Pi Kappa Delta Delegates Return

Seven Pi Kappa Delta members who attended the National Student Congress at Topeka, Kansas returned to Bowling Green after a week of experience and contact with some of the students in the United States.

One of the high points of the convention was the Silver Anniversary Convention Banquet at the Delta's expense. The guest speaker was Senator Joe Lee of Oklahoma who spoke of "The Strength of Democracy." Competing in the debate tourney, extemporaneous contests, and debate in the Student Congress the Bowling Green Delta delegation gained much valuable experience. They express their appreciation in the following note:

"We of the Bowling Green Delta Delegation wish to take this opportunity to thank you for the privilege of representing our school in this National Pi Kappa Delta convention. We would also wish to express our appreciation to those who made this trip possible, especially do we feel grateful to Prof. and Mrs. Carmichael. We are all agreed that it was an interesting and educational trip."

**Pulitzer Prize Winner To Address Chapel Next Week**

Zona Gale, well known author and lecturer, has been chosen by the student body May 4 during the chapel period.

Miss Gale won the Pulitzer prize in 1921 for the play "Miss Muriel. Her story, entitled "The Autocrat of the Orange Tree," was the winner of the Butterick Prize test in 1911.

Between 1930 and 1934 Zona Gale published 15 different works of literature, both prose and poetry. Some of these are "The Young Miracle," "Miss Muriel," "The Autocrat of the Orange Tree," "The Little Girl," and "The Secret Garden." Zona Gale has attended colleges in Florida, Ohio, and Wiscon- sin, and is currently working in journalism for several years.
Council Considers Creation of Board of Publications

Student Council at its meeting last Monday night postponed election of Key and News Editors in order to consider an amendment creating a Board of Publications to appoint key and News editors. This amendment, more than any other one factor, will directly influence the quality of student publications in coming years.

If the amendment passes, student publications will have made a great stride in the integration and quality of their staffs. The local student press will be represented by a Board that will elect the editors. The Board will be appointed by the administration, and can be manipulated by it to promote the printing of only material suitable to the administration's point of view.

Staff morale on the publications would be raised immensely by such a measure of freedom in choosing editors. Most student employees would be won back. The present administration of the key and News is now not only disinterested, but it has a definite policy to keep the circulation of the newspapers low. If the key and News editors were elected by the Board, the papers would be run in the interest of the students and not of the administration.

To the confirmed checker fancier, the game is a sport which deserves to be more popular with the American public than football, baseball, or any other game. Many may rest assured that the roaring thousands filling our stadiums will never agree that any checker match—even a match involving a championship—can possibly be outdone in display of color. Only a handful of people are able to appreciate and understand most games actually going on in a game of checkers. There are no really lively telegams playing for the big-eyed spectators when leading checker experts are in session—in session, that is, when the game is checkers is excelled. But, the spectator can sit back, delight in the beautiful long jump already set up, sit back, and watch the beautiful situation which arise from weary copy of the Police Gazette.
