Powerhouse Michigan Normal Eleven Invades Falcon Stronghold Saturday

Orange Seeks Revenge For 25-0 Defeat

Ypsilanti State Normal will bring to B. G., Saturday, October 29, one of the most impressive records of previous years. The Falcons are favored to win, but the Michigan Normal boys are no pushovers. Coach Ockerman's task will be made much easier, as the Northern Bears are not a strong team. The Michigan Normal eleven is well balanced, and Coach Ockerman has his hands full trying to keep the Falcons from scoring. The Falcons will be counting on their passing attack which was stopped last week by the Northern Bears. The Michigan Normal eleven will be a tough gang of lads who train hard. They have plenty of scrap backed by one hand, and Al Soskey has irked an old charley horse.

Today's News is the first to be published under the newly reorganized staff. You have probably read our program above for the university, and now, perhaps, you will be interested in the program of the News.

Mr. Beattie was forced to give up his post as head of the campus, and how well he carried it can best be shown in the letters he secured for the paper even with the limited resources at his disposal.

Tribute To The Editor . . .

The Bee Gee News today mourning the loss of one who was the heart of the staff—an opinion echoed by hundreds of students, has done more for the progress of the paper than any editor preceding him. He did achieve one of the most pleasing responsibilities on the campus, and how well he carried it can best be shown in the letters he secured for the paper even with the limited resources at his disposal.

Pleading for the college's activities in suggestions together with what ability we have in anticipating what you like, we will be continuously open to criticisms from the staff. But surely the news items and features, more pleasingly written, will be interested in the program of the News.

Every man entering a new job is supposed to have a policy or at least those outlining his program in the new duty. If I do not have a policy, a plan, or any kind of theme? Why should I? Yes, as the statement body, you desicde my actions as your Sport Editor.

Personally, I will try to make this sheet readable, serious, and backed with a genuine human-interest angle.

LITTLE FALCONS WORKOUT DAILY
Cannon Fodder; Tomorron Tomorrow

With thirty-five men on hand from Ohio, Michigan, Illinois and Penn., Coach P. E. Landis has a wealth of Frosh football material working out nightly under his supervision. Certainly they are a patient bunch of fellows for as Frosh their main duty is to act as cannon fodder for the Varsity. The Ohio Conference doesn't allow inter-collegiate games; therefore, their first year as Falcons is spent in perfecting the basic fundamentals of football, blocking, tackling, and running.

However, by their performances the coaching staff feel many of the fellows show that they do know something about the game. Don Brashly, Emil Hunt, and Harold Mawhok break up many a varsity play with their hard charging in the line. Winston Parks does a bit of passing and passing that places him high among the backfield candidates. Here's hoping the Falcons will show in the coming games hard fought.
