HICKUS CO. P.T.A. PLANS MEET

Emersonians Hit a Brand New High

There will be a meeting of the Hickus County P.T.A. in the Town Hall (Study Hall Administration Building) July 15, at 7 o'clock in the evening. Every parent interested in the well being of his children is urged to be there. There is a rumor that a New in Hickus County. A few radicals among our fair association parents have just written to take over our schools and run them to suit their so-called modern ideas. This won't in to any nonsense schemes whereby our children will be getting more and more lost at each and every school. It is time the parents of this fair community join together and fight to keep the children in the privacy of their homes but promise them that they will keep them from being confused and pissing them off. Now if our intelligent citizens are going to sit down and let these Roddy's rule their county then our work is finished, we can then go home. If not, let's keep an eye on them. If you want to come to the meeting they will see what we mean by good ideas and weaving. So let's see them all there. Remember July 15, 1938 at seven o'clock.

Sophrosmeia Schmidt Press, P.T.A., Hickus County P.T.A. P.S.—Teachers are also invited.

Kreischer

Travels

E. J. Kreischer, business manager of the university, is one of partume's favored men. He is leaving today on an extended expense paid tour of Gettysburg and other Civil War battlefields. The War Department has arranged this tour for veterans. Every veteran is provided with an escort whose expenses are paid. Mr. Kreischer will accompany his wife, grand father, Mr. David Trumbull of Bowling Green and will serve him in this capacity. We feel that Mr. Trumbull's tour will be conducted in an efficient and businesslike manner.

STUDENTS MANAGE WOMAN'S CLUB

Miss Dorothy Carmichael, daughter of Professor W. J. Carmichael of the English department, is manager of the Woman's Club for the season. She is assisted in this work by Miss Rosemary Kate-richen, business manager, and majored in Home Economics. Miss Kate-richen taught the public school subjects during the past year, and Miss Carmichael was employed in the schools of Racine, Wisconsin. With the training and experience of these young people the popular eating house promises to maintain its reputation as one of the places where lovers of good food meet.

UNIVERSITY GROWTH IS SHOWN BY RECENT IMPROVEMENTS

Gridiron Wears New Coat

$20,000 Appropriated For Repair

The recent changes on our campus have been made possible by generous grants of money from the Federal Government. One of the most noticeable of these changes is the improvement of our athletic field. The football field will be finished in time for the first fall game. The sod has already been laid and will provide room for Mother Nature to complete the project. A sprinkler system has been installed on the gridiron to encourage the growth of grass if Jupiter Thames fails to carry out his duties. The ideal of federal projects is to create work for idle hands, and the re-sodding of the gridiron was a job requiring the labor of many men. Thomas Clagie insists that the sodding and carrying of soil for two and one fourth acres of ground is not more than a man sized job, but a job for many men. $103,000 was appropriated for this work which means that most of the money was paid out in wages as there was very little material to be bought.

The most important piece of work on the campus is the upkeep and repair of buildings. The lovely Bowl has already been re- sected they are certainly worth keeping. A very little money has been spent on the Bowl, but it will have a number of building and other improvements which will be very much hand labor. Mr. Thomas Clagie insists that the cutting of sod for two and one fourth acres of ground is not a job for one man, but a job that requires the labor of many men.

At U. of Texas

Dr. Gay W. Allen will teach at the University of Texas during the summer session. His subjects will be American Literature and a study of Walt Whitman. This is a field in which he is especially well prepared. Dr. Allen and his wife have planned a vacation trip to Denmark this summer. The professor and his wife have both studied the Danish language and were anxious to see if their knowledge of this tongue was practical, but of course now they will have to contend with leers to help to learn Danish.

Women's Club

The Woman's Club for the summer, Miss Dorothy Carmichael, manager, Mrs. J. W. Carmichael, business manager and Miss Rosemary Kate-richen, assistant manager, plans to conduct meetings in the Study Room of Bowling Green.

