WOOD COUNTY TOMATO FESTIVAL IS PLANNED

"Tomato Queen" Will Reign

Wood County is to have a tomato festival. Bowling Green State University will participate in this activity during that gala event. Those in attendance will know that tomato plants soon be placed on the four corners of Wood County and that the University and this industry that supports two factories—the Heinz plant in this town and the Ann Page plant at Bloomdale.

Every festival has bands, floats, and of course queen. Holland, Michigan has a tulip queen. Defiance a lilac queen. Findlay a Word peony queen; Wood County will have a tomato queen. Our local tomato industry has long been open to this event. The local merchants are using stationery and tarpaulins for this event. The local residents are very interested in the contest for queen.

The winner of the title, "Tomato Queen of Wood County, Ohio 1938" will receive transportation to Atlantic City, New Jersey, and the time in the history of this industry that supports two factories.

Flower boxes containing grow-activity during that gala event. Thirty Main and Wooster streets to this town and the Ann Page plant at Bloomdale. This town is in Bloomdale.

Heinsohn from a rural school in Tommese, held a large audience of students spellbound with her personality and her story in a lecture. The local in Bloomdale. The local in Bloomdale. The local in Bloomdale.

Get your tickets Wed, or dir. the office from Prof. Bitt, 2nd floor of Science Bldg., for the special Lake Erie—Buffalo—Niagara trip.

Heinsohn from a rural school in Tommese, held a large audience of students spellbound with her personality and her story in a lecture. The local in Bloomdale. The local in Bloomdale.

The Heidelberg Student Choir, a group of seven fine male singers, will entertain the students of our college as an evening recital July 21. Much is expected from this spirited group of young men, both in the way of beautiful music and lively entertainment. Their program will be composed of student songs and selections from popular light operas.

From the first church of the Chicago Civic Opera comes brilliant young artists. They are scheduled to perform at Assembly Exercises on July 27. Members of the Chicago Civic String Quartet include Mark Krendzicka, violins, Mabel Schewe, viola, Frank Weidt, and other instruments, and twenty of these people have studied under the best masters—both at home and abroad. This is the first time in the history of this institution the windows were actually open! It is true we have a ventilating system in the library, but it is quite inadequate. We are judging from the numerous remarks made by our fellow students. Many of the high schools where we teach these systems, they are excellent during cool weather but fail to furnish sufficient fresh air on a sultry summer day. If one is to spend an entire afternoon in the library, thoroughly appreciates ideal study conditions. Thank you.

The windows are never ajar.

Now we have a request to make. When you open the windows to admit the welcome breezes numerous insect pests floated in through these same openings on those breezy days. Why not install screens to bar these invaders so that we will not be disturbed by them? If screens were not detract from the architectural beauty of the building they would add immeasurably to our comfort. Put yourself in our place. Think it over and let us have screens.

ALL-COLLEGE PICNIC & A SUCCESS

There is a tremendous amount of work involved in feeding a crowd of this size. But with Prof. D. J. Crowley and Coaches Steiger and Landis in charge, they would add immeasurably to our comfort. Put yourself in our place. Think it over and let us have screens.
FRANK TALK
By Robert LeRoy Frank
The Prof's Point of View
I have often wondered just what our professors think as we sit in class before them. They stand there trying to put a point across and probably, always in the back of their minds, if they do get it the chances are that we will forget by the next day.

The astounding fact to me is that they don't really have the students but blame themselves. In all my experiences with them I have developed the conviction that I have learned through the difficulties that we do present when we do read them and if we do go on stating more many things we don't do. But the point is that no professor can

BOAT TO DETROIT
A trip to Detroit, daylight pull down the Detroit River, the full length of Lake Erie and return on one of the largest passenger excursion ships on inland waters, Buffalo harbor and a 60 miles special tour of Buffalo and the Niagara area, very fine meals, and statesman reservations are all included in this week end tour, and much more too—only $11.60. All expenses, G. B. R., are included.

GOVERNOR

Martin L. Davey

"If elected, I and I alone, will be governor of Ohio." As a candidate in 1934, Martin L. Davey made the above promise to the people all over Ohio. Today Mr. Davey has but one request to make to the voters. That is to do away with political prejudice and personal abuse and to examine the records.

Governor Davey has expressed the wish many times that the state was not in the liquor business. His administration inherited the monopoly system, and he has given a strong business-like administration. Last year Ohio's Liquor Department made more money than any other State in the Union that has the monopoly system.

The Davey administration passed the necessary legislation to set up the unemployment insurance system in Ohio. The State did not pass any new taxes, but by conforming to the Federal law, Ohio was able to produce ninety percent of the Federal taxes for this purpose, and save that money for Ohio people.

The entire Social Security program has been expanded under the Davey administration, setting up cooperation between the Federal government and Ohio and the counties. New taxes have been levied for this purpose.

In spite of the surburbs attacks on the Highway Department it has made a record that cannot be excelled in any state in the Union. When Davey came into office Ohio had over twelve thousand miles of State highways. In 1935 the Legislature gave the Department an additional five thousand miles of county highways, without one dollar of expense.

