Large B.G. Group Attends Student Universities.

Y. M. C. A. Meet Attends Student Universities.

in attendance following North- to-va, Wisconsin, June 11.

Bowling Green's large dele-

gate to the third place for

four straight wins.

The Boys reported the confer-

ence to be an outstanding suc-

cess and particularly the pro-

minent liberal speakers pres-

tent and the excellent Ball Team Wins.

The Bowling Green soft-

ball team, in the conference's

championship by defeating Ohio State, North Dakota, Ohio Wes-

ey and Western and Northern Illinois.

The Bowling Green delegates were unanimous in their desire to return next year.

The conference attracted 300 students from more than 60 colleges in a nine state area around Chicago.

The total registration for the summer term has reached 880.

the newcomers to the Univer-

sity. A student's opportunity to choose from de-

bate, principles of speech and dramatic arts classes. They get the chance to participate from 9 to 12 a.m. and spend their afternoon and evenings in this great laboratory work and recreation. Classes will be held on the third floor of the Men's Gym.

To Give Play July 25

Professor Holt is planning to stage a three-act play July 25. The play has not been se-

en by the high school students and can also be seen on more than one.
University Welcomes Students To Summer Speech School....

This week 25 outstanding high school students from 14 Ohio towns and cities enrolled in the University's first summer School of Speech under the direction of Elden D. Smith.

The News extends its welcome and the administration has made available the entire facilities on the campus for your use. It is a privilege to have the opportunity to live on the campus, to mingle with University men and women and to partake of Bowling Green State University's instructional and offering programs.

The School was instigated by the administration to give students of high calibre from secondary schools an opportunity to give students of high calibre from secondary schools an opportunity to advanced training in the dramatic arts and speech, and to give them a taste of University Life. It is an introduction to the second phase of their formal education.

It is up to each individual to get the most good and enjoyment from the next few weeks. The University wants you to feel at home and to become acquainted to University Life. It is an introduction to the second phase of their formal education.

The University will watch you as you become acquainted to University Life. It is an introduction to the second phase of their formal education. It is a privilege to have the opportunity to live on the campus, to mingle with University men and women and to partake of Bowling Green State University's instructional and offering programs.

The complete enrollment is made up of the following students: Virginia Palumbo, James Fauber, Valerie Ann Nitz and Georgia Anderson, Dayton; Jean Hamberg, Margaret Lovell, Lois June Mayfield, Norma Byrd, Ronald D. Waugh, Robert D. Gable, Martha Hartzler, junior from William, Ohio, and Martha Jane Humans, Princeton, Ohio. These students are from secondary schools.

**Brudzinski Heads Vets; Good Season Expected**

In a construction race such as we seem to have entered with sister schools, quality is as important as quantity.

Campus buildings, as recently laid to the clinch due to cold, natatorium, should stand in a beauty class by themselves. One also expects that such expensive edifices should remain thus, over a long period of time. Neither of these desires have been fulfilled.

Many people complain that the atmosphere in the pool is too cold. Rarefied current believed to cause this. It seems logical to assume that since the sun doesn't reach the swimmers indoors, they consequently never warm the air nor the water. This system should be regulated accordingly. There also appears to be an overdose of chlorinated chemicals present in the water.

It should be necessary for strangers to wonder whether or not they are stepping into a swimming pool or an antiseptic bath. A lower chlorine content has been known to stop typhoid germs in drinking water.

It is also too apparent that an inferior grade of material went into the general construction. Whole sections of the ceiling are buckling out of shape, while others have already come down. Besides giving one a feeling of personal danger, it lends to the interior the look of a fifty year old building, and a cleanly constructed one at that.

How about a little more thought to swimmers' comforts?

**JUST TALKIN'**

By JOE NORDMANN

**Challenge**

In order to break the boredom of week-ends, stalwarts are offering to play anybody any day of the week-end, stalwarts Whitacre and Joe Glander of Sandusky are two of the best.

**Opportunity**

Among the new innovations at the Municipal Park Pool is an electric phonograph which gives swimmers an opportunity to paddle with the rhythm of Glenn Miller and other popular masters. This instrument was loaned for the duration of the summer by Medwin Barr, Western Union employee.

**Complaints**

**Beginning Students Ride Next Week In Exhibition**

Upper Sandusky, O., May 23—Students of the Upper Sandusky high school made an impressive showing here Sunday afternoon before a crowd of approximately 500 enthusiastic spectators.

The purpose of the affair was to ensure that every student participate in some individual sport for both exhibition and practical purposes. This show was set up by the students for students, and in no way was it merely to exhibit riding techniques and did not feature any competitive matches.

