**Flying Coed**

**Take Vergil's Advice—Rumors Are Dangerous Until Verified**

Vergil once said, "Rumor has a hundred tongues, a hundred mouths, and a voice of incalculable power before it has said more than it should have said." This statement had more meaning than it has today.

Too often people are the first to be concerned, and at a time when we should be particularly careful to weigh every word that we utter. During the past semester and especially during the first week of this semester many rumors were flying around our campus. Rumors had the Army Reserve in the school. A few days later the rumor had the Air Force Reserve leaving for homes as a permanent installation on our campus. Rumors had every student enrolling for various reasons that were lowering the moral of our student body.

We are all aware enough that it is not necessary to inaugurate a "ho-jo-jurp" that rumor before it starts. If this is impossible to do, then verify the rumor with some responsible official. We should not be 'power' because many of our faculty members are to blame for many of the rumors that have grown up on our campus.

Nothing can do more to disorganize and demoralize our Student Body than vicious rumors. Take Vergil's advice and beware of rumors in any form.

"Did your mother come from Irelandland, sure there's something"—oh, pardon the vocal shambang, (that's Irish for shenanigans), "she sits that there is none so fine as this one, but if only for one day! **I.M. Department To Offer First Pre-Induction Program**

First pre-induction program sponsored by a college intramural department in conjunction with the local Legion will be held Thursday, March 25, at the University. Gene Thomas, student intramural director, and a member of the I.M. Department was the first of its kind in the nation to offer the course outlined by the Legion.

He said any male student of faculty, student, or college official would start the initial meeting and the season started at 3 p.m. on March 25, the St. Patrick's Day, in the Gymnasium.

The weekly meetings—devoted to note and discussion—will concern such things as army drill, physical training, navigation, and military, and will be conducted by the I.M. Department.

In order that a large audience can better understand the air on the stage and the other athletic games which continue through an entire season, Dr. Frank J. Prout, University President, will play a Bee-ger and Dick Gail in the leading roles.

Applications are now acceptable for enrollment in the WAVES and the Army Reserve. The WAVES is a women's branch of the Navy and the Army Reserves. The WAVES is the sister service of the WAVES of the United States Navy, and the Army Reserve is the counterpart of the WAVES.

For the WAVES, WAVES is an expansion of the WAVES, WAVES is a member of the WAVES, WAVES is a WAVES, WAVES is WAVES.
