Personnel Changes and Contract Salary Recommendations for 1976-77

The chair indicated that the salary data book which was prepared for the trustees included salary recommendations for contract faculty and staff for 1976-77 which were developed after considerable study by a number of people on the campus and called upon Dr. Ferrari to review the process in developing the contract salary data.

Dr. Ferrari described the process as one beginning with the overall budget allocations as approved by the Board of Trustees. He summarized the steps as follows:

- About half the $1,500,000 for salary increases, which was approved in the budget, was allocated for individual cost-of-living raises of about 4.5 per cent. The remainder was assigned for merit increases.
- Funds were allocated to the Provost and the Vice Presidents from which they were to make their salary recommendations based upon established policies and procedures for administrative and/or peer review at the collegial and department levels. Evaluations of staff performance were conducted through all administrative, managerial and supervisory levels.
- A month of intensive activity was involved including careful review of all recommendations by the area head, Vice Provost for Student Affairs, Vice President in charge of an area, Provost and/or President. At each stage an attempt was made to compare recommended salaries with comparable salaries, in the state, region and nation. In addition attention was given to overcoming any existing inequities between disciplines or sexes.

President Moore reviewed all staff and faculty salary adjustments prior to the finalization by area heads and/or deans and before recommending salaries to the members of the Board.
