APPLE's list of computer hardware currently on campus

The list is a microcomputer by far the best. Apple's microcomputer, in particular, has been purchased by other computer hardware also has been purchased by other departments on campus.

Computer System Software and Operations

Computer System Software has completed its inventory of equipment and software and is on the way to being complete. The 35 percent that is not yet on the questionnaire published in the Oct. 15 issue of MONTANA.

According to Dr. Richard Conrad, Director of Computer Services, Apple is by far the most popular system, but it is also available and in use in the English, Radio Shack and IBM personal computers.

The most prevalent software packages are Personal Filing System (PFS) and VISACALC, but many departments also have computer-assisted instructional packages.

Employment

The following positions are currently available:

Postings will be in the Daily Chronicle.

Office/Bookstore Assistant

Pay Range: 25 cents.

CUMMINGS has no expense projections, and departments are being required to live within those budgets for the academic year.

"There are going to be a lot of complaints from the faculty about the reduced staff they will have," said Dean Dr. Frank Baldanza, director of the School of Education. "And it's going to make it very difficult for them to meet the needs of the students." The faculty has been meeting with its budget committees to prepare for the reduced staff, but they were told they would have to cut the number of faculty members by 20 percent.

"We are doing everything we can to economize, but it's going to be difficult to cut our academic budgets," said Dean Dr. Frank Baldanza. "But we are going to have to make some tough decisions to meet the needs of our students." The faculty has been meeting with their budget committees to prepare for the reduced staff, but they were told they would have to cut the number of faculty members by 20 percent.

Bugs: What causes blood and other fluids to ooze from the body during the dying process? What is the body's attempt to expel these fluids? Do fluids from the body have special names? What can be done to prevent this from happening? How do you dispose of these fluids properly?

The Faculty Senate

The Faculty Senate meeting originally scheduled on Thursday (Feb. 22) has been canceled and rescheduled for Thursday, Feb. 28. The meeting has been moved to accommodate the Board of Trustees, which will meet that day.

Dr. Melvin Hyman, speech pathologist, called attention to the need for more complete written documentation of the comments from the faculty senate representatives to the special faculty advisory committee of the board. Dr. Hyman also reminded the senate that it is important to begin each faculty advisory committee meeting with a review of the agenda. Dr. Hyman said the senate executive committee has submitted recommendations to the president for faculty who could serve on the senate committee for the vice president. The senate executive committee will ask the Board of Trustees at its scheduled afternoon meeting for a vote to establish another faculty advisory committee.

The faculty senate also discussed the possibility of adding a non-credit offering for Regional and Independent Programs. The senate is also considering adding another faculty advisory committee to the senate.

Library offers research strategy sessions

Beginning Wednesday (Feb. 4), the library will begin a series of research strategy and resource discovery sessions designed to help students and faculty develop their research projects.

Each session will include 2 hours of instruction and 2 hours of research. All sessions will be held from 9 a.m. to 1 p.m., on Wednesday and Thursday of the first two weeks of the spring semester, with the goal of attending at least two sessions for each faculty member.

Faculty are encouraged to recruit other faculty members to attend these sessions, and the library will provide refreshments for those who attend. The library will also provide refreshments for those who attend these sessions, and the library will provide refreshments for those who attend.

Research strategy sessions will be held at the library on the following dates:

- Using Curriculum Materials, Library, 9 a.m.
- Library Research, Library, 9 a.m.
- Library Marketing Research, Library, 9 a.m.
- Using Government Publications, Thursday, Feb. 6, Room 109, 9 a.m.
- Finding Historical Resources, Room 109, 9 a.m.
- Using Special Collections, Library, 9 a.m.

The library will also provide refreshments for those who attend these sessions.

Refunding, waiving are non-credit offerings

Two dozen non-credit classes will be added to the schedule of offerings for the Office of Continuing Education, beginning next semester.

The courses range from fun cooking classes to fundamental English classes and are designed to attract new students and provide additional revenue for the university.

Other courses being considered include: Italian, Spanish, French, German, woodworking, photography, computer literacy, painting, drawing, and ceramics. The courses will be offered in the fall of this year, beginning the first week of February and include:

- "Cooking Classes," 9 a.m.
- "French Cooking and Desserts," 9 a.m.
- "Spanish Cooking," 9 a.m.
- "German Cooking," 9 a.m.
- "Drawing," 9 a.m.
- "Painting," 9 a.m.
- "Ceramics," 9 a.m.

The courses will be taught by local chefs and artists, and the university will provide all necessary materials and equipment.

