Students from all over Northwestern Ohio will come to compete in the program here while students from other sections of the state will compete in their respective districts, other contests being held at Kent State University, Ohio University, Ohio State University and Miami University.

The scholarship hopefuls, who are all of the top ranks in their respective schools, will be able to compete in both academic and commercial courses. The academic section will include algebra, biology, chemistry, the four years of high school English, two years of French, general science, geometry, American history, world history, two years of Latin, and physics. The commercial courses will include bookkeeping, two years of shorthand, and typing.

Fifty faculty members and about 500 university students will assist in giving the tests and recording the results. **Fragments of Thought**

Once upon a time a Woodman went into the forest to ask the Trees to give him a handle for his axe. It seemed so modest a request that the principal Trees at once agreed, and it was decided among them that the main branch of the one which was needed. But no sooner had the Woodman fitted the staff to his purpose, than the Tree got up about himself on all sides, felling the noblest Trees in the wood. The Oak now seeing the whole of the plan, whispered to the Cedar: "The first concession has but one; if the rest be sacrificed our humble neighbors may yet stand for ages ourse--" And the moral of this tale is that we must allow expediency to take precedence over principle.

When the League of Nations chose to sacrifice the weak to facilitate the strong, it set in motion a chain of events that made for its own undoing. When Great Britain,iki and blind to the aggression in Manchuria, Ethiopia, and Czechoslovakia, helped to create a force that now challenges our existence.

In a similar manner the United States is inviting trouble with her continued friendly relations with Russia and Japan. In terms of the great fundamental principles President Roosevelt is now preparing to fight, Russia and Japan are as much enemies as Germany and Italy. The League of Nations is to be successful in winning support for his foreign policy, he must not deviate from fundamental principles. If totalitarianism is bad then it must be opposed by our government, and no private pretentiousness should be allowed to run counter to this great action.

**The Spigot**

Concerning this "Campusing of clubs" business... campusing 15 girls for five weeks, which is just about all that's left of the school year, is rather a hard sell, especial in the face of the fact that many of the campused girls are seniors and this is the last time... we agree with what the sorority has on its petition—that punishment should be given, but all this is carrying things a little too far... the facts in this case should be reviewed, and girls should be disciplined according to their individual records we recommend the WSGA and the dean of women show some leniency toward freshmen, fencers and seniors, but no members, gents or rules... Congrats to Ernie Duffield and his crew, who really sounded solid at the 78 formal... and how none of you were at the nickleodeon a couple of nights ago... everyone Screams if there aren't any dances, the thin AHS team forms no one shows up... what goes on?

**Drink**

Overheard, "Should we go to the Rec hall and study or to the library to sleep?"... Or Ophelia Nash... "Whoever you may have to bear it..." Just in case you give a durn, the water at the quarry is still plenty brackish to be a necessity. According to new draft board regulations accountants, doctors, dentists, opticians, shop keepers, tool makers, engineers may receive indefinite deferment... and my Pop wanted me to study pharmacy, darn it... Poetry corner: Spring comes and brings warm breezes, But cool damp grass gives one the sneezes.

**Rumor Has It...**

It looks as though American universities will be over-run with chemists, engineers, pre-meds and a host of other professional and pre-professional students next fall. By rumor it seems that many of these students are being admitted as first-, second- and third-year students, and who are enrolled in colleges and universities will be exempt from compulsory training and will be spared from material costs in the maintenance of the defense industries.

By rumor also, a lot of other things seem to be going on. A new draft bill now pending will change the age limits to 18 to 21 only. Further by rumor, men who reach the age of 21 this year will be exempt from compulsory training. Engineers, pre-meds and a host of other students are being admitted as first, second and third-year students, and who are enrolled in colleges and universities will be exempt from compulsory training and will be spared from material costs in the maintenance of the defense industries.

**While you're keeping fit... pause and enjoy the moment**

Pauline On Play Day

One hundred and fifty girls from twelve surrounding high schools attended the annual play day at the university Saturday, April 26. Tennis, swimming, badminton, and baseball were the sports on the calendar for the day. Baseball was featured as an inter-school sport with ten different schools competing.

The first thing in the schedule of the day was registration where everyone selected the sport she preferred. Following this, a mixer was held in the large gymnasium where a lunch was served to everyone. Afterward, all the girls dispersed to participate in their chosen activities. At noon the delegates ate picnic lunches following which each school presented a skit: some humorous, some patriotic, and some strictly athletic. In the afternoon the girls participated in different sports from those in the morning.

Physical education majors and minors from the university were in charge of the different sports and Naomi Powell had charge of the mixer and the skits.

Bryan, Maumee, Perrysburg, Lake Highland, Woodville, Elmwood, Liberty Center, Bettsville, Sandozky, Findlay, Napoleon, and Bowling Green sent delegates, on內nings to be credited with 6-3. Wittenberg's returners fell to Henna 3-4, 2-6. Jim Miller and Bill Weaver outplayed Shell 6-2, 6-1. Chuck Snyder blasted Wolff 6-0, 6-3 after a real scrap. The Brown and Orange thinclads collected 6 firsts at the triangular meet with Muskingum and Mount Union, but still fell 12 points short of winning. Muskingum was first with 60 3/4 points, Bowling Green second with 84 3/4, and Mount Union finished a weak third with 40 1/2 points.