Those participating included Dr. Rea McCain, head of the English department, Mary F. Church, Marie Decker, Bonnie Carter, Mary L. Gibson, Glenn Anna Woods, and Dorothy Mer- rill, B.G.U. students, and Kath- leen Sloan, junior in the local high school.

Overguard of Wayne University's Miami pool, report the wa- ter to be 'swell' but say that splash Coach Budd Cox has put an end to friendly games of water polo by confiscating the rubber balls and diving disks.

**Steril Measures**

This drastic action has prompted attention to swimming and diving, with the result that contests of various sorts are being held.

In the wading department, guest Conductor Graham T. Edwards of Wayne Univer- sity, Detroit, whipped the field, but failed to set any records.

**Dive With Melody**

With regard to diving, local coaches are urging the students to come out and jump off the high and low boards. One coach exclaimed that he had only one date open.

**Golf Notes**

Paul Landis, Falcon basket- ball mentor, toured the local country club links Thursday with a group of twenty-six being his own partner, to the fact that only two signed up for 'advanced golf,' that class was cancelled, and those men will still be junior assistants. Golf students meet three times a week for instruction and actual play.

Three coaches from the Uni- versity are enrolled in the Bow- ling open tourney which is now in session. Football coach Harry Ockerman, P. E. head, Warren Steller, and Fred Marsh, who joins the staff in September, are the trio. Mr. Landis is ineligible since he is the club's professional.

The pool life guards, Leon Kauster and Bud Francis will undoubtedly see action at that time.

**Steve Brudzinski, Fromont's versatile gift to the local gridiron, will lead the Falcon parade today.**

Last season Brudzinski ran, passed and kicked his way into I.N.S.' All-Conference lists, tallying 30 points personally and accounting for about 30 others with his accurate pass- ing.

Coach Harry Ockerman will build his 1940 team around a group of 13 lettermen, which recalls such well-known performers as Dewey Johnson, Ed Feltner, Chuck Catanese, Hal Mechlow, Ed Mussell, Dale Good, Bob Barnett and Don Brokaw.

Homecoming game will be played with Bowling Green's sister school rival Kent State on Nov. 2. Three games are scheduled at home and five away with one date open.

**Ride Next Week**

The Nashes will play next Sunday on the park diamond which will give his 30 pupils a chance to show off their athletic prowess since they are stepping into a new and beautiful showing here Sunday afternoon before a crowd of approximately 500 enthusiastic spectators.

"Learn To Read German In 50 Hours," Says Texas Man

AUSTIN, TEXAS—(ACP)—Reporting a proved method for learning to read advanced Ger- man with less than 50 hours' instruction, Prof. Donald P. Pollard, Uni- versity of Texas Germanic Language instructor literally has created an additional stimulus to the most difficult of languages to trans- late to his students' fingertips.

The result of four years' work. Prof. Pollard's method has passed 92 out of 94 stu- dents on language exams that ordinarily require three years' schooling, he claimed here today. Instruction times varied from 11 to 51 hours, averag- ing 25.

His system, employing use of the fingers to guide the reader through the peculiar word order and long, complicated sentence structure of the Ger- man language, has been copy- righted. Pollard plans to publish a book on this system, he said.

Pollard's system requires the learning of nine verbs and a few rules in lies of extensive study of German grammar textbook.

In place of a hag of "do's and don'ts," Pollard has substitu- tion of the finger system. The left- handed finger is used as a guide by locating the key words, en- abling the right thumb to move along the sentence, the read- er following through. Breaks in the sentence, made by punctuation and the fact that all Ger- man nouns are capitalized, are made by use.

Seek Suggestions For
Social Entertainments

What is your preference for pleasant summer evening? Do you want to dance? Do you want to play auction, contract, piano or cards of some sort? Do you like seeing a show? Do you prefer ping pong or shuffle board? If you have all the chance to pick your piece.

Members of the social com- mittee for this summer, Miss Alma Leedom and Miss Grace Grill, wish suggestions from the student body to assist them in completing the world calendar for the sum- mer. Their aim is to fit the program to the desires and preference of the student body.

COURT \& SANDWICH

M. M. Chace is attending the summer school at Northwestern University. His summer job will be as a conditioner of the football team. He also intends to spend some time working on his English during the summer.

"Our first duty in this time of turmoil and danger is to carry on our normal educational program as effectively as possible and with a minimum of disruption. Whatever course future events may take, the world will need young men versed in science and the arts of its application to pre- vent human welfare," Dr. Karl T. Compton, president of Massachusetts Institute of Technology, urges education in the various interests of stu- dents during next week and offers an opportunity to get acquainted. This was an experimental project Dr. Hos- ton stated.