Three reappointed as chairs, directors

Dr. Randall Baker, dean of the College of Health, Education, and Human Development, announced the reappointment of a director and one additional director, and the reappointment of a director. The director of the Center for Human Development has been reappointed to his position for another year, and the director of the Center for Human Development has been reappointed to his position for another year.

Mr. Ross M. Ross has been named to his third four-year term as director of the Center for Human Development. Mr. Ross has been appointed to his second four-year term as director of the Center for Human Development.

A new head librarian has been named to head the Department of Library Services. Ms. Elizabeth Swanson has been appointed to this position.

The actual process of drawing blood (including screening, medical history, and blood collection) is not as complicated as it may seem to the public.

"People don't do it because it's their job. They just do it to make it easier for others." Ms. Swanson said.

The officer in charge of the bloodmobile visit to the campus said that because of the need for donors, the bloodmobile will continue to visit the campus every month.

"We're not just doing it for ourselves," she said, "we're doing it for everyone else who needs blood."
CALL CAMPUS SAFETY FIRST. Faculty and staff are urged to make sure that in the case of an accident on campus, including personal injury and traffic accidents, the Office of Security and Safety be called at once to arrange a complete accident investigation. Reports of injury exclude materials such as signed, detailed statements from the injured parties and are available to those who are directly involved in the accident. 

Monday, Jan. 30

Academic Council will meet 9 a.m. in Room 208, Grainger Hall. Faculty and staff are invited to attend.

Tuesday, Feb. 1

Library Orientation—Librarian Kathy Beal will present a brief introduction to library services and resources in the Computer Media Library. The presentation will be held 10 a.m. in Room 304, Grainger Hall. This orientation is part of a series of orientations that will take place throughout the spring semester. Librarians will answer questions and help with library resources and services.

Wednesday, Feb. 2

Classified Staff Advisory Committee meets 3-5 p.m. in the Student Recreation Center. The committee is responsible for the classification of staff under the college, and for the development and implementation of the collegewide classified staff classification plan.

Sunday, Feb. 5

Opening of the annual Design-Build Competition for faculty and students.

Monday, Feb. 6

Graduate School Orientation: 9 a.m. in the Student Recreation Center. This orientation is for new graduate students and provides an opportunity to learn about the resources and services available at the University.

Monday, Feb. 13

Seminars in Design: 10 a.m. in Room 208, Grainger Hall. The seminar will focus on the design process and the role of the designer in the development of new products.

Tuesday, Feb. 14

Library for African American Literature: 2 p.m. in Room 304, Grainger Hall. This workshop is designed to help students learn more about African American literature and its impact on American society.

Wednesday, Feb. 15

Graduate School Orientation: 9 a.m. in the Student Recreation Center. This orientation is for new graduate students and provides an opportunity to learn about the resources and services available at the University.

Thursday, Feb. 16

Opening of the annual Design-Build Competition for faculty and students.

Friday, Feb. 17

Graduate School Orientation: 9 a.m. in the Student Recreation Center. This orientation is for new graduate students and provides an opportunity to learn about the resources and services available at the University.

Rec Center has new LIFE room

Faculty and staff will have the opportunity to learn about the LIFE (Life Improvement and Vitality Enhancement) program at the Rec Center. The program offers a range of activities to improve physical fitness and mental well-being, including exercise classes, group fitness programs, and individualized training plans.

Library exchange benefits two universities

Jon O. Chipman, head of the Social Sciences Library, has announced that the library has entered into an exchange agreement with the University of Michigan. The agreement will allow students and faculty at both universities to access a wider range of resources and materials. The agreement was made possible by the generosity of two libraries, the Albert and Shirley small fortune.

The exchange was arranged by Bowing Green’s Dr. Dwight Banks, director of the University of Delaware libraries.

An art to craft

Carl Hall rebuilds one-of-a-kind plane

It was a proud day last September for Carl Hall, art, and his friend George Skidmore, when they bowed down in the grandiose way to the crowd assembled in the Commons for the unveiling of their latest creation, a one-of-a-kind plane.

What was important that this aircraft, the only full-scale, single-engine airplane ever built in the United States, and the only one that has ever flown, was the fact that it was built by two men who worked not only to restore it, but also to fly it again.

"No, not all the parts are here," Hall said, "but we're doing the best we can with what we have."

Skidmore, who worked on the plane's interior or packed in a box full of papers.

"Oedipus Award," which carries a cash award of $1.50, recognizes the best student project in computer services. The award is given to the student who demonstrates the highest level of creativity and technical expertise in the development of computer programs.

"Computer services can do much more than provide a service," said the group's president, Charles Eakin. "They can also provide a resource for learning and development."
