The Ohio Northern Review called Bartlett’s article an excellent piece, which we think meri-
rates the praise it received.

'Professor Whitmire,' the story begins, "is a man who has lived a useful life. He is a
man who has made a splendid record in his chosen field. He is a
man who has been a leader in the world of literature."

A news story told of a man who, after his death, was
seen "wandering through the streets of New York City, talk-
ing to himself."

Approximately 100 people were present when Bartlett
read from his book. They were all deeply moved by the
man’s words.

AT THE CLA-TEL...

James Stewart is still one of the best actors in Holly-
wood. In "It’s a Mad, Mad, Mad, Mad World," he plays
the role of a man who has been abandoned by his wife
and children. "It’s a Mad, Mad, Mad, Mad World" is due
for release in early November.

Last week, Ralph Bellamy was honored with a
special award at the Hollywood Film Festival. Bellamy
was presented with the award for his outstanding perfor-
mance in the film "The Three Faces of Eve." Bellamy
played three different roles in the film. The awards jury
awarded the actor with the highest acting merit.

CAPT. VINT H. NICHOLS

In an effort to keep the student body In-
formed, the Daily Northwestern advises under-
graduates to register for an additional class.

A new course in American history will be offered
this semester. The course will focus on the develop-
ment and growth of the United States from its
beginnings to the present day. It will cover a wide
range of topics, including politics, economics,
and social issues.

In this course, students will be expected to
read extensively and to participate actively in class
discussions. The course will also include a research
project, in which students will be required to write
a paper on a specific topic related to American
history.

A word of caution: students must register for
this course by the deadline, which is next week.

Enrollment in Spanish Rises

STORRE, CORN. (ACP) - As enrollment declines in French
and German at Shippensburg State College, students
are flocking to the Spanish language program. As of
the spring semester, Spanish enrollment has increased
by more than 200 percent over spring enrollment in Spanish.

It has become apparent, say un-
iversity officials, that the demand for Spanish
is based on almost entirely on the growing interest
in Latin American culture. Students are more likely to be
interested in learning a language that has a rich cultural
heritage.

The growth in Spanish enrollment is

as a result of several factors. First, the
university has expanded its Spanish
language program in recent years. This
has increased the number of students who
are able to enroll in Spanish courses.

Second, the university has also
expanded its opportunities for students to
study abroad, particularly in Spanish-speaking
countries. This has provided students with
more opportunities to experience the
language and culture first-hand.

In summary, the increased interest
in Spanish enrollment can be attributed
to a combination of factors, including
the growth of the Spanish language
program, the increased opportunities
for study abroad, and the growing
interest in Latin American culture.

Spigot

In an effort to support the student body’s
interest in the study of languages, the
university has expanded its Spanish
language program. This has increased
the number of students who are able
to enroll in Spanish courses. As a
result, Spanish enrollment has increased
by more than 200 percent over spring
enrollment in Spanish.

In summary, the increased interest
in Spanish enrollment can be attributed
to a combination of factors, including
the growth of the Spanish language

Findlay and Hiram Are Victors; Season’s Record Evened

Bowling Green’s basketball team climbed back into the .500 mark last week-end as they defeated the Findlay Oilers 53-34 in a thriller here Thursday and then silenced Hillsdale 58-45 Saturday evening at the Hiram court.

Coach Landis used only two starting regulars in the Findlay battle as three starters and four first-string reserves rode the bench for recent infraction of training rules.

The Landsmen trailed most of the ball game but always stayed within easy striking distance. At the half the score favored the Oiler boys 21-17.

With nine minutes left in the half game, Findlay scored the only points of the Falcons’ 18-23 but two quick baskets by the Landsmen over the next four minutes gave Findlay’s victory.

The Falcons scored off a fast break by Nick Sandoff and Walt Sautter, left handed shot and the ball went from Sautter to Sandoff to give the Landsmen their fifth win.

Johannes Howard, former Findlay by high school career pointed for Findlay while Phil Rickert rode the bench for the Falcons.

The Oiler boys started off fast to a 10-7 first half lead but the Oiler boys held for the entire game. The same lines were used in the first round of the season when the first stringers put in their appearance. The Oiler boys hold a three point advantage at half time.

Rickert again led the Brown and Orange with 11 counters, closely followed by Johnson with 9, Ossenfort with 8 and Findlay with 7 points.

Findlay record now tallies up 1 with 14 in 1 start while Bowling Green record tallies 4 wins with 4 losses with Conference opponents.
