Editors of '41 Key Unnamed;
Maddock Is Business Manager

Anthony A. Frances, present
editor of the Bee Gee News,
was elected to edit the paper
weekly during the academic year 1940-41. By the Board of Publica-
tions at a meeting last week.

D. G. Leland, who has been
business manager of the News
for the past two years, was re-elected
to that post for the coming year.

Karrard Maddock, junior, was
appointed business manager of the 1941 Key.

The students named to positions
by the Board last week were elected
from applications submitted
by the candidates.

The Board had intended to name
the new Business Manager of the 1941 Key at the same meeting as the Business Manager of the Board of
the News, but none of the applicants
met the qualifications set up by the
Board.

Karrard Maddock was appointed Business Manager by the Board of the News, as seen in the image. The content appears to be from a university newspaper and includes information about the elections for the 1941 Key, the election of the Business Manager, and other news items such as the appointment of the new Business Manager of the News. The text is a mixture of formal and informal language, typical of a university newspaper. No additional context or questions can be answered from this image alone.
**We Lose a Good Man...**

The loss of one such as Mr. Low will be sorely felt. The new infirmary will be constructed on the same site, and until its completion the library will serve as a temporary infirmary. Location of any hospital or building to be used for hospital service is a matter of the greatest importance. First of all it should be as close as possible from a functional standpoint.

If the building is erected near Kohl Hall it will be necessary for the students to pass through the library and the carillon during the hour or recess period until it is finished. The new library will provide more space and a more convenient location.

If there is no apparent reason for changing the location of the library and library and a new infirmary will be a great advantage to the university and the students.

**Conscription**

Despite the best efforts of the draft authorities, a great number of our young men are still getting married and are not in a condition to fight. The draft is not meant to protect the nation, but to protect the status quo.

**BRIDGES**

The important function of the bridges in the athletic field. the football field. Where are the fans? Is this fair? The stadium will be a very good place to see a football game.""
Bowling Green's track team gave evidence that it would be one of the top four contenders in the Ohio Conference meet when it turned in outstanding performances at the Capital University dual meet last Saturday afternoon at Columbus.

Sildey Anderson, Ohio Conference star, gave evidence that she would be among the top three in the broad jump and in the long jump.

Walter Worley, Ohio Conference champion last year, took first place in the 100 yard dash and second place in the 220 yard dash.

Pete Plater, Ohio Conference champion last year, tied for last place in the high jump.

The dual meet against Ohio State was won easily by the home team, 80-27. The Ohio State Indians, under the guidance of Coach Ray Young, were not able to withstand the many outstanding performances of the home team.

The dual meet will be held Monday at the University of Cincinnati.
The pictures of Martha Jordan and Mary Ann Porell are in the current issue of our fellow BEE GEES. George Beene is not a bit hard to beat. In the years he has been here at B. G. U., he has been known for a total of one game. But he always attracted every student.

We wonder if you have noticed the pickup of business in Bowling Green. Three new stores have made their appearance on South Main with the A. & P. scheduled to open in their new location any day now. The Administration has done a splendid job in planning the G. U. C. in coming college finish. A final decision must be made by the next full fall. We think that the popularity developed in the last half of December will be ever present. If there are one or two nationalities who have any change of this, it is a bit costly.
