Register Requests That Program Be
Early; Fines Levied

While stressing that the purpose of the new pre-registration instead of the present registration is to avoid overcrowding of classes through mass registration, Registrar George Tolley stated that the new system will save many hours of registration. This will allow for more effective registration and avoid the need for students to be in line for registration.

These advantages will be, of course, limited to students who register early. The Register's office will be open from 8:00 to 5:00, Monday through Friday.

FRAGMENTS OF THOUGHT

By ALBERT L. BUCKOWER

This might well be called an essay in defense of censorship. And yet this wouldn’t take a lot of censorship for me to do. The very nature of our needs involves the censorship of friendliness. Seriously, even a brief essay on the subject of censorship would be of interest in the few weeks. A few of us are reading this page and having this subject in mind. The interesting thing is that censorship is necessary for the survival of good literature. The essay would be of interest to those who care about the freedom of speech and the freedom of the press. Now then, let us talk about the freedom of speech.

ON THE SOCIAL LIFE

A recent professional discovery of something that we have missed in all our lives is the social aspect of the English literature. There are a few more words on the same subject. It concerns a noble daily which makes a point of publishing the names of those who are interested in the literature of the day. There are newspaper columns which are devoted to the literature of the day. There are also columns which are devoted to the literature of the day.
