Feminine Staff Brings Chaos To On-Time Calm News

Well, it's finally happened; the Bee Gee News' feminine staff has taken over. This event, which will go down in history along with such world-shaking occurrences as the discovery of America, the battle of Valley Forge, and the Marines landing, (where? oh, just anywhere) will long be remembered by those who are fortunate enough to witness the transformation.

So why it's happened, we've attempted to piece together some of the happenings. For the record, we've asked some of the boys in the Bee Gee News staff what the present feminine staff is really like.

We've been told that it is a boy's life, but just imagine, you know. The girls are just as they are with the same qualities one would mention about the boys: nothing.

Just to be sure, we've asked the girls as well.

The Bee Gee News' feminine staff is so unlike the boys that I couldn't possibly describe them with the same qualities one would mention about the boys: perfection.

So the Bee Gee News, in an attempt to bring a bit of calm to the world of chaos, will bring this story, second verse.

Well, the Bee Gee News' feminine staff and the boys have maybe just begun on their path to becoming the kind of newspaper the world has never seen.

The Bee Gee News' feminine staff is going to bring the same story, second verse.
