CENTRERSpring programs help fight winter ‘blahs’

Registration will continue through Jan. 28 for the Student Recreation Center’s series of special spring programs.

Two-week program sessions will start during the semester with the first session to run Jan. 31 from 9:15 a.m. to 10:30 a.m. and conclude Feb. 4 from 1:45 p.m. to 2:30 p.m. The Rec Center office is open 8 a.m. to 5 p.m. Monday through Friday and 9 a.m. to 1 p.m. on the last week of the session.

The Rec Center is offering spring programs in three categories: aquatics, gymnastics and personal fitness.

Aquatics sessions will run Jan. 26 through March 19 in 2-hour blocks Monday through Thursday. Some will run Friday if same day and time as Monday through Thursday. Each block will consist of two 1-hour class periods. The fee for each block is $2.

Gymnastics sessions will run Jan. 26 through March 19 in one-hour blocks Monday through Thursday. Some will run Friday. The fee for each block is $2.

Personal fitness sessions will run Jan. 26 through March 19 in one-hour blocks Monday through Thursday. Some will run Friday. The fee for each block is $2.

For more information contact the Student Recreation Center at 619-7365 or 220-7415.

Alumni fund research
at undergraduate level

The Oriental Research Center of Bowling Green State University will hold a seminar on East Asian history and anthropology.

The seminar will be held on March 31 from 4 p.m. to 6 p.m. in the Rec Center and will be open to the public.

The seminar will feature discussion of the role of religion in contemporary East Asian societies, focusing on China, Japan, and Korea.

The seminar will be presented by Dr. John A. Hui, professor of history at Bowling Green State University.

Dr. Hui is the author of several books on East Asian history, including "The Political Economy of Modern China," which was published by Cambridge University Press in 2002.

Dr. Hui is also the editor of the journal "The Journal of Modern Chinese Studies," which is the leading journal in the field of modern Chinese studies.

The seminar is free and open to the public.

For more information contact the Oriental Research Center at 619-7365 or 220-7415.

Quality circles

American businesses may learn from Japan

"Made in Japan" has been part of the American consciousness for decades. Japanese products are known for their quality and reliability, and many American businesses have looked to Japan for inspiration in order to improve their own operations.

One area where American businesses have looked to Japan for inspiration is the concept of the quality circle. Quality circles are small groups of employees who work together to identify and solve problems related to their work.

In Japan, quality circles have been a part of the workplace culture for decades, and they have been effective in improving productivity and increasing employee satisfaction.

In the United States, quality circles have been less common, but there has been increasing interest in the concept in recent years. Some companies have started implementing quality circles, and there have been studies conducted to evaluate their effectiveness.

One such study is the "Quality Circles in American Industry" project, which was conducted by the American Society for Quality Control in the 1980s. The study found that quality circles were effective in improving productivity and increasing employee satisfaction.

American businesses may learn from Japan by adopting the concept of the quality circle, which has been shown to be effective in improving productivity and increasing employee satisfaction.

For more information contact the American Society for Quality Control at 619-7365 or 220-7415.
board of Trustees

A revision to the Academic Charter which provides a vehicle for academic instruction and research and service in a common disciplinary field or in diverse disciplinary field of the faculty of the dean of that college. The charter revision, which was received March 12, 1979, as a press release, contains an explanation of the basic computer hardware and peripheral equipment. This revision to the Academic Charter has been approved by the Academic Council's functions as outlined in the Faculty Handbook and coordinated by The College of Business Administration and the Faculty Council on instruction and the level of learning in the classroom, and the growth of computer technology and instruction and the level of learning in the classroom.

Academic Council

Academic Council is scheduled to vote on the final status of its master's degree programs in the following departments of the College of Education:

- English
- Foreign Languages
- History
- Mathematics
- Philosophy
- Physics
- Political Science
- Psychology
- Sociology

At the Jan. 12 meeting, members of the Academic Council will be asked to vote on the proposed changes to the master's degree programs in the College of Education. The Council will consider the proposed changes and vote on them at the Jan. 12 meeting. The Council meeting will be at noon in Room 104 in the College of Education.

Academic Council members may be contacted at the following addresses:

- Dr. John H. Martin, President
- Dr. Robert R. Smith, Vice President
- Dr. James A. Brown, Secretary
- Dr. John H. Martin, Treasurer

The Academic Council will meet at 5 p.m. on the 2nd Thursday of each month in Room 104 in the College of Education.

Board of Trustees

The Board of Trustees is scheduled to meet on the first Wednesday of each month at 5 p.m. in Room 104 in the College of Education.
Board of Trustees

A revision to the Academic Charter which provides a vehicle for academic changes was approved by the Board of Trustees and by the Ohio Board of Regents. The Academic Charter was approved by the faculty's Committee on General Education and by the Academic Committee of the Faculty Senate.

The charter revision, which was initiated by the Faculty Senate early this year and has since been completed by the Academic Committee of the Faculty Senate, defines the charter as "an unchanging statement of the nature of the University's educational program and the process for review and revision of the program." The charter will be reviewed and revised by the Board of Trustees, the Academic Committee of the Faculty Senate, and the Faculty Senate at least every five years.

Following the approval of the charter revision, the Board of Trustees will meet again on May 5 to consider the Academic Committee's recommendations for changes in the charter. The Board will also consider the recommendations of the Academic Committee for changes in the charter, and the Faculty Senate will review and approve the recommendations of the Board of Trustees.

In other action, the Board of Trustees granted autonomous status to the College of Business Administration, effective July 1, 1982. The College will be governed by a dean, who will be appointed by the president of the University. The dean will be responsible for the administration of the College and for the development of its educational programs.

The College of Business Administration will be governed by a dean, who will be appointed by the president of the University. The dean will be responsible for the administration of the College and for the development of its educational programs.

The Board of Trustees also approved the establishment of a new academic unit, the Department of Computer Science, which will be located in the College of Engineering and Technology. The department will be headed by Dr. Stephen A. Katz, who has been appointed as the first dean of the department.

In addition, the Board of Trustees approved the appointment of Dr. Robert A. Johnson as dean of the College of Arts and Sciences. Dr. Johnson has been serving as interim dean of the College since July 1, 1981.

The Board of Trustees also approved the establishment of a new academic unit, the Department of Computer Science, which will be located in the College of Engineering and Technology. The department will be headed by Dr. Stephen A. Katz, who has been appointed as the first dean of the department.

APPLE tops list of computer hardware currently on campus

The APPLE II microcomputer is by far the most popular, followed by the Apple III and Apple IIe. Apple III has been purchased by offices in the Fine Arts, Mass Communication and Library. Computer Services now has an APPLE IIe for use in the Fine Arts Department and software on campus.

Computer Services recently completed its inventory of equipment by using the APPLE IIe for the Library's microcomputer lab.

The inventory has been used as a basis for the purchase of the new microcomputers. The last plan for the future is to have all the equipment on campus, including the APPLE IIe, for use by faculty, staff and students.

The new special service number, (216) 372-2222, will be used to order the new microcomputers, including the APPLE IIe.

The new special service number, (216) 372-2222, will be used to order the new microcomputers, including the APPLE IIe.
