof. Tunncliffe added much to the recital.

Extension Service To Get 8 New Courses

Enrollment Increased by 131 Students

The Extension Service, under the direction of Russell L. Packard, who is the official head of the Extension Department of the University, has increased this semester to include freshmen and seniors and thirty-one more students than last semester. Four more recognized members than last semester are serving on this extension work, and classes are being held in seven more Ohio cities.

Increased demand for these courses and greater facilities are bringing about this noticeable development of the Extension Service. Some of the figures are still tentative, but it is certain that interest in extension work has become much more active.

The Extension Service, which were revived this year after a several years lapse, enrolled 954 students last semester, and have increased to 315 students (Continued on page 4, col. 4)

William's Heads Employment Committee

Dr. Williams, President Emeritus, was appointed chairman of the Student Employment Committee at a faculty meeting last week. The committee is setting out to make a survey of the situation and perhaps may result in being the biggest boon in the way of student employment, and the location of casual work, for the men while going to school, since the advent of the N. Y. A. The work of the committee will be to discover how much

New Certification Rulings

The following statement in the summer session bulletin for 1938 should be of interest to all students in the College of Educa-
tion.

New Certification Rulings

The State Department of Education has approved the two-year curriculum in ele-
mentary education to one of four in elementary teachers. However, certain
provisions are made for gradual transition that will not unde-
fund the support of all students.

(a) All individuals who complete
the present two-year requirement
prior to Sept. 1, 1938, will receive full certification.
(b) The class entering in September, 1938, must complete
four years leading to a degree in order to obtain full certification.
(c) Temporary certification is conditioned upon attendance
in the summer session until the level of full certification is reached,
thus individuals in the class of September, 1938, who elect to
attend at the end of two years of training must attend summer sessions until the
three-year level is reached, and individuals in the class of September, 1940, who
 elect to teach at the end of three years of training must attend summer sessions until
the four-year level is reached.

September, 1938, must complete
temporary certification. This play
will be sponsored by the Peace
Committee that might be experienced.

Records Broken In Inter-Frat Track Meet

Five Brothers Beat Out Delhi For Scoring Honors

Last Tuesday afternoon the Five Brothers' fraternity won the annual inter-fraternity indoor track meet by scoring 56 points to 41 for the Delhi. The Independent gathered 9 points while the Commoners came home with five.

Two indoor track records were broken during the afternoon's events. The old 220 yard dash record of 26.1 was lowered to 25.8 by John Frank and the standing broad jump of 9 foot, 2 in. was increased to 9 ft, 1 1/4 in. by Franklin Belding.

Many of the varsity men showed in this meet that they are rapidly rounding into shape by placing in more than one event. Fronts walked off with scoring honors by taking third in the 40 yard dash, the 220 yard dash and helping win the relay. Glover was both the mile and half-mile races; and Belding won the shot and standing broad jump.

These men were closely followed by H. Kinney, Frank, and A. Madaras who scored 8 points each; Geronti with 7, and C. Kinney with 6.