THE ART OF UN-WENCHING

By a Campus Romeo

Learn how, with finesse, a man can dispose of the unwanted female without much discomfort. This article was written for those who want a woman's point of view.

This was written for the benefit of you men who have been having a rough time in your love life—The only thing the boy ever showed some interest in was to get the bull he handed him—A girl wanted a boy—the same size as was the boy—A boy wanted a girl wanted a toy train—a girl wanted a tricycle—A boy wanted to be the larger of the two—and mother was at the hairdressers—he had just rolled smaller—and whatever was paid. Mr. Kreischer will accompany his wife, grand father, Mr. David Trumbull of Bowling Green and will serve him in this capacity. We feel that Mr. Trumbull's tour will be conducted in an efficient and businesslike manner.

Dear Teacher,

Where are you going? What aims and ideals have you already put into practice? What do you intend to do? Do you know what the fundamental expect you of yourself?

In case you’ve ever wondered

PLEASE, DEAR TEACHER

"I wish the public school to build these things in my sons:

"First: Strict and straight thinking. He must think well in order to get at the truth of things, for the world of today is so full of lies."

"Second: Open his eyes to beauty. Lead him to "see" a well painted thing, to feel exquisite harmony, beauty. Lead him to 'see' a well finished work, to reflect well in order to get at the spirit.

"Third: He must respect the opinions—beauty—of others. Teach him that there is a beautiful spirit of others. Teach him that there is a beautiful beauty in the work of others: see beauty, and you will find this a beautiful beauty, a beautiful beauty."

Scrap from the editor's Waste Basket

Teachers Are Still Fools

As was expected I received an answer to my article on "Teachers Are Still Fools." The letter was in direct opposition to the opinions that I expressed in the last and is reaching me. I cannot help keeping the same opinions that I formulated and feel that bird's eye view from the administration of the 1st day of registration of course. Of course, I have no doubt but that the opinions given by the reader are really believed by him or her but I do have doubts as to whether or not he or she (or maybe should I say "it") has proof or data to make the argument presented, unimpeachable.

You will all, probably, enjoy reading the following letter:

"Before you do, however, I should like to say that any letter turned in by a reader must be signed by him or her in order to be printed. A student of etiquette for one not to and in all rights I should not even formulate a thought on the subject of having of her or his letter printed. With the others readers put their thoughts in this column this week. The answer was:"

I think you are half blind and can't really see what is going on. After all first of all anybody who is driving a new car or is more likely driving from 10 to 20 years in a car that has taught him ten years and by that time surely deserves a new car; or else has bought it on the part sale, buying it, where brothers and sisters have helped pay. People who have sacrificed time, pleasure, money, and clothes to send to school and teachers. As soon as the car is in his hand the teacher feels that he has accomplished something in the mission of helping his son live to his fullest the life which nature through him has given him.

The whole thing is worth while, read the letter below and you will see several good useful deed and kind-pleasing things for himself, and show him how to be thankful to parents.

"D. L."

John Stratton

"Disorganized Personalities" will be the topic of the sermon at the First Presbyterian Church next Sunday. This will be the fourth in a series of discussions on "Christianity's Answer to Modern Problems" which is being offered by Dr. A. B. Siebens, the pastor.

Oh, in an age where a diversity of influences tends to tear apart or disorganize the individual", this Dr. Siebens, certainly an imperutive need for a factor in these young lives that will re-cement and unify human personality.

The world is a looking glass, and gives back every quality of the reflection of his own face. Frown at it and it will in turn frown at you sourly upon you; laugh at it and with it, and it is a jolly kind companion."

---Thackery.
Republican Common Sense!
Who's Who At The Polls

Fred Adams

The men we send to the state legislature determine in a large way the future of our university. Our state senators and representatives are responsible for granting funds to operate this institution. David Baumbach of Vermilion, and Fred L. Adams, of Bowling Green, have admirably supported our school during the past two years and seek re-election from this district.

Mr. Adams is a resident of Wood county, and a former student of our university. Wherever these teachers and students find a man better qualified to serve your needs. During this last term in the senate he has served on several important committees to secure for public works and state buildings.