Under his administration, the Highway Department has built more miles of highway at a lower cost per mile than at any time in twenty years. It has replaced much worn out equipment, carried out an extensive safety program, and cooperated with other State agencies in saving many lives in two bad floods. It suffered terrific losses in the most unprecedented freezing and thawing in years, yet all this damage was repaired in record-breaking time, and in a most economical manner.

The hot and cold mix refrigerator program was originated by the Ohio department, and is the most economical program ever inaugurated. By this system Ohio builds five times as many miles of beautiful, non-skid highways with the same money formerly used in tearing up and rebuilding programs.

The year before Davey came into office, hundreds of schools were closed all over Ohio, for lack of additional revenues to operate. The Davey administration went to work very promptly on this problem and gave Ohio the great public school foundation law, which is regarded as a model for the Nation. The School Foundation has operated so well that it is fully financed for tax years.

"It takes two to speak the truth—one to speak, and another to hear."—Thoreau.

The human being sometimes approaches the reptilian level, particularly after a too-rapid turnover.

While giving a performance a magician spread a blanket over a newspaper and read the paper through the holes. All the goods got up and left. —Drew Drewed

FRIEND

Donald D. Canfield

Donald D. Canfield, Wood County's delegate to the General Assembly, is a staunch friend of education. In 1935 he was, in conjunction with Representative Jess of Portage county, who sponsored the bill that made the College into a University. Canfield attended this institution in 1915, later studied at Ohio State and graduated from Toledo University. He has long been a teacher in the Perryburg High School and understands the teachers' problems.

"The entire object of pure education is to make people not merely do right things, but enjoy the right things; not merely industries, but to love in industry; not merely learned to love knowledge; not merely pure, but to love purity; not merely just, but to hunger and thirst after justice."—John Ruskin.

We think the original night mare was the result of man's putting his wife in curlers for the first time.

"Truth has rough flavors if we like it thoroughly."—George Eliot.

BEE GEE NEWS PAGE 3

Republican Common Sense! Who's Who At The Polls

During the World War Mr. Canfield spent two years in the army, one of these years was spent in France. The Canfield family has long resided in this county, so we feel that Donald's interests are not centered in any one group. His past record proves that our problems are his problems and we feel that he has done an excellent piece of work in the interest of the people of this district. He is well supported by his Friend and fellow senator, Fred Adams of Bowling Green.

Don't let sufficient money to represent every major group in this district. He is a native of the little city of Perrysburg, where his father owns and operates a drug store. This environment makes him familiar with the problems of the common people. He attended Ohio University at Athens where he received his Master's degree. He has taught school a few years which experience gives him an excellent background for understanding our educational problems. He has always been a loyal supporter of education. Mr. Baumhart is one of the few Republicans in the Senate and we should keep him there. He has served on several important committees some of which are: the tax committee, senate graft committee and the education committee. He is one of the famous Hatchet Men and our only bachelor candidate, let's keep him in the senate.

PARROT
PHARMACIST

Murlin

Homer Murlin, proprietor of the Murlin Pharmacy, known as "the drugstore on the square" is one of our newest boosters. Homer came here from Michigan a couple of years ago and is the son of Mr. and Mrs. Bowling Green so long that he is regarded as a native. He is a graduate of the Ohio State University and therefore is fully qualified to sympathize and support a similar institution. Homer is an enthusiastic supporter of college athletics and helps out the boys in various ways, encouraging them and contributing generously to the university. It is no wonder therefore that he is fully in the looks of things everybody, his and sister and brother were there. . . .

In 1923 he came to Bowling Green where he has since served in his present capacity. Superintendence has always been an interesting way of living, and in the university. It would be difficult to estimate the number of students he has helped through college by furnishing them employment during the busy season. The University (and the Heinz Company) have always been on friendly terms for two reasons: supporting, lending and helping mutually. Mr. Bartlett believes in advertising the Home Economics department, and he regrets the fact that he did not have a son to represent him on the football team.

O.N.G. at Camp Perry

Not all of our students are pacifists. Several of our boys are members of the local National Guard Company, 1180th Infantry, Company F. They left Sunday for the annual two week training period at Camp Perry. Most of the boys who are former students are: Lieutenant Ulyce Whitehead, Dudley Avery, Harry Roheko, James Maurer, James Stitt, Ralph Elisabeth, and Edward Wallace. We wish them a pleasant stay at camp with not too much dril and guard duty. Captain Hinch is the commanding officer of the company.

PLANT You SHOULD KNOW

SPELTER

Manufacturer

Bartlett

C. A. Bartlett, superintendent of the local Heinz plant, is pleased to know that we list him among one of our friends. He was born in Clinton, Michigan where he attended high school. He received his later education at Ferris Institute.
Mr. Bartlett has been associated with the Heinz Company since 1904. He has been in charge of the plants at Saginaw, Michigan and Muscatine, Iowa. In 1902 he came to Bowling Green where he has since served in his present capacity. Superintendent Bartlett has always been interested in civic affairs and in the university. It would be difficult to estimate the number of students he has helped through college by furnishing them employment during the busy season. The University (and the Heinz Company) have always been on friendly terms for two reasons: supporting, lending and helping mutually. Mr. Bartlett believes in advertising the Home Economics department, and he regrets the fact that he did not have a son to represent him on the football team.
