Students Take Part In B.G. Airport Dedication Today

Movie Guild To Present Rise Of Motion Pictures

"The Motion Picture Guild," a subsidiary organization of Art Film Library in New York, has just been formed, according to Prof. Elden T. Smith, assistant professor of art, at the University of Toledo. The main purposes of the Guild is to make available to the students, a series of reprints of articles pertinent to the technique of the motion picture.

The exhibition of the Guild's films is no way to be compared to, in so it is any way, intended to compete with, the exhibition of a commercial pictures. It's functions and activities are strictly non-commercial, with the object of adequately financing the showings. The admission fee is charged. This fee will go to the payment of general expenses, which includes the production and distribution of the films. The exhibition fee for sales of the shows will begin today Friday, October 29.

Interior-American friendship is being foreboded by these two exchanged students who are from "each of the world's farthest ends," according to Prof. John B. Arends, chairman of the Department of Foreign Languages. Prof. Arends believes that the students, Hannah Agnew from Springfield, Ohio, and Anna Karin Andersson, of Stockholm, Souther, will be students more than anything else.

Several hundred university students will parade behind their floats this afternoon in the first annual University of Toledo Airport Dedication Day. The parade, which will be held at 3 p.m., will commemorate the opening of the airport, which was dedicated by Dr. W. T. Dyer, president of the university, and Dr. H. J. Johnston of the Board of Trustees.

The event is sponsored by the University of Toledo Junior Chamber of Commerce, with the assistance of the Student Council, the University of Toledo Board of Students' Associates, and the Student Body Federation.

It has been called to our attention recently, that some of our students have been quite handily with the scissors when they do- that cutting the comic strips, newspapers, magazines, and books is an activity which fact that each vandal is going on. A friend may think that you're getting away with something, and perhaps he believed that if you were caught for acts such as these much more than he is the Library. It seems that students are not able to page after page from a reference book or paper to make a scrap book, or simply clip the desired information and re- place the page as it was. In some cases, however, the next student wishing to use that book or paper may find it hard to find when he finds his information missing, and a ragged hole where that material once happened to the story.

The students who are distressing to the Library officials, but there is little to be done in the situation. Books and papers are for their own use alone, not for us to do with them what will.

We are college students, why not conduct ourselves like the same manner? A few minutes more spent in copying, rather than clipping, our work we will do much more to the worth and value of our Library—DK

The committee in charge has already started making plans for the occasion. All fraternities and sororities will plan a special program for the day. There will be dances, and picnics, and golf, and bowling green and the fathers will take over the Paladium for their own private party that day. In short, it should be a gala affair for the fathers.

That's the story so far! The rest is up to the students. Vancouver's sports vic- tims are a perfect example of that. **Kohl Hall Boys Make The Long And Short Of The Campus**

Dick’s foot, slender together, is short and is trying to stretch to match the height of the tall boys. Dick’s feet are, as he calls it, six feet eleven inches tall according to the shoes he wore. Dick was fast graduated from junior high school, where he was quite active in a basketball, in speech.

While what asked he best be about Bowling Green, he replied that it’s a nice place. He’s never been there before, and Dick isn’t inclined him too. We really think Dick is a nice fellow. Dick is a member of Alpha Phi Epsilon and Skol and isn’t a fan of the Ohio State Buckeyes.

We would like to say that this columnist believes that school spirit and pride in our sport squads would be greatly enhanced if we had sport rallies. We have not been a member of the student body as long as some of you, but we understand that for years it has been customary to have a pep rally before each game, whether the game was at home or abroad. From our experiences, student rallies are a worthwhile endeavor.
