Sixty Men Begin Work On Grading Griddron
Sixty men began work last Monday morning April 4, 1938 on the $103,849 W. P. A. Project campus improvement. The men began work on the grading and drainage of the football field which is low in the center, affording poor drainage. Work on the new six concrete tennis courts will soon be started. Also included in the project is the improvement of campus tenements. 63,506 square yards of wall surface will be painted, and 4268 square yards of plastering will be applied to the interior of the buildings.

Advertisements for bids on the new women's gym will be held on Tuesday April 11, as announced by the Board of Trustees. The board will present the key beauty contest entries to the Board of Trustees at a special meeting on the following Monday, April 11. Construction will begin immediately after the selection of the bid by the board and letting of the contract.

Robert Brown, '37, Is Member Of N. W. Territory Pioneer Caravan
Robert M. Brown, Commoner government student, was named March 1937, and president of his senior class, is one of the thirty-seven young men who are coming over the Alpoghren mountains with tom and overcoat, after bearing the inscription "For the Ohio Country." The men, garbed in buckskin shirts, trousers, leggings, and coonskin caps, are re-marching the trek of Rufus Putnam from Ipswich, Mass., to Ohio. Putnam and his party were the first settlement on the Northwest Territory at Marietta, Ohio, which was organized under the ordinance of 1787.

The Gentleman at the Keyhole

Well, folks, I'm back again with my column—You know, I was at the Five Brother House last night and everyone tried to sell me something—Benny "Fanny" Henniss has been working on my boy's ward—The Five Sisters finally made this column instead of having the usual brouhaha, they had a real one. I went back to the party—there wasn't the usual 'punch' in the punch bowl and there wasn't a song that there managed to keep the usual number of stress. But what tickled me was the obvious similarity of facade of the date bureau. Lulu, won't you do any good—The Chatelaine is really lailararious, but they should make the drink limit two instead of four. The only thing I've ever been loving them all—nice Orv. The picture that picture in him is enough to make any and all. We don't know the name of Steve, natural Blondie!—Mary Pickford is carrying a torch for the Dance Troupe. She can't stand us playing one without her. If you can get it?—Can you imagine McMahan going steady, and over? and Ray and all are bunting the date bureau. But I won't keep them guessing, but they are staring to guess right, too. They say that it is not a mean—It looks as if Powell likes librarians—Scotty's Ford and I are in the picture, and with a stranger, must be a fel- low—Bob Young and a high mogul of the Los Angeles are still that way.—Bishop, our versatile basketball ace, has a nice looking girl, I hear.—There were four Five Bros, at the Pirata's work. The committee, boys wants me to go out to the Fire, Big Brown Bear, Children's Prayer, and perhaps a member of the Student Activity Fee Committee. For example, the committee to elect the Bee Gee News editor could be made up of two staff members elected by the staff, the retiring editor, the faculty advisor, two Student Council members, and perhaps a member of the Student Activity Fee Committee.

The committee for selection of Key editor would be similar in number.

The greater flexibility and efficiency of a committee method of this type is readily evident. Each committee could investigate candidates from the whole, since they, after all support both publications, and representatives from the staff, who are qualified to judge the candidates' fitness. For example, the committee to elect the Bee Gee News editor could be made up of two staff members elected by the staff, the retiring editor, the faculty advisor, two Student Council members, and perhaps a member of the Student Activity Fee Committee.
