News Value Is Important; Advertising Value Is Vital

College newspapers are in a dilem-
ma. Some of them, advertisers are all faced with the prob-
lem: "Should we scrap advertising?"

The answer is no! College newspapers must do-
 tionally and commercially. Adver-
sers have for the moment to avoid anything having to do with the war, and they should do so. The con-
tinuous march of the young generation towards the war is not going to be interested in what the advertisers have to say.

This is poor policy.

It is the time to be the guardian of the nation in a trying period. In the face of unprecedented change, the college newspaper should make every effort to remain a constant. This means that advertisers should keep their old stocks replaced, we will get your ad to tell the truth.

These opinions are backed by logic. Let us look into the history of advertising in college newspapers. There were three groups — those who thought advertising was good because it would bring in new and hard currency to continue their advertising revenue. Some who had more courage and started new content-driven advertising. And some that decided to stop advertising for the time being. They all agreed that advertising enhances a newspaper. They found that those who are in advertising colleges, that is, students who are majoring in advertising, write for the columns. Schematics, column articles, columns, features, all are written by the students. They are the ones who contribute to the newspaper.

Open And Shut Case

Here's The Evidence

When you see a change in the advertising section, you are seeing what the students are writing. You see that they are trying to show the importance of the newspaper to the student body.

George Gershwin's Compositions Are

America's Soul-Felt Musical Pulse

By FLORENCE SHREVE

The song which George Gershwin com-
posed called "Oh, Lady, be Good!" was
written in the 1920s. It is said that the song was
written because of a woman who left the man who
had written the song.

This is not a new story. It is the story of many songs.

Gershwin, like many other songwriters, is interested in
the culture of the times. He wrote songs that reflected
the mood of the people.

Gershwin composed his songs in the same way that he
wrote his music. He wrote about the people and the
places they lived in.

The best-known songs of Gershwin are "Rhapsody in Blue"
and "Porgy and Bess." These songs are about the
lives of people in the United States.

"Rhapsody in Blue" tells the story of a man who
wants to express himself through music.

"Porgy and Bess" is about a man who
finds his story in the "remember
me" song.

In the face of adversity, the man is able to
remember who he is and where he
comes from.

Gershwin's music is a reflection of the
people he wrote about.

The influence of Gershwin's music can be
seen in many different areas of life.

From the streets of New York City
to the concert halls of Europe,
Gershwin's music has touched the
lives of people around the world.

The first sport on the program will be the volleyball tournament on March 17, and 11. Dates will be announced soon. The second sport will be sponsored by the department and its events will be decided by the students. Plans are being made for the intramural department to sponsor hobby groups. Anyone interested should see one of the managers or stop in at the office.

The results of the final football tournament show Don Hendricks to be a tough-free throw hitter. Hendricks established a new record in the final game by hitting 9 out of 10 at the free-throw line. Last year's champion and holder of the previous record was former player Jim McCall, who won this year's met VR Kuppersman, who made 20 out of 20.