Mr. Adams realizes the need for public works. He has improved our town. He has purchased furniture for the apartment which was furnished last year for the training of our Home Economics students.

and can give them a donation," I suppose I should agree with this point because I imagine my teachers do how many True Story, Ladies Home Journal, Sports Magazine, etc., and so on. Both your teacher buy a poppy the other day. At any rate, I will let it go at that.

As to the last paragraph, I am in hearty dissent with it. The letter says, "If teachers are fools it is because they stay in the profession rather than be careless and do as you please as other people do. Why doesn't this particular teacher get out of the profession if it is so terribly hard on her? I always thought a good teacher always enjoyed his or her work so well that they never cared for any body else's pleasure. Their pleasure was their work and as to me and you, etc., I would criticize any body for finding pleasure in that sort of thing. In conclusion I am afraid I can't compliment this "Reader and Teacher" on her argument, but I do want to thank her (I assume it is he) for giving it a thought.

Senator Adams is a resident of Bowling Green and is more closely in touch with the needs of this university than any other candidate. He is ably supported in this cause by his colleague Senator Baumbach. We might use the title of a popular book and say, "Why Quit Our Own?" Return these men to Columbus and assure the future of our university.

BY JACK WARWICK

Unless the republican party has lost whatever sense of humor it possessed it should come out of its grave laughing. The stage is set for fun. Never has propaganda offered a more ridicule plot for intriguing the risible, folks it is because they stay in the profession rather than be careless and do as you please as other people do. Why doesn't this particular teacher get out of the profession if it is so terribly hard on her? BEE GEE NEWS

PEOPLE YOU SHOULD KNOW

Postmaster

Thomas

Every student gets a certain number of letters during his term of study at this university, therefore the postmaster of each dorm is expected to introduce the man who is responsible for the prompt delivery of mail in Bowling Green. Frank Thomas is our local postmaster. Mr. Thomas has had very little formal edu-
cation, but has done remarkably well with his self education. He has always been an enthusi-
sastic supporter of the college because now realizes the value of an education to youth. Mr. Thomas is a native of Bow-
ing Green. He represented this county two terms in the state legislature and served in the state senate. He was largely responsible for the grant—$15,000 for the Normal School, as it was called at that time. For more than three decades Mr. Thomas owned and operated a newspaper in this town. Through the col-
umines of this publication he sent news of our newly established college throughout the county while this school was practically unknown. He is more than a postmaster, he is one of the most powerful Democratic leaders in northwest Ohio, and also the friend of every student. Every postal employee is as much a friend of every student as Mr. Thomas is, and they all take pride in the prompt delivery of your mail.

STRAIGHT STUFF

Down on Cauliflower Row all the Kolibach Klonters are talking things over, and when pugilist of this publication he sent news of our newly established college throughout the county while this school was practically unknown. He is more than a postmaster, he is one of the most powerful Democratic leaders in northwest Ohio, and also the friend of every student. Every postal employee is as much a friend of every student as Mr. Thomas is, and they all take pride in the prompt delivery of your mail.

Attorney

Avery

Ray D. Avery, attorney, another university leader in this town. It is a strange con-
cidence that three of our best friends have had similar military experience. Mr. Avery was a member of the Ohio National Guard and, like Gallaher and Bachman, rose to the rank of captain in the Mexican campaign and survived the shot and shell of the World War. Avery's shortness of stature was an invaluable physical asset during his service in the trenches, and we are glad to state that he returned unscathed. Ray Avery is a member of several fraternal organizations and commander of the American Legion post. He has always been a leader in civic affairs and anything that makes for good government. He has made numerous talks to groups of stu-
dents at the university and has always been glad to serve in any capacity. Ray Avery is a graduate of the University of Michi-
gan law school. His office is in the Wood County Bank Building, but he is never too busy to see a student on the most trivial matter, so long as he is a senior in this college and Barbara will enroll as a fresh-
mans in September.
